Bob Dylan Play Book .2016-06-30 Beginning with rockabilly, moving on to folk music, sliding over to electric, and falling into a psychedelic phase, like a chameleon Bob Dylan has changed his skin repeatedly over the years, juggling his image with apparent ease and subverting the prevailing social and aesthetic models each time. His Supro guitar and the leather jacket - reminiscent of James Dean; the muse of his hobo period Suze Rotolo and his legendary Triumph Bonneville; the Newport Jazz Festival and the Gaslight Cafe in Greenwich Village: artist Matteo Guarnaccia has documented this pilgrimage of styles stage by stage, year by year, with a wealth of detail. The clothes, faces, music and places of those years become subjects to colour in, paper-dolls to dress, and board games to assemble, while the characters of his songs provide the members of a colorful circus. This is the ultimate collector's activity-book to be approached with glue, scissors and coloring pencils, dedicated to all the fans of the legendary singer-songwriter.

I centri minori italiani nel tardo Medioevo Centro di studi sulla civiltà del tardo medioevo (San Miniato, Italy). Convegno.2018-01-01 In the late Middle Ages, Italy was one of the most urbanized areas in Europe. Its coasts, the Apennines, the perialpine area and the plains were all home to a large number of smaller towns, lands, villages, castra, and 'quasi cites'. These settlements were all very diverse in terms of demographic consistency, social articulation and economic dynamism, but together they constituted a characteristic and constitutive element of the Italian historical identity: an 'original personality'. This volume, thanks to some framing essays and a mapping of individual cases involving most of the northern, central and southern regions, aims at investigating the active research on this topic over the last thirty to forty years.

Digital Culture in Architecture Antoine Picon.2010-04-09 Today's explosive developments in digital technology have also affected architecture and the urban landscape. The new possibilities opened up by digital simulation have led to an increasingly strategic approach to planning, an approach based on generating scenarios, which thus represents a radical departure from traditional planning. From the preliminary sketch all the way to the production of individual building components, digital tools offer new possibilities that were still inconceivable just a few years ago. This volume provides a profound introduction to the important role of digital technologies in design and execution. In four chapters, the author systematically examines the influence of digital culture on architecture but also on the urban landscape as well as product design. The relationship of digital architecture to the city is also an important focus.

Local Identities and Transnational Cults within Europe Fiorella Giacalone, Kevin Griffin.2018-05-23 Local-level pilgrimages, when based on strong expressions of faith, can have a much wider local, regional and international appeal. It has been estimated that pilgrims and religious tourists number around 330 million per year, meaning development of these faith identities can help drive destination visitation and regional development. This book explores the central role of ordinary people in the popularisation of faith-based practices, thus illustrating religious tourism as an expression of cultural identity. An invaluable review of cultural identity and faith, this book delivers to scholars, students and local policy makers a collection of current perspectives on the growth, development and evolution of faith practices surrounding contemporary and historical sites and saints.

Slow Food Nation Carlo Petrini.2013-10-08 By now most of us are aware of the threats looming in the food world. The best-selling Fast Food Nation and other recent books have alerted us to such dangers as genetically modified organisms, food-borne diseases, and industrial farming. Now it is time for answers, and Slow Food Nation steps up to the challenge. Here the charismatic leader of the Slow Food movement, Carlo Petrini, outlines many different routes by which we may take back control of our food. The three central principles of the Slow Food plan are these: food must be sustainably produced in ways that are sensitive to the environment, those who produce the food must be fairly treated, and the food must be healthful and delicious. In his travels around the world as ambassador for Slow Food, Petrini has witnessed firsthand the many ways that native peoples are feeding themselves without making use of the harmful methods of the industrial complex. He relates the wisdom to be gleaned from local cultures in such varied places as Mongolia, Chiapas, Sri Lanka, and Puglia. Amidst our crisis, it is critical that Americans look for insight from other cultures around the world and begin to build a new and better way of eating in our communities here.

Montale, the Modernist Giuseppe Gazzola.2016 Montale, the Modernist explores the historical contingencies and the scientific and philosophical ideas that influenced the composition of Montale's poetry, offering new readings of, among others, 'Non chiederci la parola', 'Arsenio', 'L'alluvione' and 'Dialogo'. Framing Montale alongside such figures as Eliot, Pound, Svevo, Larbaud and Joyce, the book explores the celebrated peculiarities of

his poems as modernist innovations, allowing a comprehensive understanding of Montale's role in the lyrical canon of the twentieth century. To recognize Montale's role as a preeminent modernist author also challenges our understanding of modernism itself, not just because it underscores the relationship and the philosophical proximity between Catholic and literary modernism, but because it reorients literary modernism as a truly pan-European movement, originating and distancing itself from the modes of Symbolism after the historic shock of World War I. Considering the arc of Montale's long poetic trajectory, this book traces his evolution from Symbolist to modernist (in 'Ossi di seppia'), high modernist (Le occasioni, La bufera e altro), and finally to a postmodern thinker in the late works (Satura, Diario del '71 e del '72).

One of sport's biggest superstars, Michael Jordan is more than an internationally renowned athlete. As illuminated through David Halberstam's trademark balance of impeccable research and fascinating storytelling, Jordan symbolizes the apex of the National Basketball Association's coming of age. Long before multimillion-dollar signings and lucrative endorsements, NBA players worked in relative obscurity, with most games woefully unattended and rarely broadcast on television. Then came Larry Bird and Magic Johnson, Jordan's two great predecessors, and the game's status changed. The new era capitalized on Jordan's talent, will power, and unrivaled competitiveness. In *Playing for Keeps*, Halberstam is at his investigative best, delving into Jordan's expansive world of teammates and coaches. The result is a gripping story of the athlete and media powerhouse who changed a game forever. This ebook features an extended biography of David Halberstam.

The Story of Tönle Mario Rigoni Stern.1998 Mario Rigoni Stern was born in 1921 in Asiago, in the mountains of northeastern Italy. Throughout his literary career, he has remained deeply attached to the region of his birth, its peasant customs, its dialect, its seasonal cycles and shifting historical fortunes. Tonle Bintarn's story takes place in the mountains of the Veneto region, which once bordered the Austro-Hungarian Empire and where smuggling was a means of subsistence for the peasant population. Having run afoul of a patrol of revenue agents, Tonle must seek refuge beyond the frontier in Central Europe, where year after year he lives by doing odd jobs and working, among other things, as an itinerant print peddler, a horse trainer in Hungary, and a gardener in a Prague castle. But every winter he returns secretly to his home and family, until finally a pardon is granted. By now his children are grown and he has little to do but tend his sheep. Meanwhile, the times are changing, social values are disintegrating under the impact of modernization, and Europe moves ever closer to disaster. During the devastation of the First World War, the occupation and ultimate destruction of his village, and his own internment in an Austrian camp, it is Tonle's loyalty to his roots and his stubborn devotion to his task as a shepherd that persist and make him a quiet symbol of heroism and human endurance.

Appreciating Physical Landscapes T.A. Hose .2016-02-01 Geotourism, as a form of sustainable geoheritage tourism, was defined and developed, from the early 1990s, to contextualize modern approaches to geoconservation and physical landscape management. However, its roots lie in the late seventeenth century and the emergence of the Grand Tour and its domestic equivalents in the eighteenth century. Its participants and numerous later travellers and tourists, including geologists and artists, purposefully explored wild landscapes as 'geotourists'. The written and visual records of their observations underpin the majority of papers within this volume; these papers explore some significant geo-historical themes, organizations, individuals and locations across three centuries, opening with seventeenth century elite travellers and closing with modern landscape tourists. Other papers examine the resources available to those geotourists and explore the geotourism paradigm. The volume will be of particular interest to Earth scientists, historians of science, tourism specialists and general readers with an interest in landscape history.

LIGURIA Pasquale Passarelli.2001-07-20 Il volume offre una panoramica completa e dettagliata dei 235 comuni (67 relativi alla provincia di Genova, 67 a quella di Imperia, 32 a quella di La Spezia e 69 a quella di Savona) presenti sul territorio, con una scheda di almeno quattro pagine dedicate alla regione, nonché due per ogni provincia e una per ciascun comune. Quest'ultima, suddivisa in tre colonne, risponde alle cinque domande canoniche del giornalismo (chi, dove, quando, che cosa, perché) soddisfacendo gli aspetti geografici, storici, organizzativi, economici e sociali (dalla condizione professionale e lavorativa a quella abitativa, dai servizi all'assistenza, alla cultura e allo sport) caratterizzanti le singole realtà comunali. Arricchiscono la scheda/comune un profilo statistico con oltre cinquanta indicatori e cento valori numerici distribuiti in quattro aree (sociale, economica, demografica, ambientale), nonché una cartina, una fedele riproduzione dello stemma comunale, le coordinate geografiche, la popolazione, l'altitudine e tre grafici raccolti in un "cruscotto" che indica il livello dell'Irpef, la tendenza alla crescita e la qualità della vita. Inoltre, in calce al volume, si trovano le pagine di approfondimento tematico, in cui sono esaminate le voci più significative, riguardanti fatti, personaggi, opere, peculiarità.

Geomorphological Hazards of Europe C. Embleton,C. Embleton-Hamann.1997-04-07 The *Geomorphological Hazards of Europe* contains an excellent balance of authoritative statements on the range and causes of natural hazards in Europe. Written in a clear and unpretentious style, it removes myths and concentrates on the basic facts. The book looks at the known distributions, processes and the underlying principles and focuses on the need for a true understanding of the scientific details so that a real contribution to hazard management can be made. A comprehensive treatment of scientific and management issues of hazards in Europe caused by natural or sometimes human induced earth surface processes are covered including floods, landslides, avalanches, glacier-, coastal-, karstic-, and volcanic hazards, soil erosion and subsidence. Leading researchers in the field

of natural hazards and their mitigation have contributed to this nation by nation account covering 20 European countries. The individual chapters deal with the distribution of natural hazards within specific countries (quite often the first synthesis of the information available) and • provide a review of current research in the field • discuss the economic, engineering and policy responses in national hazard management • are complemented by an extensive bibliography. The volume is well illustrated with 207 figures of which 66 are photos and has an extensive general index and a complete index of place names. It is a major European contribution to the International Decade for Natural Disasters Reduction. The book will appeal to practitioners, managers, academicians, researchers, as well as graduate students in geomorphology, natural hazards research and environmental management.
