A Contrite Heart: Prosecution and Redemption in the Carolingian Empire Abigail Firey.2009-09-21 Through precise and rigorous readings of Carolingian legal, polemical, and literary sources, this book excavates lively debates at both the popular and institutional levels within the Carolingian empire over the increasing integration of religious and legal precepts in jurisprudence and their effect upon the laity.

Comics and Narration Thierry Groensteen.2013-02-18 This book is the follow-up to Thierry Groensteen's groundbreaking *The System of Comics*, in which the leading French-language comics theorist set out to investigate how the medium functions, introducing the principle of iconic solidarity, and showing the systems that underlie the articulation between panels at three levels: page layout, linear sequence, and nonsequential links woven through the comic book as a whole. He now develops that analysis further, using examples from a very wide range of comics, including the work of American artists such as Chris Ware and Robert Crumb. He tests out his theoretical framework by bringing it up against cases that challenge it, such as abstract comics, digital comics and shojo manga, and offers insightful reflections on these innovations. In addition, he includes lengthy chapters on three areas not covered in the first book. First, he explores the role of the narrator, both verbal and visual, and the particular issues that arise out of narration in autobiographical comics. Second, Groensteen tackles the question of rhythm in comics, and the skill demonstrated by virtuoso artists in intertwining different rhythms over and above the basic beat provided by the discontinuity of the panels. And third he resets the relationship of comics to contemporary art, conditioned by cultural history and aesthetic traditions but evolving recently as comics artists move onto avant-garde terrain.

Canonical Collections of the Early Middle Ages (ca. 400-1140) Lotte Kéry.1999 Contains a bibliographical survey of the chronological and systematic canonical collections in the Latin West from the beginnings of Christianity to Gratian's *Decretum* (ca. 1140). Dr. Kéry not only has compiled a catalogue of early medieval canonistic manuscripts, but has included valuable information about them. For each collection she has described its type and contents, the time and place of compilation, and, when possible, its author. Full bibliographies have been provided for each collection, arranged in chronological order. Scholars will find her work particularly useful since she has also noted where scholars have differed and where their opinions may be found. Special attention has been paid to the numerous recensions of the collections. She has given a separate entry for important recensions and has lists of fragments and abbreviated forms of the collections.

Conscience and Authority in the Medieval Church Alexander Murray.2015-07-02 Alexander Murray has long had an intellectual interest in the history of religion - struggling between his inbuilt anti-clericalism and his pronounced monastic leanings. The five essays in *Conscience and Authority in the Medieval Church* take on this dialectic, addressing the difficult relationship between private conscience and public authority in the twelfth and thirteenth centuries. In any organization, political, military, commercial, or religious, the relationship of conscience and authority is always potentially fraught, and can create dilemmas both for those in authority and those without. This volume records how our European predecessors approached and dealt with the same dilemmas as we face in the modern world.

The History of Medieval Canon Law in the Classical Period, 1140-1234 Wilfried Hartmann,Kenneth Pennington.2008 This latest volume in the ongoing *History of Medieval Canon Law* series covers the period from Gratian's initial teaching of canon law during the 1120s to just before the promulgation of the *Decretals* of Pope Gregory IX in 1234.

Mary Francis J. Moloney.2009-09-01 In *Mary, Woman and Mother* Fr. Francis Moloney studies the New Testament's presentation of Mary's person and role. After indicating the limits and strengths of a biblical study of Mary, he examines the Marian texts from the Letter of Paul to the Galatians, the Gospels of Mark, Matthew, and Luke, the Acts of the Apostles, and the Gospel of John. She is above all a woman and a mother. This book shows that in recognizing Mary as God's place of encounter with all that is most beautiful among women and men, we will gain access to the womanly, maternal face of God.

Secondary Education for All R. H. Tawney.1988-07-01 *Secondary Education for All* cannot be considered independently from the life and career of its author, R. H. Tawney. Written in 1922 in time for the general election, it is the Labour party's first major statement on adolescent education. It reflects the historical insights and ardent political convictions of an economic historian turned socialist, and helped to bring the issue of education reform from the periphery of politics to a more central position. Through the introduction of free secondary education for all, Tawney hoped to rid education of class inequality over a generation. This is a classic and influential text which acted as a springboard for educational advance which reflects the growing educational and political debate of 1920s Britain.

Comics in Translation Federico Zanettin.2015-12-22 Comics are a pervasive art form and an intrinsic part of the cultural fabric of most countries. And yet, relatively little has been written on the translation of comics. *Comics in Translation* attempts to address this gap in the literature and to offer the first and most comprehensive account of various aspects of a diverse range of social practices subsumed under the label 'comics'. Focusing on the role played by translation in shaping graphic narratives that appear in various formats, different contributors examine various aspects of this popular phenomenon. Topics covered include the impact of globalization and localization processes on the ways in which translated comics are embedded in cultures; the import of editorial and publishing practices; textual strategies adopted in translating comics, including the translation of culture- and language-specific features; and the interplay between visual and verbal messages. *Comics in translation* examines comics that originate in different cultures, belong to quite different genres, and are aimed at readers of different age groups and cultural backgrounds, from Disney comics to Art Spiegelman's *Maus*, from Katsuhiro Ōtomo's *Akira* to Goscinny and Uderzo's *Astérix*. The contributions are based on first-hand research and exemplify a wide range of approaches. Languages covered include English, Italian, Spanish, Arabic, French, German, Japanese and Inuit. The volume features illustrations from the works discussed and an extensive annotated bibliography. Contributors include: Raffaella Baccolini, Nadine Celotti, Adele D'Arcangelo, Catherine Delesse, Elena Di Giovanni, Heike Elisabeth Jüngst, Valerio Rota, Carmen Valero-Garcés, Federico Zanettin and Jehan Zitawi.

Introduction to Altaic Philology Igor de Rachewiltz, Volker Rybatzki. 2010-05-31 There are many excellent books dealing with Old Turkic, Preclassical and Classical Mongolian and Literary Manchu individually, but none providing in a single volume a comprehensive survey of all the three major Altaic languages. The present volume attempts to fill this gap; at the same time it reviews also the much debated Altaic Hypothesis. The book is intended for use by students at university level as well as by general readers with a basic knowledge of linguistics. The 39 language texts analysed in the volume are discussed within their historical and cultural context, thus vastly enlarging the scope of the purely linguistic investigation.

Apostolic Tradition Paul F. Bradshaw. 2023-03-17 The publication in 2011 of a new Ethiopic text of the Apostolic Tradition changed much of what scholars had previously concluded about the text and character of this ancient church order. In addition to providing more reliable readings where the Latin version was missing, this publication confirmed what had only been conjecture and disproved other theories. As a result, earlier commentaries are now out of date, and this volume aims to furnish a replacement that will meet the needs of the beginner and scholar alike, especially in attempting to distinguish the successive chronological layers of which the document is composed.

The History of Courts and Procedure in Medieval Canon Law Wilfried Hartmann, Kenneth Pennington. 2016-09-09 By the end of the thirteenth century, court procedure in continental Europe in secular and ecclesiastical courts shared many characteristics. As the academic jurists of the *Ius commune* began to excavate the norms of procedure from Justinian's great codification of law and then to expound them in the classroom and in their writings, they shaped the structure of ecclesiastical courts and secular courts as well. These essays also illuminate striking differences in the sources that we find in different parts of Europe. In northern Europe the archives are rich but do not always provide the details we need to understand a particular case. In Italy and Southern France the documentation is more detailed than in other parts of Europe but here too the historical records do not answer every question we might pose to them. In Spain, detailed documentation is strangely lacking, if not altogether absent. Iberian conciliar canons and tracts on procedure tell us much about practice in Spanish courts. As these essays demonstrate, scholars who want to peer into the medieval courtroom, must also read letters, papal decretals, chronicles, conciliar canons, and consilia to provide a nuanced and complete picture of what happened in medieval trials. This volume will give sophisticated guidance to all readers with an interest in European law and courts.

Unspeakable Things Laurie Penny. 2014-07-03 Shortlisted for The Green Carnation Prize 2014 'This is not a fairytale. This is a story about how sex and money and power police our dreams.' Clear-eyed, witty and irreverent, Laurie Penny is as ruthless in her dissection of modern feminism and class politics as she is in discussing her own experiences in journalism, activism and underground culture. This is a book about poverty and prejudice, online dating and eating disorders, riots in the streets and lies on the television. The backlash is on against sexual freedom for men and women and social justice - and feminism needs to get braver. Penny speaks for a new feminism that takes no prisoners, a feminism that is about justice and equality, but also about freedom for all. It's about the freedom to be who we are, to love who we choose, to invent new gender roles, and to speak out fiercely against those who would deny us those rights. It is a book that gives the silenced a voice - a voice that speaks of unspeakable things.

The Didascalia Apostolorum Alistair Stewart-Sykes. 2009 The *Didascalia apostolorum* is one of the ancient church orders, setting out the duties and responsibilities of laypeople, bishops and widows, regulating the keeping of Pascha and engaging in polemic with Judaism. It is a work of extraordinary interest for the history of the church in Syria, as a document of social and liturgical history and as a document bearing witness to relations between Christians and Jews. Alistair Stewart-Sykes presents the text in a readable English version which takes full account of the various textual witnesses. Of particular importance is the introduction. The *Didascalia* is conventionally ascribed to a single hand in third-century Syria, but here an entirely new compositional hypothesis is proposed in which the work is shown to be composite and to include sources of much greater antiquity than the period of final redaction. In the light of the compositional hypothesis there are radically new discussions of ministry (including the ministry of widows), relationships with Judaism, and liturgy (including the penitential process). Beyond this the introduction engages with the social context in which these developments emerged. The work is suitable for a wide audience. The translation will be useful to undergraduate and graduate students whereas the introduction and commentary will be of interest to scholars in ecclesiastical history, historical liturgy, forming Judaism and Jewish-Christian relations as well as Syriac studies. The author, Alistair Stewart-Sykes, is well-known in the field having produced the first critical text for over a century of the Apostolic church order and the first full-length commentary on the Apostolic tradition.
