Deep Water: The Gulf Oil Disaster and the Future of Offshore Drilling: Report to the President, January 2011 National Commission on the BP Deepwater Horizon Oil Spill and Offshore Dril.2011-05-24 On April 20, 2010, the Macondo well blew out, costing the lives of 11 men, and beginning a catastrophe that sank the Deepwater Horizon drilling rig and spilled nearly 5 million barrels of crude oil into the Gulf of Mexico. The spill disrupted an entire region's economy, damaged fisheries and critical habitats, and brought vividly to light the risks of deepwater drilling for oil and gas—the latest frontier in the national energy supply. Soon after, President Barack Obama appointed a seven-member Commission to investigate the disaster, analyze its causes and effects, and recommend the actions necessary to minimize such risks in the future. The Commission's report offers the American public and policymakers alike the fullest account available of what happened in the Gulf and why, and proposes actions—changes in company behavior, reform of government oversight, and investments in research and technology—required as industry moves forward to meet the nation's energy needs.

Disruption Aki Peritz.2021-12 A Kirkus Reviews Best Nonfiction Book of the Year A Christian Science Monitor Best Read of 2021 Neave Book Prize shortlist Al Qaeda did not stop after 9/11. Its reign of terror continued with bombings and mayhem across Europe, Africa, Asia, and the Middle East. But its frustration grew as the group failed to fundamentally undermine America and its allies. Five years later the time was ripe for another spectacular mega-plot. Fresh from masterminding the London Underground carnage, one veteran operative set in motion a new operation to destroy passenger aircraft over the Atlantic Ocean--and kill thousands of people in the process. *Disruption* tells the story of that conspiracy and the heroic efforts by the intelligence services of the United States, Great Britain, and Pakistan to uncover and crush it. From the streets of London to the training camps of Pakistan to the corridors of power in Washington DC, the story unfolds with murders, double-crosses, probes, jailbreaks, and explosions. Former counterterrorism analyst Aki J. Peritz brings the story to life with vivid imagery, interviews with top intelligence officials, and never-before-seen declassified documents. *Disruption* is the not-to-be-missed account of the race to stop a terrorist conspiracy that would have remade our world--forever.

Power to the Poor Gordon K. Mantler.2013-02-25 The Poor People's Campaign of 1968 has long been overshadowed by the assassination of its architect, Dr. Martin Luther King Jr., and the political turmoil of that year. In a major reinterpretation of civil rights and Chicano movement history, Gordon K. Mantler demonstrates how King's unfinished crusade became the era's most high-profile attempt at multiracial collaboration and sheds light on the interdependent relationship between racial identity and political coalition among African Americans and Mexican Americans. Mantler argues that while the fight against poverty held great potential for black-brown cooperation, such efforts also exposed the complex dynamics between the nation's two largest minority groups. Drawing on oral histories, archives, periodicals, and FBI surveillance files, Mantler paints a rich portrait of the campaign and the larger antipoverty work from which it emerged, including the labor activism of Cesar Chavez, opposition of Black and Chicano Power to state violence in Chicago and Denver, and advocacy for Mexican American land-grant rights in New Mexico. Ultimately, Mantler challenges readers to rethink the multiracial history of the long civil rights movement and the difficulty of sustaining political coalitions.

Financial Crisis Inquiry Report Phil Angelides.2011-03 The Financial Crisis Inquiry Commission was created to examine the causes of the current financial and economic crisis in the U.S. In this report, the Commission presents the results of its examination and its conclusions as to the causes of the crisis. More than two years after the worst of the financial crisis, our economy continues to experience the aftershocks. Millions of Americans have lost their jobs and their homes, and the economy is still struggling to rebound. This report is intended to provide a historical accounting of what brought our financial system and economy to a precipice and to help policy makers and the public better understand how this calamity came to be. The South Bend Blue Sox Jim Sargent, Robert M. Gorman.2011-12-01 Immortalized in the film *A League of Their Own*, the All-American Girls Professional Baseball League debuted in 1943 as a way to fill ballpark seats should Major League Baseball suspend operations during World War II. Any fan expecting to see a watered-down version of the game was in for quite a surprise. The women on the field proved every bit as tough and competitive as their male counterparts, running with abandon, diving for catches, and sliding fearlessly, all while wearing uniforms with short skirts. This work examines the history of the league as seen through the eyes of the players and management and the experiences of the South Bend Blue Sox—one of only two teams to play in all 12 seasons of the league. Although players never saw themselves as revolutionaries, these daring heroines helped pave the way toward greater freedom of choice for the generations of women who followed.

Why Some Firms Thrive While Others Fail Thomas H. Stanton.2012-07-05 Why did some firms weather the financial crisis and others not? This book investigates inner workings of over a dozen major financial and nonfinancial companies, reveals what went wrong and proposes a remedy. Regulators too must learn from past mistakes and require constructive dialogue for companies they supervise.

The Power of Habit Charles Duhigg.2012-02-28 Groundbreaking new research shows that by grabbing hold of the three-step loop all habits form in our brains—cue, routine, reward—we can change them, giving us the power to take control over our lives. We are what we repeatedly do, said Aristotle. Excellence, then, is not an act, but a habit. On the most basic level, a habit is a simple neurological loop: there is a cue (my mouth feels

gross), a routine (hello, Crest), and a reward (ahhh, minty fresh). Understanding this loop is the key to exercising regularly or becoming more productive at work or tapping into reserves of creativity. Marketers, too, are learning how to exploit these loops to boost sales; CEOs and coaches are using them to change how employees work and athletes compete. As this book shows, tweaking even one habit, as long as it's the right one, can have staggering effects. In *The Power of Habit*, award-winning New York Times business reporter Charles Duhigg takes readers inside labs where brain scans record habits as they flourish and die; classrooms in which students learn to boost their willpower; and boardrooms where executives dream up products that tug on our deepest habitual urges. Full of compelling narratives that will appeal to fans of Michael Lewis, Jonah Lehrer, and Chip and Dan Heath, *The Power of Habit* contains an exhilarating argument: our most basic actions are not the product of well-considered decision making, but of habits we often do not realize exist. By harnessing this new science, we can transform our lives.

A Quotidian Quash Dorian Redus.2022-12-27 "" This manuscript was not supposed to go public. However, because it was written in three joined parts and over two consecutive years, there was a problem as to what to call it chronically, 1969-2011 or 1969-2012. So the author chose the latter. Author, Mr. Redus, has looked into the cathode ray tube of his soul to find his way out of his commonplace silencing. (It is what A Quotidian Quash really means). Actually, in his book, the evolving cosmological TV energy of his puzzling psychiatric history from junior college years to decades as a psychiatric inpatient unfolds and jumps. A Quotidian Quash also puts forth two new cosmic theories, RCTVU (relativistic color television universe) and STS (space-time sphere), as Mr. Redus also blows the whistle on California's Department of State hospitals for being a psychiatric minatorial minotaur masquerading as a menial mentor. There is evidence of his many past psychiatrists' paranoia in this book, but when his psychiatric future arrives, his tomorrow, comes to us as his RCTVU theory, pristine and virgin, it is excellent and okay as it puts itself in his creative hands. Moreover, it requires that we have learned something from our evolutionary yesterday or from God in and subtly outside of his book's other speculative theory, STS theory. This is a book of many therapeutic letters mostly to his California therapists. And in it, we learn that they were so very interested in recording something wrong with him, their long-term psychiatric patient, Mr. Redus, that there became something very obviously paranoid and wrong with how all of his California therapists treated him, their long-term psychiatric patient, from the start of his treatment to the finish of my treatment with them. Mr. Redus was sequestered by psychiatrists who were checked and balanced only by their own inappropriate oblivion to their regular mistakes and convenient misstatements.

Human Capital Brenda Farrell.2011-05 The DoD relies heavily on its civilian workforce to perform duties usually performed by military personnel -- incl. combat support functions such as logistics. Civilian senior leaders are among those who manage DoD's civilians. In 2007, DoD was mandated to assess requirements for its civilian senior leader workforce in light of recent trends. DoD reported its recent reply to this requirement in 2009, which used information from a 2008 baseline review to validate its senior leader requirements. This report reviewed DoD's approach for: (1) assessing its civilian senior leader workforce requirements; (2) identifying and communicating the need for additional senior leaders; and (3) developing and managing this workforce. Veritas Ariel Sabar.2021-06-29 From the National Book Critics Circle Award-winning author comes the gripping true story of a sensational religious forgery and the scandal that shook Harvard. In 2012, Dr. Karen King, a star religion professor at Harvard, announced a breathtaking discovery just steps from the Vatican: she'd found an ancient scrap of papyrus in which Jesus calls Mary Magdalene "my wife." The mysterious manuscript, which King provocatively titled "The Gospel of Jesus's Wife," had the power to topple the Roman Catholic Church. It threatened not just the all-male priesthood, but centuries of sacred teachings on marriage, sex, and women's leadership, much of it premised on the hallowed tradition of a celibate Jesus. Award-winning journalist Ariel Sabar covered King's announcement in Rome but left with a question that no one seemed able to answer: Where in the world did this history-making papyrus come from? Sabar's dogged sleuthing led from the halls of Harvard Divinity School to the former headquarters of the East German Stasi before landing on the trail of a Florida man with an unbelievable past. Could a motorcycle-riding pornographer with a fake Egyptology degree and a prophetess wife have set in motion one of the greatest hoaxes of the century? A propulsive tale laced with twists and trapdoors, Veritas is an exhilarating, globe-straddling detective story about an Ivy League historian and a college dropout—and how they worked together to pass off an audacious forgery as a long-lost piece of the Bible.

The Financial Crisis Inquiry Report Financial Crisis Inquiry Commission.2011-05-01 The Financial Crisis Inquiry Report, published by the U.S. Government and the Financial Crisis Inquiry Commission in early 2011, is the official government report on the United States financial collapse and the review of major financial institutions that bankrupted and failed, or would have without help from the government. The commission and the report were implemented after Congress passed an act in 2009 to review and prevent fraudulent activity. The report details, among other things, the periods before, during, and after the crisis, what led up to it, and analyses of subprime mortgage lending, credit expansion and banking policies, the collapse of companies like Fannie Mae and Freddie Mac, and the federal bailouts of Lehman and AIG. It also discusses the aftermath of the fallout and our current state. This report should be of interest to anyone concerned about the financial situation in the U.S. and around the world.THE FINANCIAL CRISIS INQUIRY COMMISSION is an independent, bi-partisan, government-appointed panel of 10 people that was created to examine the causes, domestic and global, of the current financial and economic crisis in the United States. It was established as part of the Fraud Enforcement and Recovery Act of 2009. The commission consisted of private citizens with expertise in economics and finance, banking, housing, market regulation, and consumer protection. They examined and reported on the collapse of major financial institutions that failed or would have failed if not for exceptional assistance from the government.News Dissector DANNY SCHECHTER is a journalist, blogger and filmmaker. He has been reporting on economic crises since the 1980's when he was with ABC News. His film In Debt We Trust warned of the economic meltdown in 2006. He has since written three books on the subject including Plunder: Investigating Our Economic Calamity (Cosimo Books, 2008), and The Crime Of Our Time: Why Wall Street Is Not Too Big to Jail (Disinfo Books, 2011), a companion to his latest film Plunder The Crime Of Our Time. Thomas J. Wood Dan Lee.2012-07-25 Thomas J. Wood, Kentuckian, graduated fifth in his West Point class in 1846 and joined the staff of General Zachary Taylor. The Mexican War was just beginning and Wood fought in several battles after which he served under General Winfield Scott in

Mexico City. In 1861, Wood became a brigadier general of volunteers and began his Civil War service with the Army of the Cumberland, with whom he fought in every campaign and most of its major battles. Wood has never before been the subject of a full length biography but is well known for a notorious lapse of judgment resulting in a Confederate breakthrough at Chickamauga that shattered the Union right flank and threatened the survival of the Army of the Cumberland. It is a moment in the war still argued about. Wood learned from his mistake, became a better general from that time on (notably at Missionary Ridge and Nashville), and redeemed himself in the eyes of his fellow officers and his civilian superiors.

The Financial Crisis Inquiry Report, Authorized Edition Financial Crisis Inquiry Commission.2011-01-27 The definitive report on what caused America's economic meltdown and who was responsibleThe financial and economic crisis has touched the lives of millions of Americans who have lost their jobs and their homes, but many have little understanding of how it happened. Now, in this very accessible report, readers can get the facts.

Formed in May 2009, the Financial Crisis Inquiry Commission (FCIC) is a panel of 10 commissioners with experience in business, regulations, economics, and housing, chosen by Congress to explain what happened and why it happened. This panel has had subpoena power that enabled them to interview people and examine documents that no reporter had access to. The FCIC has reviewed millions of pages of documents, and interviewed more than 600 leaders, experts, and participants in the financial markets and government regulatory agencies, as well as individuals and businesses affected by the crisis. In the tradition of The 9/11 Commission Report, The Financial Crisis Inquiry Report will be a comprehensive book for the lay reader, complete with a glossary, charts, and easy-to-read diagrams, and a timeline that includes important events. It will be read by policy makers, corporate executives, regulators, government agencies, and the American people.
