*Dogchild* Kevin Brooks.2020-06-16 A boy raised by wild dogs fights for survival in this gripping post apocalyptic tale by an acclaimed Carnegie Medalist. Jeet is a dogchild, raised by the wild dogs who killed his parents, then recaptured and “rehumanized.” He now lives with one of only two remaining human communities in the world, besieged by the much larger enemy clan. In a wasteland shaped by war, starvation, and haunting violence, Jeet grapples with his identity — he misses his wild family, and the people of his clan see dogchilds as less than human. When the human clans begin to prepare for a final, bloody battle against each other, Jeet is at the center. His struggle and his relationship with another rehumanized dogchild shed light on what it means to be human or inhuman — and what it takes to be a survivor. In his most ambitious novel yet, Carnegie Medalist Kevin Brooks offers a breathless work of speculative fiction that will have readers at the edge of their seat.

*Future History 2050* Thomas Harding.2022-03-01 This future history of the next thirty years, imagined by bestselling author Thomas Harding, is a compelling and startling call to action. In 2020, a researcher is shocked to find a set of notebooks detailing the history of the next thirty years. Is this a hoax? Or could it be real? The notebooks, written in the year 2050, contain interview transcripts between teenage Billy and Gran Nancy. We learn about the great climate SHOCK, when global temperatures rise much faster than anticipated, resulting in catastrophic consequences for humanity. We learn about a shift away from democracy, toward unelected “ethnarchs” — heads of corporations who use their access to our personal data to competently run the world. We learn about the giant city towers where most people live, work and play inside — where it's safe from natural disasters and viral outbreaks. And between these interviews, we learn more about Billy, whose interest in the history that has been erased from the official record is causing trouble in 2050. Is it too late to change the past to save the future? Key Text Feature glossary

**Themba** Lutz van Dijk.2011-10-31 A hard-hitting, and emotional story set in South Africa, following Themba and his dreams of becoming a famous footballer. Themba grows up dreaming of becoming a football star. One day he leaves the village and travels with his sister to the city in search of their mother. Life is a struggle and Themba has to grow up fast. Karin Chubb was Shortlisted for the Marsh Award for Children’s Literature in Translation for Themba, a unique award celebrating the high quality and diversity of translated fiction for young readers. The book was also made into an award-winning film. “Beautifully translated from the original ... it is a book full of hope and the more young people who read books like this and who come to understand how other young children live, the more this hope will spread.” Books, Teens and Magazines “Themba reminds me of my own childhood and youth in a township close to a small village in the Transvaal in South Africa: Like him I wanted to escape poverty, like him I had the hope that our world will be a just world one day – and like him I loved my mother who was working at the time as a maid for a white family. To be very honest: in soccer Themba seems to be simply better than I was.” Archbishop Desmond Tutu “READ OF THE MONTH” Pride magazine “...an inspirational coming of age drama about a young South African boy’s escape from poverty and the pursuit of a dream.” Spring online “It’s a rags to riches story – a story of hope, of dreaming your dreams and achieving them, and it’s also a story of friendship...” The Sunday Independent “It’s a really engaging book, and because Aids is a serious issue, it made us want to carry on reading more about it.” Durning Library teenage reading group “Beautifully translated from the original and it is an easy and straightforward read. However, the storyline is tough – poverty, AIDS and death haunt the pages of the book. The reader learns about the hardship of life for many ordinary South Africans (even after Mandela came to power) and the struggle for those families who have a family member suffering from AIDS. The problems they face do not lie solely in a lack of medication and good nutrition; it also lies in the ignorance of their neighbours and friends and a refusal of many to acknowledge the illness and help the ill. However this is not a depressing book – it is a book full of hope and the more young people who read books like this and who come to understand how other young children live, the more this hope will spread.” Books, Teens and Magazines

Procrastination David Cliff Moore.2020-03-08 Are you always feeling like time is just too short and everything you do is like rushed? Then you are most likely procrastinating. For most of us, procrastination is subconscious. We do not choose to avoid a task intentionally, rather it just sorts of happens. Why do we procrastinate? If your brain tells you, this will never happen or you will probably fail anyway that is your ego talking and creating doubt. By creating doubt, your brain is prompted to release certain chemicals much like those when you experience pain. This makes you feel better and the memory of that pain (albeit imagined and minor) is smoothed over and pushed into short term memory where it can be promptly forgotten about. In contrast, when we are productive or successful our brains release altogether different chemicals that evoke happiness. It's the anticipation of these happiness chemicals that make us crave success and completion, the issue is that the pain of our own ego is getting in the way. This book covers the following topics: Information on Procrastination and How to Stop it Insights on Overthinking, Mental Toughness, and Self Discipline Tips on How To Boost Productivity Time Management Tips Recommended Strategies to Deal With Stress ...And so much more!! Most people confuse procrastination with laziness, but they are quite different. Laziness is an inactive process while procrastination is an active process. Procrastination involves choosing to do something less important instead of the crucial project while laziness is inactivity, inability to act or unwillingness to take action. Most procrastinators lead a busy life. They are always engaged in easy and enjoyable tasks as opposed to seemingly tough jobs that are more important or rewarding. Would You Like To Know More? **The Position of the German Language in the World** Ulrich Ammon.2019-08-08 The Position of the German Language in the World focuses on the global position of German and the factors which work towards sustaining its use and utility for international communication. From the perspective of the global language constellation, the detailed data analysis of this substantial research project depicts German as an example of a second-rank language. The book also provides a model for analysis and description of international languages other than English. It offers a framework for strengthening the position of languages such as Arabic, Chinese, French, Portuguese, Spanish and others and for countering exaggerated claims about the global monopoly position of English. This comprehensive handbook of the state of the German language in the world was originally published in 2015 by Walter de Gruyter in German and has been critically acclaimed. Suitable for scholars and researchers of the German language, the handbook shows in detail how intricately and thoroughly German and other second-rank languages are tied up with a great number of societies and how these statistics support or weaken the languages' functions and maintenance.
