Transnational Social Work and Social Welfare Beatrix Schwarzer, Ursula Kämmerer-Rütten, Alexandra Schleyer-Lindenmann, Yafang Wang. 2016-08-05 The underlying frame of social work is the nation state, and it is from within the state that welfare strategies and social policies are devised and implemented. However, post-colonialism, globalisation, migration and the associated implications for human rights, social justice and social welfare policies contest the idea of a clearly defined space for social work and present new challenges for researchers and practitioners. *Transnational Social Work and Social Welfare* argues for the increased importance of the transnational perspective in social work theory and practice. The book challenges the idea of the nation state as a given entity and argues that globalization and an increasing number of people crossing borders must have an impact on the theories and strategies of social work. The international contributors are critical of a restricted focus on a geographically defined space and the impact on work with clients. With cases covering China, France, India, UK, Germany, Malaysia, Israel, Turkey, the book highlights the challenges as well as the opportunities this new perspective can open up for theories and strategies in social work. It will be of interest to students, researchers and social workers interested in migration, social care, poverty and cultural competency in health and social care.

Social Welfare in East Asia and the Pacific Sharlene B.C.L. Furuto. 2013-02-19 In this singular collection, indigenous experts describe the social welfare systems of fifteen East Asian and Pacific Island nations and locales. Vastly understudied, these lands offer key insight into the successes and failures of Western and native approaches to social work, suggesting new directions for practice and research in both local and global contexts. Combining international experiences and professional knowledge, contributors illuminate the role of history and culture in shaping the social welfare systems of Cambodia, China, Hong Kong (SAR, China), Indonesia, Malaysia, the Micronesian region (including the Federated States of Micronesia, Guam [Unincorporated Territory, U.S.A.], Marshall Islands, Northern Mariana Islands [Commonwealth, U.S.A.], and Palau), Samoa and American Samoa (Unincorporated Territory, U.S.A.), South Korea, Taiwan, and Thailand. The contributors link the values and issues that concern populaces most to the development of social work practice, policy, and research. Sharlene B. C. L. Furuto then conducts a comparative analysis of the essays including their data and social service programs, highlighting the similarities and differences between the evolution of social welfare in these nations and locales. She contrasts their indigenous approaches, the responses of governments and NGOs to social issues, the availability of social work education, as well as API models, paradigms, and templates, and the overall status of the social work profession. Furuto also adds a chapter comparing the distinct social welfare systems of Samoa and American Samoa. The only volume to focus exclusively on social welfare in East Asia and the Pacific, this anthology holds immense value for practitioners and researchers eager for global perspectives.

Social Work and Social Welfare Rosalie Ambrosino. 2001 This revision of the authors' best-selling text continues to inspire student interest in the profession of social work, while helping them to understand the role that the profession plays in the social welfare system. The authors' systems/ecological approach to understanding social welfare focuses on specific social welfare areas in which social workers play major roles in policy and practice. The authors encourage students to consider the many reasons social problems occur and to begin to think critically about the issues in a new way, drawing on the book's coverage of the history, values, economic, political, and cultural factors that affect social work and social welfare. The book gives students a broad understanding of the profession of social work itself, including a brief history of its origin, a discussion of various theoretical principles, as well as applications of these principles to common social problems.
