Painted Love Hollis Clayson.2003-10-30 In this engrossing book, Hollis Clayson provides the first description and analysis of French artistic interest in women prostitutes, examining how the subject was treated in the art of the 1870s and 1880s by such avant-garde painters as Cézanne, Degas, Manet, and Renoir, as well as by the academic and low-brow painters who were their contemporaries. Clayson not only illuminates the imagery of prostitution-with its contradictory connotations of disgust and fascination-but also tackles the issues and problems relevant to women and men in a patriarchal society. She discusses the conspicuous sexual commerce during this era and the resulting public panic about the deterioration of social life and civilized mores. She describes the system that evolved out of regulating prostitutes and the subsequent rise of clandestine prostitutes who escaped police regulation and who were condemned both for blurring social boundaries and for spreading sexual licentiousness among their moral and social superiors. Clayson argues that the subject of covert prostitution was especially attractive to vanguard painters because it exemplified the commercialization and the ambiguity of modern life.

Capitalism and Environmental Collapse Luiz Marques.2020-08-17 This book intends to be an alert to the fact that the curve measuring environmental costs against the economic benefits of capitalism has irreversibly entered into a negative phase. The prospect of an environmental collapse has been evidenced by the sciences and the humanities since the 1960s. Today, it imposes its urgency. This collapse differs from past civilizations in that it is neither local nor just civilizational. It is global and occurs at the broadest level of the biosphere, accelerated by the convergence of different socio-environmental crises, such as: Earth energy imbalance, climate change and global warming Sea-level rise Decrease and degradation of forests Collapse of terrestrial and aquatic biodiversity Floods, droughts, wildfires, and extreme weather events Degradation of soils and water resources Increase in pollution caused by fossil fuels and coal Increase in waste production and industrial intoxication The book is divided in two parts. In the first part it presents a comprehensive review of scientific data to show the already visible effects of each of the different environmental crises and its consequences to human life on Earth. In the second part, Luiz Marques critically discusses what he calls the three concentric illusions that prevent us from realizing the gravity of the current socio-environmental crises: the illusion of a sustainable capitalism, the illusion that economic growth is still capable of providing more well-being and the anthropocentric illusion. Finally, Marques argues that fitting back into the biosphere will only be possible if we dismantle the expansive socioeconomic gear that has shaped our societies since the 16th century by moving from a Social Contract to a Natural Contract, which takes into account the whole biosphere. According to him, the future society will be post-capitalist or it will not be a complex society, and even perhaps, we must fear, no society at all. "This book is backed up with the latest and best science and has made the complexities understandable for the average reader, all in a context of hope for the future." - William J. Ripple, PhD, Distinguished Professor of Ecology, Director of the Alliance of World Scientists, Oregon State University

De nuptiis Ralph Hanna,Traugott Lawler.1997 The three medieval texts that make up Jankyn's Book of Wikked Wyves have formed a vital part of Chaucerian research for more than half a century. Integrated here for the first time, these texts now form a cornerstone volume of the Chaucer Library series. Near the end of her prologue, Chaucer's Wife of Bath tells how her fifth husband, Jankyn, a clerk of Oxford, taunted her by reading from a collection of antifeminist tracts. The contents of Jankyn's book include three texts that enjoyed wide distribution in the later Middle Ages: Walter Map's *Dissuasio Valerii*, Theophrastus's *De Nuptiis*, and Jerome's *Adversus Jovinianum*. The first two are reproduced in their entirety in this volume, with selections from the third. The editors examine Jankyn's book from many angles, including the extensive manuscript sources from which it may be reconstructed, background information for its literary appreciation, and Chaucer's use of the materials. The publication of this volume, the fourth in the Chaucer Library, represents a major event for medievalists.

Family Ethics Julie Hanlon Rubio.2010-03-17 How can ordinary Christians find moral guidance for the mundane dilemmas they confront in their daily lives? To answer this question, Julie Hanlon Rubio brings together a rich Catholic theology of marriage and a strong commitment to social justice to focus on the place where the ethics of ordinary life are played out: the family. Sex, money, eating, spirituality, and service. According to Rubio, all are areas for practical application of an ethics of the family. In each area, intentional practices can function as acts of resistance to a cultural and middle-class conformity that promotes materialism over relationships. These practices forge deep connections within the family and help families live out their calling to be in solidarity with others and participate in social change from below. It is through these everyday moral choices that most Christians can live out their faith—and contribute to progress in the world.

Rome, du libéralisme au socialisme Philippe Fabry.2014-04-05 Rome a commence´ son histoire comme les E´tats-Unis d'Ame´rique, devenus l'hyperpuissance he´ge´monique mondiale en moins d'un sie`cle, et s'est effondre´e de la me^me fac,on que l'URSS. Philippe Fabry retrace sur plusieurs sie`cles l'e´volution des mentalite´s romaines. Il montre que le passage d'une pratique libe´rale aux origines de la Re´publique a` un socialisme totalitaire sous l'Empire est la clef permettant de re´soudre une des grandes e´nigmes de l'Histoire : la chute de Rome. Love as Passion Niklas Luhmann.2014-12-08 In this important book Niklas Luhmann - one of the leading social thinkers of the late 20th century - analyses the emergence of 'love' as the basis of personal relationships in modern societies. He argues that, while family systems remained intact in the transition from traditional to modern societies, a semantics for love developed to accommodate extra-marital relationships; this semantics was then transferred back into marriage and eventually transformed marriage itself. Drawing on a diverse range of historical and literary sources, Luhmann retraces the emergence and evolution of the special semantics of passionate love that has come to form the basis of modern forms of intimacy and personal relationships. This classic book by Luhmann has been widely recognized as a work of major importance. It is an outstanding contribution to social theory and it provides an original and illuminating perspective on the nature of modern marriage and sexuality.

Christus Dominus Austin Flannery.2014-06-01 The sixteen official documents—constitutions, decrees, and declarations—of the Second Vatican Council are now available from Liturgical Press in the most popular and widely used inclusive-language edition translated by Irish Dominican Austin Flannery (+October 21, 2008). As the worldwide Church continues to celebrate the fiftieth anniversary of the Council (1962–65), there is a great need in college classrooms and parish faith formation groups—as well as for individuals—to again have access to these documents in contemporary English. As Flannery wrote in his introduction to the 1996 edition, “The translation of the texts of the Vatican documents in the present volume differs from that in the previous publication in two respects. It has been very considerably revised and, in place, corrected. It is also, to a very large extent, in inclusive language. “I say ‘to a very large extent,’ because we have used inclusive language in passages about men and women but not, however, in passages about God, except where the use of the masculine pronoun was easily avoidable.”

Unspoken Rules Rachel Rosenbloom.1996 This courageous and groundbreaking book documents human rights violations against women in 30 countries around the world and discusses the strategies that lesbian activists and other human rights advocates have employed to challenge such oppression. Placing lesbian rights within the framework of the broader struggle for women's human rights, this book demonstrates how women's rights and lesbian rights are linked in substantive ways. Both issues highlight how human rights distinctions between the private and public, as well as reluctance to address female sexuality, have perpetuated violations of women and kept them invisible. Furthermore, the defence of lesbian rights is integral to the defence of women's right to determine their own sexuality, to work at the jobs they prefer and to live as they choose with women, men, children or alone. Homophobia, it is argued, is used as a tool to keep women in line and force them to accept their society's assigned gender roles and limitations.--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. Crossroads of European Histories R. A. Stradling.2006-01-01 This publication contains thirty-five papers written by European historians in relation to five key periods in European history: the year of revolutions 1848, the Balkan wars of 1912-13, the search for peace in 1919, the end of the Second World War and the beginning of the Cold War in 1945, and the events of 1989-90 in central and eastern Europe. The papers are drawn from five conferences organised by the Council of Europe based on the principles of Recommendation Rec (2001) 15 on European history teaching. They consider events based on the concept of 'multiperspectivity' which seeks to facilitate an open approach to historical debate based on critical analysis of different perspectives of historical developments, often involving controversial and sensitive issues. This publication is complemented by two related titles: a teaching manual and a DVD of original documents.

Theology, Politics and Letters at the Crossroads of European Civilization G. Cerny.1987-03-31 The Character of Seventeenth-Century French Protestantism and the Place of the Huguenot Refuge following the Revocation of the Edict of Nantes Thirty-seven years ago the late Emile-G. Leonard regretted that there were so few historical studies of seventeenth-century French Protestantism and no general 1 historical synthesis for the period as a whole. At the time Leonard's observation was accurate. Seventeenth-century French Protestantism traditionally remained a questionable and problematical subject for historians. All too frequently historians neglected it in favor of emphasizing its origins in the second-half of the sixteenth century and its renaissance since the French Revolution. When the rare historian broke his silence and considered French Protestantism in the seventeenth-century, was meager and generally ambivalent or negative. The historiographer his treatment of seventeenth-century French Protestantism could only cite the outstanding works of Jean Pannier and Orentin Douen, which taken together emphasized the new pre eminence of Parisian Protestantism in the seventeenth century, and the genuine works of synthesis by John Vienot and Matthieu Lelievre, which again had to be placed side by side in order to complete coverage of the whole of the seventeenth 2 century. The only true intellectual history of seventeenth-century French Protestantism was the study by Albert Monod, which, however, dealt with the second-half of the century and, then, only in the broad context of both Protestant 3 and Catholic thought responding to the challenge of modern rationalism.

Themes in French Culture Rhoda Métraux,Margaret Mead.2001 Margaret Mead collaborated with her long-time colleague Rhoda Métraux in this unique study of French culture. The Hoover Institute at Stanford University originally published this volume, which grew out of the Columbia University project on Research of Contemporary Cultures in 1954. It is one of the few works by American social scientists dealing with broad themes of French life. Mead and Métraux present a vivid picture of the French starting with the organization of the house and its architecture, and drawing original conclusions for the structure of French families and overall cultural values. This work, long out of print, is a fascinating and penetrating portrait of a contemporary European society.

Women in Purple Judith Herrin.2004-01-25 In the eighth and ninth centuries, three Byzantine empresses—Irene, Euphrosyne, and Theodora—changed history. Their combined efforts restored the veneration of icons, saving Byzantium from a purely symbolic and decorative art and ensuring its influence for centuries to come. In this exhilarating and highly entertaining account, one of the foremost historians of the medieval period tells the story of how these fascinating women exercised imperial sovereignty with consummate skill and sometimes ruthless tactics. Though they gained access to the all-pervasive authority of the Byzantine ruling dynasty through marriage, all three continued to wear the imperial purple and wield tremendous power as widows. From Constantinople, their own Queen City, the empresses undermined competitors and governed like men. They conducted diplomacy across the known world, negotiating with the likes of Charlemagne, Roman popes, and the great Arab caliph Harun al Rashid. Vehemently rejecting the ban on holy images instituted by their male relatives, Irene and Theodora used craft and power to reverse the official iconoclasm and restore icons to their place of adoration in the Eastern Church. In so doing, they profoundly altered the course of history. The art—and not only the art—of Byzantium, of Islam, and of the West would have been very different without them. As Judith Herrin traces the surviving evidence, she evokes the complex and deeply religious world of Constantinople in the aftermath of Arab conquest. She brings to life its monuments and palaces, its court ceremonies and rituals, the role of eunuchs (the third sex), bride shows, and the influence of warring monks and patriarchs. Based on new research and written for a general audience, *Women in Purple* reshapes our understanding of an empire that lasted a thousand years and splashes fresh light on the relationship of women to power.

Acta Medicinæ Legalis. Volume XLIV. 1994 Patrice Mangin, Bertrand Ludes.1995-04-21 Professor Patrice MANGIN President of the XVIth Congress of the International Academy of Legal Medicine and Social Medicine The International Academy of Legal Medicine and Social Medicine was founded in 1938 in Bonn. The motive for founding the Academy was to promote associating and confronting on an international background the scientific research work produced in the various domains dealing with the Legal and Social Medicine. As first president of the International Academy of Legal Medicine and Social Medicine, Professor Knud Sand from Copenhagen, assisted by colleagues of the Praesidium appointed as national representatives, succeeded in gathering together nearly the whole academic people involved in Legal and Social Medicine. Thus one year later, in 1939, The Academy became a worldwide institution of 450 members from thirty nations. After the war, what had been before of considerable interest for the progress of the knowledge and techniques in Legal Medicine remained again a pressing necessity leading to the second meeting of the Academy in 1947 in Brussels under the presidency of Professor De Laet. Since then the meetings of the Academy followed one another every three years. At this point, I would like to thank all the past presidents of the Academy and in particular Professor Roche and Professor Andre for their contribution without which the Academy would not be what it is presently.

The Mitterrand Era Anthony Daley.2016-07-27 This anthology examines the effects of economic orthodoxy on the French left. A decade after the governing left relinquished plans to 'transform society', French social actors have indeed changed. They have adapted to economic orthodoxy and to a new political mainstream. Various essays examine the political impact of economic forces. They explore the relationships between left parties and organized labour. The book also looks at new forms of political mobilization around gender, immigration, and environmental issues.

The Politics of Rights Stuart A. Scheingold.2010-03-10 Stuart A. Scheingold's landmark work introduced a new understanding of the contribution of rights to progressive social movements, and thirty years later it still stands as a pioneering and provocative work, bridging political science and sociolegal studies. In the preface to this new edition, the author provides a cogent analysis of the burgeoning scholarship that has been built on the foundations laid in his original volume. A new foreword from Malcolm Feeley of Berkeley's Boalt Hall School of Law traces the intellectual roots of *The Politics of Rights* to the classic texts of social theory and sociolegal studies. Scheingold presents a clear, thoughtful discussion of the ways in which rights can both empower and constrain those seeking change in American society. While much of the writing on rights is abstract and obscure, *The Politics of Rights* stands out as an accessible and engaging discussion. -Gerald N. Rosenberg, University of Chicago This book has already exerted an enormous influence on two generations of scholars. It has had an enormous influence on political scientists, sociologists, and anthropologists, as well as historians and legal scholars. With this new edition, this influence is likely to continue for still more generations. *The Politics of Rights* has, I believe, become an American classic. -Malcolm Feeley, Boalt Hall School of Law, University of California, Berkeley, from the foreword Stuart A. Scheingold is Professor Emeritus of Political Science at the University of Washington.

Margins and Metropolis Judith Herrin.2013-03-18 This volume explores the political, cultural, and ecclesiastical forces that linked the metropolis of Byzantium to the margins of its far-flung empire. Focusing on the provincial region of Hellas and Peloponnesos in central and southern Greece, Judith Herrin shows how the prestige of Constantinople was reflected in the military, civilian, and ecclesiastical officials sent out to govern the provinces. She evokes the ideology and culture of the center by examining different aspects of the imperial court, including diplomacy, ceremony, intellectual life, and relations with the church. Particular topics treat the transmission of mathematical manuscripts, the burning of offensive material, and the church's role in distributing philanthropy. Herrin contrasts life in the capital with provincial life, tracing the adaptation of a largely rural population to rule by Constantinople from the early medieval period onward. The letters of Michael Choniates, archbishop of Athens from 1182 to 1205, offer a detailed account of how this highly educated cleric coped with life in an imperial backwater, and demonstrate a synthesis of ancient Greek culture and medieval Christianity that was characteristic of the Byzantine elite. This collection of essays spans the entirety of Herrin's influential career and draws together a significant body of scholarship on problems of empire. It features a general introduction, two previously unpublished essays, and a concise introduction to each essay that describes how it came to be written and how it fits into her broader analysis of the unusual brilliance and longevity of Byzantium.

Noah and the Deluge: Chronological, Historical and Archaeological Evidence Gerard Gertoux.2015-10-19 Historians consider the biblical account of Noah and the Deluge as a myth. However, this famous event occurred at the earliest times of recorded history (Sumerian King List). Today scientists believe in the last ice age called Pleistocene ending in 10,000 BCE, but there is no witness of this planetary cataclysmic event and its existence is based solely on the controversial interpretation of its consequences and their dating. The existence of erratic blocks and the disappearance of mammoths are presented as evidence of the last glaciation. However, despite dating obtained by 14C (calibrated by dendrochronology) is considered absolute by most experts its confrontation with the Egyptian chronology, in which some dates are fixed by astronomy, reverses this widespread belief and shows that dates obtained by 14C increase exponentially before -2200. Thus the rate of 14C tends gradually to 0 around -3500, which implies an important consequence: before -3500, 14C dating is no longer possible.

Medieval Prostitution Jacques Rossiard.1995-12-11 In fifteenth-century France, public prostitution was condoned by all sectors of society. Clerics and municipal officials not only tolerated prostitution, but were often its principal beneficiaries, owning and frequenting brothels quite openly. The explanation of this remarkable state of affairs is just one aspect of Jacques Rossiard's vivid reconstruction of a part of medieval society that has previously received little attention. Drawing upon extensive research in medieval archives, the author shows that most fifteenth-century Frenchwomen could expect a life of constant subjugation to male desire. Rape, for

instance, was common and considered only a minor crime. He then considers whether public prostitution might paradoxically have been seen by the secular and religious authorities as a means of social control, and of preserving marital stability: the virtue of wives and daughters was best protected by the existence of public brothels, where sexual urges could be satisfied without adultery or rape. Jacques Rossiaud also describes the social background of the prostitutes, brothel-keepers, pimps, and their clientele, providing a vivid overview of the context in which medieval prostitution existed. Medieval Prostitution will be of interest to medieval historians, as well as to students of the history of the family and sexuality.

Our Own Master Race Angus McLaren.1990-12-15 Was Canada immune to the racist currents of thought that swept central Europe in the 1920's and 1930's? In this landmark book Angus McLaren, co-author of *The Bedroom and the State*, examines the pervasiveness in Canada of the eugenic notion of race betterment and demonstrates that many Canadians believed that radical measures were justified to protect the community from the degenerate. The sterilization of the feeble-minded in Alberta and British Columbia was merely the most dramatic attempt to limit the numbers of the unfit. But in the decades prior to World War Two, eugenic preoccupations were to colour discussions of immigration restriction, birth control, mental testing, family allowances, and a host of similar social policies. Doctors, psychiatrists, geneticists, social workers, and mental hygienists provided an anxious Canadian middle class with the reassuring argument that poverty, crime, prostitution, and mental retardation were primarily the products of defective genes, not a defective social system. In explaining why biological solutions were sought for social problems McLaren not only provides a provocative reappraisal of the ideas and activities of a generation of feminists, political progressives, and public health propagandists but he also explores some of the roots of our not-so-latent racist tendencies.

Guardians of Empire David Killingray.2017-03-01 For imperialists, the concept of guardian is specifically to the armed forces that kept watch on the frontiers and in the heartlands of imperial territories. Large parts of Asia and Africa, and the islands of the Pacific and the Caribbean were imperial possessions. This book discusses how military requirements and North Indian military culture, shaped the cantonments and considers the problems posed by venereal diseases and alcohol, and the sanitary strategies pursued to combat them. The trans-border Pathan tribes remained an insistent problem in Indian defence between 1849 and 1947. The book examines the process by which the Dutch elite recruited military allies, and the contribution of Indonesian soldiers to the actual fighting. The idea of naval guardianship as expressed in the campaign against the South Pacific labour trade is examined. The book reveals the extent of military influence of the Schutztruppen on the political developments in the German protectorates in German South-West Africa and German East Africa. The U.S. Army, charged with defending the Pacific possessions of the Philippines and Hawaii, encountered a predicament similar to that of the mythological Cerberus. The regimentation of military families linked access to women with reliable service, and enabled the King's African Rifles to inspire a high level of discipline in its African soldiers, askaris. The book explains the political and military pressures which drove successive French governments to widen the scope of French military operations in Algeria between 1954 and 1958. It also explores gender issues and African colonial armies.

Rebel Daughters Sara E. Melzer,Leslie W. Rabine.1992-05-21 This interdisciplinary collection of essays examines the important and paradoxical relation between women and the French Revolution. Although the male leaders of the Revolution depended on the women's active militant participation, they denied to women the rights they helped to establish. At the same time that women were banned from the political sphere, woman was transformed into an allegorical figure which became the very symbol of (masculine) Liberty and Equality. This volume analyzes how the revolutionary process constructed a new gender system at the foundation of modern liberal culture.

Unrivalled Influence Judith Herrin.2013-03-11 Explores the exceptional roles that women played in the vibrant cultural and political life of medieval Byzantium. Drawing on a diverse range of sources, this title focuses on the importance of marriage in imperial statecraft, the tense coexistence of empresses in the imperial court, and the critical relationships of mothers and daughters.
