Answers to Evolution Rose Publishing. 2006 Almost every middle school and high school student is required to study evolution two or three times. The science textbooks used in most public schools teach that Darwin's theory of evolution is basically correct and should be accepted without question. Teach your youth group ways to point out errors in Darwinism. Give them quotes from respected scientists to prove their points. Help them see that adaptations in birds' beaks and moth wing colors do not prove that man evolved. *Answers to Evolution* is based on actual California public school biology textbooks. Easy-to-understand. Size is 8.5 x 5.5 folded, and unfolds to 33 long.
