Ghost Boys Jewell Parker Rhodes.2018-04-17 A heartbreaking and powerful story about a black boy killed by a police officer, drawing connections through history, from award-winning author Jewell Parker Rhodes. Only the living can make the world better. Live and make it better. Twelve-year-old Jerome is shot by a police officer who mistakes his toy gun for a real threat. As a ghost, he observes the devastation that's been unleashed on his family and community in the wake of what they see as an unjust and brutal killing. Soon Jerome meets another ghost: Emmett Till, a boy from a very different time but similar circumstances. Emmett helps Jerome process what has happened, on a journey towards recognizing how historical racism may have led to the events that ended his life. Jerome also meets Sarah, the daughter of the police officer, who grapples with her father's actions. Once again Jewell Parker Rhodes deftly weaves historical and socio-political layers into a gripping and poignant story about how children and families face the complexities of today's world, and how one boy grows to understand American blackness in the aftermath of his own death.

Teaching U.S. History Thematically Rosalie Metro.2017 This book offers the tools teachers need to get started with an innovative approach to teaching history, one that develops literacy and higher-order thinking skills, connects the past to students' lives today, and meets Common Core State Standards (grades 7-12). The author provides over 60 primary sources organized into seven thematic units, each structured around an essential question from U.S. history. As students analyze carefully excerpted documents—speeches by presidents and protesters, Supreme Court cases, political cartoons—they build an understanding of how diverse historical figures have approached key issues. At the same time, students learn to participate in civic debates and develop their own views on what it means to be a 21st-century American. Each unit connects to current events and dynamic classroom activities make history come alive. In addition to the documents themselves, this teaching manual provides strategies to assess student learning; mini-lectures designed to introduce documents; activities to help students process, display, and integrate their learning; guidance to help teachers create their own units; and more. “Full of thought-provoking questions, engaging primary source documents, and an impressive array of classroom activities, this is a must-have resource for history teachers looking to stay relevant in our modern learning landscape.” —Diana Laufenberg, lead teacher and executive director, Inquiry Schools, Philadelphia, PA “A useful resource for novice and experienced history teachers, social studies teacher educators, homeschooling, and community educators. I am excited to use it in my college classes; this is required reading!” —LaGarrett King, University of Missouri “A remarkably thoughtful and engaging aid to teaching U.S. history. Using carefully chosen primary documents, Metro raises pointed questions that will help teachers and students alike wrestle with the place of the past in the present.” —Jill Lepore, Harvard University

Star Trek, History and Us A.J. Black.2021-03-29 Since 1966, the Star Trek television franchise has used outer space and the thrilling adventures of the crews of the U.S.S. Enterprise to reflect our own world and culture. Kirk and Spock face civil rights issues and Vietnam war allegories while Picard, Data, and the next generation seek an ordered, post-Cold War stability in the Reagan era. The crews of Deep Space Nine, Voyager and Enterprise must come to terms with our real life of war, manifest destiny in the 21st century, and the shadow of 9/11. Now, as the modern era of the franchise attempts to portray a utopia amidst a world spinning out of control, Star Trek remains about more than just the future. It is about our present. It is about us. This book charts the history of Gene Roddenberry's creation across five decades alongside the cultural development of the United States and asks: are we heading for the utopian Federation future, or is it slipping ever further away from reality?
