Women's Work in Britain and France Abigail Gregory,Jan Windebank.2000-01-27 Women's Work in Britain and France is a ground-breaking retheorization of what constitutes 'progress' in gender relations. The book shows that French women, although having more full-time and continuous careers and greater social policy support, retain as great a responsibility for unpaid domestic and caring work as their British counterparts. It replaces the conventional focus upon encouraging women's increased insertion into employment as the principal strategy for achieving progress in gender relations with a new focus on changing men's work patterns.

**Old Age in European Society** Peter N. Stearns.2024-05-10 Originally published in 1977, Old Age in European Society provides an historical perspective on aging, a process which had received little attention from any group in the social sciences and virtually none from historians at the time. Starting from the premise that 'the elderly can and should be active, participant members of their society' the book examines the ways in which old people were and are viewed by certain key groups. This is done in a series of thematic essays linked by the main theme of a dominant culture in which the elderly and the groups who deal with them were and still are ensnared. This dominant culture is one of denigration of the elderly: the traditional idea of veneration of the elderly is found to be largely mythical. Variations on this theme are dealt with in individual chapters concerned with the elderly in French working-class culture and geriatric medicine. Key groups are studied with an eye to distinct patterns of modernization, which involves particular attention to the working class and middle class as those exposed to the leading edge of change. Women are treated separately, as their aging process involves distinctive elements, which exacerbate the problems of old age. France, with its exceptional percentage of elderly and its low retirement ages, provides much of the material for these essays, the main purpose of which is to indicate those topics for which an historical treatment is vital to our understanding of the elderly and to the formulation of a more positive approach to old age.

Introduction aux études sur le genre Laure Bereni,Sébastien Chauvin,Alexandre Jaunait,Anne Revillard.2020-11-12 Pourquoi offre-t-on des poupées aux filles et des voitures aux garçons ? Pourquoi les femmes gagnent-elles moins que les hommes ? Comment expliquer qu'elles effectuent les deux tiers du travail domestique ? Le genre est-il une identité ou une contrainte? Le pouvoir est-il intrinsèquement masculin ? Il s'agit là de quelques-unes des nombreuses questions auxquelles s'intéressent les études sur le genre, devenues depuis une quarantaine d'années non seulement un champ de connaissances, mais aussi un outil d'analyse incontournable en sciences humaines et sociales. Au-delà de la variété des phénomènes étudiés, l'ouvrage développe plusieurs axes essentiels des études sur le genre : les différences dans les manières de voir, de penser et d'agir entre femmes et hommes sont le résultat d'une construction sociale ; l'analyse ne doit pas se limiter à l'étude « d'un » sexe, mais porter sur leurs relations ; le genre est un rapport de domination dont les modalités et l'intensité sont sans cesse reconfigurées ; il doit s'analyser en lien avec les autres rapports de pouvoir qui traversent les sociétés. Ce manuel propose un panorama clair et synthétique des notions et références essentielles des études sur le genre, en les illustrant par de nombreux exemples concrets. Pour les étudiant·es, chercheur·es et enseignant·es des 1er et 2e cycles en sociologie, anthropologie, science politique, histoire et philosophie.

Gendering the State in the Age of Globalization Melissa Haussman,Birgit Sauer.2007 Gendering the State is a ground-breaking collection of studies that examines the efforts of women in countries all over the world to frame public policy debates on nationally critical issues in gendered terms. This is the latest volume in the Research Network on Gender and the State (RNGS) collaborative studies. Using the RNGS model of women's movement and women's policy actor strategies to influence public policy debates and state response, the book looks at data gathered from ten European countries (including Finland and Sweden), plus Japan, Australia, Canada, and the United States from the 1990s to today. The overall study is grouped into three distinct patterns of state change: state downsizing--particularly in social policy areas (Canada, Finland, the Netherlands, the United States, and Spain); expansion of state activities into previously less-regulated areas (Austria, France, Germany, and Sweden); and transformation--often constitutionally based--of representative structures (Australia, Belgium, Italy, Japan, and the United Kingdom). Examination of these patterns reveals the impact of the changes in state structures and national priorities on the effectiveness and ability of women's movement actors in achieving their goals.

**Gender and Citizenship in the Global Age** Amri, Laroussi,Ramtohol, Ramola.2015-03-01 One of the major issues this book examines is what the African experience and identity have contributed to the debate on citizenship in the era of globalisation. The volume presents case studies of different African contexts, illustrating the gendered aspects of citizenship as experienced by African men and women. Citizenship carries manifold gendered aspects and given the distinct gender roles and responsibilities, globalisation affects citizenship in different ways. It further examines new forms of citizenship emerging from the current era dominated by a neoliberal focus. The book is not exclusive in terms of theorisation but its focus on African contexts, with an in-depth analysis taking into consideration local culture and practices and their implications for citizenship, provides a good foundation for further scholarly work on gender and citizenship in Africa.

Gender, Generation, and Journalism in France, 1910-1940 Mary Lynn Stewart.2018-06-20 In the late nineteenth century, the first wave of female journalists began writing in the French daily press. Yet, while they undeniably opened doors for the next generations of educated women, sexist hiring practices, assumptions about women's aptitudes as reporters, and more subtle gender biases continued to saturate the industry in the decades that followed. Gender, Generation, and Journalism in France, 1910-1940 investigates the careers and written work of ten women who regularly reported in the national, Paris-based dailies. Addressing the role of mentorship, family connections, gendered behaviours, reporting styles, and subject matter, Mary Lynn Stewart debunks lingering essentialist notions about women's entry into journalism. She shows that struggling newspapers, attempting to reverse declining circulation, hired women to cover subjects that expanded to include international relations, colonial conflicts, trials, local politics, and social problems. Through content analysis, deixis, and systematic comparisons of several women and men

reporting on the same or different events, she further queries claims about a feminine style, finding more similarities than differences between masculine and feminine reporting. Documenting the persistence of gender discrimination in the hiring, assigning, and assessment of women reporters in the French daily press, *Gender, Generation, and Journalism in France, 1910-1940* demonstrates that, through the support of their female colleagues, women managed to succeed despite a variety of challenges.

*Groupements d'employeurs* Franck Delalande, Lionnel Buannic. 2011-07-07 Une solution innovante pour l'emploi, au croisement : des salariés et de leur besoin de sécurité des entreprises et de leur besoin de flexibilité des territoires et de leur développement économique Beaucoup d'emplois à temps partiel ou saisonniers ne trouvent pas preneur et beaucoup de personnes travaillant à temps partiel souhaiteraient travailler à temps plein. Il y a pourtant une solution : l'emploi à temps partagé dans un groupement d'employeurs. Les entreprises d'un bassin d'emploi mettent en commun leurs temps partiels et créent ainsi des temps pleins. Elles peuvent alors accéder à de nouvelles compétences pour se développer. Ce procédé original a fait ses preuves au quotidien et concerne aujourd'hui des milliers de salariés. À partir de l'expérience des groupements d'employeurs, ce livre donne un mode d'emploi pour les employeurs, les salariés et les territoires qui veulent y recourir. Outre des conseils pratiques pour mettre toutes les chances de succès de son côté, il propose aussi de nombreux documents de référence, des modèles de contrat et des témoignages.

*The Welfare State and Life Transitions* Dominique Anxo, Gerhard Bosch, Jill Rubery. 2010 *The Welfare State and Life Transitions* uses the lens of key life stages to highlight changes in these transitions and in available resources for citizen support within nine European welfare states. This timely book reveals that new life courses are found to require more, and not less welfare support, but only Sweden has developed an active life course approach and only three more could be considered supportive, in at least some life stages. For the remainder, policies were at best limited or, in Italy's case, passive. The contributors reveal that the neglect of changing needs is leading to greater reliance on the family and the labour market, just as these support structures are becoming more unpredictable and more unequal. They argue that alongside these new class inequalities, new forms of intergenerational inequality are also emerging, particularly in pension provision.

**Femmes au travail, prospérité et crise : un aspect du renouvellement des ressources en main-d'œuvre** Patricia Bouillaguet-Bernard, Annie Gauvin-Ayel, Jean-Luc Outin. 1980-12-31T23:00:00+01:00 Le développement rapide de l'activité féminine à partir du début des années soixante, que ne perturbe pas la crise actuelle de l'emploi, constitue un des faits marquant l'évolution et la transformation des ressources en main-d'œuvre disponibles durant cette deuxième moitié du XXe siècle. L'accroissement du niveau de l'activité féminine s'accompagne de profondes transformations, qui doivent être interprétées comme des propagateurs favorables à l'attraction des femmes sur le marché du travail : l'évolution démographique, les nouvelles conceptions du mariage et de la famille, l'évolution du niveau de vie et les modes de consommation sont autant de propagateurs d'une activité féminine plus intense et continue. En ce sens, ces transformations ont stimulé une disponibilité plus grande des ressources potentielles en main-d'œuvre féminine ; les restructurations de l'appareil productif français se sont largement appuyées sur la mobilisation massive de ces nouvelles ressources et ont constitué de ce fait une puissante force d'attraction des femmes dans le salariat : le développement rapide des activités du tertiaire, la diffusion des femmes dans l'industrie, le développement de formes particulières d'emploi sont des facteurs révélateurs de changements dans les modalités d'usage de la main-d'œuvre, changements pour lesquels les femmes ont joué un rôle privilégié. En ce sens, les femmes ont joué et jouent un rôle permissif dans les restructurations en cours du système productif en les facilitant voire les accélérant. C'est par le biais de cette double approche que l'on peut apprécier véritablement le sens des changements récents de l'activité des femmes, approche qui contribue à alimenter le débat ancien sur la fonction de réserves de main-d'œuvre jouée par les femmes et le débat actuel sur l'irréversibilité des mouvements en cours.

**France in the Age of Organization** Jackie Clarke. 2011-06-01 In interwar France, there was a growing sense that 'organization' was the solution to the nation's perceived social, economic and political ills. This book examines the roots of this idea in the industrial rationalization movement and its manifestations in areas as diverse as domestic organization and economic planning. In doing so, it shows how experts in fields ranging from engineering to the biological sciences shaped visions of a rational socio-economic order from the 1920s to Vichy and beyond.
