Africa's Informal Workers Ilda Lindell.2013-04-04 *Africa's Informal Workers* is a vigorous examination of the informalization and casualization of work, which is changing livelihoods in Africa and beyond. Gathering cases from nine countries and cities across sub-Saharan Africa, and from a range of sectors, this volume goes beyond the usual focus on household 'coping strategies' and individual agency, addressing the growing number of collective organizations through which informal workers make themselves visible and articulate their demands and interests. The emerging picture is that of a highly diverse landscape of organized actors, providing grounds for tension but also opportunities for alliance. The collection examines attempts at organizing across the formal-informal work spheres, and explores the novel trend of transnational organizing by informal workers. Part of the ground-breaking Africa Now series, *Africa's Informal Workers* is a timely exploration of deep, ongoing economic, political and social transformations.

Season of Hope Alan Hirsch,Sally Hines.2005 Offers an insight into the circumstances under which the policies were developed, implemented and reviewed, as well as a study of the outcomes. This book addresses questions such as: How could an organisation with no previous experience of governing accomplish a peaceful transition to democracy? How did they do it and where are they going?

Implementing the Water-Energy-Food- Ecosystems Nexus and Achieving the Sustainable

Development Goals Cesar Carmona-Moreno,E. Crestaz,Y. Cimmarrusti,F. Farinosi,M. Biedler,A.

Amani,A. Mishra,A. Carmona-Gutierrez.2021-09-15 The book's primary intention is to serve as a roadmap for professionals working in developing countries interested in the Nexus Water-Energy-Food-Ecosystems (WEFE) approach. The book shows a multi-disciplinary approach, showcasing the importance of the proper use of Nexus WEFE when implementing certain development programs in regions around the globe. It can be presented as a manual for an individual that either wishes to implement intervention projects following the NEXUS approach or students interested in cooperation and development. The book begins with a general explanation of the theoretical concepts and implementation processes of Nexus WEFE and continues getting into case studies,

explaining the importance of proper implementation and potential drawbacks and solutions to them. This book has a particular focus on the European Union cooperation policies when implementing such an approach in developing countries.

Vermicomposting for Sustainable Food Systems in Africa Hupenyu Allan Mupambwa, Lydia Ndinelao Horn, Pearson Nyari Stephano Mnkeni.2023-03-01 This edited book collates the research done mainly in Africa on vermicomposting and related technologies that can assist African smallholder farmers in making nutrient rich organic fertilizers from their animal and crop residue wastes. Information on the development of organic sources of liquid fertilizer development for hydroponics is also presented. The book presents research findings on vermicomposting in a simplified way that will allow farmers and extension workers to adopt the indicated technologies. The book also covers critical aspects of standardization of vermicompost preparation, earthworm biology, nutrient enrichment of composts and organic liquid fertilizer production. Vermicomposting is a technology that employs earthworms to enhance the biodegradation and fertilizer value of organic wastes. The earthworms optimize the biodegradation ecosystem during composting, resulting in a final nutrient rich product with more recalcitrant forms of carbon and much lower levels of veterinary antibiotics and their metabolites. Vermicompost as an organic fertilizer is highly preferred over other forms of soil enhancers. A lot of research has been done on vermicompost and related activities in Africa but remain scattered across various publications. The book is an invaluable source of information for farmers especially those practicing organic crop production, vermicomposting researchers, as well as extension workers.

Finding Voice Kim Shelley Berman.2018-01-02 In Finding Voice, Kim Berman demonstrates how she was able to use visual arts training in disenfranchised communities as a tool for political and social transformation in South Africa. Using her own fieldwork as a case study, Berman shows how hands-on work in the arts with learners of all ages and backgrounds can contribute to economic stability by developing new skills, as well as enhancing public health and gender justice within communities. Berman's work, and the community artwork her book documents, present the visual arts as a crucial channel for citizens to find their individual voices and to become agents for change in the arenas of human rights and democracy.

Twentieth-Century Higher Education Martin Trow.2010-06-28 Abstract:

Early Detection and Intervention in Audiology Katijah Khoza-Shangase, Amisha Kanji.2021-02-01 A textbook with case studies for audiologists and speech pathologists to make recommendations for early detection and intervention of hearing impairments in the South African context Early hearing detection and intervention (EHDI) is the gold standard for any practicing audiologist, and for families of infants and children with hearing impairment. EHDI programs aim to identify, diagnose and provide intervention to children with hearing impairment from as early as six months old (as well as those at risk for hearing impairment) to ensure they develop and achieve to their potential. Yet EHDI remains a significant challenge for Africa, and various initiatives are in place to address this gap in transferring policy into practice within the southern African context. The diversity of factors in the southern African context presents unique challenges to teaching and research in this

field, which has prompted this book project. The South African government's heightened focus on increasing access to health care which includes ongoing Early Childhood Development (ECD) programs, make this an opportune time for establishing and documenting evidence-based research for current undergraduate and postgraduate students. Early Detection and Intervention in Audiology: An African Perspective aims to address this opportunity. Grounded in an African context with detailed case studies, this book provides rich content that pays careful attention to contextual relevance and contextual responsiveness to both identification and intervention in hearing impairment. With diverse contributions from experts in local and international contexts, but always with an African perspective, this textbook will be an invaluable resource for students, researchers and practitioners.

Innovative Strategies in Higher Education for Accelerated Human Resource Development in South Asia Asian Development Bank. 2016-01-01 This publication is part of a series of six country reports on technical and vocational education and training (TVET) and higher education in Bangladesh, Nepal, and Sri Lanka. Each report presents current arrangements and initiatives in the respective country's skills development strategies. These are complemented by critical analyses to determine key issues, challenges, and opportunities for innovative strategies toward global competitiveness, increased productivity, and inclusive growth. The emphasis is to make skills training more relevant, efficient, and responsive to emerging domestic and international labor markets. The reports were finalized in 2013 under the Australian AID-supported Phase 1 of Subproject 11 (Innovative Strategies for Accelerated Human Resource Development) of Regional Technical Assistance 6337 (Development Partnership Program for South Asia).

Restorative Justice in Africa Nabudere, Dani Wadada, Velthuisen, Andreas. 2013-12-07 This book was inspired by the need of post-conflict societies to manage knowledge resources in such a way that it creates lasting restoration of durable peaceful relationships among people. It aims to demonstrate the challenges of the management of knowledge for restorative justice in Africa and the principles and practices by which these challenges can be met. To achieve this aim they applied what they call the 'Trans-dimensional Knowledge Management Model (TDKM-M)' to specific cases of restorative justice in South Africa, Rwanda, Uganda, Kenya and Liberia. After an analysis of the cases studies, the author successfully demonstrated the challenges of the management of knowledge for restorative justice in Africa and the principles and practices by which these challenges can be met. The authors revealed common challenges to restorative justice such as establishing the 'truth'; the institutionalisation of recommendations by truth and reconciliation bodies; the handling of non-cooperative offenders; and replacing of 'good' values' with 'bad' values as major challenges to restorative justice. To meet these challenges, they propose certain principles of trans-dimensional restorative justice: the establishment of a 'trans-dimensional knowledge foundation' (not some version of 'the truth'); leadership in the implementation of strategies and plans; restoration or establishment of good relations among all people (not only the ruling elites); the identification of tacit and unseen factors that will determine successful restoration of these relationships; and changing these tacit and unseen factors.

The Global Education Industry James Tooley. 1999 The author challenges the conventional wisdom that private education in developing countries fosters greater social and economic inequality, he points out that such education often provides creative social responsibility programmes, subsidised places, and student loan schemes.--BOOK JACKET. He concludes with a modest proposal for how for-profit education enterprises could play an important role in promoting equitable development.--Jacket.

Perspectives on Student Affairs in South Africa McGlory Speckman, Martin Mandew. 2014-07-17 The goal of Perspectives on Student Affairs in South Africa is to generate interest in student affairs in South Africa. The papers contained herein are based on best practice, local experience and well-

researched international and local theories. The papers in this book deal with matters pertaining to international and national trends in student affairs: academic development, access and retention, counselling, and material support for students coming from disadvantaged backgrounds. They are linked to national and international developments, as described in the first two papers. This publication will assist both young and experienced practitioners as they grow into their task of developing the students entrusted to them. All contributors are South Africans with a great deal of experience in student affairs, and all are committed to the advancement of student affairs in South Africa. The editors are former heads of student affairs portfolios at two leading South African universities.

Homeschooling for Excellence David Colfax, Micki Colfax. 2009-05-30 THE COLFAXES DIDN'T START TEACHING THEIR BOYS AT HOME TO GET THEM INTO HARVARD - BUT THAT'S WHAT HOMESCHOOLING ACCOMPLISHED! For over fifteen years, David and Micki Colfax educated their children at home. They don't think of themselves as pioneers, though that's what they became. Unhappy with the public schools, the Colfaxes wanted the best education possible for their four sons: a program for learning that met the evolving needs of each child and gave them complete control of how and what their children learned. The results? A prescription for excellence-Harvard educations for their sons Grant, Drew, and Reed. (Their fourth son is still too young for college.) Now the Colfaxes tell how all parents can become involved in homeschooling. In a straight-talking book that reads like a frank conversation among friends, they tell what they did and how they did it: their educational approaches, the lessons they learned, and what materials-books, equipment, educational aids-proved most useful over the years. Best of all, they show you how you can take charge of your children's education-in an invaluable sourcebook that will help you find a rewarding and successful alternative to our failing schools.

Culture: urban future UNESCO. 2016-12-31 Report presents a series of analyses and recommendations for fostering the role of culture for sustainable development. Drawing on a global survey implemented with nine regional partners and insights from scholars, NGOs and urban thinkers, the report offers a global overview of urban heritage safeguarding, conservation and management, as well as the promotion of cultural and creative industries, highlighting their role as resources for sustainable urban development. Report is intended as a policy framework document to support governments in the implementation of the 2030 Agenda for Sustainable Urban Development and the New Urban Agenda.

Learning to Industrialize Kenichi Ohno. 2014-04-03 This book proposes a new, pragmatic way of approaching economic development which features policy learning based on a comparison of international best policy practices. While the important role of government in promoting private sector development is being recognized, policy discussion often remains general without details as to what exactly to do and how to avoid common pitfalls. This book fills the gap by showing concrete policy contents, procedures, and organizations adopted in high-performing East Asian economies. Natural resources and foreign aid and investment can take a country to a certain income level, but growth stalls when given advantages are exhausted. Economies will be caught in middle income traps if growth impetus is not internally generated. Meanwhile, countries that have soared to high income introduced mindset, policies, and institutions that encouraged, or even forced, accumulation of human capital - skills, technology, and knowledge. How this can be done systematically is the main topic of policy learning. However, government should not randomly adopt what Singapore or Taiwan did in the past. A continued march to prosperity is possible only when policy makers acquire capability to formulate policy suitable for local context after studying a number of international experiences. Developing countries wanting to adopt effective industrial strategies but not knowing where to start will benefit greatly by the ideas and hands-on examples presented by the author. Students of development economics will find a new methodological perspective which can supplement the ongoing industrial policy debate. The book also gives an excellent account of national pride and pragmatism exhibited by officials in East Asia who produced remarkable economic growth, as well as serious effort by an African country to emulate this miracle.

The Open Economy and Its Financial Constraints Penelope Anne Hawkins.2003 The Open Economy and its Financial Constraints explores the role of money and finance in an open economy. The existence of money and global financial flows compound the likelihood of financial constraints, in particular, financial vulnerability, financial exclusion and financial fragility, and create the possibility of unemployment. Penelope Hawkins focuses on financial openness and contends that while vulnerable economies can benefit from long-term international capital, greater financial exposure makes them increasingly susceptible to the crises associated with financial withdrawals. The author explores in detail the experiences of South Africa, Brazil and Thailand and finds that the consequences of financial liberalisation remain uncertain. She examines the rationale behind the distribution of credit within and between countries, and goes on to construct a financial vulnerability index as an empirical mechanism to rank nations according to their vulnerability to the withdrawal of international financial flows. This book offers an innovative conceptual approach to constraints in economic theory which will appeal to students and scholars of financial economics, particularly those who embrace non-orthodox monetary theory. It will also prove an enlightening read for development economists who can draw important lessons from the book's examination of the consequences of financial liberalisation.

International Humanitarian Action Hans-Joachim Heintze,Pierre Thielbörger.2017-10-04 This textbook examines a wide range of humanitarian action issues in five parts, presented by specialists from different academic fields. The respective parts reflect the five core modules of the International NOHA Joint Master's Programme "International Humanitarian Action": a) World Politics, b) International Law, c) Public Health, d) Anthropology, and e) Management. The book serves as a common basis for teaching at all NOHA universities and aims at imparting the basic knowledge and skills needed to excel in a complex interdisciplinary and international learning context. It provides in-depth information on key international humanitarian principles and values, professional codes of conduct, and the commitment to their implementation in practice. The book will thus be useful for all students of the NOHA Joint Master's Programme and participants of any courses with a similar content, but also for academics and practitioners affiliated with entities such as international organisations and NGOs. It may also serve as an introduction to anyone with an interest in understanding the numerous and inter-linked facets of humanitarian action.

The Rise of China and India in Africa Fantu Cheru,Cyril Obi.2010-03-11 In recent years, China and India have become the most important economic partners of Africa and their footprints are growing by leaps and bounds, transforming Africa's international relations in a dramatic way. Although the overall impact of China and India's engagement in Africa has been positive in the short-term, partly as a result of higher returns from commodity exports fuelled by excessive demands from both countries, little research exists on the actual impact of China and India's growing involvement on Africa's economic transformation. This book examines in detail the opportunities and challenges posed by the increasing presence of China and India in Africa, and proposes critical interventions that African governments must undertake in order to negotiate with China and India from a stronger and more informed platform.

How Learning Works Susan A. Ambrose, Michael W. Bridges, Michele DiPietro, Marsha C. Lovett, Marie K. Norman. 2010-04-16 Praise for *How Learning Works* *How Learning Works* is the perfect title for this excellent book. Drawing upon new research in psychology, education, and cognitive science, the authors have demystified a complex topic into clear explanations of seven powerful learning principles. Full of great ideas and practical suggestions, all based on solid research evidence, this book is essential reading for instructors at all levels who wish to improve their students' learning. —Barbara Gross Davis, assistant vice chancellor for educational development, University of California, Berkeley, and author, *Tools for Teaching* This book is a must-read for every instructor, new or experienced. Although I have been teaching for almost thirty years, as I read this book I found myself resonating with many of its ideas, and I discovered new ways of thinking about teaching. —Eugenia T. Paulus, professor of chemistry, North Hennepin Community College, and 2008 U.S. Community Colleges Professor of the Year from The Carnegie Foundation for the Advancement of Teaching and the Council for Advancement and Support of Education Thank you Carnegie Mellon for making accessible what has previously been inaccessible to those of us who are not learning scientists. Your focus on the essence of learning combined with concrete examples of the daily challenges of teaching and clear tactical strategies for faculty to consider is a welcome work. I will recommend this book to all my colleagues. —Catherine M. Casserly, senior partner, The Carnegie Foundation for the Advancement of Teaching As you read about each of the seven basic learning principles in this book, you will find advice that is grounded in learning theory, based on research evidence, relevant to college teaching, and easy to understand. The authors have extensive knowledge and experience in applying the science of learning to college teaching, and they graciously share it with you in this organized and readable book. —From the Foreword by Richard E.
