Six Nights on the Acropolis George Seferis.2007 Originally presented as the translator's thesis (doctoral)--New York University, New York, N.Y.

Treatise on the Whole-world .2020 This exciting, challenging book covers a wide range of subjects, linked together through the key ideas of diversity and 'Relation'. It sees our modern world, shaped by immigration and colonialism, as a multiplicity of communities interacting and evolving, and opposes all attempts to impose uniformity, universal or absolute values.

Time and Narrative, Volume 1 Paul Ricoeur.1990-09-15 In the first two volumes of this work, Paul Ricoeur examined the relations between time and narrative in historical writing, fiction and theories of literature. This final volume, a comprehensive reexamination and synthesis of the ideas developed in volumes 1 and 2, stands as Ricoeur's most complete and satisfying presentation of his own philosophy.

Investing in Cultural Diversity and Intercultural Dialogue Unesco.2009-01-01 This report analyses all aspects of cultural diversity, which has emerged as a key concern of the international community in recent decades, and maps out new approaches to monitoring and shaping the changes that are taking place. It highlights, in particular, the interrelated challenges of cultural diversity and intercultural dialogue and the way in which strong homogenizing forces are matched by persistent diversifying trends. The report proposes a series of ten policy-oriented recommendations, to the attention of States, intergovernmental and non-governmental organizations, international and regional bodies, national institutions and the private sector on how to invest in cultural diversity. Emphasizing the importance of cultural diversity in different areas (languages, education, communication and new media development, and creativity and the marketplace) based on data and examples collected from around the world, the report is also intended for the general public. It proposes a coherent vision of cultural diversity and clarifies how, far from being a threat, it can become beneficial to the action of the international community.

Heteropolis Charles Jencks.1993 In an age dominated by nationalism and ethnic conflict, Charles Jencks argues that these reactionary tendencies can be countered by an equally powerful drive - heterophilia: the love of difference, the desire to seek out new experience and curiosity. All of these are essential to the creation of a new form of city, the heteropolis, epitomized by Los Angeles. With over one hundred ethnic groups, forty different lifestyle clusters, eighty languages spoken in the schools, and extraordinarily different flora and fauna, Los Angeles' diversity has now become one of its main drawing points, and problems. Precariously balanced between civil unrest and the creative enjoyment of difference, it is something towards which other world cities, with their mass-migration and global trade are heading. The hetero-architecture of Los Angeles suggests a way beyond the present impasse between the fundamentalists and the multiculturalists, a third position which diffuses confrontation with creative displacement and inclusive eclecticism. The strange beauty of hetero-architecture embraces variety, its informality allows marginalized groups to feel at home and its unusual metaphors suggest our connection to the natural world. Frank Gehry, Eric Owen Moss, Morphosis, Frank Israel and Charles Moore are its visible leaders, but there is also a vernacular and funk version of the genre as well as the populist versions of Jon Jerde and Disneyland. The philosophy of hetero-architecture accepts difference as a necessity and turns it into a virtue with an informal aesthetic at once polyglot, abstract and representational - that is radically eclectic and inclusive in an understated way. The 'L.A. Style', as it is known, bears affinities with other aesthetics such as the Wabi and Sabi style of the Japanese. With many world cities now facing increasing pluralization, the heteropolis is bound to become a major urban form of the future.

Anthropology and Development Jean-Pierre Oliver De-Sardan.2013-07-18 This book re-establishes the relevance of mainstream anthropological (and sociological) approaches to development processes and simultaneously recognizes that contemporary development ought to be anthropology's principal area of study. Professor de Sardan argues for a socio-anthropology of change and development that is a deeply empirical, multidimensional, diachronic study of social groups and their interactions. The Introduction provides a thought-provoking examination of the principal new approaches that have emerged in the discipline during the 1990s. Part I then makes clear the complexity of social change and development, and the ways in which socio-anthropology can measure up to the challenge of this complexity. Part II looks more closely at some of the leading variables involved in the development process, including relations of production; the logics of social action; the nature of knowledge; forms of mediation; and 'political' strategies.

The Yam Lucien Degras.1993 This study of the dioscorea genus or yam, consisting of 600 species, is a synthesis of new information. In this world of famine, the yam must play a leading role in the regions it is grown. Its cultivation may even increase once the problems which this book highlights have been resolved. The text fills a critical gap, summarizing what is known about the yam; it is also significant because it asks many questions, and encourages further experimentation.

The Wretched of the Earth Frantz Fanon.2007-12-01 The sixtieth anniversary edition of Frantz Fanon's landmark text, now with a new introduction by Cornel West First published in 1961, and reissued in this sixtieth anniversary edition with a powerful new introduction by Cornel West, Frantz Fanon's *The Wretched of the Earth* is a masterful and timeless interrogation of race, colonialism, psychological trauma, and revolutionary struggle, and a continuing influence on movements from Black Lives Matter to decolonization. A landmark text for revolutionaries and activists, *The Wretched of the Earth* is an eternal touchstone for civil rights, anti-colonialism, psychiatric studies, and Black consciousness movements around the world. Alongside Cornel West's introduction, the book features critical essays by Jean-Paul Sartre and Homi K. Bhabha. This sixtieth anniversary edition of Fanon's most famous text stands proudly alongside such pillars of anti-colonialism and anti-racism as Edward Said's *Orientalism* and *The Autobiography of Malcolm X*.

Everyday Life Lydie Salvayre.2006 The hiring of a new secretary shouldn't be a big deal--just a slight change in the office environment. But for the protagonist of this novel, it is a declaration of war, a call to arms: The new secretary has only been here two days, she says, and I'm already talking about evil, a word I shouldn't even be using--arming myself for battle and choosing my weapons. Her quiet life of sacrifice and service has been rudely disrupted by the new hire, and she is not--despite the advice of her doctor, her neighbors, and her daughter--about to leave it at that. Instead, sabotage, alcohol, and kindness become the arsenal in a conflict fought across copy rooms and office parties. But the humor is undercut by a sadness, a sense of defeat that makes this slim novel resonate with the injustice of our increasingly impersonal, corporate world.

The Colonial System Unveiled Baron De Vastey.2016-01-25 Long neglected in mainstream history books, the Haitian Revolution (1791-1804) is now being claimed across a range of academic

disciplines as an event of world-historical importance. The former slaves' victory over their French masters and the creation of the independent nation of Haiti in 1804 is being newly heralded not only as a seminal moment in the transnational formation of the 'black Atlantic' but as the most far-reaching manifestation of 'Radical Enlightenment'. The best known Haitian writer to emerge in the years after the revolution is Baron de Vastey (1781-1820), who authored over ten books and pamphlets between 1814 and his murder in 1820. His first and most incendiary work, *Le système colonial dévoilé* (1814), provides a moving invocation of the horrors of slavery in pre-revolutionary Saint-Domingue. Its trailblazing critique of colonialism anticipates by over a hundred years the anticolonial politics (and poetics) of Césaire, Fanon, and Sartre. Translated here for the first time, Vastey's forceful unveiling of the colonial system will be compulsory reading for scholars across the humanities.

International Health Regulations (2005) World Health Organization.2008-12-15 In response to the call of the 48th World Health Assembly for a substantial revision of the International Health Regulations, this new edition of the Regulations will enter into force on June 15, 2007. The purpose and scope of the Regulations are to prevent, protect against, control and provide a public health response to the international spread of disease in ways that are commensurate with and restricted to public health risks, and which avoid unnecessary interference with international traffic and trade. The Regulations also cover certificates applicable to international travel and transport, and requirements for international ports, airports and ground crossings.

The Portage to San Cristobal of A. H. George Steiner.2020-01-30 Imagine, thirty years after the end of World War II, Israeli Nazi-hunters, some of whom lost relatives in the gas chambers of Nazi Germany, find a silent old man deep in the Amazon jungle. He is Adolph Hitler. The narrative that follows is a profound and disturbing exploration of the nature of guilt, vengeance, language, and the power of evil—each undiminished over time. George Steiner's stunning novel, now with a new afterword, will continue to provoke our thinking about Nazi Germany's unforgettable past. Two readings have convinced me that this is a fiction of extraordinary power and thoughtfulness. . . . [A] remarkable novel.—Bernard Bergonzi, *Times Literary Supplement* In this tour de force Mr. Steiner makes his reader re-examine, to whatever conclusions each may choose, a history from which we would prefer to avert our eyes.—Edmund Fuller, *Wall Street Journal* Portage largely avoids both the satisfactions of the traditional novel and the horrifying details of Holocaust literature. Instead, Steiner has taken as his model the political imaginings of an Orwell or Koestler. . . . He has produced a philosophic fantasy of remarkable intensity.—Otto Friedrich, *Time*

Houseboy Ferdinand Oyono.2012-09-24 Toundi Ondoua, the rural African protagonist of *Houseboy*, encounters a world of prisms that cast beautiful but unobtainable glimmers, especially for a black youth in colonial Cameroon. *Houseboy*, written in the form of Toundi's captivating diary and translated from the original French, discloses his awe of the white world and a web of unpredictable experiences. Early on, he escapes his father's angry blows by seeking asylum with his benefactor, the local European priest who meets an untimely death. Toundi then becomes the Chief Europeans' boy-the dog of the King. Toundi's attempt to fulfill a dream of advancement and improvement opens his eyes to troubling realities. Gradually, preconceptions of the Europeans come crashing down on him as he struggles with his identity, his place in society, and the changing culture.

The Lecture Lydie Salvayre.2005 One of the oddest characters in contemporary fiction, the lecturer

can't help but digress about his sad life in the midst of his speech, although he's too self-deluded to realize quite how sad it is. Salvayre's *The Lecture* is an example of political double-talk and misogyny run wild.--Jacket.

The Book of Margins Edmond Jabès.1993-06-15 The death of Edmond Jabès in January 1991 silenced one of the most compelling voices of the postmodern, post-Holocaust era. Jabès's importance as a thinker, philosopher, and Jewish theologian cannot be overestimated, and his enigmatic style—combining aphorism, fictional dialogue, prose meditation, poetry, and other forms—holds special appeal for postmodern sensibilities. In *The Book of Margins*, his most critical as well as most accessible book, Jabès is again concerned with the questions that inform all of his work: the nature of writing, of silence, of God and the Book. Jabès considers the work of several of his contemporaries, including Georges Bataille, Maurice Blanchot, Roger Caillois, Paul Celan, Jacques Derrida, Michel Leiris, Emmanuel Lévinas, Pier Paolo Pasolini, and his translator, Rosmarie Waldrop. This book will be important reading for students of Jewish literature, French literature, and literature of the modern and postmodern ages. Born in Cairo in 1912, Edmond Jabès lived in France from 1956 until his death in 1991. His extensively translated and widely honored works include *The Book of Questions* and *The Book of Shares*. Both of these were translated into English by Rosmarie Waldrop, who is also a poet. Religion and Postmodernism series

Tram 83 Fiston Mwanza Mujila.2015-08-17 Two friends, one a budding writer home from Europe, the other an ambitious racketeer, meet in the only nightclub, the Tram 83, in a war-torn city-state in secession, surrounded by profit-seekers of all languages and nationalities. Tram 83 plunges the reader into the modern African gold rush as cynical as it is comic and colorfully exotic, using jazz rhythms to weave a tale of human relationships in a world that has become a global village. Fiston Mwanza Mujila (b. 1981, Lubumbashi, Democratic Republic of Congo) is a poet, dramatist, and scholar. Tram 83 is his award-winning and raved-about debut novel that caused a literary sensation when published in France in August 2014.

The Power of Flies Lydie Salvayre.2007 *The Power of Flies* begins in a courtroom, where a man is undergoing an interrogation. He has committed a crime, and he must now explain himself. But instead of letting the judge, lawyer, and psychiatrist question him, he asks himself all the questions--and answers them. While ranting on to the court about various topics--his family, the museum where he works as a tour guide, and even the French philosopher and mathematician, Blaise Pascal--the narrator of *The Power of Flies* reveals himself to be both calculating and unstable. In this latest novel from acclaimed French writer Lydie Salvayre, it is up to the reader to sort through his

philosophical diatribe to discover why this man turned killer.

What Is World Literature? David Damrosch.2018-06-05 World literature was long defined in North America as an established canon of European masterpieces, but an emerging global perspective has challenged both this European focus and the very category of the masterpiece. The first book to look broadly at the contemporary scope and purposes of world literature, *What Is World Literature?* probes the uses and abuses of world literature in a rapidly changing world. In case studies ranging from the Sumerians to the Aztecs and from medieval mysticism to postmodern metafiction, David Damrosch looks at the ways works change as they move from national to global contexts. Presenting world literature not as a canon of texts but as a mode of circulation and of reading, Damrosch argues that world literature is work that gains in translation. When it is effectively presented, a work of world literature moves into an elliptical space created between the source and receiving cultures, shaped by both but circumscribed by neither alone. Established classics and new discoveries alike participate in this mode of circulation, but they can be seriously mishandled in the process. From the rediscovered Epic of Gilgamesh in the nineteenth century to Rigoberta Menchú's writing today, foreign works have often been distorted by the immediate needs of their own editors and translators. Eloquently written, argued largely by example, and replete with insightful close readings, this book is both an essay in definition and a series of cautionary tales.

The Explosion of the Radiator Hose (French Literature Series) Jean Rolin.2011-04-05 Fiction, autobiography, travel narrative, "gonzo" journalism, and historiography are all parts of Rolin's rollicking narrative. In this nominally true story of an epic, transcontinental road trip, Jean Rolin travels to Africa from darkest France, accompanying a battered Audi to its new life as a taxi to be operated by the family of a Congolese security guard. The ghost of Joseph Conrad haunts Rolin's journey, as do memories of his expatriate youth in Kinshasa in the early 1960s—but no less present are W. G. Sebald and Marcel Proust, who are the guiding lights for Rolin's sensual and digressive attack upon history: his own as well as the world's. By turns comic, lyrical, gruesome, and humane, *The Explosion of the Radiator Hose* is a one-of-a-kind travelogue, and no less an exploration of what it means to be human in a life of perpetual exile and migration.
