American Civilian Counter-terrorist Manual Alan Allen.2008-03-18 (Spring 2010) This historical novel finds President Reagan at odds with his daughter, Vice President, White House Staff and Cabinet as Ronnie and Nancy try to do the best acting of their lives to leave the White House, alive. (unabridged edition) Our most loved and hated President after Kennedy and before Obama, Ronnie struggles to defeat the 'Evil Empire' and not lose his mind to Alzheimer's dementia. Can he still trust Bill Casey and George Bush, George Shultz, Selwa Roosevelt and Mike Deaver? Can Ronnie find out who's pulling his strings? A fervent anti-Communist and Nazi hater praised by his wife Nancy and ultra-conservatives, groomed by Bechtel Corporation since 1950 and sold StarWars by Dick Cheney and Paul Nitze during the most scandal-ridden presidency in American history, daughter Patti, college students and flower children despised Reagan for supporting the Vietnam War and Contra death squads and felt the Reagan-Bush Administration was run by Nazis. As it turns out, it was. This historical novel documents the foreign policy, national security and monetary policies of the Reagan-Bush Administration were run by Nazis thru the life of character Reinhard Gehlen, Hitler's chief of Foreign Armies East intelligence, whom Dulles hired to run and train CIA as Freikorps Nazi death squad torturers, terrorists and assassins who then trained the Contras ...that Gehlen was later handled by Bill Casey (Ronnie's campaign manager) then George Bush (Ronnie's vice president) to fight, exaggerate and invent the Cold War in order to capture the Russian Baku oil fields. Based on autobiographies of the Reagan family, Cabinet, and White House Staff, the 650-page book includes a 250-page epilog of documentation and a 50-pg researchers' index, footnotes, and an extensive appendix including charts from: Staff Report, Committee on Banking, Currency & Housing, House of Representatives, 94th Congress, 2d session, Aug. 1976 -- Federal Reserve Directors, a Study of Corporate & Banking Influence. The charts trace from 1913 to present the family dynasties of the private owners and interlocking directorate of the Federal Reserve Bank and other G-8 central banks (the World Order and New World Order) whom Bill Casey, George Shultz, the Bushes, bin Ladens, Thyssens, Rockefellers, Rothschilds, Browns, Harrimans and Reinhard Gehlen worked for and against whose family ancestors the American Revolution was fought and whose family decedents today continue to dominate the financial, political, economic, and bailout and foreclosure landscape with financial terrorism. Additionally, the historical novel follows the family dynasties of the private owners of the interlocking directorate of the Fed/G8 including Bank of England and Bundesbank and other central banks involved in the American Revolution of 1776, the American Civil War, the depressions in the late 1800s and early 1900s, the founding of the privately owned Federal Reserve Bank in 1913, WWI, the financing of the Bolshevik party from New York and thru Ruskombank which supplied U.S. technology and weapons and military vehicles to communist Russia who supplied them to the Viet Cong to kill Americans. Appendices also document the previously hypothesized money-issuing class that prints and owns our money that rules the upper class, middle class, working class, and unemployed classes. The appendix also includes documentation of the Clinton-era involvement with HUD corruption when Bill was Governor and Hillary was a HUD attorney. HUD sold billions of dollars of foreclosed properties in East L.A. at ten cents on the dollar to the Fed-founded Dillion-Read bank. Ronnie was advised about the marriage of the oil and illegal drug industries, and the case by the European Union and Central and South American countries against Reynolds Tobacco for laundering heroin and cocaine profits with Camel Cigarettes.

Reinventing Khomeini Daniel Brumberg.2001-04-15 Reinventing Khomeini offers a new interpretation of the political battles that paved the way for

reform in Iran. Brumberg argues that these conflicts did not result from a sudden ideological shift; nor did the election of President Mohammad Khatami in 1997 really defy the core principles of the Islamic Revolution. To the contrary, the struggle for a more democratic Iran can be traced to the revolution itself, and to the contradictory agendas of the revolution's founding father, Ayatollah Ruhollah Khomeini. A complex figure, Khomeini was a fervent champion of Islam, but while he sought a Shi'ite vision of clerical rule under one Supreme Leader, he also strove to mesh that vision with an implicitly Western view of mass participatory politics. The intense magnetism and charisma of the ayatollah obscured this paradox. But reformers in Iran today, while rejecting his autocratic vision, are reviving the constitutional notions of government that he considered, and even casting themselves as the bearers of his legacy. In *Reinventing Khomeini*, Brumberg proves that the ayatollah is as much the author of modern Iran as he is the symbol of its fundamentalist past.

Abbas Kiarostami Mehrnaz Saeed-Vafa, Jonathan Rosenbaum. 2003 This penetrating study of the Iranian filmmaker Abbas Kiarostami's life and work engages a cross-cultural dialogue between Mehrnaz Saeed-Vafa, an Iranian filmmaker, and Jonathan Rosenbaum, a film critic, both of whom have an intense interest in Kiarostami's work. A pioneer in Iranian cinema and considered one of the most controversial and influential filmmakers alive, Kiarostami has written or directed more than twenty films. He gained notoriety in the West in the 1990s with the breakaway films *Close-Up* and *Through the Olive Trees* and became the first Iranian director to win the Palme d'Or at the Cannes Film Festival for *Taste of Cherry*. He is also largely credited for his contributions to the Iranian New Wave. Abbas Kiarostami is the first full-length, English-language study of his work. A unique and resplendent collaboration featuring two distinct but complementing perspectives, the book places Kiarostami and his films in a national context and provides American readers with valuable insights into Iranian culture, Kiarostami's portrayal of women and politics, and his influence on other filmmakers.

Judicial Reform and Reorganization in 20th Century Iran Majid Mohammadi. 2013-05-13 Iran is now at the center of political and social developments in the Middle East. This book examines the reform of the judicial system in 20th century Iran and is the first to relate state-building process with rule of law promotion and judicial reform in the region. This subject occupies the critical juncture of three developments in the contemporary study of Iranian society as an important and early case of social revolution and reform in the Middle East: the state-building process in a non-Western country throughout the 20th century, the incorporation of a non-Western Muslim country into the Western legal framework through codification and transplantation (1911-1979), and the Islamicization process after this critical social development and the Islamic Revolution of 1979. This exceptional study furthers our understanding of Iranian modern history as well as the democratization process, human rights and rule of law issues in the Middle East.

The Iranian Diaspora Mohsen Mostafavi Mobasher. 2018-10-03 The Iranian revolution of 1978–1979 uprooted and globally dispersed an enormous number of Iranians from all walks of life. Bitter political relations between Iran and the West have since caused those immigrants to be stigmatized, marginalized, and politicized, which, in turn, has discredited and distorted Iranian migrants’ social identity; subjected them to various subtle and overt forms of prejudice, discrimination, and social injustice; and pushed them to the edges of their host societies. The Iranian Diaspora presents the first global overview of Iranian migrants’ experiences since the revolution, highlighting the similarities and differences in their experiences of adjustment and integration in North America, Europe, Australia, and the Middle East. Written by leading scholars of the Iranian diaspora, the original essays in this volume seek to understand and describe how Iranians in diaspora (re)define and maintain their ethno-national identity and (re)construct and preserve Iranian culture. They also explore the integration challenges the Iranian immigrants experience in a very negative context of reception. Combining theory and case studies, as well as a variety of methodological strategies and disciplinary perspectives, the essays offer needed insights into some of the most urgent and consequential issues and problem areas of immigration studies, including national, ethnic, and racial identity construction; dual citizenship and dual nationality maintenance; familial and religious transformation; politics of citizenship; integration; ethnic and cultural maintenance in diaspora; and the link between politics and the integration of immigrants, particularly Muslim immigrants.

Close Up Hamid Dabashi. 2001 Abbas Kiarostami planted Iran firmly on the map of world cinema when he won the Palme d'Or at the Cannes film festival for his film *A Taste of Cherry* in 1997. In this book Hamid Dabashi examines the growing reputation of Iranian cinema from its origins in the films of Kimiyai and Mehrjui, through the work of established directors such as Kiarostami, Beyzai and Bani-Etemad, to young filmmakers like Samira Makhmalbaf and Bahman Ghobadi, who triumphed at the Cannes 2000 festival. Dabashi combines exclusive interviews with directors, detailed and insightful commentary, critical cultural context, an extensive filmography, and generous illustration to provide an indispensable guide to a globally celebrated but little-studied cinematic genre. The One World Schoolhouse Salman Khan.2012-10-02 A free, world-class education for anyone, anywhere. This is the goal of the Khan Academy, a passion project that grew from an ex-engineer and hedge funder's online tutoring sessions with his niece, who was struggling with algebra, into a worldwide phenomenon. Today millions of students, parents, and teachers use the Khan Academy's free videos and software, which have expanded to encompass nearly every conceivable subject; and Academy techniques are being employed with exciting results in a growing number of classrooms around the globe. Like many innovators, Khan rethinks existing assumptions and imagines what education could be if freed from them. And his core idea-liberating teachers from lecturing and state-mandated calendars and opening up class time for truly human interaction-has become his life's passion. Schools seek his advice about connecting to students in a digital age, and people of all ages and backgrounds flock to the site to utilize this fresh approach to learning. In THE ONE WORLD SCHOOLHOUSE, Khan presents his radical vision for the future of education, as well as his own remarkable story, for the first time. In these pages, you will discover, among other things: How both students and teachers are being bound by a broken top-down model invented in Prussia two centuries ago Why technology will make classrooms more human and teachers more important How and why we can afford to pay educators the same as other professionals How we can bring creativity and true human interactivity back to learning Why we should be very optimistic about the future of learning. Parents and politicians routinely bemoan the state of our education system. Statistics suggest we've fallen behind the rest of the world in literacy, math, and sciences. With a shrewd reading of history, Khan explains how this crisis presented itself, and why a return to mastery learning, abandoned in the twentieth century and ingeniously revived by tools like the Khan Academy, could offer the best opportunity to level the playing field, and to give all of our children a world-class education now. More than just a solution, THE ONE WORLD SCHOOLHOUSE serves as a call for free, universal, global education, and an explanation of how Khan's simple yet revolutionary thinking can help achieve this inspiring goal.

Political Participation in the Middle East Ellen Lust.2008 Political participation in authoritarian regimes is usually considered insignificant, or important only insofar as it promotes democracy. Turning this common wisdom on its head, *Political Participation in the Middle East* demonstrates the vitality, variety, and significance of political activism across the MENA region. Through an in-depth exploration of seven countries, the authors address how formal and informal political institutions create opportunities for participation in venues as varied as trade unions, civic associations, political parties, and elections. And, without losing sight of the fact that authoritarian regimes manipulate participation to reinforce their rule, they reveal ways in which citizens do benefit?by influencing decision-making, for example, or obtaining state resources. An engaging read for scholars and students, this work vividly illustrates how citizens matter in the politics of authoritarian regimes.

Internal Diversity Sonja Moghaddari.2019-12-03 This book explores the interrelation between diversity in migrants' internal relations and their experience of inequality in local and global contexts. Taking the case of Hamburg-based Iranians, it traces evaluation processes in ties between professionals - artists and entrepreneurs - since the 1930s, examining migrants' potential to act upon hierarchical structures. Building on long-term ethnographic fieldwork and archival work, the book centers on differentiation, combining a diversity study with a focus on locality, with a transnational migration study, analysing strategies of capital creation and anthropological value theory. The analysis of migrants' agency tackles questions of independence and cooperation in kinship, associations, transnational entrepreneurship and cultural events within the context of the position of Germany and Iran in the global politico-economic landscape. This material will be of interest to scholars and students of anthropology, sociology, migration, urbanism and Iranian studies, as well as Iranian-Germans and those interested in the entanglement of global and local power relations.

The Hollywood Studio System Douglas Gomery.2019-07-25 Despite being one of the biggest industries in the United States, indeed the World, the internal workings of the 'dream factory' that is Hollywood is little understood outside the business. *The Hollywood Studio System: A History* is the first book to describe and analyse the complete development, classic operation, and reinvention of the global corporate entities which produce and distribute most of the films we watch. Starting in 1920, Adolph Zukor, Head of Paramount Pictures, over the decade of the 1920s helped to fashion Hollywood into a vertically integrated system, a set of economic innovations which was firmly in place by 1930. For the next three decades, the movie industry in the United States and the rest of the world operated by according to these principles. Cultural, social and economic changes ensured the demise of this system after the Second World War. A new way to run Hollywood was required. Beginning in 1962, Lew Wasserman of Universal Studios emerged as the key innovator in creating a second studio system. He realized that creating a global media conglomerate was more important than simply being vertically integrated. Gomery's history tells the story of a 'tale of two systems' using primary materials from a score of archives across the United States as well as a close reading of both the business and trade press of the time. Together with a range of photographs never before published the book also features over 150 box features illuminating aspect of the business.

City of Strangers Andrew M. Gardner.2011-05-02 In *City of Strangers*, Andrew M. Gardner explores the everyday experiences of workers from India who have migrated to the Kingdom of Bahrain. Like all the petroleum-rich states of the Persian Gulf, Bahrain hosts an extraordinarily large population of transmigrant laborers. Guest workers, who make up nearly half of the country's population, have long labored under a sponsorship system, the kafala, that organizes the flow of migrants from South Asia to the Gulf states and contractually links each laborer to a specific citizen or institution. In order to remain in Bahrain, the worker is almost entirely dependent on his sponsor's goodwill. The nature of this relationship, Gardner contends, often leads to exploitation and sometimes violence. Through extensive observation and interviews Gardner focuses on three groups in Bahrain: the unskilled Indian laborers who make up the most substantial portion of the foreign workforce on the island; the country's entrepreneurial and professional Indian middle class; and Bahraini state and citizenry. He contends that the social segregation and structural violence produced by Bahrain's kafala system result from a strategic arrangement by which the state insulates citizens from the global and neoliberal flows that, paradoxically, are central to the nation's intended path to the future. *City of Strangers* contributes significantly to our understanding of politics and society among the states of the Arabian Peninsula and of the migrant labor phenomenon that is an increasingly important aspect of globalization.

Families Caring for an Aging America National Academies of Sciences, Engineering, and Medicine, Health and Medicine Division, Board on Health Care Services, Committee on Family Caregiving for Older Adults. 2016-11-08 Family caregiving affects millions of Americans every day, in all walks of life. At least 17.7 million individuals in the United States are caregivers of an older adult with a health or functional limitation. The nation's family caregivers provide the lion's share of long-term care for our older adult population. They are also central to older adults' access to and receipt of health care and community-based social services. Yet the need to recognize and support caregivers is among the least appreciated challenges facing the aging U.S. population. Families Caring for an Aging America examines the prevalence and nature of family caregiving of older adults and the available evidence on the effectiveness of programs, supports, and other interventions designed to support family caregivers. This report also assesses and recommends policies to address the needs of family caregivers and to minimize the barriers that they encounter in trying to meet the needs of older adults.

Life as Politics Asef Bayat. 2013-05-01 Prior to 2011, popular imagination perceived the Muslim Middle East as unchanging and unchangeable, frozen in its own traditions and history. In Life as Politics, Asef Bayat argues that such presumptions fail to recognize the routine, yet important, ways in which ordinary people make meaningful change through everyday actions. First published just months before the Arab Spring swept across the

region, this timely and prophetic book sheds light on the ongoing acts of protest, practice, and direct daily action. The second edition includes three new chapters on the Arab Spring and Iran's Green Movement and is fully updated to reflect recent events. At heart, the book remains a study of agency in times of constraint. In addition to ongoing protests, millions of people across the Middle East are effecting transformation through the discovery and creation of new social spaces within which to make their claims heard. This eye-opening book makes an important contribution to global debates over the meaning of social movements and the dynamics of social change.

Women and Politics in Iran: Veiling, Unveiling and Reveiling Hamideh Sedghi. 2014-05-14 Why were urban women veiled in the early 1900s, unveiled from 1936 to 1979, and reveiled after the 1979 revolution? This question forms the basis of Hamideh Sedghi's original and unprecedented contribution to politics and Middle Eastern studies. Using primary and secondary sources, Sedghi offers new knowledge on women's agency in relation to state power. In this rigorous analysis she places contention over women at the centre of the political struggle between secular and religious forces and demonstrates that control over women's identities, sexuality, and labor has been central to the consolidation of state power. Sedghi links politics and culture with economics to present an integrated analysis of the private and public lives of different classes of women and their modes of resistance to state power.

Women's rights in each country are assessed in five key areas: (1) Nondiscrimination and Access to Justice; (2) Autonomy, Security, and Freedom of the Person; (3) Economic Rights and Equal Opportunity; (4) Political Rights and Civic Voice; and (5) Social and Cultural Rights. The methodology is based on the Universal Declaration of Human Rights, and the study results are presented through a set of numerical scores and analytical narrative reports.

Because this site is dedicated to free books, there's none of the hassle you get with filtering out paid-for content on Amazon or Google Play Books. We also love the fact that all the site's genres are presented on the homepage, so you don't have to waste time trawling through menus. Unlike the bigger stores, Free-Ebooks.net also lets you sort results by publication date, popularity, or rating, helping you avoid the weaker titles that will inevitably find their way onto open publishing platforms (though a book has to be really quite poor to receive less than four stars). The site itself is available in English, German, French, Italian, and Portuguese, and the catalog includes books in all languages. There's a heavy bias towards English-language works and translations, but the same is true of all the ebook download sites we've looked at here.
