The conference was held on the Arctic Circle in exotic Lapland under the Northern Lights just before Christmas time, when Kaamos (the polar night is known in Finnish as "Kaamos") shows its best characteristics. PROFES has established itself as one of the recognized international process improvement conferences. Despite the current economic downturn, PROFES has attracted a record number of submissions. A total of 70 full papers were submitted and the program committee had a difficult task in selecting the best papers to be presented at the conference. The main theme of PROFES is professional software process improvement (SPI) motivated by product and service quality needs. SPI is facilitated by software process assessment, software measurement, process modeling, and technology transfer. It has become a practical tool for quality software engineering and management. The conference addresses both the solutions found in practice and the relevant research results from academia.

*Major Powers and the Korean Peninsula* Titli Basu.2019 The Korean Peninsula, which constitutes one of the strategic pivots of Northeast Asian security, has remained a contested theatre for major powers. Denuclearisation of the Peninsula is unfolding as one of the most defining challenges in shaping regional security. The end state in the Peninsula and how it is to be realised is debated amongst the stakeholders. This book aims to situate some of the critical issues in the Korean theatre within the competing geopolitical interests, strategic choices and policy debates among the major powers. This volume is an endeavour to bring together leading Indian experts including former Indian ambassadors to the Republic of Korea, senior members from the defence and strategic community to analyse the developing situation in the Korean Peninsula. The Korean Peninsula has remained a contested theatre for the major powers. Brutal wars have been fought involving imperial Japan, Czarist Russia, the Union of the Soviet Socialist Republics (USSR), Qing China, the People's Republic of China, and the United States (US) which left the Peninsula conquered, colonised, and divided, starting with Chosun (Yi) Korea from 1392-1910 to colonial Korea from 1910-45 to divided Korea since 1945.1 Subsequently, the Korean War from 1950-53 defined the character of the Cold War in Northeast Asia. The strategic choices in the Korean theatre have been influenced by the competing geopolitical interests of regional stakeholders. In the post-Cold War era, the Peninsula remained a key variable in shaping the Northeast Asian security architecture since the Democratic People's Republic of Korea or North Korea continued to employ the strategic use of nuclear brinkmanship.

**India's Afghan Muddle** Harsh V. Pant.2013-12-05 It's 2014. Afghanistan's biggest watershed since 2001, the year the war on terror began, is upon it. American forces are in the middle of a pullout that is likely to result in a much smaller US military footprint after this year. On the face of it, the stage is set for India—a regional power with global aspirations—to rise to the occasion, bank on its goodwill, and help rebuild the nation. But presented with a golden opportunity, India has been found wanting. This book examines the changing trajectory of Indian policy towards Afghanistan and argues that New Delhi has been responding to a strategic environment shaped by other actors, without developing an autonomous posture. By refusing to be proactive, India has lost the initiative and done some long-term damage to its vital interests, the least of which is gaining access to the energy-rich central Asian region while the biggest is to foil Pakistan and the Taliban's designs of once again rising to prominence in Afghanistan. The way in which India's foreign policy shapes up this year—or if it does at all—will determine the consequences for Indian security once Western forces depart. As Afghanistan braces for the most important year in its political history since 2001, India's Afghan Muddle sets the terms for the debate on why 2014 is no less important for India as well.

Squaring the Circle P.R. Kumaraswamy.2020-04-13 The centrality of the book is Gandhi's disposition and orientation towards the idea of Jewish homeland. When it comes to Jews, Jewish nationalism and their aspirations in Palestine, even Mahatma Gandhi was not infallible. His abiding empathy for the Jews was negated by his limited understanding of Judaism and Jewish history. His perception of the Palestine issue and his support for the Arabs was rooted in the domestic Indian context. The conventional understanding that Gandhi was 'consistently' opposed to Zionism and the Jewish aspirations for a national home in Palestine does not correspond with his later remarks. While demanding Jewish non-violence both against Hitler and in Palestine, Mahatma was prepared to understand, the 'excesses' of the Arabs who were facing 'overwhelming odds.' His position on the domestic situation largely influenced his stand viz-à-viz Palestine and hence his demand for Jews to abandon their collaboration with imperialism and follow the path of negotiation should be read within the Indian context. So long as India pursued a recognition-without-relations policy toward Israel, one could rest on Gandhi's shoulders and adopt a self-righteous attitude. However, can one rely on the Gandhian paradigm to explain India's new-found bonhomie toward Israel without sounding selective, hypocritical or both? The primary focus of this book is the explication of political constraints and oversensitivity towards the religious minority for political gains, which shaped Gandhi's notion about the Jewish homeland. The author has conducted an empirical survey of the political, religious and strategic constraints behind Gandhi's idea of the Jewish homeland that in common parlance is seen as an ardent disapproval of Zionism by Gandhi. Please note: This title is co-published with KW Publishers, New Delhi. Taylor & Francis does not sell or distribute the Hardback in India, Pakistan, Nepal, Bhutan, Bangladesh and Sri Lanka
