U.S. Marines In Vietnam: The Landing And The Buildup, 1965 Dr. Jack Shulimson, Maj. Charles M. Johnson. 2016-08-09

This is the second volume in a series of chronological histories prepared by the Marine Corps History and Museums Division to cover the entire span of Marine Corps involvement in the Vietnam War. This volume details the Marine activities during 1965, the year the war escalated and major American combat units were committed to the conflict. The narrative traces the landing of the nearly 5,000-man 9th Marine Expeditionary Brigade and its transformation into the III Marine Amphibious Force, which by the end of the year contained over 38,000 Marines. During this period, the Marines established three enclaves in South Vietnam's northernmost corps area, I Corps, and their mission expanded from defense of the Da Nang Airbase to a balanced strategy involving base defense, offensive operations, and pacification. This volume continues to treat the activities of Marine advisors to the South Vietnamese armed forces but in less detail than its predecessor volume, U.S. Marines in Vietnam, 1954-1964; The Advisory and Combat Assistance Era.

Snobbery Joseph Epstein. 2003-07-07 Observations on the many ways we manage to look down on others, from “a writer who can make you laugh out loud on every third page” (The New York Times Book Review). Snobs are everywhere. At the gym, at work, at school, and sometimes even lurking in your own home. But how did we, as a culture, get this way? With dishy detail, Joseph Epstein skewers all manner of elitism as he examines how snobbery works, where it thrives, and the pitfalls and perils in thinking you’re better than anyone else. Offering arch observations on the new footholds of snobbery, including food, fashion, high-achieving children, schools, politics, being with-it—whatever “it” is—name-dropping, and much more, Epstein explores the shallows and depths of a concept that has become part of our everyday lives . . . for better or worse. “Smart, witty, perceptive . . . and almost always—in the best sense of the word—entertaining,” Snobbery provides the ultimate social commentary on arrogance in America (The Washington Post Book World). It’s a book you shouldn’t be caught dead without.

Grassroots Literacy Jan Blommaert. 2008-06-03 What effect has globalization had on our understanding of literacy? Grassroots Literacy seeks to address the relationship between globalization and the widening gap between ‘grassroots’ literacies, or writings from ordinary people and local communities, and ‘elite’ literacies. Displaced from their original context to elite literacy environments in the form of letters, police declarations and pieces of creative writing, ‘grassroots’ literacies are unsurprisingly easily disqualified, either as ‘bad’ forms of literacy, or as messages that fail to be understood. Through close analysis of two unique, handwritten documents from the Democratic

Republic of the Congo, Jan Blommaert considers how 'grassroots' literacy in the Third World develops outside the literacy-saturated environments of the developed world. In examining these documents produced by socially and economically marginalized writers Blommaert demonstrates how literacy environments should be understood as relatively autonomous systems.

Grassroots Literacy will be key reading for students of language and literacy studies as well as an invaluable resource for anyone with an interest in understanding the implications of globalization on local literacy practices.

100 People Who Are Screwing Up America Bernard Goldberg. 2009-10-13 The number one New York Times bestselling author of *Bias* delivers another bombshell—this time aimed at . . . 100 People Who Are Screwing Up America No preaching. No pontificating. Just some uncommon sense about the things that have made this country great—and the culprits who are screwing it up. Bernard Goldberg takes dead aim at the America Bashers (the cultural elites who look down their snobby noses at ordinary Americans) . . . the Hollywood Blowhards (incredibly ditzy celebrities who think they're smart just because they're famous) . . . the TV Schlockmeisters (including the one whose show has been compared to a churning mass of maggots devouring rotten meat) . . . the Intellectual Thugs (bigwigs at some of our best colleges, whose views run the gamut from left wing to far left wing) . . . and many more. Goldberg names names, counting down the villains in his rogues' gallery from 100 all the way to 1—and, yes, you-know-who is number 37. Some

supposedly serious journalists also made the list, including the journalist-diva who sold out her integrity and hosted one of the dumbest hours in the history of network television news. And there are those famous miscreants who have made America a nastier place than it ought to be—a far more selfish, vulgar, and cynical place. But Goldberg doesn't just round up the usual suspects we have come to know and detest. He also exposes some of the people who operate away from the limelight but still manage to pull a lot of strings and do all sorts of harm to our culture. Most of all, *100 People Who Are Screwing Up America* is about a country where as long as anything goes, as one of the good guys in the book puts it, sooner or later everything will go. This is serious stuff for sure. But Goldberg will also make you laugh as he harpoons scoundrels like the congresswoman who thinks there aren't enough hurricanes named after black people, and the environmentalist to the stars who yells at total strangers driving SUVs—even though she tools around the country in a gas-guzzling private jet. With *Bias*, Bernard Goldberg took us behind the scenes and exposed the way Big Journalism distorts the news. Now he has written a book that goes even further. This time he casts his eye on American culture at large—and the result is a book that is sure to become the voice of all those Americans who feel that no one is speaking for them on perhaps the most vital issue of all: the kind of country in which we want to live.

Homosexuality and Christian Community Choon Leong

Seow.1996-01-01 Contributors to this volume, all members of the Princeton Theological Seminary faculty, address the various exegetical, interpretive, and practical issues pertaining to the issue of homosexuality in the church. These include the ordination of homosexuals and the blessing of homosexual unions, as well as broader issues dealing with liturgical and theological language about God and the role of the church in a pluralistic society. The contributors speak of these various issues as theological educators, ministers, and committed Christians. They ask, What do the scriptures say about homosexuality and related issues? How should the scriptures inform our theological reflection? and How do we live faithfully in regard to this matter? And like the Christian community at large, the contributors are not of one mind on any of these issues; many times they are in considerable disagreement. Homosexuality and Christian Community will help to guide churches and individuals engaged in theological reflection about the place of homosexuals in the church.

George Catlett Marshall.1976 George C. Marshall was an American military leader, Chief of Staff of the Army, Secretary of State, and the third Secretary of Defense. Once noted as the organizer of victory by Winston Churchill for his leadership of the Allied victory in World War II, Marshall served as the United States Army Chief of Staff during the war and as the chief military adviser to President Franklin D. Roosevelt. As Secretary of State, his name was given to the Marshall Plan, for which he was awarded the Nobel Peace Prize in 1953. He drafted this manuscript while he was in Washington, D.C., between 1919 and 1924 as aide-de-camp to General of the Armies John J. Pershing. However, given the growing bitterness of the memoirs wars of the period he decided against publication, and the draft sat unused

until the 1970s when Marshall's step-daughter and her husband decided to publish it.

A Grammar of the Hittite Language Harry A. Hoffner Jr., H. Craig Melchert. 2008-06-23 Hoffner and Melchert's long-awaited work is sure to become both the standard reference grammar and the main teaching tool for the Hittite language. The first volume includes a thorough description of Hittite grammar, grounded in an abundance of textual examples. Moreover, the authors take into account a vast array of studies on all aspects of the Hittite language. In the five decades since the publication of the second edition of Johannes Friedrich's *Hethitisches Elementarbuch* (1960), our knowledge of Hittite grammar has become more detailed and nuanced, especially because of the number of new texts available and the growing body of secondary literature. This first volume in the LANE series fills a serious gap and offers a comprehensive reference for decades to come. The second volume is a tutorial that consists of a series of graded lessons with illustrative sentences for the student to translate. The tutorial is keyed to the reference grammar and provides extensive notes. The printed grammar volume is accompanied by a CD-ROM that contains the entire text of the grammar and tutorial in searchable, cross-referenced, and hyperlinked form.

Not in His Image (15th Anniversary Edition) John Lamb Lash. 2021-09-18 "Lash is capable of explaining the mind-bending concepts of Gnosticism and pagan mystery cults with bracing clarity and startling insight. . . . [His] arguments are often lively and entertaining."—Los Angeles Times Fully revised and with a new preface by the author, this timely update is perfect for readers of *The Immortality Key*. Since its initial release to wide acclaim in 2006, *Not in His Image* has transformed the lives of readers around the world by presenting the living presence of the Wisdom Goddess as never before revealed, illustrating that the truth of an impactful Gnostic message cannot be hidden or destroyed. With clarity, author John Lamb Lash explains how a

little-known messianic sect propelled itself into a dominant world power, systematically wiping out the great Gnostic spiritual teachers, the Druid priests, and the shamanistic healers of Europe and North Africa. Early Christians burned libraries and destroyed temples in an attempt to silence the ancient truth-tellers and keep their own secrets. Not in His Image delves deeply into ancient Gnostic writings to reconstruct the story early Christians tried to scrub from the pages of history, exploring the richness of the ancient European Pagan spirituality—the Pagan Mysteries, the Great Goddess, Gnosis, the myths of Sophia and Gaia. In the 15th Anniversary Edition, Lash doubles down on his original argument against redemptive ideology and authoritarian deceit. He shows how the Gnostics clearly foresaw the current program of salvation by syringe, and places the Sophianic vision of life centrally in the battle to expose and oppose the evil agenda of transhumanism, making this well-timed update more relevant than ever. “Sometimes a book changes the world. Not in His Image is such a book. It is clear, stimulating, well-researched, and sure to outrage the experts. . . . Get it. Improve not just your own life, but civilization’s chances for survival.”—Roger Payne, author of *Among Whales*

Impunity Michael Miklaucic.2020-02-25 A serious and effective effort to meet the challenges of illicit power in the 21st century will require technology, global partnership, and an integrated, comprehensive campaign driven by international commitment and broad political will. Of the many important lessons that emerge from these essays the most important is to be skeptical of concepts that divorce conflict from its political and human nature, particularly those that promise fast, cheap victories through technology while ignoring the need to confront illicit power in war and transition.

The German Teacher's Companion Helga Hosford.1982

Code Lawrence Lessig.2016-09-19 There's a common belief that cyberspace cannot be regulated—that it is, in its very essence,

immune from the government's (or anyone else's) control. Code, first published in 2000, argues that this belief is wrong. It is not in the nature of cyberspace to be unregulable; cyberspace has no nature. It only has code—the software and hardware that make cyberspace what it is. That code can create a place of freedom—as the original architecture of the Net did—or a place of oppressive control. Under the influence of commerce, cyberspace is becoming a highly regulable space, where behavior is much more tightly controlled than in real space. But that's not inevitable either. We can—we must—choose what kind of cyberspace we want and what freedoms we will guarantee. These choices are all about architecture: about what kind of code will govern cyberspace, and who will control it. In this realm, code is the most significant form of law, and it is up to lawyers, policymakers, and especially citizens to decide what values that code embodies. Since its original publication, this seminal book has earned the status of a minor classic. This second edition, or Version 2.0, has been prepared through the author's wiki, a web site that allows readers to edit the text, making this the first reader-edited revision of a popular book.

Men in Families and Family Policy in a Changing World .2011 The perceptions of the role of women and men in families have changed over the past few decades. Men are no longer perceived as the economic providers to families. The role of men in the

family has undergone many diverse demographic, socio-economic and cultural transformations impacting the formation, stability and overall well-being of families. In light of this development, DESA's Division for Social Policy and Development (DSPD) launched a new publication on Men in Families and Family Policy in a Changing World on 17 February focusing on the shifting roles and views of men in families.--Provided by publisher.

Those papers went through a th competitive review process. The 13 AGILE conference call for fu- papers of original and unpublished fundamental scientific research resulted in 54 submissions, of which 21 were accepted for publication in this - lume (acceptance rate of 39%). Published in the Springer Lecture Notes in Geoinformation and Car- th graphy, this book is associated to the 13 AGILE Conference on G- graphic Information Science, held in 2010 in Guimarães, Portugal, under the title “Geospatial Thinking”. The efficient use of geospatial information and related technologies assumes the knowledge of concepts that are fundamental components of Geospatial Thinking, which is built on reasoning processes, spatial conc- tualizations, and representation methods. Geospatial Thinking is associated with a set of cognitive skills consisting of several forms of knowledge and cognitive operators used to transform, combine or, in any other way, act on that same knowledge. The scientific papers published in this volume cover an important set of topics within Geoinformation Science, including: Representation and Visualisation of Geographic Phenomena; Spatiotemporal Data Analysis; Geo-Collaboration, Participation, and Decision Support; Semantics of Geoinformation

and Knowledge Discovery; Spatiotemporal Modelling and Reasoning; and Web Services, Geospatial Systems and Real-time Applications.

I Love Jesus, But I Want to Die Sarah J. Robinson. 2021-05-11 A compassionate, shame-free guide for your darkest days “A one-of-a-kind book . . . to read for yourself or give to a struggling friend or loved one without the fear that depression and suicidal thoughts will be minimized, medicalized or over-spiritualized.”—Kay Warren, cofounder of Saddleback Church What happens when loving Jesus doesn’t cure you of depression, anxiety, or suicidal thoughts? You might be crushed by shame over your mental illness, only to be told by well-meaning Christians to “choose joy” and “pray more.” So you beg God to take away the pain, but nothing eases the ache inside. As darkness lingers and color drains from your world, you’re left wondering if God has abandoned you. You just want a way out. But there’s hope. In *I Love Jesus, But I Want to Die*, Sarah J. Robinson offers a healthy, practical, and shame-free guide for Christians struggling with mental illness. With unflinching honesty, Sarah shares her story of battling depression and fighting to stay alive despite toxic theology that made her afraid to seek help outside the church. Pairing her own story with scriptural insights, mental health research, and simple practices, Sarah helps you reconnect with the God who is present in our deepest anguish and discover that you are worth everything it takes to get better. Beautifully written and full of hard-won wisdom, *I Love Jesus, But I Want to Die* offers a path toward a rich, hope-filled life in Christ, even when healing doesn’t look like what you expect.

Diversity and Dominion Kyle S. Van Houtan, Michael S.

Northcott.2010-02-15 This book records a set of dialogues between scientists, theologians, and philosophers on what can be done to prevent a global slide into ecological collapse. It is a uniquely multidisciplinary book that exemplifies the kinds of cultural and scholarly dialogue urgently needed to address the threat to the earth represented by our super-industrial civilization. The authors debate the conventional account of nature conservation as protection from human activity. In contrast to standard accounts, they argue what is needed is a new relationship between human beings and the earth that recovers a primal respect for all things. This approach seeks to recover forgotten resources in ancient cultures and in the foundational narratives of Western civilization contained in the Bible and in the culture of classical Greece.
