Beyond the Book Bridget Carrington.2014-01-06 November 2012 saw the joint annual conference of the British branch of the International Board on Books for Young People (IBBY UK) and the MA course at the National Centre for Research in Children's Literature (NCRCL) at Roehampton University. The theme of the conference was the investigation of aspects of literature for children that were 'Beyond the Book'. From woodcuts to e-books, children's literature has always lent itself to reinterpretation and expansion. In its early days, this was achieved through different forms of retelling, through illustration and interactive illustration (pop-ups and flaps), and then through music, film, television and stage adaptation. The contributors to the 2012 conference explored the variety of means by which we transform literature intended for children, and celebrated the vibrant world of creativity that has sought, and continues to seek, different ways in which to engage young readers. Bridget Carrington and Jennifer Harding have previously collaborated as the editors of earlier IBBY UK/NCRCL MA conference proceedings: Going Graphic: Comics and Graphic Novels for Young People; Conflicts and Controversies: Challenging Children's Literature; and It Doesn't Have to Rhyme: Children and Poetry (Pied Piper Publishing, 2010, 2011, 2012).

Rules of Play Katie Salen Tekinbas, Eric Zimmerman.2003-09-25 An impassioned look at games and game design that offers the most ambitious framework for understanding them to date. As pop culture, games are as important as film or television—but game design has yet to develop a theoretical framework or critical vocabulary. In Rules of Play Katie Salen and Eric Zimmerman present a much-needed primer for this emerging field. They offer a unified model for looking at all kinds of games, from board games and sports to computer and video games. As active participants in game culture, the authors have written Rules of Play as a catalyst for innovation, filled with new concepts, strategies, and methodologies for creating and understanding games. Building an aesthetics of interactive systems, Salen and Zimmerman define core concepts like play, design, and interactivity. They look at games through a series of eighteen game design schemas, or conceptual frameworks, including games as systems of emergence and information, as contexts for social play, as a storytelling medium, and as sites of cultural resistance. Written for game scholars, game developers, and interactive designers, Rules of Play is a textbook, reference book, and theoretical guide. It is the first comprehensive attempt to establish a solid theoretical framework for the emerging discipline of game design.

Traumreise: Magic Dreams Ingolf Hahn.2019-04-04 When John, Jane, Sue and Lisa, four children of different ages, temperaments and desires, travel to Egypt for a great adventure to look for priceless treasure in the ancient pyramids, they experience challenges beyond their wildest dreams. However, one of them has a secret: she is planning a meeting with a local boy whose life story she has learned through contacts in an internet chat room. Their first tasks in this mysterious land are those of the average tourist: inspecting the treasures in the vast museum and wending their way through the maze that is the Cheop pyramid. They could not know that what seemed like normal encounters were deliberate attempts to attract their attention, or that their plans would take an unexpected turn as one of the children disappears and is soon followed by another. The three who remain

in the dark pathways of the pyramid feel varying degrees of fear and hysteria but find friendship and challenges when they meet a surprising savior a long-lost queen who needs their help to regain her kingdom. Just as they make her acquaintance, the first of the lost children reappears and the four of them accept an invitation to play a magic board game which seems a bit scary. Once they are assured that nothing bad will happen to them, and that the game is a test of their skills and personalities, the children embark on a series of adventures which transport them, one at a time, back into ancient civilizations where they live out the roles of old villains and heroes, and meet mystical creatures. Each of the adventures requires courage and resourcefulness as they fulfil their roles and form a lasting bond with their lovely queen. They experience events that more than meet anything they could have imagined, but one of them has a more important desire, that of meeting her exotic soul mate who has been lost to her.

Reading, Writing, Playing, Learning Lori Jamison Rog, Donna-Lynn Galloway. 2017-01-12 This practical handbook shows teachers how to nurture a kindergarten learning environment in which children feel safe, comfortable, and able to take risks. It offers innovative ways to encourage children to explore, experiment, discover, solve problems, and freely interact with one another. Based on extensive classroom practice, it demonstrates when teachers need to provide support, ask questions, and provoke thinking, and when they should step back and give children room to explore on their own. This remarkable book offers concrete suggestions for creating play-based learning in a culture of inquiry. It is committed to creating classrooms where children can learn and grow while they play.
