**Manga** Toni Johnson-Woods.2010-04-15 A collection of essays by an international cast of scholars, experts, and fans, providing a definitive, one-stop Manga resource.

*Copyright, Creativity, Big Media and Cultural Value* Kathy Bowrey.2020-11-23 As the publishing, film and music industries are dominated by Big Media conglomerates, there is often recourse to simplistic ideological and conspiratorial readings of industry dynamics. *Copyright, Creativity, Big Media and Cultural Value: Incorporating the Author* explains why copyright is much more than a creator's private property right or a mechanism through which corporations control cultural production and influence mass consumption choices. The volume is grounded in extensive, painstakingly detailed and colourful original archival research into business histories of major successful artists including Conan Doyle, Hall Caine, Margaret Atwood, Dame Nellie Melba, Radiohead and Banksy, and the industries and genres that grew up around their activities. Chapters address big questions about how copyright generates income and how distributions of profits are allocated in the publishing, film and music industries. It includes discussion of the creation of new formats, the interplay between old media and new technologies, international copyright reform and cross-industry relations. *Copyright, Creativity, Big Media and Cultural Value* is a wide-ranging and important resource for students and practitioners of law and policy, media studies, cultural studies and literary history.

**Crime Stories** Todd Herzog. 2009-04-30 The Weimar Republic (1918–1933) was a crucial moment

not only in German history but also in the history of both crime fiction and criminal science. This study approaches the period from a unique perspective - investigating the most notorious criminals of the time and the public's reaction to their crimes. The author argues that the development of a new type of crime fiction during this period - which turned literary tradition on its head by focusing on the criminal and abandoning faith in the powers of the rational detective - is intricately related to new ways of understanding criminality among professionals in the fields of law, criminology, and police science. Considering Weimar Germany not only as a culture in crisis (the standard view in both popular and scholarly studies), but also as a culture of crisis, the author explores the ways in which crime and crisis became the foundation of the Republic's self-definition. An interdisciplinary cultural studies project, this book insightfully combines history, sociology, literary studies, and film studies to investigate a topic that cuts across all of these disciplines.

**Brilliant Activities for Reading Comprehension Year 6** Charlotte Makhlof. 2015-12-07 The importance of being able to read for meaning should never be underestimated. The ability to decode text is not enough. It is vital that children understand what they are reading. More importantly, it is

fundamental that they enjoy what they are reading, so that they grow up to become lifelong readers. The passages in the Brilliant Activities for Reading Comprehension series are designed to do just that. They provide children with a variety of engaging, enjoyable texts that will grab their attention, and indeed their teacher's attention as well. The types of comprehension passages range from newspaper articles and dialogues, to plays, stories and poems. They gradually increase in difficulty as you progress through the book, and through the series, encouraging children to develop their ability to read for meaning and use a range of strategies to engage with the text. The passages are ideal for guided reading. Tasks range from simple factual recall and vocabulary work to more open-ended questions enabling the reader to provide a more personal response. The cross-curricular activities provide a wealth of ideas for extending the passages further and are ideal for fast-finishers. *The Publishers' Circular and Booksellers' Record* .1927

Two appendices list Lee's television feature films and miniseries and his short films. The work concludes with an afterword by

Christopher Lee himself. Photographs from the actor's private collection are included.

**Global Youth?** Pam Nilan,Carles Feixa.2006-11-22 This innovative collection of studies by international youth researchers, critically addresses questions of 'global' youth, incorporating material from regions as diverse as Sydney, Tehran, Dakar and Manila, and advancing our knowledge about young people around the globe. Exploring specific local youth cultures whilst mediating global mass media and consumption trends, this book traces subaltern 'youth landscapes' and tells subaltern 'youth stories' previously invisible in predominantly western youth cultural studies and theorizing. The chapters here serve as a refutation of the colonialist discourse of cultural globalization. Showcasing previously unpublished youth research from outside the English-speaking world alongside the work of well-known researchers such as Huq and Holden, these accounts of youth cultural practices highlight much that is predictably different, but also a great deal of common ground. This book goes inside creative cultural formation of youth identities to critically examine the global in the local. Bringing together an internationally diverse group of researchers, who describe and analyze youth cultures throughout Europe, the Americas, Asia, Africa and Oceania, this volume presents the first comprehensive review of global youth cultures, practices and identities, and as such is a valuable read for students and researchers of youth studies, cultural studies and sociology.

**Contemporary German Crime Fiction** Thomas W. Kniesche.2019-10-21 A companion to contemporary German crime fiction for English-speaking audiences is overdue. Starting with the earlier Swiss “classics” Glauser and Dürrenmatt and including a number of important Austrian authors, such as Wolf Haas and Heinrich Steinfest, this volume will cover the essential writers, genres, and themes of crime fiction written in German. Where necessary and appropriate, crime fiction in media other than writing (TV-series, movies) will be included. Contemporary social and political developments, such as gender issues, life in a multicultural society, and the afterlife of German fascism today, play a crucial role in much of recent German crime fiction. A number of

contributions to this volume will comment on the literary reflection of these issues in the texts. The goal of the volume is to make available to English-speaking audiences, to students, teachers and to a wider circle of interested readers, a series of articles on genres, topics, authors, and texts that will help them understand the scope and depth of German crime fiction, its ties to international traditions and also the specificity of the German context, its historical development and contemporary situation.

*Travelling Goods, Travelling Moods* Christian Huck.2012-09 Looking at cultural appropriation from around the world, this volume uses the field of cultural studies—heavily influenced by both economics and sociology—as a lens through which to view the paradigm of transcultural consumption. The editors present a variety of consumptive phenomena including: the introduction of Chinese foods to the United States, Ford cars in Germany, and American schoolbooks in the Philippines. Rejecting the idea that these interactions were simply forms of “Americanization,” *Travelling Goods, Travelling Moods* fills a gap in consumer studies and enriches the debate about cultural transfer.

*The Edwardian Detective* Professor Joseph A Kestner.2017-11-22 This title was first published in 1999 & examines the range of detective literature produced between 1901 and 1915 in Britain, during the reign of Edward VII and the early reign of George V. The book assesses the literature as cultural history, with a focus on issues such as legal reform, marital reform, surveillance, Germanophobia, masculinity/femininity, the best-seller, the arms race, international diplomacy and the concept of popular literature. The work also addresses specific issues related to the relationship of law to literature, such as: the law in literature; the law as literature, the role of literature in surveillance and policing; the interpretation of legal issues by literature; the degree to which

literature describes and interprets law; the description of legal processes in detective literature; and the connections between detective literature and cultural practices and transitions.

*Golem, Caligari, Nosferatu - A Chronicle of German Film Fantasy* Rolf Giesen.2022-02-02

Paul Wegener, Conrad Veidt, Fritz Lang, F. W. Murnau, Paul Leni, Werner Herzog, Klaus Kinski, Udo Kier, Roland Emmerich - these are the names usually associated with the German Cinema of the Fantastic. But there are more—many more. This book is the first attempt to chronicle German film fantasy, year by year: birthdays, dying days, special events and film premieres of fairy tales, animation, science fiction, and horror - from its origin till nowadays. DR. ROLF GIESEN has written 60 books, mostly devoted to animation, VFX, horror, fantasy and science fiction. He lectured in Germany and China and amassed a huge collection of movie artifacts stored at Deutsche Kinemathek Berlin and Filmmuseum Dusseldorf.

The Short Story in German in the Twenty-first Century Lyn Marven, Andrew Plowman, Kate Roy. 2020

Since the 1990s, the short story has re-emerged in the German-speaking world as a vibrant literary genre, serving as a medium for both literary experimentation and popular forms. Authors like Judith Hermann and Peter Stamm have had a significant impact on German-language literary culture and, in translation, on literary culture in the UK and USA. This volume analyzes German-language short-story writing in the twenty-first century, aiming to establish a framework for further research into individual authors as well as key themes and formal concerns. An introduction discusses theories of the short-story form and literary-aesthetic questions. A combination of thematic and author-focused chapters then discuss key developments in the contemporary German-language context, examining performance and performativity, Berlin and crime stories, and the open-endedness, fragmentation, liminality, and formal experimentations that characterize short stories in the twenty-first century. Together the chapters present the rich field of short-story writing in Germany, Austria, and Switzerland, offering a variety of theoretical approaches to individual stories and collections, as well as exploring connections with storytelling, modernist short prose, and the novella. The volume concludes with a survey of broad trends, and three original translations exemplifying the breadth of contemporary German-language short-story writing.
