Women Opera Composers Mary F. McVicker.2016-08-04 The history of women in the opera is a grand story. Women were singers and patrons, of course, but from opera's beginnings in Renaissance Italy, they were also opera composers and librettists. At first it was exclusively for the nobility. In the 19th century, with the emergence of the middle class and the rise of nationalism, there were more public theaters and opera seemed to be everywhere. This meant more opportunities for composers, though men predominated. This book focuses on the women, from the 16th century to today, who had successful careers in opera, many of them well known in their time.

Antifascisms David Ward.1996 This book is an in-depth analysis of three of the most crucial years in twentieth-century Italian history, the years 1943-46. After more than two decades of a Fascist regime and a disastrous war experience during which Italy changed sides, these years saw the laying of the political and cultural foundations for what has since become known as Italy's First Republic. Drawing on texts from the literature, film, journalism, and political debate of the period, Antifascisms offers a thorough survey of the personalities and positions that informed the decisions taken in this crucial phase of modern Italian history.

M.N. Roy M. N. Roy.2010-10-04 When humanism was first receiving widespread public attention in the West, through such publications as The Humanist Manifesto in 1933, unbeknownst to most Westerners humanism was proceeding on a parallel track in India, largely due to the efforts of philosopher and political activist M.N. Roy (1887-1954). Sadly, it wasn't until the early fifties, at the end of Roy's life that European humanists began to notice his work.To rectify the unfortunate neglect in the West of one of India's premier intellectuals, philosopher Innaiah Narisetti has compiled this new collection of Roy's most significant works. Roy conceived of humanism as a scientific, integral, and radically new worldview. Among many interesting selections in this volume, Roy's Principles of Radical Democracy: 22 Theses is especially representative of his thinking. Here he emphasized ethics and eschewed supernatural interpretations as antithetical to his scientifically oriented conception of new humanism. He also underscored the importance of universal education to make average people scientifically literate and to teach them critical thinking.Roy was not only a thinker but a doer as well. He spent six years in an Indian prison during the 1930s for opposing the British rule of India.For humanists, philosophers, political scientists, and others, M.N. Roy's unique and still very relevant view of humanism will have great appeal and broad application beyond its original Indian context.Innaiah Narisetti, Ph.D. (Hyderabad, India), is the chairman of the Center for Inquiry, India, the former general secretary of the Indian Radical Humanist Association, and the author of Let Sanity Prevail, M. N. Roy: Radical Humanist, and four other books.

Celebrating Lutheran Music .2019 The year 2017 provided an impetus to study anew the mutual influence between Lutheranism and music

throughout the 500 years since the Reformation. To provide a scholarly arena for such discussions, the Department of Musicology at Uppsala University organised the Lutheran Music Culture conference, 14-16 September 2017. From a rich body of proposals, 47 contributions were included in the programme. Together with keynote lectures, evening concerts and a concluding panel discussion, presentations by contributing scholars from five continents helped to stimulate intensive days of vibrant discussion. This volume of proceedings is the first of two anthologies documenting the variety of conference papers. A second anthology will provide deeper theoretical discussions, as well as perspectives on Luther's own musical thought and practice. The constellation of articles presented in this first anthology celebrates a rich diversity of material and approaches. The nature of the theme demands interdisciplinary breadth, and the contributors work from a wide range of disciplines within theology and the humanities.

Buyology Martin Lindstrom.2010-02-02 NEW YORK TIMES BESTSELLER • "A fascinating look at how consumers perceive logos, ads, commercials, brands, and products."—Time How much do we know about why we buy? What truly influences our decisions in today's message-cluttered world? In *Buyology*, Martin Lindstrom presents the astonishing findings from his groundbreaking three-year, seven-million-dollar neuromarketing study—a cutting-edge experiment that peered inside the brains of 2,000 volunteers from all around the world as they encountered various ads, logos, commercials, brands, and products. His startling results shatter much of what we have long believed about what captures our interest—and drives us to buy. Among the questions he explores: • Does sex actually sell? • Does subliminal advertising still surround us? • Can "cool" brands trigger our mating instincts? • Can our other senses—smell, touch, and sound—be aroused when we see a product? *Buyology* is a fascinating and shocking journey into the mind of today's consumer that will captivate anyone who's been seduced—or turned off—by marketers' relentless attempts to win our loyalty, our money, and our minds.

A Musical Life Max Rudolf.2001 This volume offers a collection of articles written by the renowned conductor and scholar Max Rudolf, together with a selection of his correspondence relating to material in the articles. Max Rudolf's conducting career spanned seventy years, from his first performances in 1920-21 to his last in 1990. His life was devoted to performing, scholarship, and teaching. He conducted at the Metropolitan Opera from 1943 to 1937 and was Musical Director of the Cincinnati Symphony from 1938 to 1970, after which he combined guest conducting with teaching opera and conducting at the Curtis Institute in Philadelphia. The articles reflect a lifetime of thought on the art of conducting, musical style, and performance practice. Rudolf, known as an interpreter of the classical repertoire, freely shared his vast knowledge of Mozart's and Beethoven's scores with colleagues and students. His conducting book, *The Grammar of Conducting*, has been the leading college text in the field for many years. As such it has extended his influence on many generations of conductors. Throughout his life, Rudolf corresponded voluminously with other musicians. The letters included in this volume were selected because they shed a warm, personal light on the formal published articles thus providing an opportunity to share the mind and thoughts of an outstanding human being.

Bach's Oratorios Johann Sebastian Bach,Michael Marissen.2008 The major choral works by Johann Sebastian Bach—the Christmas, Easter, and Ascension Oratorios, and the St. Matthew, St. Mark, and St. John Passions—stand as the most frequently-performed and penetratingly discussed of the genre. Renowned Bach scholar Michael Marissen has assembled a compact, well-designed and ideally useful treatment of Bach's oratorios, providing the full German texts with literal English translations and copious annotations. He provides strict literal translations of these texts, with citations from the Luther Bible as it was known in Bach's day, along side extensive footnotes that provide information addressing the interests and concerns of today's Bach community. These are the first translations of the librettos from Bach's oratorios to accommodate the many sense-clarifying allusions to the readings of the Luther Bibles in Bach's day, to explore from historical dictionaries the meanings of previously unnoticed archaic usages, and to contrast relevant findings from modern biblical scholarship. Marissen's insights are particularly helpful, his thoroughness is impressive, and the book will be a longstanding, definitive, and essential reference for choral directors, performers, audience members, and Bach scholars alike.

Deepening Musical Performance through Movement ROGER Pierce.2010-02-26 Alexandra Pierce singles out elements of music such as melody, meter, and phrase, and investigates the defining quality of each through movement. Although simple, these exercises engage the listening attention in complex ways and can be integrated into a musician's daily practice. Practicing movements that accurately reflect a musical element can improve technique and are audible in performance. They become part of your technical command. Short narratives that illustrate how performance practice problems can be approached and solved are scattered throughout the book. A video companion to *Deepening Musical Performance through Movement* can be found at the author's website, alexandrapierce.net/deepening.

PJ Harvey and Music Video Performance Abigail Gardner.2016-03-09 PJ Harvey's performances are premised on the core contention that she is somehow causing 'trouble'. Just how this trouble can be theorised within the context of the music video and what it means for a development of the ways we might conceptualise 'disruption' and think about music video lies at the heart of this book. Abigail Gardner mixes feminist theory and critical models from film and video scholarship as a rich means of interrogating Harvey's work and redefining her disruptive strategies. The book presents a rethinking of the masquerade that allies it to cultural memory, precipitated by Gardner's claim that Harvey's performances are conversations with the past, specifically with visualised memories of archetypes of femininity. Harvey's masquerades emerge from her conversations and renegotiations with both national and transatlantic musical, visual and lyrical heritages. It is the first academic book to present analysis of Harvey's music videos and opens up fresh avenues into exploring what is at stake in the video work of one of Britain's premier singer-songwriters. It extends the discussion on music video to consider how to make sense of the rapidly developing digital environment in which it now sits. The interdisciplinary nature of the book should attract readers from a range of subject areas including popular music studies, cultural studies, media and communication studies, and gender studies.

Brandenburg Concerto No. 3 in G Major Johann Sebastian Bach.2021-03-21 Music that showcases the utter joyousness of four-hand piano playing. This arrangement of Bach's third Brandenburg concerto features a labyrinth of choreographed hand crossings designed to serve two purposes: to bring the conversational, antiphonal spirit of the nine-voiced original to life and to equitably distribute the virtuosic passagework between the two performers. Anderson closely adheres to the source material in the first and third movements while still managing to recast the work in an eminently

pianistic manner. Anderson offers a newly composed improvisation to serve as the work's second movement. Music by Johann Sebastian Bach (1756-1791). Arranged and adapted for piano, four hands by Greg Anderson (b. 1981). Advanced. 34 pages. Published by Awkward Fermata Press.

His vast oeuvre encompasses every genre, from opera and ballet to chamber music, orchestral works and song. But he is also a fine essayist, and his short fiction has received praise from André P. Brink. This is the first study of its kind to be devoted to a South African composer.
