Hooked on the Horizon Tom Dymond. 2021-08 Three vast oceans, two young men and one dubious idea - to sail around the world. When a sailboat barely bigger than a bathtub potted into the English Channel, James and Tom began the adventure of a lifetime. In their little boat Blue Eye they set sail, laden with the notion that happiness and freedom loitered just over the horizon. And yet as they journeyed between continents and across oceans, they found they were still anchored to their old unsatisfied selves. Hampered not only by the storms of the Atlantic Ocean and the pirates of the Red Sea, the craving nature of the human mind also threatens their bid to circumnavigate the world. From the Caribbean to the Suez Canal, James and Tom chase one sunset after the next, convinced a treasure trove of fulfilment lies waiting beyond the horizon. What will it take for them to discover that the sea is not always bluer on the other side? *Hooked on the Horizon* is Tom Dymond's travel memoir of sailing Blue Eye around the world. If you like being transported across oceans, escaping to far-flung paradises, and finding humour and philosophy in between, then you'll love the story of Blue Eye's adventure.

The Dragon Waiting John M. Ford. 2020-09-29 "The best mingling of history with historical magic that I have ever seen."—Gene Wolfe In a snowbound inn high in the Alps, four people meet who will alter fate. Take the Slow Road: Scotland Martin Dorey. 2018-05-03 Forget hurrying. Forget putting your foot down and racing through sweeping bends. Forget the understeer (whatever that is). Forget the blur of a life lived too fast. This is a look at taking life slowly. It's about taking the time to enjoy journeys and places for their own sake. It's about stopping and putting the kettle on. Stopping to take a picture. Stopping to enjoy stopping. How are you going to do it? In a camper van or a motorhome, of course. In this book we define the best driving routes around Scotland for camper vans and motorhomes. We show you the coolest places to stay, what to see, what to do and explain why it's special. We meander around the highlands, lowlands and islands of Scotland on the most breathtaking roads, chugging up mountain passes and pootling along the coast. We show you stuff that's fun, often free. We include the best drives for different kinds of drivers; for surfers, wildlife watchers, climbers and walkers. We include the steepest, the bendiest, those with the most interesting bridges or views or obstacles, ferries and tidal causeways. And you don't even have to own a camper van or motorhome - we'll tell you the many places you can rent one to take you on the journey. All of this is interspersed with beautiful photos, handy maps and quirky travel writing from the king of camper vans and motorhomes, Martin Dorey. So if all you want to do is flick through it on a cold day and plan your next outing, you'll be transported (albeit slowly) to pastures, beaches, mountains and highways that make you want to turn the key and go, go, go! We'll take you to see Scotland the slow way. The way it should be seen.

A Way to Garden Margaret Roach. 2019-04-30 "A Way to Garden prods us toward that ineffable place where we feel we belong; it's a guide to living both in and out of the garden." —The New York Times Book Review For Margaret Roach, gardening is more than a hobby, it's a calling. Her unique approach, which she calls "horticultural how-to and woo-woo," is a blend of vital information you need to memorize and intuitive steps you must simply feel and surrender to. In *A Way to Garden*, Roach imparts decades of garden wisdom on seasonal gardening, ornamental plants, vegetable gardening, design, gardening for wildlife, organic practices, and much more. She also challenges gardeners to think beyond their garden borders and to consider the ways gardening can enrich the world. Brimming with beautiful photographs of Roach's own garden, *A Way to Garden* is practical, inspiring, and a must-have for every passionate gardener.

Albion's Seed David Hackett Fischer. 1991-03-14 This fascinating book is the first volume in a projected cultural history of the United States, from the earliest English settlements to our own time. It is a history of American folkways as they have changed through time, and it argues a thesis about the importance for the United States of having been British in its cultural origins. While most people in the United States today have no British ancestors, they have assimilated regional cultures which were created by British colonists, even while preserving ethnic identities at the same time. In this sense, nearly all Americans are Albion's Seed, no matter what their ethnicity may be. The concluding section of this remarkable book explores the ways that regional cultures have continued to dominate national politics from 1789 to 1988, and still help to shape attitudes toward education, government, gender, and violence, on which differences between American regions are greater than between European nations.

House of Commons - Transport Committee: Local Authority Parking Enforcement - HC 118 Great Britain: Parliament: House of Commons: Transport Committee. 2013-10-23 The use of parking charges and fines specifically to raise revenue by local authorities is neither acceptable nor legal. Annual parking accounts would allow the public to see how much local revenue is derived from the enforcement of fines, and what proportion of this come from on or off street parking charges. It's right that parking charges be determined locally, but hard to justify fines that substantially exceed penalties for more serious offences like speeding. DfT's statutory guidance should stipulate that local authorities implement a 'grace period' of 5 minutes after the expiry of paid-for time on any paid parking before enforcement officers issue a Penalty Charge Notice (PCN). The Guidance

should be clarified and updated, particularly in relation to rules for loading and unloading. A 25% penalty charge discount should also be introduced for motorists who pay within 7 days of losing any appeal to a parking tribunal. Local authorities currently offer a 50% discount if motorists pay their penalty charge within 14 days, but this is not available to motorists who appeal to a tribunal. Motorists should also not have to appeal against PCNs where tribunal adjudicators have repeatedly identified a problem such as poor signage. Adjudicators should also be given powers to allow appeals where local authorities fail to follow statutory guidance concerning the use cameras. While businesses cannot be completely exempt from parking restrictions, local authorities must also ensure that the need to restrict parking and manage congestion does not stifle the ability of businesses to trade and help grow the economy

Introducing Intercultural Communication Shuang Liu, Zala Volcic, Cindy Gallois. 2010-11-09 Books on intercultural communication are rarely written with an intercultural readership in mind. In contrast, this multinational team of authors has put together an introduction to communicating across cultures that uses examples and case studies from around the world. The book further covers essential new topics, including international conflict, social networking, migration, and the effects technology and mass media play in the globalization of communication. Written to be accessible for international students too, this text situates communication theory in a truly global perspective. Each chapter brings to life the links between theory and practice and between the global and the local, introducing key theories and their practical applications. Along the way, you will be supported with first-rate learning resources, including: • theory corners with concise, boxed-out digests of key theoretical concepts • case illustrations putting the main points of each chapter into context • learning objectives, discussion questions, key terms and further reading framing each chapter and stimulating further discussion • a companion website containing resources for instructors, including multiple choice questions, presentation slides, exercises and activities, and teaching notes. This book will not merely guide you to success in your studies, but will teach you to become a more critical consumer of information and understand the influence of your own culture on how you view yourself and others.

Playing the Bass with Three Left Hands Will Carruthers. 2016-08-30 I can confirm that should you ever find yourself on stage playing the bass guitar with three left hands, it is usually the one in the middle that is the real one. The other two are probably phantoms. *Playing the Bass with Three Left Hands* tells the story of one of the most influential, revered and ultimately demented British bands of the 1980s, Spacemen 3. In classic rock n roll style they split up on the brink of their major breakthrough. As the decade turned sour and acid house hit the news, Rugby's finest imploded spectacularly, with Jason Pierce (aka Jason Spaceman) and Pete Kember (aka Sonic Boom) going their separate ways. Here, Will Carruthers tells the whole sorry story and the segue into *Spiritualised* in one of the funniest and most memorable memoirs committed to the page.

The Day of the Triffids John Wyndham. 2010-07-01 The classic postapocalyptic thriller with "all the reality of a vividly realized nightmare" (*The Times*, London). Triffids are odd, interesting little plants that grow in everyone's garden. Triffids are no more than mere curiosities—until an event occurs that alters human life forever. What seems to be a spectacular meteor shower turns into a bizarre, green inferno that blinds everyone and renders humankind helpless. What follows is even stranger: spores from the inferno cause the triffids to suddenly take on a life of their own. They become large, crawling vegetation, with the ability to uproot and roam about the country, attacking humans and inflicting pain and agony. William Masen somehow managed to escape being blinded in the inferno, and now after leaving the hospital, he is one of the few survivors who can see. And he may be the only one who can save his species from chaos and eventual extinction . . . With more than a million copies sold, *The Day of the Triffids* is a landmark of speculative fiction, and "an outstanding and entertaining novel" (*Library Journal*). "A thoroughly English apocalypse, it rivals H. G. Wells in conveying how the everyday invaded by the alien would feel. No wonder Stephen King admires Wyndham so much." —Ramsey Campbell, author of *The Overnight* "One of my all-time favorite novels. It's absolutely convincing, full of little telling details, and that sweet, warm sensation of horror and mystery." —Joe R. Lansdale, author of *Edge of Dark Water*

Strengthening Forensic Science in the United States National Research Council, Division on Engineering and Physical Sciences, Committee on Applied and Theoretical Statistics, Policy and Global Affairs, Committee on Science, Technology, and Law, Committee on Identifying the Needs of the Forensic Sciences Community. 2009-07-29 Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. *Strengthening Forensic Science in the United States: A Path Forward* provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. *Strengthening Forensic Science in the United States* gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.

The VW Camper Van Mike Harding. 2013-05-23 It was invented immediately after the war, in the factory a far-sighted English military man had set up to turn the German economy from making machines of warfare to more pacific products. By the seventies that dream had been amply fulfilled, as the VW Campervan became the conveyance of choice for West Coast hippies, Australian surf bums and Europeans taking the overland route to find enlightenment and good karma in India. It had also become - indeed, still is - the first choice for any couple, or family, seeking a cheap camping holiday with wheels attached. So never mind the oddly off-centre driving wheel, the vagaries of the aircooled rear engine - the VW Campervan had become more than a vehicle - it had truly become a way of life. Mike Harding's first ride in a Volkswagen Camper Van was back in 1961, when it was the carrying around the gear and bandmembers of his rock band the Manchester Rainmakers. Finally, in 2009, he could wait no longer, and bought his own, a 2001 Type 2 bay window Brazilian import Danbury conversion in hot orange and off white. Add in the endless curiosity of the author of eight monographs on church architecture, and the hilarious sense of humour of one of Britain's best stand-up comics, and you have a wonderful social history of the postwar years through the prism of a single transport icon.

The Journey from Prison to Community Jo Shingler, Jennifer Stickney. 2023-08-03 *The Journey from Prison to Community: Developing Identity, Meaning and Belonging with Men in the UK* provides a practical guide for practitioners working with men to successfully make the transition between prison and the community. This transition presents significant challenges, especially for those who have served many years in prison; for those who have experienced multiple cycles of release/recall; for those whose personality traits make it harder for them to build relationships and cope with strong emotions; and for those whose lives have been characterised by trauma, chaos, crime and institutionalisation. Drawing on the authors' clinical expertise and the lived experiences of real service-users, alongside the latest research in the field, the book identifies key issues in transition and explores the impact of these issues. Crucially, it provides guidance, tools and support to professionals working with men in the UK to build a crime-free, socially integrated and meaningful life after incarceration, featuring real-life stories of those who have made the transition. This is an essential read for professionals working in a range of settings across prison and community environments, while the wide variety of professional experience represented in the book broadens its appeal to forensic and clinical psychologists, occupational therapists, probation officers, prison staff and those working in the third sector. It is also a valuable resource for qualified professionals, those in training, support roles, and managers involved in planning strategy and service delivery.
