Tracing the Boundaries Between Hindi and Urdu Christine Everaert.2010 This book sheds light on the complex relationship between Hindi and Urdu. Through a detailed reading of a representative set of 20th century short stories in both languages, the author leads the reader towards a clear definition of the differences between Hindi and Urdu. The full translations of the stories have been extensively annotated to point out the details in which the Hindi and Urdu versions differ. An

overview of early and contemporary Hindi/Urdu and Hindustani grammars and language teaching textbooks demonstrates the problems of correctly naming and identifying the two languages. This book now offers a detailed and systematic database of syntactic, morphological and semantic differences between the selected Hindi and Urdu stories. A useful tool for all scholars of modern Hindi/Urdu fiction, (socio-)linguistics, history or social sciences.

Negotiating Languages Walter N. Hakala.2016-08-30 Prior to the nineteenth century, South Asian dictionaries, glossaries, and vocabularies reflected a hierarchical vision of nature and human society. By the turn of the twentieth century, the modern dictionary had democratized and politicized language. Compiled scientifically through historical principles, the modern dictionary became a concrete symbol of a nation's arrival on the world stage. Following this phenomenon from the late seventeenth century to the present, *Negotiating Languages* casts lexicographers as key figures in the political realignment of South Asia under British rule and in the years after independence. Their dictionaries document how a single, mutually intelligible language evolved into two competing registers—Urdu and Hindi—and became associated with contrasting religious and nationalist goals. Each chapter in this volume focuses on a key lexicographical work and its fateful political consequences. Recovering texts by overlooked and even denigrated authors, *Negotiating Languages* provides insight into the forces that turned intimate speech into a potent nationalist politics, intensifying the passions that partitioned the Indian subcontinent.

A Primer of Modern Standard Hindi Michael C. Shapiro. 1989 This primer presents a systematic introduction to the structure of Modern Standard Hindi. It is intended to provide the student with a thorough foundation in the grammatical structure of that variety of Hindi that is commonly taught in Indian schools and that is the common vehicle of publication in Hindi. Although much emphasis is placed on the written language, discussion is also provided of aspects of conversational Hindi. The

core of the work contains thirty on chapters. The first four offer discussions of the linguistic status of Hindi as well as comprehensive descriptions of Hindi phonetics and the Devanagari syllabary in which Hindi is written. Chapters 5 through 31 each contains descriptions of fundamental aspects of Hindi grammar. These chapters have extensive translation and grammatical exercises appended to them. The work as a whole introduces a core vocabulary of approximately fifteen hundred entries, incorporating lexical items found on most standard elementary word lists for the language. Supplemental materials in this book include graded reading passages, a guide to further study in Hindi, and Hindi English glossary. Although the Devanagari syllabary is used throughout the book, Roman transliteration is also provided through Chapter 15. A Primer of Modern Standard Hindi can be used in several different ways. It can be used as part of a university-level course as a text for Hindi grammar and writing. As such it will nicely supplement other materials addressing more conversational aspects of the language. It can also be used for self-study purposes by the student who does not have access to a formal instructional program.
