A Guide to the World Bank World Bank.2007-06-27 The World Bank Group is a vital source of financial and technical assistance to developing countries around the world. Its focus is on helping the poorest people in the poorest countries by using its financial resources, staff, and extensive experience to aid countries in reducing poverty, increasing economic growth, and improving quality of life. In partnership with more than 100 developing countries, the Bank Group is striving to improve health and education, fight corruption, boost agricultural support, build roads and ports, and protect the environment. Other projects are aimed at rebuilding war-torn countries or regions, providing basic services such as access to clean water, and encouraging investments that create jobs. In addition to this critical groundwork around the world, various parts of the World Bank Group are involved in activities ranging from conducting economic research and analysis to providing financial and advisory services to governments and private enterprises. This completely revised and updated second edition provides an accessible and straightforward overview of the World Bank Group's history, organization, mission, and purpose. Additionally, for those wishing to delve further into subjects of particular interest, the book guides readers to sources containing more detailed information, including annual reports, Web sites, publications, and e-mail addresses for various departments. It also provides information on how to work for or do business with the World Bank. A good introduction for anyone interested in understanding what the World Bank Group does and how it does it, this book shows readers who want to learn more where to begin.

Scenic Spots Pi Nyri.2011-04-01 Twenty years ago, commercial tourism in the People's Republic of China hardly existed. Today, China has a burgeoning tourist industry, characterized by a unique style with deep roots in traditional Chinese culture. *Scenic Spots* is an engaging exploration of why Chinese tourists pursue certain kinds of experiences, what they make of them, and how their experiences and interpretations are shaped by the state. Working from within a Chinese cultural framework, Pi Nyri argues that China's brand of tourism is distinct from the traditions of both Western bourgeois tourism, which values authenticity, and Soviet tourism, with its emphasis on rugged and selfless experience. In China, tourism development is guided by the state, and scenic spots (jingdian) and theme parks are used to demonstrate China's heroic past and as tools of patriotic education and modernization or as forms of indoctrination. The tourist site is perceived as a product, and, as such, it is bounded, approved, rated, and consumed. In a style both straightforward and provocative, Nyri argues that the uniformity and undisguised commercialism of Chinese tourist sites are a direct result of the state's ultimate authority to determine the meaning of landscape and to control culture. *Scenic Spots* serves as a lens through which to explore mechanisms of cultural control and resistance in a highly commercialized sphere of everyday life in contemporary China.

Forests Are Gold Pamela D. McElwee.2016-04-05 *Forests Are Gold* examines the management of Vietnam's forests in the tumultuous twentieth century—from French colonialism to the recent transition to market-oriented economics—as the country united, prospered, and transformed people and landscapes. Forest policy has rarely been about ecology or conservation for nature's sake, but about managing citizens and society, a process Pamela McElwee terms environmental rule. Untangling and understanding these practices and networks of rule illuminates not just thorny issues of environmental change, but also the birth of Vietnam itself.

Haiti .2008-01-01 *Haiti: Public Expenditure Management and Financial Accountability Review* is part of the World Bank Country Study series. These reports are published with the approval of the subject government to communicate the results of the Bank's work on the economic and related conditions of member countries to governments and to the development community. This book summarizes the key findings and policy recommendations of a comprehensive diagnosis of a Public Expenditure Management and Financial Accountability Review (PEMFAR). The PEMFAR is an exercise which integrates the analysis of a Public Expenditure.

Invasive species in the New Caledonian archipelago : a major economic and environmental hazard Marie-Laure Beauvais, Alain Coléno, Hervé Jourdan.2006 La biodiversité calédonienne, reconnue comme l'une des plus exceptionnelles avec son fort taux d'endémisme, est largement menacée par l'introduction de nouvelles espèces. Il est donc important de protéger l'écosystème calédonien, à la fois riche et vulnérable, des espèces envahissantes, l'une des principales causes de perte de la biodiversité à l'échelle mondiale. Face à cette menace, le Gouvernement et les trois provinces de Nouvelle-Calédonie souhaitent mettre en place une structure collective afin de définir les orientations stratégiques nécessaires pour préserver et conserver leur biodiversité. Elles ont ainsi voulu qu'un état des connaissances soit dressé et qu'une réflexion soit menée sur la prévention, la détection précoce, l'intervention rapide, l'éradication, le confinement et le contrôle des espèces envahissantes. Cette expertise collégiale apporte les éléments nécessaires à la construction d'un système de biosécurité pertinent et efficace pour l'archipel néo-calédonien.

Tourism, Ethnicity, and the State in Asian and Pacific Societies Michel Picard, Robert E. Wood.1997-05-01 The expansion of international tourism is changing the relationship between ethnic groups and states around the globe. Yet tourism's importance for the understanding of ethnicity in the modern world has been generally neglected within the field of ethnic studies. This pioneering volume investigates how international tourism development, state policies of ethnic management, and the active responses of local ethnic groups intersect to reshape ethnic identities and ethnic relations in Asian and Pacific societies. It analyzes the ways in which the very meaning of ethnicity and culture are being contested and reworked in the wake of tourism's impact. Following an introduction that explores the close but often ambivalent relationship between tourism promotion and state ethnic policies, individual contributors examine tourism's varied effects in China, Singapore, Malaysia, Thailand, Indonesia, and the island Pacific in rich ethnographic detail.

Vacation Decision Making Alain Decrop.2006-01-01 The focus of this book is on holiday planning and decision making, which is the cornerstone of tourist behaviour and tourism marketing. The first three chapters deal with the basics, including an overview of decision-making paradigms and variables (chapter 1), a critical review of existing tourist behaviour models (chapter 2) and a description of the methods that may be used for studying holiday decision making (chapter 3). The chapters that follow relate the findings of an in-depth qualitative and interpretative study that followed the decision making process of 25 Belgian households during a whole year. Chapter 4 discusses the context in which holiday decisions are made. In the next two chapters, the focus is on the decision-making process in itself both at the generic and holiday levels (chapter 5) and at the destination level (chapter 6). Post-experience processes are investigated in chapter 7, whereas group processes are the particular focus of chapter 8. Chapter 9 presents the integrative and conclusive part of the book where a new typology of holidaymakers is proposed. The book has a subject index.

Cities, Culture and Creativity UNESCO,World Bank (the).2021-05-25 Culture and creativity have untapped potential to deliver social, economic, and spatial benefits for cities and communities. Cultural and creative industries are key drivers of the creative economy and represent important sources of employment, economic growth, and innovation, thus contributing to city competitiveness and sustainability. Through their contribution to urban regeneration and sustainable urban development, cultural and creative industries make cities more attractive places for people to live in and for economic activity to develop. Culture and creativity also contribute to social cohesion at the neighborhood level, enable creative networks to form and advance innovation and growth, and create opportunities for those who are often socially and economically excluded. The ongoing COVID-19 pandemic has had a deep impact on the cultural sector, yet it has also revealed the power of cultural and creative industries as a resource for city recovery and resilience. More generally, cities are hubs of the creative economy and have a critical role to play in harnessing the transformative potential of cultural and creative industries through policies and enabling environments at the local level. 'Cities, Culture, and Creativity' (CCC) provides guiding principles and a CCC Framework, developed by UNESCO and the World Bank, to support cities in unlocking the power of cultural and creative industries for sustainable urban development, city competitiveness, and social inclusion. Drawing from global studies and the experiences of nine diverse cities from across the world, the CCC Framework offers concrete guidance for the range of actors -- city, state, and national governments; creative industry and related private-sector organizations; creatives; culture professionals and civil society-- to harness culture and creativity with a view to boosting their local creative economies and building resilient, inclusive, and dynamic cities.

Local Resources, Territorial Development and Well-being Jean-Christophe Dissart,Natacha Seigneuret.2020-01-31 Using empirical evidence, this book argues for a more comprehensive view of the diversity of local resources and well-being from a territorial perspective. The first part of the book addresses the contrasting nature of local resources: in connection with proximity and governance, the ground, the past, cultural heritage sites, the snow, and energy. Well-being from multiple perspectives is examined in the second part, shedding light on sociabilities vs. income level, accessibility for pedestrians, health via urban design, life course trajectories as indicators of quality of life, and the connection between amenities and social justice.

Critical Issues in Tourism Gareth Shaw.1994-01-14 Few industries have expanded faster over the last fifty years than tourism. Tourism has brought employment to millions, frequently in the poor and more remote parts of the world, and given pleasure, variety, rest and recreation to countless numbers of travelers and holiday-makers. It has at the same time destroyed and polluted pristine environments, threatened local cultures, and in doing so, frequently devalued just those characteristics of a place that had made it a desirable tourist objective. The issues that tourism raises are of critical and vital importance throughout the world: this book provides a much-needed geographical perspective upon them. The authors focus on both the production and consumption of tourism, and show that it is this interrelationship which holds the key to understanding the ways in which tourism shapes, and reshapes, human and physical environments. They analyze the key features of the tourism and leisure industries, and place them in the context of changing social, political and economic structures and behavior. The argument is accompanied throughout by illustrative case studies, drawn from a wide range of countries, including both the developed and developing economies.

British and French Colonialism in Africa, Asia and the Middle East James R. Fichter.2019-08-14 This book examines the connections between the British Empire and French colonialism in war, peace and the various stages of competitive cooperation between, in which the two empires were often frères ennemis. It argues that in crucial ways the British and French colonial empires influenced each other. Chapters in the volume consider the two empires' connections in North, West and Central Africa, as well as their entanglement at sea in the Mediterranean Sea, Persian Gulf and South China Sea. Also analysed are their mutual engagement with Islam in both the Hajj and various religiously inflected colonial revolts, their mutually-informed systems of administration in the New Hebrides and generally, and the interconnected ways the two empires fought World War II and decolonization. By uniting historians of France and her colonies with historians of Britain and her colonies, this volume speaks to a broad international and imperial history audience.

Legal Translation and Court Interpreting: Ethical Values, Quality, Competence Training Annikki Liimatainen,Arja Nurmi,Marja Kivilehto,Leena Salmi,Anu Viljanmaa,Melissa Wallace.2017-10-24 This multidisciplinary volume offers a systematic analysis of translation and interpreting as a means of guaranteeing equality under the law as well as global perspectives in legal translation and interpreting contexts. It offers insights into new research on • language policies and linguistic rights in multilingual communities • the role of the interpreter • accreditation of legal translators and interpreters • translator and interpreter education in multiple countries and • approaches to terms and tools for legal settings. The authors explore familiar problems with a view to developing new approaches to language justice by learning from researchers, trainers, practitioners and policy makers. By offering multiple methods and perspectives covering diverse contexts (e.g. in Austria, Belgium, England, Estonia, Finland, France, Germany, Hong Kong, Ireland, Norway, Poland), this volume is a welcome contribution to legal translation and interpreting studies scholars and practitioners alike, highlighting settings that have received limited attention, such as the linguistic rights of vulnerable populations, as well as practical solutions to methodological and terminological problems.

Driving Europe Frank Schipper.2008 Today we can hardly imagine life in Europe without roads and theautomobiles that move people and goods around. In fact, the vastmajority of movement in Europe takes place on the road. Travelersuse the car to explore parts of the continent on their holidays,and goods travel large distances to reach consumers. Indeed, thetwentieth century has deservedly been characteried as the centuryof the car. The situation looked very different around 1900.People crossing national borders by car encountered multiplehurdles on their way. Technically, they imported their vehicleinto a neighboring country and had to pay astronomic importduties. Often they needed to pass a driving test in each countrythey visited. Early on, automobile and touring clubs sought tomake life easier for traveling motorists.International negotiations tackled

the problems arising from differing regulations. The resulting volume describes everything from the standardized traffic signs that saved human lives on the road to the Europabus taking tourists from Stockholm to Rome in the 1950s. *Driving Europe* offers a highly original portrait of a Europe built on roads in the course of the twentieth century.

The Economics of Tourism Mike J. Stabler, Andreas Papatheodorou, M. Thea Sinclair. 2009-12-16 This new edition of *The Economics of Tourism* reflects the tremendous changes that have occurred in the tourism sector in the last twelve years. It recognizes that the nature of tourism demand and supply is being transformed by innovations in information communication technologies, market liberalization and climate change. Paralleling this, there is much greater interest in the study of tourism by both students and researchers in mainstream economics. The text is now in four parts covering: demand; supply; national, regional and international matters and environmental issues. The concluding chapter appraises the state of the economic research into tourism. The increased interest in tourism has engendered the development of new methods of analysis and the refinement of established ones. Accordingly, the book has been extensively restructured, revised and expanded with two new chapters: chapter six of the first edition is now broken down into two and a new chapter has been added on environmental issues to take account of new developments, critically review the associated literature and consider future trends in tourism economics research. The reader-friendliness of the book has also been enhanced in various ways, such as the extensive chapter cross-referencing to refresh the reader's memory and the inclusion of a detailed list of abbreviations. *The Economics of Tourism* will continue to make accessible for the non-specialist, the application and relevance of economics to tourism. Extensively revised and updated, including research and case studies the textbook will be an indispensable resource for both students and researchers.

Venice Saved Simone Weil. 2019-06-13 Towards the end of her life, the French philosopher and mystic Simone Weil (1909-43) was working on a tragedy, *Venice Saved*. Appearing here in English for the first time, this play explores the realisation of Weil's own thoughts on tragedy. A figure of affliction, a central theme in Weil's religious metaphysics, the central character offers a unique insight into Weil's broader philosophical interest in truth and justice, and provides a fresh perspective on the wider conception of tragedy itself. The play depicts the plot by a group of Spanish mercenaries to sack Venice in 1618 and how it fails when one conspirator, Jaffier, betrays them to the Venetian authorities, because he feels compassion for the city's beauty. The edition includes notes on the play by the translators as well as introductory material on: the life of Weil; the genesis and purport of the play; Weil and the tragic; the issues raised by translating *Venice Saved*. With additional suggestions for further reading, the volume opens up an area of interest and research: the literary Weil.

Territorial Governance André Torre, Jean-Baptiste Traversac. 2011-04-05 This work aims to present the most recent developments regarding territorial governance, placing particular emphasis on rural and periurban areas. The reader will find information on the processes of development of European regions, as well as on the behaviours and strategies adopted by the different actors who live in these territories and contribute to the latter's livelihood. The first part of the book analyses the structural changes in the modes of production that have affected these territories. The second part addresses the questions of methodology and of the structures of governance of local development in rural areas. The last section makes an assessment of the geographical indications as tools of governance of local agrifood chains. The book was written by economists, geographers, land use planners and specialists of the questions of governance and management of rural and periurban areas.
