The inspirational Miyake, Yamamoto and Kawakubo have gained worldwide respect and admiration and have influenced a generation of designers and artists alike. Based on twelve years of research, this book provides a richly detailed and uniquely comprehensive view of the work of these three key designers. It outlines their major contributions and the subsequent impact that their work has had upon the next generation of fashion and textile designers around the world. Revolt Against the Modern World Julius Evola.2018-07-13 With unflinching gaze and uncompromising intensity Julius Evola analyzes the spiritual and cultural malaise at the heart of Western civilization and all that passes for progress in the modern world. As a gadfly, Evola spares no one and nothing in his survey of what we have lost and where we are headed. At turns prophetic and provocative, *Revolt against the Modern World* outlines a profound metaphysics of history and demonstrates how and why we have lost contact with the transcendent dimension of being. The revolt advocated by Evola does not resemble the familiar protests of either liberals or conservatives. His criticisms are not limited to exposing the mindless nature of consumerism, the march of progress, the rise of technocracy, or the dominance of unalloyed individualism, although these and other subjects come under his scrutiny. Rather, he attempts to trace in space and time the remote causes and processes that have exercised corrosive influence on what he considers to be the higher values, ideals, beliefs, and codes of conduct--the world of Tradition--that are at the foundation of Western civilization and described in the myths and sacred literature of the Indo-Europeans. Agreeing with the Hindu philosophers that history is the movement of huge cycles and that we are now in the Kali Yuga, the age of dissolution and decadence, Evola finds revolt to be the only logical response for those who oppose the materialism and ritualized meaninglessness of life in the twentieth century. Through a sweeping study of the structures, myths, beliefs, and spiritual traditions of the major Western civilizations, the author compares the characteristics of the modern world with those of traditional societies. The domains explored include politics, law, the rise and fall of empires, the history of the Church, the doctrine of the two natures, life and death, social institutions and the caste system, the limits of racial theories, capitalism and communism, relations between the sexes, and the meaning of warriorhood. At every turn Evola challenges the reader's most cherished assumptions about fundamental aspects of modern life. A controversial scholar, philosopher, and social thinker, JULIUS EVOLA (1898-1974) has only recently become known to more than a handful of English-speaking readers. An authority on the world's esoteric traditions, Evola wrote extensively on ancient civilizations and the world of Tradition in both East and West. Other books by Evola published by Inner Traditions include *Eros and the Mysteries of Love*, *The Yoga of Power*, *The Hermetic Tradition*, and *The Doctrine of Awakening*.

The Iconology of Abstraction Krešimir Purgar.2020-06-15 This book uncovers how we make meaning of abstraction, both historically and in present times, and examines abstract images as a visual language. The contributors demonstrate that abstraction is not primarily an artistic phenomenon, but rather arises from human beings' desire to imagine, understand and communicate complex, ineffable concepts in fields ranging from fine art and philosophy to technologies of data visualization, from cartography and medicine to astronomy. The book will be of interest to scholars working in image studies, visual studies, art history, philosophy and aesthetics.

The Persianate World Nile Green.2019-04-09 A free open access ebook is available upon publication. Learn more at www.luminosoa.org. Persian is one of the great lingua francas of world history. Yet despite its recognition as a shared language across the Islamic world and beyond, its scope, impact, and mechanisms remain underexplored. A world historical inquiry into pre-modern cosmopolitanism, *The Persianate World* traces the reach and limits of Persian as a Eurasian language in a comprehensive survey of its geographical, literary, and social frontiers. From Siberia to Southeast Asia, and between London and Beijing, this book shows how Persian gained, maintained, and finally surrendered its status to imperial and vernacular competitors. Fourteen essays trace Persian's interactions with Bengali, Chinese, Turkic, Punjabi, and other languages to identify the forces that extended "Persographia," the domain of written Persian. Spanning the ages of expansion and contraction, *The Persianate World* offers a critical survey of both the supports and constraints of one of history's key languages of global exchange.

Great Ideas V Dialogue Between Fashion and Death Giacomo Leopardi.2010-09-21 Leopardi, poet and philosopher, explores in humorous but savage dialogue the power of fashion and its strange irrationality. He also imagines conversations between Hercules and Atlas, Nature and an Icelander, and the Earth and the Moon, as well as producing a simple essay praising the humble bird. GREAT IDEAS. Throughout history, some books have changed the world. They have transformed the way we see ourselves - and each other. They have inspired debate, dissent, war and revolution. They have enlightened, outraged, provoked and comforted. They have enriched lives - and destroyed them. Now Penguin brings you the works of the great thinkers, pioneers, radicals and visionaries whose ideas shook civilization and helped make us who we are.

Colour and colour naming: crosslinguistic approaches João Paulo Silvestre, Esperança Cardeira, Alina Villalva.2016-09-01 The Colour and Colour Naming conference, held in 2015 at the University of Lisbon, offered a chance to explore colour naming processes from a cross-linguistic approach. The conference was an initiative of the working group Lexicography And Lexicology from a Pan-European Perspective, itself part of the COST action European Network of Lexicography. The working group investigates the various ways by which vocabularies of European languages can be represented in dictionaries and how existing information from single language dictionaries can be displayed and interlinked to better communicate their common European heritage. The proceedings gather together a selection of studies originally presented at the conference. The first section of the volume outlines a Pan-European perspective of colour names; the second section is devoted to the categorisation and lexicographic description of colour terms.

Provence and the British Imagination Claire Davison.2016-08-12 Although it resonates today with lavender fields, sunny heritage locations and the gentrified memory of Paul Cézanne's pictorial turbulence, Provence has not always been the attractive territory of pacified leisure and festival culture. Since the seventeenth century, indeed, the region has inscribed its shifting geography, complex politics and the extraordinary diversity of its land and seascapes in the perception and imagination of British visitors. In the steps of anonymous or excellent travellers, the chapters of this volume chart some of the most significant moments in the intercultural transactions between the proud linguistic and literary distinctiveness of the province on one hand and the always challenged and sometimes baffled perception of Anglophone (and Anglophile) visitors on the other. Spanning across two centuries, from the largely unknown pre-revolutionary Provence visited by John Locke and Tobias Smollett through the Victorian paradise of popular tourism and finally to the more secret 'homeland' of Modernists, this volume reveals an unexpected Provence which, in oblique and complex ways, has long held a mirror to British culture and often acted as the laboratory of its artistic life.

The Landscape of Lexicography Alina Villalva, Geoffrey Williams.2019-08-01 This book consists of a series of papers that look at three different aspects of the landscape as seen in dictionaries from across Europe. Multilingual diachronic case studies into lexicographical descriptions of flora, landscape features and colours concentrate on three supposedly simple words: daisies (*Bellis perennis* L.), hills and the colour red. The work is part of the ongoing LandLex initiative, originally developed as part of the COST ENeL - European Network for e-Lexicography - action. The group brings together researchers in lexicography and lexicology from across Europe and is dedicated to studying multilingual and diachronic issues in language. It aims to valorise the wealth of European language diversity as found in dictionaries by developing and testing new digital annotation tools and a historical morphological dictionary prototype. Funded by the Horizon 2020 Framework Programme of the European Union

Planning non existent dictionaries João Paulo Silvestre, Alina Villalva .2015 There is an increasing number of dictionary types and lexical search-tools designed to respond to an ever-growing array of user needs. The quest for innovation, however, is not over and this is what this book shall shed light on. In the autumn of 2013, a conference entitled Planning non-existent dictionaries was held at the University of Lisbon. Scholars and lexicographers were invited to present and submit for discussion their research and practices, focusing on aspects that are traditionally perceived as shortcomings by dictionary makers and dictionary users. The topics for debate were intended to be provocative: the identification of dictionary types that have never been developed for certain languages or for a given lexical domain, as well as typological and linguistic problems that may compromise the development of lexicographic projects. We hoped that the discussion would lead to the presentation of problem-solving strategies, especially those related to corpora documentation, information technology and data presentation. We received an incredible response and have had the opportunity to acknowledge several projects that are different in size, novelty and degree of accomplishment.

Italian Ceramics Catherine Hess.2003-01-01 In 1984 the Getty Museum acquired an exceptional collection of Italian Renaissance maiolica, or tin-glazed earthenware. These often brilliantly colored objects range from an early Florentine jar with relief-blue decoration to a much later Mannerist dish with grotesque ornament. The collection was the subject of *Italian Maiolica*, a beautifully illustrated catalogue that the Museum published in 1988. *Italian Ceramics* amplifies and updates the earlier volume, including objects—some of them porcelain and terracotta—acquired during the intervening years. Among them are a pair of eighteenth-century candlesticks representing mythological scenes and a tabletop with hunting scenes; and, from the 1790s, the beautifully modeled and painted Saint Joseph with the Christ Child. *Italian Ceramics* contains the most recent scientific, historical, and iconographic information about the Museum's holdings. Completely revised and expanded, this book offers a wealth of new information about the Getty Museum's superb collection, which spans more than four centuries of Italian ceramic art.
