Insight Selling Mike Schultz,John E. Doerr.2014-04-30 What do winners of major sales do differently than the sellerswho almost won, but ultimately came in second place? Mike Schultz and John Doerr, bestselling authors andworld-renowned sales experts, set out to find the answer. Theystudied more than 700 business-to-business purchases made by buyerswho represented a total of \$3.1 billion in annual purchasing power.When they compared the winners to the second-place finishers, theyfound surprising results. Not only do sales winners sell differently, they sellradically differently, than the second-place finishers. In recent years, buyers have increasingly seen products andservices as replaceable. You might think this would meanthat the sale goes to the lowest bidder. Not true! A new breed ofseller—the insight seller—is winning the sale withstrong prices and margins even in the face of increasingcompetition and commoditization. In *Insight Selling*, Schultz and Doerr share thesurprising results of their research on what sales winners do differently, and outline exactly what you need to do to transformyourself and your team into insight sellers. They introduce asimple three-level model based on what buyers say tip the scales infavor of the winners: Level 1 Connect. Winners connect the dots between customer needs and company solutions, while also connecting withbuyers as people. Level 2 Convince. Winners convince buyers that they canachieve maximum return, that the risks are acceptable, and that theseller is the best choice among all options. Level 3 Collaborate. Winners collaborate with buyers bybringing new ideas to the table, delivering new ideas and insights,and working with buyers as a team. They also found that much of the popular and current advicegiven to sellers can damage sales results. *Insight Selling* is both a strategic and tactical guide that will separate the goodadvice from the bad, and teach you how to put the three levels ofselling to work to inspire buyers, influence their agendas, andmaximize value. If you want to find yourself and your team in thewinner's circle more often, this book is a must-read.

Service Automation Framework Jan-Willem Middelburg. 2017-01-01 Service Automation is the concept of achieving customer loyalty by the use of automated technologies and builds upon a large demographic and sociological trend. We are the self-service generation, who are able to make our own decisions. The self-service generation is nowadays used to search, evaluate and purchase products online for a number of years now. This book will give you deep insight into the concept of Service Automation, the concept by which you can automate customer service in your organization. If you adequately apply Service Automation in your organization, you will see both employee and customer satisfaction rise and significantly increase the number of people who 'like' your company. The Service Automation Framework (SAF®) has been created to find a methodical way to discuss Service Automation. It offers a simplistic version of any organization, which includes a number of processes that every organization can think of to systematically enhance its Service. As with any model, it is a simplified version of reality, but it structures the mind and provides uniform terminology when discussing the contents with co-workers and colleagues. Nothing more, nothing less. We encourage you to adapt and apply the model in any way that you see fit and which helps you and your organization. This book is intended for anyone who has ever experienced that the level of Service in his organization can be increased and is looking for guidance on a step-by-step model to achieve this, whether you are an entrepreneur, executive, consultant or work in the field of academia.

This return is now thought of as the benefits that accrue from the investment: some financial, others perhaps harder to define, but nonetheless just as important in justifying the investment. Making sure that they are realised, and that unanticipated benefits are maximised, is as important as the initial justification, and without that many projects have earned a bad name for project management. This publication provides comprehensive guidance on how to manage delivery of the benefits used to justify investment in change. It provides guidance for all involved in successful change delivery from senior responsible owners and directors through to portfolio, programme and project managers. The guidance is the source material for an accredited qualification from APMG-International
