Branding Governance Nicholas Ind, Rune Bjerke.2007-04-04 Branding Governance challenges traditional thinking on brands. Bestselling author Nicholas Ind and cross-cultural communications expert Rune Bjerke expose the flaws in a marketing-led approach to brand-building, and offer in its place a highly-participative, organization-wide process that delivers fulfillment to employees and value to customers. Drawing on a wide range of sources, they show that the key to a participatory approach is that customers and other external audiences must join managers and employees as active participants in defining and developing the brand. This requires the relationship between organization and customer to be one of trust, respect and authenticity.

The New Radicals Glenn Moss.2014 From the political ashes of the late 1960s, new and radical initiatives grew with surprising speed in the first half of the 1970s. The New Radicals: A Generational Memoir of the 1970s tells the story of a generation of South African activists who embraced and developed forms of opposition politics that had profound consequences. Within six short years, the politics of opposition and resistance had developed from an historical low point to the beginnings of a radicalism which would lead to the first democratic election in 1994. The book explores the influence of Black Consciousness, the new trade unionism, radicalisation of students on both black and white campuses, the Durban strikes, and Soweto 1976, and concludes that these developments were largely the result of home-grown initiatives, with little influence exercised by the banned and exiled movements for national liberation.

Cardiopulmonary Physiotherapy In Trauma: An Evidence-based Approach (Second Edition) Heleen Van Aswegen, Brenda May Morrow.2024-02-06 Trauma is a serious public health problem worldwide and is the leading cause of death among adults and children. Physiotherapists play a key role in the interdisciplinary team caring for patients with physical injury after a traumatic event. The aim of *Cardiopulmonary Physiotherapy in Trauma: An Evidence-based Approach* is to encourage quality evidence-based physiotherapy management of adult and paediatric survivors of trauma in an acute care setting on a global level. The first edition of the book was written by South African physiotherapy academics and clinical physiotherapists with expertise in trauma care. This new edition involves the South African writers from the first edition as well as a team of international experts in trauma care across health care disciplines (including surgeons, nurses, occupational therapists, dieticians, pain experts, and social workers). The information shared in the first edition has therefore been updated with more clinical expertise and the latest available evidence. The new content in this latest edition aims to make physiotherapists more aware of the importance of considering how pain influences patients' participation in therapy sessions, and of a team approach to patient care (e.g. managing pain and planning of care) to ensure the best possible outcomes for adult and paediatric patients with traumatic injury, at hospital discharge.

To Kill and Kill Again John Coston.2016-10-18 The twelve-year rampage of “Missoula Mauler” Wayne Nance—and the shocking end to his murder spree To his neighbors, Wayne Nance, a furniture mover from Missoula, Montana, appeared to be an affable, considerate, and trustworthy guy. No one knew that Nance was the “Missoula Mauler,” a psychopath responsible for a series of sadistic sex slayings that rocked the idyllic town between 1974 and 1986. Nance’s only requirement for murder was accessibility—a preacher’s wife, a teenage runaway, a female acquaintance, a married couple. Putting on a friendly façade, he could easily gain his victims’ trust. Then, one September night, thirty-year-old Nance pushed his luck, preying on a couple who lived to tell the tale. A true story with an incredible twist, written by former Wall Street Journal editor John Coston and complete with photos, *To Kill and Kill Again* reveals the disturbing compulsions of a charming serial killer who fooled everyone he knew, stumped the authorities, terrified a community, and nearly got away with it.

Death in the Long Grass Peter Hathaway Capstick.1978-01-15 As thrilling as any novel, as taut and exciting as any adventure story, Peter Hathaway Capstick’s *Death in the Long Grass* takes us deep into the heart of darkness to view Africa through the eyes of one of the most renowned professional hunters. Few men can say they have known Africa as Capstick has known it—leading safaris through lion country; tracking man-eating leopards along tangled jungle paths; running for cover as fear-maddened elephants stampede in all directions. And of the few who have known this dangerous way of life, fewer still can recount their adventures with the flair of this former professional hunter-turned-writer. Based on Capstick’s own experiences and the personal accounts of his colleagues, *Death in the Long Grass* portrays the great killers of the African bush—not only the lion, leopard, and elephant, but the primitive rhino and the crocodile waiting for its unsuspecting prey, the titanic hippo and the Cape buffalo charging like an express train out of control. Capstick was a born raconteur whose colorful descriptions and eye for exciting, authentic detail bring us face to face with some of the most ferocious killers in the world—underrated killers like the surprisingly brave and cunning hyena, silent killers such as the lightning-fast black mamba snake, collective killers like the wild dog. Readers can lean back in a chair, sip a tall, iced drink, and revel in the kinds of hunting stories Hemingway and Ruark used to hear in hotel bars from Nairobi to Johannesburg, as veteran hunters would tell of what they heard beyond the campfire and saw through the sights of an express rifle.

Back from the Brink Nancy F. Castaldo.2018-04-24 True stories of how scientists are saving endangered species, with photos included: “Readers will be moved by Castaldo’s appreciation for these animals.” —Booklist (starred review) In this book, the acclaimed author of *Sniffer Dogs* details the successful efforts of scientists to bring threatened animals back from the brink of extinction. How could capturing the last wild California condors help save them? Why are some states planning to cull populations of the gray wolf, despite this species only recently making it off the endangered list? How did a decision made during the Civil War to use alligator skin for cheap boots nearly drive the animal to extinction? *Back from the Brink* answers these questions and more as it delves into the threats to seven species, and the scientific and political efforts to coax them back from the brink. This rich, informational look at the problem of extinction offers a source of hope—all of these animals’ numbers are now on the rise—and will inspire young wildlife lovers and aspiring scientists. Winner of the Crystal Kite Award and a Sigurd F. Olsen Best Nature book Honorable Mention

Cooperative Peacekeeping in Africa Malte Brosig.2015-10-05 This book examines peacekeeping in Africa, exploring how the various actors are forming an African security regime complex. The changing dynamics of peacekeeping in today’s world have encouraged a more cooperative approach between international and regional actors. At the centre of this book is the analysis of how an African security regime complex could emerge in the area of cooperative peacekeeping. The African regime complex on peacekeeping includes a number of organizations at the regional and sub-regional African level, as well as global institutions such as the UN, interregional partners like the EU and individual lead nations. This book is the first in providing a systematic overview of peacekeeping doctrines, capacities and deployments of these key actors and single lead states. Theoretically, the book links up with regime complexity scholarship but connects it with dependency theory. Here inter-institutional relations are conceptualised as acts of resource exchange. The book explores how primarily international organizations are partnering by exchanging resources. Empirically, the study analyses the phenomenon of regime complexity in three prominent African crises covering Eastern Africa (Somalia), Central African (Central African Republic) and Western Africa (Mali). This book will be of much interest to students of peacekeeping, international organisations, African politics, security studies and IR in general.

Women’s Organizations and Democracy in South Africa Shireen Hassim.2006-06-26 The transition to democracy in South Africa was one of the defining events in twentieth-century political history. The South African women’s movement is one of the most celebrated on the African continent. Shireen Hassim examines interactions between the two as she explores the gendered nature of liberation and regime change. Her work reveals how women’s political organizations both shaped and were shaped by the broader democratic movement. Alternately asserting their political independence and giving precedence to the democratic movement as a whole, women activists proved flexible and remarkably successful in influencing policy. At the same time, their feminism was profoundly shaped by the context of democratic and nationalist ideologies. In reading the last twenty-five years of South African history through a feminist framework, Hassim offers fresh insights into the interactions between civil society, political parties, and the state. Hassim boldly confronts sensitive issues such as the tensions between autonomy and political dependency in feminists’ engagement with the African National Congress (ANC) and other democratic movements, and black-white relations within women’s organizations. She offers a historically informed discussion of the challenges facing feminist activists during a time of nationalist struggle and democratization. Winner, Victoria Schuck Award for best book on women and politics, American Political Science Association “An exceptional study, based on extensive research. . . . Highly recommended.”—Choice “A rich history of women’s organizations in South African . . . [Hassim] had observed at first hand, and often participated in, much of what she described. She had access to the informants and private archives that so enliven the narrative and enrich the analysis. She provides a finely balanced assessment.”—Gretchen Bauer, *African Studies Review*
