*Maine Roads to Gettysburg* Tom Huntington. 2023-06-14 From the author of *Searching for George Gordon Meade*, a study of how troops from Maine aided the Union Army's victory at the Battle of Gettysburg. Joshua Lawrence Chamberlain and his 20th Maine regiment made a legendary stand on Little Round Top during the Battle of Gettysburg in July 1863. But Maine's role in the battle includes much more than that. Soldiers from the Pine Tree State contributed mightily during the three days of fighting. Pious general Oliver Otis Howard secured the high ground of Cemetery Ridge for the Union on the first day. Adelbert Ames—the stern taskmaster who had transformed the 20th Maine into a fighting regiment—commanded a brigade and then a division at Gettysburg. The 17th Maine fought ably in the confused and bloody action in the Wheatfield; a sea captain turned artilleryman named Freeman McGilvery cobbled together a defensive line that proved decisive on July 2; and the 19th Maine helped stop Pickett's Charge during the battle's climax. Maine soldiers had fought and died for two bloody years even before they reached Gettysburg. They had fallen on battlefields in Virginia and Maryland. They had died in front of Richmond, in the Shenandoah Valley, on the bloody

fields of Antietam, in the Slaughter Pen at Fredericksburg, and in the tangled Wilderness around Chancellorsville. And the survivors kept fighting, even as they followed Robert E. Lee's Army of Northern Virginia into Pennsylvania. In *Maine Roads to Gettysburg*, author Tom Huntington tells their stories. Praise for *Searching for George Gordon Meade* "An engrossing narrative that the reader can scarcely put down." —Pulitzer Prize-winning historian James M. McPherson "Unique and irresistible." —Lincoln Prize-winning historian Harold Holzer

*Land of a Thousand Balconies* Jack Stevenson.2003 Most books about B-movies are straight-forward genre guides, biographies or encyclopaedias. Not this one. In addition to chapters on film showmen, gimmicks and cult films, *Land of a Thousand Balconies* documents those incidents and unusual film happenings which author Jack Stevenson has -- over the past fifteen years -- been privy to in his various capacities as show organiser, tour arranger, festival jury member and projectionist-for-hire. *Land of a Thousand Balconies* also focuses on movie theatres and renegade exhibition spaces, lamenting on the disappearing 'sense of place' that is such an integral part of the movie-going experience. Here the reader is invited to tour a diversity of venues -- from the notorious old grindhouses of San Francisco, the home-made store-front cinemas of Seattle and NY, through to the

underground film clubs of Europe. Book jacket.

*Minecraft: The Mountain* Max Brooks.2021-03-02 In the thrilling sequel to the New York Times bestselling novel *Minecraft: The Island*, a stranded hero stumbles upon another castaway—and discovers that teamwork might just be the secret to survival. Wandering a vast, icy tundra, the explorer has never felt more alone. Is there anything out here? Did I do the right thing by leaving the safety of my island? Should I give up and go back? With nowhere to hide, the lone traveler flees up a mountain, trapped and out of options . . . until a mysterious figure arrives, fighting off the horde singlehandedly. The unexpected savior is Summer, a fellow castaway and master of survival in these frozen wastes. Excited to find another person in this strange, blocky world, the explorer teams up with Summer, whose impressive mountain fortress as a safe haven . . . for now. **The Production of Space** Henri Lefebvre.1992-04-08 Henri Lefebvre has considerable claims to be the greatest living philosopher. His work spans some sixty years and includes original work on a

diverse range of subjects, from dialectical materialism to architecture, urbanism and the experience of everyday life. *The Production of Space* is his major philosophical work and its translation has been long awaited by scholars in many different fields. The book is a search for a reconciliation between mental space (the space of the philosophers) and real space (the physical and social spheres in which we all live). In the course of his exploration, Henri Lefebvre moves from metaphysical and ideological considerations of the meaning of space to its experience in the everyday life of home and city. He seeks, in other words, to bridge the gap between the realms of theory and practice, between the mental and the social, and between philosophy and reality. In doing so, he ranges through art, literature, architecture and economics, and further provides a powerful antidote to the sterile and obfuscatory methods and theories characteristic of much recent continental philosophy. This is a work of great vision and incisiveness. It is also characterized by its author's wit and by anecdote, as well as by a deftness of style which Donald Nicholson-Smith's sensitive translation precisely captures.

**Outliers** Malcolm Gladwell.2008-11-18 From the bestselling author of Blink and The Tipping Point, Malcolm Gladwell's Outliers: The Story of Success overturns conventional wisdom about genius to show us what makes an ordinary person an extreme overachiever. Why do some people achieve so much more than others? Can they lie so far out of the ordinary? In this provocative and inspiring book, Malcolm Gladwell looks at everyone from rock stars to professional athletes, software billionaires to scientific geniuses, to show that the story of success is far more surprising, and far more fascinating, than we could ever have imagined. He reveals that it's as much about where we're from and what we do, as who we are - and that no one, not even a genius, ever makes it alone. Outliers will change the way you think about your own life story, and about what makes us all unique. 'Gladwell is not only a brilliant storyteller; he can see what those stories tell us, the lessons they contain' Guardian 'Malcolm Gladwell is a global phenomenon ... he has a genius for making everything he writes seem like an impossible adventure' Observer 'He is the best kind of writer - the kind who makes you feel like you're a genius, rather than he's a genius' The Times

Mission Possible Valeria Gontareva, Yevhen Stepaniuk. 2020-07-15 "This is an extraordinary book from an extraordinary person. This book is an insightful, candid and passionate account of her approach and policy experience. She has called it a 'Practical Manual' for reforms - it is that but also much more: a historical record of reforms against all odds." - Erik Berglof, Director of LSE Institute of Global Affairs "Many emerging economies often lack practical experience in transforming themselves into fully-functioning market-oriented economies and this Practical Manual will help you with this task. Moreover, the book is precisely about how to accomplish drastic reforms in wartime - and I truly believe that the wartime of COVID-19 is an unprecedented opportunity for reform." - Valeria Gontareva, Former Governor of the National Bank of Ukraine In addition, Valeria received a nomination for her work as the Governor of the National Bank of Ukraine in the Financial Times's Women of the Year 2019 list.

*Three Day Road* Joseph Boyden.2006-04-25 Set in Canada and the battlefields of France and

Belgium, *Three-Day Road* is a mesmerizing novel told through the eyes of Niska—a Canadian Oji-Cree woman living off the land who is the last of a line of healers and diviners—and her nephew Xavier. At the urging of his friend Elijah, a Cree boy raised in reserve schools, Xavier joins the war effort. Shipped off to Europe when they are nineteen, the boys are marginalized from the Canadian soldiers not only by their native appearance but also by the fine marksmanship that years of hunting in the bush has taught them. Both become snipers renowned for their uncanny accuracy. But while Xavier struggles to understand the purpose of the war and to come to terms with his conscience for the many lives he has ended, Elijah becomes obsessed with killing, taking great risks to become the most accomplished sniper in the army. Eventually the harrowing and bloody truth of war takes its toll on the two friends in different, profound ways. Intertwined with this account is the story of Niska, who herself has borne witness to a lifetime of death—the death of her people. In part inspired by the legend of Francis Pegahmagabow, the great Indian sniper of World War I, *Three-Day Road* is an impeccably researched and beautifully written story that offers a searing reminder about the cost of war.

Nothing Happened Susan A. Crane.2021-01-19 The past is what happened. History is what we remember and write about that past, the narratives we craft to make sense out of our memories and their sources. But what does it mean to look at the past and to remember that nothing happened? Why might we feel as if nothing is the way it was? This book transforms these utterly ordinary observations and redefines Nothing as something we have known and can remember. Nothing has

been a catch-all term for everything that is supposedly uninteresting or is just not there. It will take some—possibly considerable—mental adjustment before we can see Nothing as Susan A. Crane does here, with a capital n. But Nothing has actually been happening all along. As Crane shows in her witty and provocative discussion, Nothing is nothing less than fascinating. When Nothing has changed but we think that it should have, we might call that injustice; when Nothing has happened over a long, slow period of time, we might call that boring. Justice and boredom have histories. So too does being relieved or disappointed when Nothing happens—for instance, when a forecasted end of the world does not occur, and millennial movements have to regroup. By paying attention to how we understand Nothing to be happening in the present, what it means to know Nothing or to do Nothing, we can begin to ask how those experiences will be remembered. Susan A. Crane moves effortlessly between different modes of seeing Nothing, drawing on visual analysis and cultural studies to suggest a new way of thinking about history. By remembering how Nothing happened, or how Nothing is the way it was, or how Nothing has changed, we can recover histories that were there all along.

**Rocky Horror Picture Show Book** Bill Henkin.1974

*Witch Catcher* Mary Downing Hahn.2006-07-24 When her widower father inherits a castlelike estate in the mountains of West Virginia, 12-year-old Jen is thrilled. It seems like a wish come true. But she quickly realizes that not all change is positive. Her dad has a mysterious new girlfriend, Moura, who slowly drives a wedge between Jen and her father. Furthermore, Moura has an unusually strong—almost obsessive—interest in the antiques that fill the mansion, especially a beautiful glass globe that Jen finds hanging in a window. When Jen's cat accidentally breaks the globe, which

Moura calls a “witch catcher,” strange things begin to happen. . . . An odd-looking girl wearing a torn dress appears, seemingly out of nowhere, and Moura’s behavior becomes more sinister, leading Jen to believe that her father is a pawn in an evil scheme. Soon Jen finds herself caught in the midst of a supernatural war, with the fate of an enchanted race—and her family—at stake. Inspired by the age-old legend of witch catchers, Mary Downing Hahn brings a magical cast of characters to life in this compelling fantasy adventure. Author’s note.

**The Catastrophist** Lauren Gunderson.2021-12-16 Honestly the best science I've ever done and - frankly the best science in the history of humankind - has started with the same thought experiment: find the ways in which humanity thinks it is special... and assume that we're not. How do you plan for a catastrophe? Virologist Nathan Wolfe, named one of TIME's 100 Most Influential People in the

World for his work tracking viral pandemic outbreaks, proposed pandemic insurance years before the novel coronavirus outbreak. No one bought it. Now, in a post-COVID world, we hear his story. A time-jumping tale based on the life and work of Nathan Wolfe (who also happens to be the playwright's husband). Though not a play about COVID19, it is a true story of a pandemic expert. A deep dive into the profundities of scientific exploration and modern Judaism, the lengths one goes for love and family, the bracing truths of fatherhood and discovery, and the harrowing realities of facing your own mortality, *The Catastrophist* is also a story of a main character battling the story he's in... and who is writing it.

*The Music Lesson* Victor L. Wooten.2008-04-01 From Grammy-winning musical icon and legendary bassist Victor L. Wooten comes an inspiring parable of music, life, and the difference between playing all the right notes...and feeling them. *The Music Lesson* is the story of a struggling young musician who wanted music to be his life, and who wanted his life to be great. Then, from nowhere it seemed, a teacher arrived. Part musical genius, part philosopher, part eccentric wise man, the teacher would guide the young musician on a spiritual journey, and teach him that the gifts we get from music mirror those from life, and every movement, phrase, and chord has its own meaning...All you have to do is find the song inside. "The best book on music (and its connection to the mystic laws of life) that I've ever read. I learned so much on every level."—Multiple Grammy Award-winning saxophonist Michael Brecker

Vakoch.2015-03-24 Addressing a field that has been dominated by astronomers, physicists, engineers, and computer scientists, the contributors to this collection raise questions that may have been overlooked by physical scientists about the ease of establishing meaningful communication with an extraterrestrial intelligence. These scholars are grappling with some of the enormous challenges that will face humanity if an information-rich signal emanating from another world is detected. By drawing on issues at the core of contemporary archaeology and anthropology, we can be much better prepared for contact with an extraterrestrial civilization, should that day ever come. *The Art of Anne Stokes* Anne Stokes,John Woodward.2019-05-28 [...] this is a book to pick up and dream about having a dragon curled up on your lap by the fire in these winter nights. —

[The Green Brain](#) Frank Herbert.2002-09-16 In an overpopulated world seeking living room in the jungles, the International Ecological Organization was systematically exterminating the voracious

insects which made these areas uninhabitable. Using deadly foamal bombs and newly developed vibration weapons, men like Joao Martinho and his co-workers fought to clear the green hell of the Mato Grosso. But somehow those areas which had been completely cleared were becoming reinfested, despite the impenetrable vibration barriers. And tales came out of the jungles . . . of insects mutated to incredible sizes . . . of creatures who seemed to be men, but whose eyes gleamed with the chitinous sheen of insects. . . . A fascinating examination of the fragile balance between consciousness, man and insect from one of the best-loved science fiction creators of all time. **Millennials Killed the Video Star** Amanda Ann Klein.2021-01-04 Between 1995 and 2000, the number of music videos airing on MTV dropped by 36 percent. As an alternative to the twenty-four-hour video jukebox the channel had offered during its early years, MTV created an original cycle of scripted reality shows, including Laguna Beach, The Hills, The City, Catfish, and Jersey Shore, which were aimed at predominantly white youth audiences. In Millennials Killed the Video Star Amanda Ann Klein examines the historical, cultural, and industrial factors leading to MTV's shift away from music videos to reality programming in the early 2000s and 2010s. Drawing on interviews with industry workers from programs such as The Real World and Teen Mom, Klein demonstrates how

MTV generated a coherent discourse on youth and identity by intentionally leveraging stereotypes about race, ethnicity, gender, and class. Klein explores how this production cycle, which showcased a variety of ways of being in the world, has played a role in identity construction in contemporary youth culture—ultimately shaping the ways in which Millennial audiences of the 2000s thought about, talked about, and embraced a variety of identities.
