In the Way of Women Cynthia Cockburn.2018-08-06 How are men responding to feminism? In particular, at work dealing with the challenge to their power and privilege represented by positive action for sex equality? The 1980s saw many organizations, from major companies to left-wing local councils, take action to improve women's chances. The research on which this book is based evaluates the part of men in the equality process. The author demonstrates the social mechanisms through which women's aspirations for change are thwarted and draws lessons from experience for feminist activism in organizations in the 1990s.

Absorption and Theatricality Michael Fried.1988-09-15 With this widely acclaimed work, Michael Fried revised the way in which eighteenth-century French painting and criticism are viewed and understood. Analyzing paintings produced between 1753 and 1781 and the comments of a number of critics who wrote about them, especially Dennis Diderot, Fried discovers a new emphasis in the art of the time, based not on subject matter or style but on values and effects.

François Coty Roulhac Toledano, Elizabeth Z. Coty. 2009-01-01 If anyone wants to understand the fate of France in the 20th century, this is the book to read. --Arthur Herman, historian and bestselling author of *How the Scots Invented the Modern World*. In 1906, François Coty became a multimillionaire within two years of creating his first perfume, the legendary La Rose Jacqueminot. In the 30 years he ruled his perfume and cosmetics kingdom, Coty became France's first billionaire, acquiring unimaginable wealth during the most devastating war in the history of Europe, World War I. Born in Corsica next door to the home where his idol and distant relative Napoleon Bonaparte was born, Coty, with his unshakable charisma, ingenuity, and of course, his incredibly sensitive nose, revolutionized the world's fragrance and cosmetics industry. Now, for the first time, comes this stunning biography of France's fragrance king, the incredible story of the ambitions, loves, losses, and triumphs of one of the 20th century's most famed yet enigmatic entrepreneurial geniuses.

Class Questions Joan Acker. 2006 Class is a particularly troublesome issue in the United States and other rich capitalist societies. In this feminist analysis of class, noted sociologist Joan Acker examines and assesses feminist attempts to include white women and people of color in discussions of class. She argues that class processes are shaped through gender, race, and other forms of domination and inequality. *Class Questions: Feminist Answers* outlines a theory of class as a set of gendered and racialized processes in which people have unequal control over and access to the necessities of life-processes including production, distribution, and paid and unpaid labor. Historically, gender and race-based inequalities were integral to capitalism and they are still fundamental aspects of the class system. Acker argues that capitalist organizations create gendered and racialized class inequalities and outlines a conceptual scheme for analyzing inequality regimes in organizations. Finally, the book examines contemporary changes in work and employment and in economic/political processes, including current events like deregulation, downsizing, and offshoring, that increase inequalities and alter racialized and gendered class relations. This book will appeal to readers interested in a feminist discussion of class as a racialized and gendered process intimately tied to the capitalist economic system.
