Acceptance is My Superpower Alicia Ortego.2021-04-22 Do you want your children to honor, celebrate, and see the beauty in our differences? We are all different. And whilst children are often wonderful at accepting differences easily, there are times when a lack of understanding can result in hurtful words or actions. As adults, it is our responsibility to teach children that differences are not flaws but are, in fact, our super powers. Lisa, a primary school student with a love of singing, learns just that in 'Acceptance is my Superpower' when a cruel comment from someone she regards as a friend leads her down a path of discovery of the true meaning of diversity and how it can be applied to everyone. Laid out as a charming poem with colourful illustrations, children will delight in learning: - How to love themselves - How to accept others - How to control negative emotions - How to share their newfound knowledge Learning by example The examples in this story are there to teach children that their differences are not to be ridiculed but instead, celebrated. When Lisa learns this valuable lesson in the book and then shares that knowledge with the person who upset her, we realise the importance of helping children understand the world would be a very boring place indeed if we were all the same. --- Just like all the petals on all these different flowers, Diversity is beautiful and gives us superpowers! Please join me and Lucas spread the word to all you know, Acceptance is our superpower and together we will grow. --- From the bestselling author of Kindness is my Superpower Join Lisa and Lucas, as together, they learn the most valuable lesson of all - they have a superpower - their acceptance. Why I Write George Orwell.2021-01-01 George Orwell set out 'to make political writing into an art', and to a wide extent this aim shaped the future of English literature - his descriptions of authoritarian regimes helped to form a new vocabulary that is

fundamental to understanding totalitarianism. While 1984 and Animal Farm are amongst the most popular classic novels in the English language, this new series of Orwell's essays seeks to bring a wider selection of his writing on politics and literature to a new readership. In Why I Write, the first in the Orwell's Essays series, Orwell describes his journey to becoming a writer, and his movement from writing poems to short stories to the essays, fiction and non-fiction we remember him for. He also discusses what he sees as the 'four great motives for writing' - 'sheer egoism', 'aesthetic enthusiasm', 'historical impulse' and 'political purpose' - and considers the importance of keeping these in balance. Why I Write is a unique opportunity to look into Orwell's mind, and it grants the reader an entirely different vantage point from which to consider the rest of the great writer's oeuvre. 'A writer who can - and must - be rediscovered with every age.' — Irish Times

Author Meri Cherry has more than 20 years of teaching experience, and her blog (mericherry.com) has set the standard for meaningful and enriching process art experiences that are both manageable for parents, and appealing and fun for kids. Play, Make, Create begins with a guide for parents, teachers, and facilitators that discusses how to set up materials in an inviting way, how to present an activity and talk to kids about art, and how to stock the right materials for ongoing creativity. Also included are best-practice tips for clean-up, answers to frequently asked questions, and more. The book offers four types of creative invitations: Invitations to Explore (easy ideas for fun

Ideas for building a science station that allow kids to experiment with kitchen cabinet supplies such as soap, measuring spoons, cotton balls, and baking soda. A prompt to draw a self-portrait, using a mirror (parents can draw themselves, too). Instructions for making homemade colored playdough. The activities in Play, Make, Create promote active, meaningful, and socially interactive learning. Children are encouraged to wonder, experiment, and use critical thinking—and most of all, enjoy the process.
