The White Rabbit Chronicles GENA SHOWALTER.2016-11-01 The Queen of Zombie Hearts We're all mad here. I thought I had nothing left to give. I thought wrong. They started the war. Now I will end it. Alice 'Ali' Bell thinks the worst is behind her. She's ready to take the next step with

boyfriend Cole Holland, the leader of the zombie slayers...until Anima Industries, the agency controlling the zombies, launches a sneak attack, killing four of her friends. It's then she realises that humans can be more dangerous than monsters...and the worst has only begun. As the surviving slayers prepare for war, Ali discovers she, too, can control the zombies...and she isn't the girl she thought she was. She's connected to the woman responsible for killing - and turning - Cole's mother. How can their relationship endure? As secrets come to light, and more slayers are taken or killed, Ali will fight harder than ever to bring down Anima - even sacrificing her own life for those she loves. A Mad Zombie Party The enemy has risen from the grave. Together we slayers must stand, or one by one we will fall. The battle rages on. Ali Bell and Cole Holland's crew of zombie slayers thought they'd won the war against Anima Industries, the evil company responsible for capturing and experimenting on zombies in an effort to discover the secret to immortality. In the last epic clash, the slayers lost many of their crew and closest friends. But Frosty, the ice man himself, has not recovered from one casualty in particular - the love of his life, Kat Parker. On the path to self-annihilation, Frosty receives a message from beyond - Kat's spirit returns, insisting he partner with rogue slayer Camilla Marks. Frosty will do anything for Kat. Except that. Camilla is the one who betrayed them all, leading to Kat's death. But when Anima rises from the grave to become a force the slayers may not have the strength to overcome, Frosty, Camilla and all the slayers will have to work together to survive. And one broken slayer will learn that sometimes the line between hate and attraction is blurred...and the road to redemption isn't through revenge, but in letting go of the past and grabbing hold of the future.

Aliens in Wonderland Alpha.2010-02 An informative in-depth look at the lives of several extraterrestrials (E.T.'s), Extraterrestrial Biological Entities (E.B.E.'s), and aliens, what their lives are like on their planets in their galaxies, what their spaceships are like, and how they are connected to us here on Earth. In addition, the book delves into how they are important to our religion and military strength. This novel also looks at some historical revelations, future predictions, and current happenings including an interesting collection of anecdotes regarding an ex-CIA agent who gets his wishes granted. It's the author's intention to, at the very least, bridge the gaps that exist between the religions of our generation. One gap is between our present long standing accepted knowledge of our concept of God, and our comprehensible real God. As well, a gap exists between how we are told we should interpret and demonstrate the meaning of God and how we show our faith and prove our belief in the living Creator. These are some things that the author thinks everyone needs to know about God, Satan, and UFOs. This book has been a long time in the making, twenty years, but somehow it still manages to remain ahead of its time, in most cases.

Achtung-Panzer! Heinz Guderian.1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Alice in Zombieland (The White Rabbit Chronicles, Book 1) Gena Showalter.2012-09-25 Book 1 of The White Rabbit Chronicles. I wish I could go back and do a thousand things differently. I'd tell my sister no. I'd never beg my mother to talk to my dad. I'd zip my lips and swallow those hateful words. Or, barring all of that, I'd hug my sister, my mum and my dad one last time. I'd tell them I love them. I wish...

Hollywood Highbrow Shyon Baumann.2018-06-05 Today's moviegoers and critics generally consider some Hollywood products--even some blockbusters--to be legitimate works of art. But during the first half century of motion pictures very few Americans would have thought to call an

American movie art. Up through the 1950s, American movies were regarded as a form of popular, even lower-class, entertainment. By the 1960s and 1970s, however, viewers were regularly judging Hollywood films by artistic criteria previously applied only to high art forms. In *Highbrow*, Shyon Baumann for the first time tells how social and cultural forces radically changed the public's perceptions of American movies just as those forces were radically changing the movies themselves. The development in the United States of an appreciation of film as an art was, Baumann shows, the product of large changes in Hollywood and American society as a whole. With the postwar rise of television, American movie audiences shrank dramatically and Hollywood responded by appealing to richer and more educated viewers. Around the same time, European ideas about the director as artist, an easing of censorship, and the development of art-house cinemas, film festivals, and the academic field of film studies encouraged the idea that some American movies--and not just European ones--deserved to be considered art.
