Leaving Normal - Adventures in Gender Rae Theodore.2017-01-04 Leaving Normal: Adventures in Gender is a literary memoir that takes an unflinching, humorous and sometimes heartbreaking look at living as a masculine-centered woman in a pink/blue, boy-girl, M/F world. It's a story for anyone who has ever felt different, especially those living in the gender margins without a rulebook.

In a Queer Time and Place J. Jack Halberstam,Jack Halberstam.2005 The first full-length study of transgender representations in art, fiction, film, video, and music In her first book since the critically acclaimed *Female Masculinity*, Judith Halberstam examines the significance of the transgender body in a provocative collection of essays on queer time and space. She presents a series of case studies focused on the meanings of masculinity in its dominant and alternative forms' especially female and trans-masculinities as they exist within subcultures, and are appropriated within mainstream culture. In a *Queer Time and Place* opens with a probing analysis of the life and death of Brandon Teena, a young transgender man who was brutally murdered in small-town Nebraska. After looking at mainstream representations of the transgender body as exhibited in the media frenzy surrounding this highly visible case and the Oscar-winning film based on Brandon's story, *Boys Don't Cry*, Halberstam turns her attention to the cultural and artistic production of queers themselves. She examines the "transgender gaze," as rendered in small art-house films like *By Hook or By Crook*, as well as figurations of ambiguous embodiment in the art of Del LaGrace Volcano, Jenny Saville, Eva Hesse, Shirin Neshat, and others. She then exposes the influence of lesbian drag king cultures upon hetero-male comic films, such as *Austin Powers* and *The Full Monty*, and, finally, points to dyke subcultures as one site for the development of queer counterpublics and queer temporalities. Considering the sudden visibility of the transgender body in the early twenty-first century against the backdrop of changing conceptions of space and time, *In a Queer Time and Place* is the first full-length study of transgender representations in art, fiction, film, video, and music. This pioneering book offers both a jumping off point for future analysis of transgenderism and an important new way to understand cultural constructions of time and place.

Female Masculinity Jack Halberstam.2019-01-05 In this quintessential work of queer theory, Jack Halberstam takes aim at the protected status of male masculinity and shows that female masculinity has offered a distinct alternative to it for well over two centuries. Demonstrating how female masculinity is not some bad imitation of virility, but a lively and dramatic staging of hybrid and minority genders, Halberstam catalogs the diversity of gender expressions among masculine women from nineteenth-century pre-lesbian practices to contemporary drag king performances. Through detailed textual readings as well as empirical research, Halberstam uncovers a hidden history of female masculinities while arguing for a more nuanced understanding of gender categories that would incorporate rather than pathologize them. He rereads Anne Lister's diaries and Radclyffe Hall's *The Well of Loneliness* as foundational assertions of female masculine identity; considers the enigma of the stone butch and the politics surrounding butch/femme roles within lesbian communities; and explores issues of transsexuality among "transgender dykes"—lesbians who pass as men—and female-to-male transsexuals who may find the label of "lesbian" a temporary refuge. Halberstam also tackles such topics as women and boxing, butches in Hollywood and independent cinema, and the phenomenon of male impersonators. Featuring a new preface by the author, this twentieth anniversary edition of *Female Masculinity* remains as insightful, timely, and necessary as ever.

The Street Was Mine M. Abbott.2002-12-19 This book considers a recurrent figure in American literature: the solitary white man moving through urban space. The descendent of Nineteenth-century frontier and western heroes, the figure re-emerges in 1930-50s America as the 'tough guy'. *The Street Was Mine* looks to the tough guy in the works of hardboiled novelists Raymond Chandler (*The Big Sleep*) and James M. Cain (*Double Indemnity*) and their popular film noir adaptations. Focusing on the way he negotiates racial and gender 'otherness', this study argues that the tough guy embodies the promise of an impervious white masculinity amidst the turmoil of the Depression through the beginnings of the Cold War, closing with an analysis of Chester Himes, whose Harlem crime novels (*For Love of Imabelle*) unleash a ferocious revisionary critique of the tough guy tradition.

Beside You in Time Elizabeth Freeman.2019-09-06 In *Beside You in Time* Elizabeth Freeman expands biopolitical and queer theory by outlining a temporal view of the long nineteenth century. Drawing on Foucauldian notions of discipline as a regime that yoked the human body to time, Freeman shows how time became a social and sensory means by which people assembled into groups in ways that resisted disciplinary forces. She tracks temporalized bodies across many entangled regimes—religion, secularity, race, historiography, health, and sexuality—and examines how those bodies act in relation to those regimes. In analyses of the use of rhythmic dance by the Shakers; African American slave narratives; literature by Mark Twain, Pauline Hopkins, Herman Melville, and others; and how Catholic sacraments conjoined people across historical boundaries, Freeman makes the case for the body as an instrument of what she calls queer hypersociality. As a mode of being in which bodies are connected to others and their histories across and throughout time, queer hypersociality, Freeman contends, provides the means for subjugated bodies to escape disciplinary regimes of time and to create new social worlds.

Androgyny in Modern Literature T. Hargreaves.2004-11-10 *Androgyny in Modern Literature* engages with the ways in which the trope of androgyny has shifted during the late nineteenth and twentieth-centuries. Alchemical, platonic, sexological, psychological and decadent representations of androgyny have provided writers with an icon which has been appropriated in diverse ways. This fascinating new study traces different revisions of the psycho-sexual, embodied, cultural and feminist fantasies and repudiations of this unstable but enduring trope across a broad range of writers from the fin de siècle to the present.

Genderqueer .2014 In *Genderqueer*, Dave Naz explores the gender spectrum in an entirely new way -- by turning his camera on subjects that are genderqueer, transgender, intersex, pangender, and every shade in between. Helping to add to the current global discussion on the structured nature of gender identity, *Genderqueer* is an eye-opening musing on all of the people who don't fit neatly into a convenient box.

Masculinities R. W. Connell,Raewyn Connell.2005 This is an exciting new edition of R.W. Connell's ground-breaking text, which has become a classic work on the nature and construction of masculine identity. Connell argues that there is not one masculinity, but many different masculinities, each associated with different positions of power. In a world gender order that continues to privilege men over women, but also raises difficult issues for men and boys, his account is more pertinent than ever before. In a substantial new introduction and conclusion, Connell discusses the development of masculinity studies in the ten years since the book's initial publication. He explores global gender relations, new theories, and practical uses of masculinities research. Looking to the future, his new concluding chapter addresses the politics of masculinities, and the implications of masculinity research for understanding current world issues. Against the backdrop of an increasingly divided world, dominated by neo-conservative politics, Connell's account highlights a series of compelling questions about the future of human society. This second edition of Connell's classic book will be essential reading for students taking courses on masculinities and gender studies, and will be of interest to students and scholars across the humanities and social sciences.

Masquerade and Identities Efrat Tseëlon.2003-08-29 *Masquerade*, both literal and metaphorical, is now a central concept on many disciplines. This timely volume explores and revisits the role of disguise in constructing, expressing and representing marginalised identities, and in undermining easy distinctions between 'true' identity and artifice. The book is interdisciplinary in approach, spanning a diverse range of cultures and narrative voices. It provides provocative and nuanced ways of thinking about masquerade as a tool for construction, and a tool for critique. The essays interrogate such themes as: *mask and carnival *fetish fashion *stigma of illegitimacy *femininity as masquerade *lesbian masks *cross-dressing in Jewish folk theatre *the mask in seventeenth and eighteenth century London and nineteenth century France *the voice as mask.

Out Of Control Kevin Kelly.2009-04-30 Out of Control chronicles the dawn of a new era in which the machines and systems that drive our economy are so complex and autonomous as to be indistinguishable from living things.

Sport and Gender Identities Cara Carmichael Aitchison.2007-01-24 This important new book brings together gender studies and sexuality studies to provide original and critical insights into processes of identity formation in a wide range of sport-related contexts. The authors draw on contemporary debates concerning gender and identity from a range of disciplines including sociology, social and cultural geography, media studies and management studies, to address key issues in masculinity, femininity and sexuality: Part 1: Representing masculinities in sport analyses media representations of men's sports, exploring the variety and complexity of concepts of masculinity. Part 2: Transgressing femininities in sport makes use of case studies to examine the experiences of women in male-dominated sporting arenas. Part 3: Performing sexualities in sport analyses the role of queer theory in sport studies, explores experiences of and responses to homophobia in sport, and examines the significance of the Gay Games. This book will be of particular interest to students and academics working in sport studies, leisure studies, gender studies, queer and sexuality studies, social and cultural geography, and sociology.

One Place after Another Miwon Kwon.2004-02-27 A critical history of site-specific art since the late 1960s. Site-specific art emerged in the late 1960s in reaction to the growing commodification of art and the prevailing ideals of art's autonomy and universality. Throughout the 1970s and 1980s, as site-specific art intersected with land art, process art, performance art, conceptual art, installation art, institutional critique, community-based art, and public art, its creators insisted on the inseparability of the work and its context. In recent years, however, the presumption of unrepeatability and immobility encapsulated in Richard Serra's famous dictum to remove the work is to destroy the work is being challenged by new models of site specificity and changes in institutional and market forces. One Place after Another offers a critical history of site-specific art since the late 1960s and a theoretical framework for examining the rhetoric of aesthetic vanguardism and political progressivism associated with its many permutations. Informed by urban theory, postmodernist criticism in art and architecture, and debates concerning identity politics and the public sphere, the book addresses the siting of art as more than an artistic problem. It examines site specificity as a complex cipher of the unstable relationship between location and identity in the era of late capitalism. The book addresses the work of, among others, John Ahearn, Mark Dion, Andrea Fraser, Donald Judd, Renee Green, Suzanne Lacy, Inigo Manglano-Ovalle, Richard Serra, Mierle Laderman Ukeles, and Fred Wilson.

Black Queer Studies E. Patrick Johnson,Mae G. Henderson.2005-11-01 While over the past decade a number of scholars have done significant work on questions of black lesbian, gay, bisexual, and transgendered identities, this volume is the first to collect this groundbreaking work and make black queer studies visible as a developing field of study in the United States. Bringing together essays by established and emergent scholars, this collection assesses the strengths and weaknesses of prior work on race and sexuality and highlights the theoretical and political issues at stake in the nascent field of black queer studies. Including work by scholars based in English, film studies, black studies, sociology, history, political science, legal studies, cultural studies, and performance studies, the volume showcases the broadly interdisciplinary nature of the black queer studies project. The contributors consider representations of the black queer body, black queer literature, the pedagogical implications of black queer studies, and the ways that gender and sexuality have been glossed over in black studies and race and class marginalized in queer studies. Whether exploring the closet as a racially loaded metaphor, arguing for the inclusion of diaspora studies in black queer studies, considering how the black lesbian voice that was so expressive in the 1970s and 1980s is all but inaudible today, or investigating how the social sciences have solidified racial and sexual exclusionary practices, these insightful essays signal an important and necessary expansion of queer studies. Contributors. Bryant K. Alexander, Devon Carbado, Faedra Chatard Carpenter, Keith Clark, Cathy Cohen, Roderick A. Ferguson, Jewelle Gomez, Phillip Brian Harper, Mae G. Henderson, Sharon P. American Boys .2019 The American Boys project is an in-depth photographic book of young Americans across the country united through their expression of trans masculine gender identity.

We Both Laughed in Pleasure Lou Sullivan.2019 Drawn from Sullivan's meticulously kept journals, this landmark book records the life of arguably the first publicly gay trans man to medically transition. Sensual, lascivious, challenging, quotidian and poetic, the diaries complicate and disrupt normative trans narratives.

Amateur Thomas Page McBee.2019-05-14 *Shortlisted for the Baillie Gifford Prize for Nonfiction *Shortlisted for the Lambda Literary Award in Transgender Memoir/Biography *Shortlisted for the Wellcome Book Prize One of The Times UK's Best Memoirs of 2018, BuzzFeed's Best Nonfiction of 2018, Autostraddle's Best LGBT Books of 2018, Book Riot's Best Queer Books of 2018, and 52 Insight's Favorite Nonfiction Books of 2018 A "no-holds-barred examination of masculinity" (BuzzFeed) and violence from award-winning author Thomas Page McBee. In this "refreshing and radical" (The Guardian) narrative, Thomas McBee, a trans man, sets out to uncover what makes a man—and what being a "good" man even means—through his experience training for and fighting in a charity boxing match at Madison Square Garden. A self-described "amateur" at masculinity, McBee embarks on a wide-ranging exploration of gender in society, examining sexism, toxic masculinity, and privilege. As he questions the limitations of gender roles and the roots of masculine aggression, he finds intimacy, hope, and even love in the experience of boxing and in his role as a man in the world. Despite personal history and cultural expectations, "Amateur is a reminder that the individual can still come forward and fight" (The A.V. Club). "Sharp and precise, open and honest," (Women's Review of Books), McBee's writing asks questions "relevant to all people, trans or not" (New York Newsday). Through interviews with experts in neuroscience, sociology, and critical race theory, he constructs a deft and thoughtful examination of the role of men in contemporary society. Amateur is a graceful and uncompromising look at gender by a fearless, fiercely honest writer.

Trap Door Reina Gossett, Eric A. Stanley, Johanna Burton.2017-12-15 Essays, conversations, and archival investigations explore the paradoxes, limitations, and social ramifications of trans representation within contemporary culture. The increasing representation of trans identity throughout art and popular culture in recent years has been nothing if not paradoxical. Trans visibility is touted as a sign of a liberal society, but it has coincided with a political moment marked both by heightened violence against trans people (especially trans women of color) and by the suppression of trans rights under civil law. Trap Door grapples with these contradictions. The essays, conversations, and dossiers gathered here delve into themes as wide-ranging yet interconnected as beauty, performativity, activism, and police brutality. Collectively, they attest to how trans people are frequently offered "doors"—entrances to visibility and recognition—that are actually "traps," accommodating trans bodies and communities only insofar as they cooperate with dominant norms. The volume speculates about a third term, perhaps uniquely suited for our time: the trapdoor, neither entrance nor exit, but a secret passageway leading elsewhere. Trap Door begins a conversation that extends through and beyond trans culture, showing how these issues have relevance for anyone invested in the ethics of visual culture. The Guilty River Wilkie Collins.2020 Gerard Royle, returning from the continent to England to receive his inheritance, finds that one of his tenants a miller in the old mill on the banks of that dark, gloomy, repellent river, the Loke, has a lodger and a fair daughter. The lodger is a strange man, remarkably handsome, deaf, and an odd combination of knave and tool, the former characteristic predominating. It is from these picturesque elements, that Mr. Collins evolves his tragedy. The details of mystery are worked up in the author's skillful way. The denouement is a surprise. The question of heredity is finely handled.

Man Alive Thomas Page McBee.2017-05-25 If he is to become a man, what sort of man should Thomas Page McBee be? To find out, McBee must confront the suffering he has endured at the hands of men: the abuse he endured as a child from his father, and the violent mugging which almost killed him as an adult. Standing at the brink of the life-changing decision to transition from female to male, McBee seeks to understand these examples of flawed manhood, and reclaim his body on his own terms. Powerful, uplifting and profound, Man Alive is a story about transformation; about freedom, and love, and finding the strength to rebuild ourselves as the people we are meant to be.

Female Masculinity Judith Halberstam.1998 Halberstam catalogs the diversity of gender expressions among masculine women from 19th-century pre-lesbian practices to contemporary drag king performances. Thank goodness for the dashing Judith Halberstam! Her new book is a smart, entertaining, and informed tour of that most threatening of cultural identities: the masculine female. Man, Play, and Games Roger Caillois.2001 According to Roger Caillois, play is an occasion of pure waste. In spite of this - or because of it - play constitutes an essential element of human social and spiritual development. In this study, the author defines play as a free and voluntary activity that occurs in a pure space, isolated and protected from the rest of life.

Heart: A History Sandeep Jauhar.2018-09-18 The bestselling author of *Intern and Doctored* tells the story of the thing that makes us tick For centuries, the human heart seemed beyond our understanding: an inscrutable shuddering mass that was somehow the driver of emotion and the seat of the soul. As the cardiologist and bestselling author Sandeep Jauhar shows in *Heart: A History*, it was only recently that we demolished age-old taboos and devised the transformative procedures that have changed the way we live. Deftly alternating between key historical episodes and his own work, Jauhar tells the colorful and little-known story of the doctors who risked their careers and the patients who risked their lives to know and heal our most vital organ. He introduces us to Daniel Hale Williams, the African American doctor who performed the world's first open heart surgery in Gilded Age Chicago. We meet C. Walton Lillehei, who connected a patient's circulatory system to a healthy donor's, paving the way for the heart-lung machine. And we encounter Wilson Greatbatch, who saved millions by inventing the pacemaker—by accident. Jauhar deftly braids these tales of discovery, hubris, and sorrow with moving accounts of his family's history of heart ailments and the patients he's treated over many years. He also confronts the limits of medical technology, arguing that future progress will depend more on how we choose to live than on the devices we invent. Affecting, engaging, and beautifully written, *Heart: A History* takes the full measure of the only organ that can move itself.

Performing Femininity Lesa Lockford.2004 Humorous yet touching, *Performing Femininity* challenges traditional and feminist perspectives on gender. As 'a woman whose brand of feminism is suspect,' Lesa Lockford places herself in the most shameful, the most abject circumstances: an image obsessed weight-watcher, an exotic dancer, and a theatrical performer. By exposing herself to the abject, she reclaims her body's symbolic value from society. This experimental autoethnography provides a provocative model to the ethnographer and rewards the student of gender studies with a rare perspective

Side Affects Hil Malatino.2022-04-19 How the “bad feelings” of trans experience inform trans survival and flourishing Some days—or weeks, or months, or even years—being trans feels bad. Yet as Hil Malatino points out, there is little space for trans people to think through, let alone speak of, these bad feelings. Negative emotions are suspect because they unsettle narratives of acceptance or reinforce virulently phobic framings of trans as inauthentic and threatening. In *Side Affects*, Malatino opens a new conversation about trans experience that acknowledges the reality of feeling fatigue, envy, burnout, numbness, and rage amid the ongoing onslaught of casual and structural transphobia in order to map the intricate emotional terrain of trans survival. Trans structures of feeling are frequently coded as negative on both sides of transition. Before transition, narratives are framed in terms of childhood trauma and being in the “wrong body.” Posttransition, trans individuals—especially trans people of color—are subject to unrelenting transantagonism. Yet trans individuals are discouraged from displaying or admitting to despondency or despair. By moving these unloved feelings to the center of trans experience, *Side Affects* proposes an affective trans commons that exists outside political debates about inclusion. Acknowledging such powerful and elided feelings as anger and exhaustion, Malatino contends, is critical to motivating justice-oriented advocacy and organizing—and recalibrating new possibilities for survival and well-being.

Theater as Metaphor Elena Penskaya,Joachim Küpper.2019-05-20 The papers of the present volume investigate the potential of the metaphor of life as theater for literary, philosophical, juridical and epistemological discourses from the Middle Ages through modernity, and focusing on traditions as manifold as French, Spanish, Italian, German, Russian and Latin-American.

Queer Masculinities John Landreau,Nelson Rodriguez.2011-09-28 *Queer Masculinities: A Critical Reader in Education* is a substantial addition to the discussion of queer masculinities, of the interplay between queer masculinities and education, and to the political gender discourse as a whole. Enriching the discourse of masculinity politics, the cross-section of scholarly interrogations of the complexities and contradictions of queer masculinities in education demonstrates that any serious study of masculinity—hegemonic or otherwise—must consider the theoretical and political contributions that the concept of queer masculinity makes to a more comprehensive and nuanced understanding of masculinity itself. The essays adopt a range of approaches from empirical studies to reflective theorizing, and address themselves to three separate educational realms: the K-12 level, the collegiate level, and the level in popular culture, which could be called ‘cultural pedagogy’. The wealth of detailed analysis includes, for example, the notion that normative expectations and projections on the part of teachers and administrators unnecessarily reinforce the values and behaviors of heteronormative masculinity, creating an institutionalized loop that disciplines masculinity. At the same time, and for this very reason, schools represent an opportunity to ‘provide a setting where a broader menu can be introduced and gender/sexual meanings, expressions, and experiences boys encounter can create new possibilities of what it can mean to be male’. At the collegiate level chapters include analysis of what the authors call ‘homosexualization of heterosexual men’ on the university dance floor, while the chapters of the third section, on popular culture, include a fascinating analysis of the construction of queer ‘counternarratives’ that can be constructed watching TV shows of apparently hegemonic bent. In all, this volume's breadth and detail make it a landmark publication in the study of queer masculinities, and thus in critical masculinity studies as a whole.

The "new Woman" Revised Ellen Wiley Todd.1993-01-01 In the years between the world wars, Manhattan's Fourteenth Street-Union Square district became a center for commercial, cultural, and political activities, and hence a sensitive barometer of the dramatic social changes of the period. It was here that four urban realist painters--Kenneth Hayes Miller, Reginald Marsh, Raphael Soyer, and Isabel Bishop--placed their images of modern new women. Bargain stores, cheap movie theaters, pinball arcades, and radical political organizations were the backdrop for the women shoppers, office and store workers, and consumers of mass culture portrayed by these artists. Ellen Wiley Todd deftly interprets the painters' complex images as they were refracted through the gender ideology of the period. This is a work of skillful interdisciplinary scholarship, combining recent insights from feminist art history, gender studies, and social and cultural theory. Drawing on a range of visual and verbal representations as well as biographical and critical texts, Todd balances the historical context surrounding the painters with nuanced analyses of how each artist's image of womanhood contributed to the continual redefining of the new woman's relationships to men, family, work, feminism, and sexuality.

Gender Reversals and Gender Cultures Sabrina P. Ramet. 1996 This collection of original essays explores the historical and cultural diversity of the experience of gender reversal over an exceptional geographical and chronological range. Topics covered include anthropology, history, literature. Gender reversal is a perennial theme in the cultures of both East and West. It emerges in classical Chinese theatre, in the ceremony consecrating the Japanese emperor, and in Hindu mythology; in the ancient Greek rites of Dionysos, in medieval Christian thought and in the culture of the American Indians. The original essays in *Gender Reversals and Gender Cultures* explore the historical and cultural diversity of the experience of gender reversal over an exceptional geographical and chronological range. The contributors bring a unique mixture of perspectives to bear on the subject, with backgrounds in anthropology, history, literature, political science, comparative religion and women's studies. They reveal the complex relation of gender reversal to taboo, and show how differing attitudes reveal much about particular cultures.

Masquerade and Identities Efrat Tseëlon. 2003

The Emperor of All Maladies Siddhartha Mukherjee. 2011-08-09 Winner of the Pulitzer Prize and a documentary from Ken Burns on PBS, this New York Times bestseller is "an extraordinary achievement" (The New Yorker)—a magnificent, profoundly humane "biography" of cancer—from its first documented appearances thousands of years ago through the epic battles in the twentieth century to cure, control, and conquer it to a radical new understanding of its essence. Physician, researcher, and award-winning science writer, Siddhartha Mukherjee examines cancer with a cellular biologist's precision, a historian's perspective, and a biographer's passion. The result is an astonishingly lucid and eloquent chronicle of a disease humans have lived with—and perished from—for more than five thousand years. The story of cancer is a story of human ingenuity, resilience, and perseverance, but also of hubris, paternalism, and misperception. Mukherjee recounts centuries of discoveries, setbacks, victories, and deaths, told through the eyes of his predecessors and peers, training their wits against an infinitely resourceful adversary that, just three decades ago, was thought to be easily vanquished in an all-out "war against cancer." The book reads like a literary thriller with cancer as the protagonist. Riveting, urgent, and surprising, *The Emperor of All Maladies* provides a fascinating glimpse into the future of cancer treatments. It is an illuminating book that provides hope and clarity to those seeking to demystify cancer.

Normal Life Dean Spade. 2015-07-13 Revised and Expanded Edition Wait—what's wrong with rights? It is usually assumed that trans and gender nonconforming people should follow the civil rights and equality strategies of lesbian and gay rights organizations by agitating for legal reforms that would ostensibly guarantee nondiscrimination and equal protection under the law. This approach assumes that the best way to address the poverty and criminalization that plague trans populations is to gain legal recognition and inclusion in the state's institutions. But is this strategy effective? In *Normal Life* Dean Spade presents revelatory critiques of the legal equality framework for social change, and points to examples of transformative grassroots trans activism that is raising demands that go beyond traditional civil rights reforms. Spade explodes assumptions about what legal rights can do for marginalized populations, and describes transformative resistance processes and formations that address the root causes of harm and violence. In the new afterword to this revised and expanded edition, Spade notes the rapid mainstreaming of trans politics and finds that his predictions that gaining legal recognition will fail to benefit trans populations are coming to fruition. Spade examines recent efforts by the Obama administration and trans equality advocates to pinkwash state violence by articulating the US military and prison systems as sites for trans inclusion reforms. In the context of recent increased mainstream visibility of trans people and trans politics, Spade continues to advocate for the dismantling of systems of state violence that shorten the lives of trans people. Now more than ever, *Normal Life* is an urgent call for justice and trans liberation, and the radical transformations it will require.
