Acropolis Stanisław Wyspiański.2017-09-10 Although he never left his native Kraków except for relatively short periods, Stanisław Wyspiański (1869-1907) achieved worldwide fame, both as a painter, and Poland's greatest dramatist of the first half of the twentieth century. *Acropolis: the Wawel Plays*, brings together four of Wyspiański's most important dramatic works in a new English translation by Charles S. Kraszewski. All of the plays centre on Wawel Hill: the legendary seat of royal and ecclesiastical power in the poet's native city, the ancient capital of Poland. In these plays, Wyspiański explores the foundational myths of his nation: that of the self-sacrificial Wanda, and the struggle between King Bolesław the Bold and Bishop Stanisław Szczepanowski. In the eponymous play which brings the cycle to an end, Wyspiański carefully considers the value of myth to a nation without political autonomy, soaring in thought into an apocalyptic vision of the future. Richly illustrated with the poet's artwork, *Acropolis: the Wawel Plays* also contains Wyspiański's architectural proposal for the renovation of Wawel Hill, and a detailed critical introduction by the translator. In its plaited presentation of Bolesław the Bold and Skalka, the translation offers, for the first time, the two plays in the unified, composite format that the poet intended, but was prevented from carrying out by his untimely death.

Rubens Anne T. Woollett, Davide Gasparotto, Jeffrey Spier. 2021-11-02 The first study devoted to classical art's vital creative impact on the work of the Flemish painter Peter Paul Rubens. For the great Peter Paul Rubens (1577-1640), the classical past afforded lifelong creative stimulus and the camaraderie of humanist friends. A formidable scholar, Rubens ingeniously transmitted the physical ideals of ancient sculptors, visualized the spectacle of imperial occasions, rendered the intricacies of mythological tales, and delineated the character of gods and heroes in his drawings, paintings, and designs for tapestries. His passion for antiquity profoundly informed every aspect of his art and life. Including 170 color illustrations, this volume addresses the creative impact of Rubens's remarkable knowledge of the art and literature of antiquity through the consideration of key themes. The book's lively interpretive essays explore the formal and thematic relationships between ancient sources and Baroque expressions: the significance of neo-Stoic philosophy, the compositional and iconographic inspiration provided by exquisite carved gems, Rubens's study of Roman marble sculpture, and his inventive translation of ancient sources into new subjects made vivid by his dynamic painting style. This volume is published to accompany an exhibition on view at the J. Paul Getty Museum at the Getty Villa from November 10, 2021, to January 24, 2022.

Alien : Diaries 7/8 H. R. Giger. 2013 HR Giger worked in the Shepperton Studios near London from February to November 1978, creating the figures and sets for the film *Alien* (1979) directed by Ridley Scott. The film became an international success, earning Giger an Oscar. In the transcribed *Alien Diaries*, published here for the first time as a facsimile, HR Giger describes his work in the studios. He writes, sketches, and takes photographs with his Polaroid SX70. With brutal honesty, sarcasm and occasional despair, Giger describes what it is like working for the film industry and how he struggles against all odds be it the stinginess of producers or the sluggishness of his staff to see his designs become reality. The *Alien Diaries* (in German transcription with an English translation) show a little-known personal side of the artist HR Giger and offer an unusual, detailed glimpse into the making of a movie classic through the eyes of a Swiss artist. The book contains almost completely unpublished material, including drawings, Polaroids showing the monster coming to life, and several still shots from the plentiful film material that Giger took in Shepperton.

Brassai Sylvie Aubenas, Quentin Bajac. 2013-09-10 Firmly rooted in its time and place, timeless in its appeal: Brassai's night photography of Paris assures his place among the great photographers of the twentieth century Brassai (1899-1984) was the first and is still the most famous photographer to chronicle Paris after dark. Born in Hungary, he came to the French capital in 1924, working first as a journalist and then embracing photography, but it was the Paris of the 1930s that forms the bedrock of his body of work. Walking the city's streets at night, Brassai captured a previously unseen world on camera. He shows us every face and every facet, from tough guys and showgirls to prostitutes and pleasure-seekers, from the bustling cafés and dance halls to the stillness of deserted streets and mist-shrouded monuments. Through his eyes, Paris becomes a world of shadows, in which light, the prerequisite for any photograph, is reduced to dimly lit windows, streetlamps in the fog, or reflections on a rain-soaked pavement. This book brings together some of the best-known images from Brassai's classic *Paris After Dark* and *The Secret Paris of the 30's*, showcasing them alongside previously unpublished photos and archive material. It places his work in its historical and artistic context, analyzing the unique nature of his photographic vision: part reportage, part social document, part poetic exploration.
