The contributors explore the biological, cultural and social values of urban biodiversity, including methods for assessing and evaluating urban biodiversity, social and educational issues, and practical measures for restoring and maintaining biodiversity in urban areas. Contributions come from presenters at an international scientific conference held in Erfurt, Germany 2008 during the 9th Conference of the Parties of the Convention on Biodiversity. This is also Part of our Conservation Science and Practice book series (with Zoological Society of London).

History of Toxicology and Environmental Health Philip Wexler.2014-09-18 This volume, Toxicology in Antiquity II, continues to tell the story of the roots of toxicology in ancient times. Readers learn that before scientific research methods were developed, toxicology thrived as a very practical discipline. Toxicologists are particularly proud of the rich and storied history of their field and there are few resources available that cover the discipline from a historical perspective. People living in ancient civilizations readily learned to distinguish safe from hazardous substances, how to avoid these hazardous substances and how to use them to inflict harm on enemies. Volume II explores the use of poison as weapons in war and assassinations, early instances of air pollution, the use of hallucinogens and entheogens, and the role of the snake in ancient toxicology. Provides the historical background for understanding modern toxicology Illustrates the ways ancient civilizations learned to distinguish safe from hazardous substances, how to avoid the hazardous substances and how to use them against enemies Details scholars who compiled compendia of toxic agents

Studies on Karachi Sabiah Askari.2015-10-05 The conference on Karachi in 2013 was the first event arranged by a newly-created body, The Karachi Conference Foundation, designed to deliberate on all aspects of the city's life. This book, bringing together the papers presented at the Conference, represents a landmark in scholarship on the mega-city and its issues. It is always a matter of great interest to see how certain societies have developed, starting out as Stone Age sites and flourishing as throbbing urban centres. While not every stage of this process is always documented, the records of remnants collected often help in painting a portrait that provides insights into this transformation. This is what Studies on Karachi does. Lay readers and scholars in a range of different disciplines with an interest in how a sleepy settlement in the late medieval period developed into a mega-city will find this book particularly useful. What emerges from the various chapters is the depiction of a city that, despite its vibrancy, is afflicted with numerous problems, ranging from poor planning to colossal mismanagement. Women, marginalized communities, neglected areas, issues of planning and development, and the history, and the anthropology of Karachi are all particular foci of attention throughout the book.

Karachi Laurent Gayer.2014 With an official population approaching fifteen million, Karachi is one of the largest cities in the world. It is also the

most violent. Since the mid-1980s, it has endured endemic political conflict and criminal violence, which revolve around control of the city and its resources (votes, land and bhatta-protection money). These struggles for the city have become ethnicized. Karachi, often referred to as a Pakistan in miniature, has become increasingly fragmented, socially as well as territorially. Despite this chronic state of urban political warfare, Karachi is the cornerstone of the economy of Pakistan. Gayer's book is an attempt to elucidate this conundrum. Against journalistic accounts describing Karachi as chaotic and ungovernable, he argues that there is indeed order of a kind in the city's permanent civil war. Far from being entropic, Karachi's polity is predicated upon organisational, interpretative and pragmatic routines that have made violence manageable for its populations. Whether such ordered disorder is viable in the long term remains to be seen, but for now Karachi works despite-and sometimes through-violence.

Karachi in the Twenty-First Century Mansoor Bin Tahnoon Al Nehayan.2016-02-22 The forces of globalisation are indiscriminate – they enable those who pursue good and those who pursue evil. The changes brought about by globalisation affect all segments of society, all walks of life, all political parties, all religions, all ethnic groups, and all countries. Sometimes they occur in the most unexpected ways and yield complex results that appear to be mystifying and intractable, at least on the surface. This book describes how the forces of globalisation have descended upon Karachi and exacerbated local and regional problems to the point where the city is teetering on the brink of chaos. Karachi is geographically, politically, and culturally situated in the context of modern Pakistan, but is a global city affected by global forces, many of which challenge the state's power and authority. The lessons of Karachi are important for both its present and its future, and they can serve as a cautionary tale for other global cities. Karachi is vitally important to Pakistan. While Islamabad is the country's capital, Karachi is the most important financial centre in the country. It is the centre of banking, industry, economic activity and trade. Many of Pakistan's largest corporations are based in Karachi, including entertainment, arts, fashion, medical research, the automotive industry, shipping, textiles, advertising, publishing, and software development. Karachi is also home to Pakistan's main seaport and two of the largest ports in the region, the Port of Karachi and Port Bin Qasim.

Karachi Vice Samira Shackle.2021-09-07 A fast-paced, hair-raising journey around Karachi in the company of those who know the city inside out - from an electrifying new voice in narrative non-fiction. Karachi. Pakistan's largest city is a sprawling metropolis of twenty million people, twice the size of New York City. It is a place of political turbulence in which those who have power wield it with brutal and partisan force. It takes an insider to know where is safe, who to trust, and what makes Karachi tick. In this powerful debut, Samira Shackle explores the city of her mother's birth in the company of a handful of Karachiites. Among them is Safdar the ambulance driver, who knows the city's streets and shortcuts intimately and will stop at nothing to help his fellow citizens. There is Parveen, the activist whose outspoken views on injustice repeatedly lead her towards danger. And there is Zille, the hardened journalist whose commitment to getting the best scoops puts him at increasing risk. Their individual experiences unfold and converge, as Shackle tells the bigger story of Karachi over the past decade as it endures a terrifying crime wave: a period in which the Taliban arrive in Pakistan, adding to the daily perils for its residents and pushing their city into the international spotlight. Writing with intimate local knowledge and a global perspective, Shackle paints a vivid portrait of one of the most complex and compelling cities in the world, a city where the borders blur between politicians and gangsters and between lawful and unlawful, as dangerous new forces of violent extremism are pitted against old networks of power.

Research Anthology on School Shootings, Peer Victimization, and Solutions for Building Safer Educational Institutions Management Association, Information Resources.2020-09-10 Though decades ago school shootings were rare events, today they are becoming normalized. Active shooter drills have become more commonplace as pressure is placed on schools and law enforcement to prevent the next attack. Yet others argue the traumatizing effects of such exercises on the students. Additionally, violence between students continues to remain problematic as bullying pervades children's lives both at school and at home, leading to negative mental health impacts and, in extreme cases, suicide. Establishing safer school policies, promoting violence prevention programs, building healthier classroom environments, and providing better staff training are all vital for protecting students physically and mentally. The Research Anthology on School Shootings, Peer Victimization, and Solutions for Building Safer Educational Institutions examines the current sources of violence within educational systems, and it offers solutions on how to provide a safer space for both students and educators alike. Broken into four sections, the book examines the causes and impacts that peer victimization has on students and how this can lead to further violence and investigates strategies for detecting the warning signs. The book provides solutions that range from policies and programs that can be established to strategies for teaching nonviolence and promoting coexistence in the classroom. Highlighting a range of topics such as violence prevention, school climate, and bullying, this publication is an ideal reference source for school administrators, law enforcement, teachers, government and state officials, school boards, academicians, researchers, and upper-level students who are intent on stopping the persisting and unfortunate problem that is school violence.

The Historical Quarters of Karachi Yasmin Cheema.2007 This book addresses a much neglected area of study: the protection and conservation of the historic architecture and architectural monuments in Karachi. Karachi's old historic fort still exists in the form of streets and mohallas embellished with a number of dharamshalas, temples, mosques, shrines, as well as its traditional bazaars. The older suburbs of Karachi survive; some even retain their winding streets and open squares. The nineteenth and twentieth century British Quarters which flourished with commercial and port activities are largely intact. These boulevards, streets, quarters and richly embellished stone buildings from that period are comparable to the nineteenth century historic areas of other major cities around the world, such as Cairo, Istanbul, Delhi, etc. Since Independence, the historical core of Karachi has been subjected to functional pressures which it is inherently incapable of confronting. This area is in acute danger, and if the present policies and practices of safeguarding only its monuments persist, only a fraction of old Karachi will remain as a measure of its cultural heritage. The book presents a meticulously developed research methodology and has a valuable resource of original information. This includes photographic documentation, area maps, sketches and corresponding activity profiles. It is a significant contribution to the field of urban area conservation with particular reference to Karachi. It is intended for students of conservation and to initiate a process for the preservation of Karachi city's historic tangible and intangible cultural assets, by revalorization, and revitalizing its physical and socio-cultural characteristics as a distinct urban district of national cultural significance.

The book is a valuable contribution to the study of Pakistan's ethnic affairs, providing insight into the ideas, movements, and theories that have shaped Karachi's ethnic landscape.
