A New Earth Omraam Mikhaël Aïvanhov.2012-11-14 A great many people today feel the need for some practical methods that will help them to grow spiritually. A 'New Earth' responds to that need. It contains a number of simple, effective, spiritual exercises taken from the thousands of lectures given by the Master Omraam Mikhaël Aïvanhov over a period of nearly fifty years. Some concern our everyday life: nutrition, breathing, hygiene, purification, and our relationships with nature and other human beings. Others touch on questions that are more directly spiritual: meditation and prayer, the development of our psychic centres, or chakras, the aura, the body of glory, and so on. All these methods grow out of that immense body of knowledge known as initiatic science, the principal goal of which is the advent of the 'new heaven and the new earth' announced in scripture. The Wall of the Earth Giorgio Caproni.1992 The work of Giorgio Caproni has been translated into French, German, and Chinese, among others, but this collection is his first book-length English publication. His works are finely tuned to modern man's preoccupations with existence in a world deprived of certainties (for example, the existence or inexistence of God). Most are touched by experiences such as the Second World War and its atrocities, the Resistance Movement, or the death of loved ones, events that represent the conviction of a subject that will do its best to survive all adversity, uncompromised -- from the Introduction by Pasquale Verdicchio

The Stone Guardian Theresa McClinton.2013-04-01 When myth becomes reality, reality becomes a nightmare. Like any other teenager in America, Ashley just wants a normal life. But growing up in an orphanage for the insane is anything but normal. After endless therapy and increasing medication, her nightmares have only gotten worse. Probably because they're not nightmares. When Ashley's mysteriously abducted, she finds a reality even less normal than the orphanage. And she discovers something else--she's no ordinary orphan. Faced with enemies thought to only exist in fairy tales, Ashley discovers she possesses a powerful Maya bloodline. She's the daughter of an ancient Maya Guardian, whose duty is to protect the Stone of Muuk'Ich, an enchanted relic blessed by the gods. But first she must get it back from Sarian, a power-hungry demigod who slaughtered the last guardian--Ashley's mother. Without the stone, all will be lost. When she meets Arwan, a hot Belizean time bender, his delicious

Chemical Events in the Atmosphere and Their Impact on the Environment Giovanni Battista Marini-Bettòlo.1986

This book covers the proceedings of a study week held to bring together the most varied experiences in the many disciplines which form the background of ecology. The purpose of the meeting was to examine the present state of knowledge and the need for research in order to gather the information necessary for action to protect the environment and biosphere. Many aspects of the anthropogenic effects on the atmosphere have been studied. However more research is needed to quantify the impact of the various chemicals on the changes occurring in the atmosphere. Acid rain formation mechanisms, although investigated, are not yet fully understood. It is thus necessary to program carefully our future, after further interdisciplinary research, in order to avoid irreversible damage to our environment. The guidelines of this action, as a result of the presentations and discussions, are reported in the conclusions. The main points stressed are: tropospheric chemistry, the problem of the conservation of the ozone layer, the growth of carbon dioxide and climate changes, atmospheric acidity, the effects of changes on water, soils and biota as well as the particular problems of the tropical world.
