Guinness John Sparks.2021-11-22 World Records 2022

Hör mal - In der Natur Anne Möller.2010 Der Natur lauschen: Warum quakt der Frosch, wie macht er das und wozu eigentlich? Und wie hört sich das genau an? Wie klingt der Gesang des Heupferdes? Auch dem Rotkehlchen kann man lauschen, dem Waldkauz, der Möwe, dem Meer (so echt, dass Fernwehgefahr aufkommt) und dem Gewitter. Jede Doppelseite ist einem Geräusch gewidmet. Die naturalistischen Zeichnungen zeigen die Tiere in ihrer natürlichen Umgebung und lassen Details entdecken. Es ist jeweils ein winziger Knopf integriert, den das Kind drücken kann, um das passende Geräusch abzuspielen, was bei Kleineren etwas Übung erfordert. Dazu kommt ein wunderbar geschriebener Text, der in einfacher Weise erklärt, wie die Natur diese Töne hervorbringt. Die Kinder werden ernst genommen, denn sie bekommen Erklärungen, die sie verstehen können, die aber auch ein Biologe als korrekt durchgehen lassen würde. So wird etwa beim Heupferd erklärt, dass es schnell die Flügel aneinanderreibt, damit vielleicht eine Heupferd-Frau das Geräusch hört. Wohltuend unterscheidet sich das Buch von anderen Soundbilderbüchern dadurch, dass es echte Naturaufnahmen abspielt. Ab 2 Jahren, *****, Alexandra von Ascheraden.

The Irish Dancing Barbara O'Connor (Cultural historian).2013 Partly thematic, partly chronological, this account of dance in Ireland emerges out of a broader interest in the body in society as well as in

the construction of national and gender identities. It comprises seven chapters each of which addresses a particular form of cultural identity. These include national, ethnic, gender, social class, postmodern and global identities. It is structured in such a way that many of the chapters are devoted to a specific identity formation while issues of gender and social class are interwoven into most chapters. Underpinning the discussion throughout is the assumption that dance both reflects and produces the social, cultural and politic contexts within which it is performed and represented. This is so because bodily movement including dance reflects societal structures, norms and values as attested to by sociologists and dance scholars alike. Interwoven into the dance narrative, therefore, is the flow of Irish society over this time; a flow that incorporates social stability and social change, tradition and modernity, men and women, rural and urban, as well as the local, the national and the global.

Can its pride in place counter globalisation- without collapsing into narrow nationalism? The answer for, Gary West, is a resounding Yes. **SCOTSMAN** *Voicing Scotland*...is an

engrossing assessment of where Scottish Traditional Music stands, at a time of resonant political developments in the nation's history but also of globalisation and the threat of cultural homogenisation in today's 'liquid society'. SCOTSMAN

Walter Benjamin and Art Andrew Benjamin.2005-02-01 Walter Benjamin's most famous and influential essay remains *The Work of Art in the Age of Mechanical Reproduction*. Walter Benjamin and the *Work of Art* is the first book to provide a broad and dedicated analysis of this canonical work and its effect upon core contemporary concerns in the visual arts, aesthetics and the history of philosophy. The book is structured around three distinct areas: the extension of Benjamin's work; the question of historical connection; the importance of the essay in the development of criticism of both the visual arts and literature. Contributors to the volume include major Benjamin commentators, whose work has very much defined the reception of the essay, and leading philosophers, historians and aesthetician, whose approaches open up new areas of interest and relevance.

Making Noise Hillel Schwartz.2011 Listening across millennia, a cultural historian explores the process by which noise today has become as powerfully metaphorical--and intriguing--as the original Babel. When did the silent deeps become cacophonous and galaxies begin to swim in a sea of cosmic noise? Why do we think that noises have colors and that colors can be loud? How loud is too loud, and says who? Attending, as ears do, to a surround of sounds at once physical and political, Hillel

Schwartz listens across millennia for changes in the Western experience and understanding of noise. From the uproarious junior gods of Babylonian epics to crying infants heard over baby monitors, from doubly mythic Echo to amplifier feedback, from shouts frozen in Rabelaisian air to the squawk of loudspeakers and the static of shortwave radio, *Making Noise* follows unwanted sound on its surprisingly revealing path through terrains domestic and industrial, urban and rural, legal and religious, musical and medical, poetic and scientific. At every stage, readers can hear the cultural reverberations of the historical soundwork of actresses, admen, anthropologists, astronomers, builders, composers, dentists, economists, engineers, filmmakers, firemen, grammar school teachers, jailers, nurses, oceanographers, pastors, philosophers, poets, psychologists, and the writers of children's books. Drawing upon such diverse sources as the archives of antinoise activists and radio advertisers, catalogs of fireworks and dental drills, letters and daybooks of physicists and physicians, military manuals and training films, travel diaries and civil defense pamphlets, as well as museum collections of bells, ear trumpets, megaphones, sirens, stethoscopes, and street organs, Schwartz traces the process by which noise today has become as powerfully metaphorical as the original Babel. Endnotes and bibliography are not included in the physical book but are available online at the MIT Press Web site.

Kafka Goes to the Movies Hanns Zischler.2003 Went to the movies. Wept. Matchless entertainment. So wrote Franz Kafka in one of his diaries, giving us but one hint of his little-known passion for the cinema. Until now, Kafka aficionados have been left to speculate about which films moved Kafka so powerfully and how those films might have influenced his writing. With *Kafka Goes to the Movies*, German actor and film director Hanns Zischler draws on years of detective work to

provide the first account of Kafka's moviegoing life. Since many of Kafka's visits to the cinema occurred during bachelor trips with Max Brod, Zischler's research took him not only to Kafka's native Prague but to film archives in Munich, Milan, and Paris. Matching Kafka's cinematic references to reviews and stills from daily papers, Zischler hunted down rare films in collections all across Europe. A labor of love, then, by a true man of the cinema, *Kafka Goes to the Movies* brims with discoveries about the pioneering years of European film. With a wealth of illustrations, including reproductions of movie posters and other rare materials, Zischler opens a fascinating window onto movies that have been long forgotten or assumed lost. But the real highlights of the book are those about Kafka himself. Long considered one of the most enigmatic figures in literature, the Kafka that emerges in this work is strikingly human. *Kafka Goes to the Movies* offers an absorbing look at a witty, passionate, and indulgently curious writer, one who discovered and used the cinema as a place of enjoyment and escape, as a medium for the ambivalent encounter with modern life, and as a filter for the changing world around him.

Fairport by Fairport Fairport Convention.2013-07-11 This first official history of the group candidly tells the Fairport Convention story in the words and recollections of its past and present members. Their history is one of musical revolution and evolution. It is a tale of friendships formed, Folk Rock invented and dedication personified. Speaking fully and frankly about the music and its shifts in direction, the endless tours, the regular comings and goings within the group, the triumphs and tragedies, it tells the remarkable story of the survival by a group who retired in 1979—only to play a reunion concert in Cropredy the following year. They enjoyed the reunion so much that they repeated it, and the now world renowned festival still takes place annually in the small Oxfordshire

village of Cropredy. Alongside the current line-up of founding member Simon Nicol, longest serving member Dave Pegg (who joined in 1970), Ric Sanders, Chris Leslie and latest recruit Gerry Conway, who joined a mere 15 years ago, are contributions from such pivotal players as Richard Thompson, Ashley Hutchings, Dave Mattacks, Dave Swarbrick, Jerry Donahue and Judy Dyble. In addition, there are previously unpublished comments from Sandy Denny and Trevor Lucas. Fellow travellers helping tell the story include Joe Boyd, Robert Plant, Paul McCartney, Billy Connolly, Ralph McTell, Martin Carthy and John Peel. This candid, unexpurgated portrait of not only Britain's, but one of the world's most influential and significant groups, offers a unique and thoroughly entertaining look at almost a half century of music making, touring, and festival-going.

Lina Bo Bardi 100 Lina Bo Bardi.2014 On the occasion of Italo-Brazilian architect Lina Bo Bardi's one hundredth birthday, this richly illustrated volume presents an overview of her oeuvre and highlights iconic buildings, such as her own home, the so-called Casa de Vidro, the Museo de Arte de Sao Paulo, and the cultural center SESC Pompeia. This is a spectacular book on a celebrated architect. Spanning architecture, stage sets, fashion, and furniture, her work drew inspiration from the International Style, which she translated into her own visual language. Fundamental to her work was her thoughtful engagement with her adopted country of Brazil, its culture, society, and politics, and she productively and provocatively voiced her sometimes radical views through designs, exhibitions, and writings.

Making Africa Vitra Design Museum.2015 *Making Africa*« takes a fresh look at African design. For the first time, we have a book that focuses on creative accomplishments on the continent, without being obsessed with the usual tropes of recycling, humanitarian design or traditional crafts. Instead, »*Making Africa*« shows a new generation of designers who use their work as a tool for economic, political and social change and therefore also to create a new future for the continent. Their creative output defies all definitions of genres - crossing over classical fields such as furniture design, product design and typography to encompass digital media, art, photography, architecture and film. A large section of the catalogue is dedicated to documenting work by over 120 protagonists of Africa's new creative epoch - including Cyrus Kabiru, Cheick Diallo, Mário Macilau, Francis Kéré, David Adjaye, Kunlé Adeyemi, Bodys Isek Kingelez, Robin Rhode, Alaforu Sikoki, Selly Raby Kan and many more. The historical and theoretical background is explored in essays and discussions with Okwui Enwezor, Koyo Kouoh, Edgar Pieterse and Amelie Klein, among others. These are complemented by statements from around 70 other experts from Africa, who met at interviews and think tanks in cities such as Cape Town, Johannesburg, Lagos, Dakar, Nairobi and Cairo. This is a book about the future of Africa and about a new, more open way of understanding design - which

means it is also a book about what design can achieve in the 21st century.

John Cohen. 2014 John Cohen's portraiture of two titans of American music at opposite ends of their careers John Cohen was a founding member of the New Lost City Ramblers, one of the American folk revival's most authentic and respected musical groups. In the 1960s he made a series of photographs of the last years of Woody Guthrie's life, and early portraits of Bob Dylan on his arrival in New York, depicting two titans of American music at opposite ends of their careers. In the process, Cohen portrayed one of the great moments of American folk music history. The book contains other images from the 1960s, including the music scenes at Washington Square and on MacDougal Street in Greenwich Village, images of Jerry Garcia and the musicians in San Francisco's Family Dog, as well as the psychedelic Sky River Rock festival. In 1970, Dylan requested Cohen make another set of color photographs of him with a camera that could take photographs from a block away. He was portrayed walking unrecognized on the streets of the city and at a farm in upstate New York. The photographs were used in Dylan's album *Self Portrait*.

the 1960s, his many career highs and lows, and his friendships with the great lost souls of British rock music, Nick Drake and Paul Kossoff.
