A Narrative Theology of the New Testament Timo Eskola.2015-07-21 Focusing on the metanarrative of exile and restoration Timo Eskola claims that a post-liberal, narrative New Testament theology is both consistent and explanative. Combining a post-New Quest perspective on Jesus with an eschatological reading of Paul, the author states that Jesus' temple criticism aims at restoration eschatology. Jesus starts a priestly community that expects God's jubilee to begin with Jesus' work, and proceed with the preaching of the new gospel. The reception of this message in the post-Easter church results in resurrection Christology that proclaims Jesus' Davidic kingship on God's throne of glory. Both Paul and Jewish Christian teachers later present Christ's community as a new temple where believers serve the Lord as priests of the new covenant. Furthermore, restoration eschatology provides a new basis for understanding Paul's contrast with the words of the law, and his teaching of justification.

Ars et methodus Sandra Bihlmaier.2018-07-16 Sandra Bihlmaier constitutes a historical and philosophical analysis of Philipp Melanchthon's concept of method and philosophy. By means of a detailed inquiry into Melanchthon's textbooks of dialectic and rhetoric it uncovers the emergence and development of a notion of method which underlies an encyclopedic understanding of philosophy. The work reveals both the traditions of rhetoric and dialectic which Melanchthon builds

on in his own works, as well as the Reformer's own original reinterpretation of these traditions. Moreover, the reinterpretation and transformation of essential concepts taken from traditional accounts is thematized against the background of the canon of arts and sciences, which undergoes a fundamental change during the European Renaissance. The understanding, configuration, and the applicability of this canon is deeply influenced by this original concept of method. Philipp Melanchthon's concept of method and philosophy is central to the understanding of 16th century definition of philosophy. Melanchthon's attempt to integrate into a former theoretical discipline, both the aspect of usefulness, as well as a degree of general applicability in human affairs, testifies to the fertility of his philosophical program. Also his project is highly relevant for an understanding of philosophy which transgresses contemporary idiosyncratic categories of philosophical knowledge and draws attention to two fundamental historiographical aspects. First, it cautions historians and philosophers against transferring current definitions of philosophy to works which emerge from different historical, social and intellectual traditions. Second, it raises the awareness of the reader regarding his own understanding of philosophy and of its underlying presuppositions.

Dynamics and Obstacles of European Governance Dirk De Bièvre, Christine Neuhold. 2007-01-01 This book examines some of the major origins of change in institutions and policies in European governance. The authors combine a sophisticated institutional analysis with in-depth insights into European policies across a wide variety of policy fields. The fields examined are higher education, employment, research, police co-operation, as well as foreign affairs, trade, energy, and security and defence policy. Presenting the fruit of years of collaboration in an EU-funded Research Training Network, the authors expand the mechanisms through which political actors transform apparent deadlock into actual change in European policy making.

The Heart of Africa Simon Stewart, Karen Sliwa, Ana Mocumbi, Albertino Damasceno, Mpiko Ntsekhe. 2016-05-06 While many high-income countries observe a relative decline in the population impact of heart disease and deal with the problem of an older patient population who readily survive earlier non-fatal encounters with the condition, Africa contends with a typically younger population with frequently advanced and often fatal heart disease. While high-income countries exclusively deal

with non-communicable forms of heart disease, Africa contends with both communicable and non-communicable forms of heart disease. Designed to provide anyone with an interest in heart disease in Africa with an immediate sense of how the area is progressing from a clinical to research perspective in responding to this evolving epidemic Presents salient research uncovering the evolving burden of communicable and non-communicable forms of heart disease, Includes content on maternal heart disease, infant and childhood heart disease, risk and prevention, heart failure and other common forms of heart disease in rural and urban communities in Africa.

Political Waters Anne-Sophie Beckedorf.2012 *Political Waters* examines how recent reforms of decentralization, privatization, and commercialization are initiated and implemented with regard to water management in Khartoum. In so doing, it uses the prism of water to gain insights into Sudanese (water) politics, power strategies, and state-society relationships. Drawing on detailed, actor-oriented, and ethnographic analyses based on political ecology and on organization sociology, the main findings develop important aspects of rule and emphasize the relevance of studying local micropolitical contexts in order to understand macropolitical dynamics. This work obtained the DAVO (German Middle East Studies Association) Dissertation Award 2012. Dissertation. (Series: Forum Political Geography / Forum Politische Geographie - Vol. 7)

The Izala Movement in Nigeria Ramzi Ben Amara.2020 On the basis on solid fieldwork in northern
Nigeria including participant observation, interviews with Izala, Sufis, and religion experts, and
collection of unpublished material related to Izala, three aspects of the development of Izala past
and present are analysed: its split, its relationship to Sufis, and its perception of sharī'a re-
implementation. "Field Theory" of Pierre Bourdieu, "Religious Market Theory" of Rodney Start, and
"Modes of Religiosity Theory" of Harvey Whitehouse are theoretical tools of understanding the
religious landscape of northern Nigeria and the dynamics of Islamic movements and groups.

Oromo Indigenous Religion and Oromo Christianity Ujulu Tesso Benti.2018-05-31 The early non-
Oromo writers have distorted the history of the Oromo. Without scientific research, they were
speaking of the so-called Oromo migration of the 16th century. Against the unscientific thesis, of the
early scholars, this work confirmed the Oromo to be not only the indigenous African peoples, but
also belong to the Cushitic Africans who invented the first world civilization. Their egalitarian and
holistic culture, the gadaa system is part of the ancient Cushitic civilization. It is the base for modern

democratic system of governance. The root word of 'gadaa' is originated from 'Ka', the creator God of the ancient religion of the Cushitic Africans. From this very name, Ka originated the Oromo word "Waaqa", which also means creator of everything. This shows that the Oromo are among the first nations who came up with the idea of monotheism. Therefore, this work disqualifies the missionary assumptions describing the Oromo Indigenous Religion (OIR) as Satanism and its religious experts, the Qaalluus as witchdoctors or sorcerers. This dissertation discovered many identical, similar, partial similar and few differing elements between the Oromo Indigenous Religion (OIR) and Oromo Christianity (OC). Also, the study identified many Oromo cultural elements that are compatible to Christianity, therefore must be adopted by the Oromo Christianity. According modern scholarship God revealed himself in every human culture and religion is part of human culture. Therefore, no religion can claim to be "the only true religion". Based on this principle, this dissertation calls all leaders of religious institutions in Oromia, to change their attitude, develop culture of tolerance, conduct constructive religious dialogue, create the atmosphere of peaceful coexistence of all religions and establish sustainable peace that serves humanity.

Nanostructured Polymer Blends Sabu Thomas,Robert Shanks,Sarath Chandran.2013-11-28 Over 30% of commercial polymers are blends or alloys or one kind or another. Nanostructured blends offer the scientist or plastics engineer a new range of possibilities with characteristics including thermodynamic stability; the potential to improve material transparency, creep and solvent resistance; the potential to simultaneously increase tensile strength and ductility; superior rheological properties; and relatively low cost. Nanostructured Polymer Blends opens up immense structural possibilities via chemical and mechanical modifications that generate novel properties and functions and high-performance characteristics at a low cost. The emerging applications of these new materials cover a wide range of industry sectors, encompassing the coatings and adhesives industry, electronics, energy (photovoltaics), aerospace and medical devices (where polymer blends provide innovations in biocompatible materials). This book explains the science of nanostructure formation and the nature of interphase formations, demystifies the design of nanostructured blends to achieve specific properties, and introduces the applications for this important new class of nanomaterial. All the key topics related to recent advances in blends are covered: IPNs, phase morphologies, composites and nanocomposites, nanostructure formation, the chemistry and structure of additives, etc. Introduces the science and technology of nanostructured polymer blends - and the procedures involved in melt blending and chemical blending to produce new materials with specific performance characteristics Unlocks the potential of nanostructured polymer blends for applications across sectors, including electronics, energy/photovoltaics, aerospace/automotive, and medical devices (biocompatible polymers) Explains the performance benefits in areas including

rheological properties, thermodynamic stability, material transparency, solvent resistance, etc.

Umwandlungsgesetz 2017, Smarte Gesetze, Markierte Gesetze, 3. Auflage 2017, Rechtsstand: Januar 2017. Die Markierungen in den Gesetzestexten werden jedes Jahr aufs Neue von Studenten und Fachexperten zum besseren Verständnis sowie zum Wiederauffinden und Einprägen der wichtigen Textstellen vorgenommen. Dieser Problematik widmet sich dieses Werk. Es beinhaltet vorgefertigte Gesetzestexte mit Markierungen für wichtige Definitionen, Prinzipien, Wahlrechte oder Schlüsselwörter sowie für Textstellen, die oft übersehen oder vergessen werden. Die Markierungen beinhalten Textstellen, die für alle gängigen Nutzer des Umwandlungsgesetzes wichtig sind: - Studenten von Rechtswissenschaften (Umwandlungsrecht, Gesellschaftsrecht), Wirtschaftswissenschaften (Bilanzierung, Wirtschaftsprüfung), Wirtschaftsrecht, Steuerlehre und Verwaltungswissenschaften. - Auszubildende (kaufmännische Lehre). - Berufsexamenskandidaten (Wirtschaftsprüferprüfung, Steuerberaterprüfung). - Geschäftsführer, Vorstände, Aufsichtsräte sowie Gesellschafter und Aktionäre. - Professionelle Nutzer aus den freien Berufen (Wirtschaftsprüfer, Steuerberater, Rechtsanwälte), aus der Finanzverwaltung sowie aus der freien Wirtschaft. Durch die vorgenommenen Markierungen können die wichtigen Stellen auf einen Blick sowohl in der Klausur wie auch im Berufsalltag wahrgenommen werden. Insgesamt bieten die markierten Gesetzestexte folgende Vorteile: - Man gewinnt sofort ein Bild von den wichtigen Stellen im Gesetz, statt sich diese langwierig und bruchstückhaft durch Fachliteratur zusammenzutragen. - Man spart viel wertvolle Zeit beim Suchen und Markieren der wichtigen Textstellen und kann diese

Zeit besser für zusätzlichen Lehrstoff, Arbeitstätigkeiten oder Freizeit nutzen. - Man hat Markierungen an Gesetzestextstellen, die nicht in den Lehrveranstaltungen behandelt wurden. Durch Markierungen an den betreffenden Stellen gewinnt man Ansätze für eine Lösung und erreicht dadurch bessere Noten in den Klausuren. - Die Gesetzestexte enthalten nur Unterstreichungen und Fett-Markierungen, sodass der Einsatz in den Klausuren nach den gängigen Examensvorschriften möglich ist (die meisten Prüfungsordnungen schließen nur Paragraphenverweise oder farbliche Systematiken aus). - Die Markierungen müssen nicht jedes Jahr aufs Neue aufgrund des Erwerbs von aktuellen Gesetzestexten nachgezogen werden. Anhand der fortlaufend aktualisierten Gesetzestexte hat man die vertrauten Textstellen sowohl im Studium wie auch im Berufsalltag immer griffbereit. Die Markierungen sind an Textstellen enthalten, die für das Allgemeinverständnis der jeweiligen Gesetzesparagraphen wichtig sind. Besonders wichtige Textstellen, wie Definitionen, Prinzipien, Wahlrechte oder Schlüsselwörter sind zusätzlich fett hervorgehoben. Die gesamten Gesetzestexte beinhalten keine farblichen Markierungen, dadurch wird eine individuelle Bearbeitung der Gesetzestexte mit farblichen Hervorhebungen ebenfalls gewährleistet.
