There aren't a lot of free Kindle books here because they aren't free for a very long period of time, though there are plenty of genres you can browse through. Look carefully on each download page and you can find when the free deal ends. Because this site is dedicated to free books, there's none of the hassle you get with filtering out paid-for content on Amazon or Google Play Books. We also love the fact that all the site's genres are presented on the homepage, so you don't have to waste time trawling through menus. Unlike the bigger stores, Free-Ebooks.net also lets you sort results by publication date, popularity, or rating, helping you avoid the weaker titles that will inevitably find their way onto open publishing platforms (though a book has to be really quite poor to receive less than four stars). Bootastik's free Kindle books have links to where you can download them, like on Amazon, iTunes, Barnes & Noble, etc., as well as a full description of the book. The Open Library: There are over one million free books here, all available in PDF, ePub, Daisy, DjVu and ASCII text. You can search for ebooks specifically by checking the Show only ebooks option under the main search box. Once you've found an ebook, you will see it available in a variety of formats. Beside each of these free eBook titles, you can quickly see the rating of the book along with the number of ratings. This makes it really easy to find the most popular free eBooks. Every day, eBookDaily adds three new free Kindle books to several different genres, such as Nonfiction, Business & Investing, Mystery & Thriller, Romance, Teens & Young Adult, Children's Books, and others. You can literally eat, drink and sleep with eBooks if you visit the Project Gutenberg website. This site features a massive library

hosting over 50,000 free eBooks in ePu, HTML, Kindle and other simple text formats. What's interesting is that this site is built to facilitate creation and sharing of e-books online for free, so there is no registration required and no fees. It's worth remembering that absence of a price tag doesn't necessarily mean that the book is in the public domain; unless explicitly stated otherwise, the author will retain rights over it, including the exclusive right to distribute it. Similarly, even if copyright has expired on an original text, certain editions may still be in copyright due to editing, translation, or extra material like annotations. Wikibooks is a collection of open-content textbooks, which anyone with expertise can edit - including you. Unlike Wikipedia articles, which are essentially lists of facts, Wikibooks is made up of linked chapters that aim to teach the reader about a certain subject.
