Revoked Allison Frankel.2020 [The report] finds that supervision -- probation and parole -- drives high numbers of people, disproportionately those who are Black and brown, right back to jail or prison, while in large part failing to help them get needed services and resources. In states examined in the report, people are often incarcerated for violating the rules of their supervision or for low-level crimes, and receive disproportionate punishment following proceedings that fail to adequately protect their fair trial rights.--Publisher website.

The Texas Model for Comprehensive School Counseling Programs .2018-02-15 The Texas Model for Comprehensive School Counseling Programs is a resource to develop effective and high quality comprehensive school counseling programs that align with Texas statutes and rules governing the work of school counselors. It outlines a process for tailoring school counseling programs to meet the varying needs of students across an array of school districts through implementation of the four components of school counseling programs, Guidance Curriculum, Responsive Services, Individual Planning, and System Support. With this resource, a school counselor will learn to use campus-specific data to identify the unique needs of a campus and design a comprehensive school counseling program to meet those needs. Recognizing the important roles of the entire educational community, the Texas Model for Comprehensive School Counseling Programs provides examples of how parents, teachers, administrators, principals and school counselors can best contribute to implementation of each of the four components of comprehensive school counseling programs. It provides a developmental framework for a school counseling program curriculum that includes activities at each grade level to enhance students' educational, career, personal and social development.

Connectivity, the Answer to Ending Ignorance and Separation Judy Breck.2004 Applying the hot, new network theories to education, Breck describes an emerging and entirely new medium of expression platformed in connectivity that is creating compelling new learning assets nestled into an online webbed matrix of academic subjects. She argues for abandoning standards and grade separation for the natural knowledge context formation arising spontaneously within the Internet. It is a fascinating world where schools are replaced by networks and universal individual connectivity brings about astounding changes when we all study on a common virtual ground and when we can all be heard.

A Time for Courage Kathryn Lasky.2003-11-01 A diary account of thirteen-year-old Kathleen Bowen's life in Washington, D.C. in 1917, as she juggles concerns about the national battle for women's suffrage, the war in Europe, and her own school work and family. Includes a historical note.

High-leverage Practices in Special Education Council for Exceptional Children,Collaboration for Effective Educator Development, Accountability and Reform.2017 Special education teachers, as a significant segment of the teaching profession, came into their own with the passage of Public Law 94-142, the Education for All Handicapped Children Act, in 1975. Since then, although the number of special education teachers has grown substantially it has not kept pace with the demand for their services and expertise. The roles and practice of special education teachers have continuously evolved as the complexity of struggling learners unfolded, along with the quest for how best to serve and improve outcomes for this diverse group of students. High-Leverage Practices in Special Education defines the activities that all special educators needed to be able to use in their classrooms, from Day One. HLPs are organized around four aspects of practice collaboration, assessment, social/emotional/behavioral practices, and instruction because special education teachers enact practices in these areas in integrated and reciprocal ways. The HLP Writing Team is a collaborative effort of the Council for Exceptional Children, its Teacher Education Division, and the CEEDAR Center; its members include practitioners, scholars, researchers, teacher preparation faculty, and education advocates--Amazon.com

Beyond the Bake Sale Anne T. Henderson.2010-07-09 Countless studies demonstrate that students with parents actively involved in their education at home and school are more likely to earn higher grades and test scores, enroll in higher-level programs, graduate from high school, and go on to post-secondary education. *Beyond the Bake Sale* shows how to form these essential partnerships and how to make them work. Packed with tips from principals and teachers, checklists, and an invaluable resource section, *Beyond the Bake Sale* reveals how to build strong collaborative relationships and offers practical advice for improving interactions between parents and teachers, from insuring that PTA groups are constructive and inclusive to navigating the complex issues surrounding diversity in the classroom. Written with candor, clarity, and humor, *Beyond the Bake Sale* is essential reading for teachers, parents on the front lines in public schools, and administrators and policy makers at all levels.

Improving School Leadership, Volume 1 Policy and Practice Pont Beatriz,Nusche Deborah,Moorman Hunter.2008-07-29 Based on an OECD study of school leadership practices and policies around the world, this book identifies four policy levers and a range of policy options to help governments improve school leadership now and build sustainable leadership for the future.

Democracy and Education John Dewey.1916 John Dewey's *Democracy and Education* addresses the challenge of providing quality public education in a democratic society. In this classic work Dewey calls for the complete renewal of public education, arguing for the fusion of vocational and contemplative studies in education and for the necessity of universal education for the advancement of self and society. First published in 1916, *Democracy and Education* is regarded as the seminal work on public education by one of the most important scholars of the century.

The Death of Expertise Tom Nichols.2024 In the early 1990s, a small group of AIDS denialists, including a University of California professor named Peter Duesberg, argued against virtually the entire medical establishment's consensus that the human immunodeficiency virus (HIV) was the cause of Acquired Immune Deficiency Syndrome. Science thrives on such counterintuitive challenges, but there was no evidence for Duesberg's beliefs, which turned out to be baseless. Once researchers found HIV, doctors and public health officials were able to save countless lives through measures aimed at preventing its transmission--

Student Voice in School Reform Dana L. Mitra.2014-03-14 High schools continue to be places that isolate, alienate, and disengage students. But what would happen if students were viewed as part of the solution in schools rather than part of the problem? This book examines the emergence of student voice at one high school in the San Francisco Bay area where educators went straight to the source and asked the students to help. Struggling, like many high schools, with how to improve student outcomes, educators at Whitman High School decided to invite students to participate in the reform process. Dana L. Mitra describes the evolution of student voice at Whitman, showing that the students enthusiastically created partnerships with teachers and administrators, engaged in meaningful discussion about why so many failed or dropped out, and partnered with teachers and principals to improve learning for themselves and their peers. In documenting the difference that student voice made, this book helps expand ideas of distributed leadership, professional learning communities, and collaboration. The book also contributes much needed research on what student voice initiatives look like in practice and provides powerful evidence of ways in which young people can increase their sense of agency and their sense of belonging in school.

Implementation of the K-12 Education Reform in Qatar's Schools Gail Zellman.2009 To assess progress made in the first years of Qatar's implementation of its K-12 education reform, RAND analyzed data from school-level observations, national surveys, and national student assessments. Findings reveal that the new, Independent schools had implemented many elements of the reform, that students in these schools were performing better than students in Ministry of Education schools, and that much work was still needed to enable students to meet the new, higher standards.

Online Teaching and Learning in Higher Education Pedro Isaias, Demetrios G. Sampson, Dirk Ifenthaler.2020-09-29 This book is to explore a variety of facets of online learning environments to understand how learning occurs and succeeds in digital contexts and what teaching strategies and technologies are most suited to this format. Business, health, government and education are some of the core sectors of society which have been experiencing deep transformations due to a generalized digitalization. While these changes are not novel, the swift progress of technology and the rising complexity of digital environments place a focus on the need for further research and novel strategies. In the context of education, the promise of increased flexibility and broader access to educational resources is impelling much of higher education's course offerings to online environments. The 21st century learner requires an education that can be pursued anytime and anywhere and that is more aligned with the demands of a digital society. Online education not only assists students to successfully integrate a workforce that is increasingly digital, but it helps them to become more comfortable with the use of technology in general and, hence, more prepared to be prolific digital citizens. The variety of settings portrayed in this volume attest to the unlimited opportunities afforded by online learning and serve as valuable evidence of its benefit for students' educational experience. Moreover, these research efforts assist a more comprehensive reflection about the delivery of higher education in the context of online settings.

Educating the Student Body Committee on Physical Activity and Physical Education in the School Environment, Food and Nutrition Board, Institute of Medicine.2013-11-13 Physical inactivity is a key determinant of health across the lifespan. A lack of activity increases the risk of heart disease, colon and breast cancer, diabetes mellitus, hypertension, osteoporosis, anxiety and depression and others diseases. Emerging literature has suggested that in terms of mortality, the global population health burden of physical inactivity approaches that of cigarette smoking. The prevalence and substantial disease risk associated with physical inactivity has been described as a pandemic. The prevalence, health impact, and evidence of changeability all have resulted in calls for action to increase physical activity across the lifespan. In response to the need to find ways to make physical activity a health priority for youth, the Institute of Medicine's Committee on Physical Activity and Physical Education in the School Environment was formed. Its purpose was to review the current status of physical activity and physical education in the school environment, including before, during, and after school, and examine the influences of physical activity and physical education on the short and long term physical, cognitive and brain, and psychosocial health and development of children and adolescents. Educating the Student Body makes recommendations about approaches for strengthening and improving programs and policies for physical activity and physical education in the school environment. This report lays out a set of guiding principles to guide its work on these tasks. These included: recognizing the benefits of instilling life-long physical activity habits in children; the value of using systems thinking in improving physical activity and physical education in the school environment; the recognition of current disparities in opportunities and the need to achieve equity in physical activity and physical education; the importance of considering all types of school environments; the need to take into consideration the diversity of students as recommendations are developed. This report will be of interest to local and national policymakers, school officials, teachers, and the education community, researchers, professional organizations, and parents interested in physical activity, physical education, and health for school-aged children and adolescents.

Digital Social Studies William B. Russell.2013-12-01 The world is ever changing and the way students experience social studies should reflect the environment in which they live and learn. Digital Social Studies explores research, effective teaching strategies, and technologies for social studies practice in the digital age. The digital age of education is more prominent than ever and it is an appropriate time to examine the blending of the digital age and the field of social studies. What is digital social studies? Why do we need it and what is its purpose? What will social studies look like in the future? The contributing authors of this volume seek to explain, through an array of ideas and visions, what digital social studies can/should look like, while providing research and rationales for why digital social studies is needed and important. This volume includes twenty-two scholarly chapters discussing relevant topics of importance to digital social studies. The twenty-two chapters are divided into two sections. This stellar collection of writings includes contributions from leading scholars like Cheryl Mason Bolick, Michael Berson, Elizabeth Washington, Linda Bennett, and many more.

National Education Technology Plan Arthur P. Hershaft.2011 Education is the key to America's economic growth and prosperity and to our ability to compete in the global economy. It is the path to higher earning power for Americans and is necessary for our democracy to work. It fosters the cross-border, cross-cultural collaboration required to solve the most challenging problems of our time. The National Education Technology Plan 2010 calls for revolutionary transformation. Specifically, we must embrace innovation and technology which is at the core of virtually every aspect of our daily lives and work. This book explores the National Education Technology Plan which presents a model of learning powered by technology, with goals and recommendations in five essential areas: learning, assessment, teaching, infrastructure and productivity.

Just Mercy Bryan Stevenson.2014-10-21 #1 NEW YORK TIMES BESTSELLER • NOW A MAJOR MOTION PICTURE STARRING MICHAEL B. JORDAN AND JAMIE FOXX • A powerful true story about the potential for mercy to redeem us, and a clarion call to fix our broken system of justice—from one of the most brilliant and influential lawyers of our time. “[Bryan Stevenson’s] dedication to fighting for justice and equality has inspired me and many others and made a lasting impact on our country.”—John Legend NAMED ONE OF THE MOST INFLUENTIAL BOOKS OF THE DECADE BY CNN • Named One of the Best Books of the Year by The New York Times • The Washington Post • The Boston Globe • The Seattle Times • Esquire • Time Bryan Stevenson was a young lawyer when he founded the Equal Justice Initiative, a legal practice dedicated to defending those most desperate and in need: the poor, the wrongly condemned, and women and children trapped in the farthest reaches of our criminal justice system. One of his first cases was that of Walter McMillian, a young man who was sentenced to die for a notorious murder he insisted he didn’t commit. The case drew Bryan into a tangle of conspiracy, political machination, and legal brinkmanship—and transformed his understanding of mercy and justice forever. Just Mercy is at once an unforgettable account of an idealistic, gifted young lawyer’s coming of age, a moving window into

the lives of those he has defended, and an inspiring argument for compassion in the pursuit of true justice. Winner of the Carnegie Medal for Excellence in Nonfiction • Winner of the NAACP Image Award for Nonfiction • Winner of a Books for a Better Life Award • Finalist for the Los Angeles Times Book Prize • Finalist for the Kirkus Reviews Prize • An American Library Association Notable Book “Every bit as moving as *To Kill a Mockingbird*, and in some ways more so . . . a searing indictment of American criminal justice and a stirring testament to the salvation that fighting for the vulnerable sometimes yields.”—David Cole, *The New York Review of Books* “Searing, moving . . . Bryan Stevenson may, indeed, be America’s Mandela.”—Nicholas Kristof, *The New York Times* “You don’t have to read too long to start cheering for this man. . . . The message of this book . . . is that evil can be overcome, a difference can be made. Just Mercy will make you upset and it will make you hopeful.”—Ted Conover, *The New York Times Book Review* “Inspiring . . . a work of style, substance and clarity . . . Stevenson is not only a great lawyer, he’s also a gifted writer and storyteller.”—*The Washington Post* “As deeply moving, poignant and powerful a book as has been, and maybe ever can be, written about the death penalty.”—*The Financial Times* “Brilliant.”—*The Philadelphia Inquirer*

Methods in Educational Research Marguerite G. Lodico,Dean T. Spaulding,Katherine H. Voegtle.2010-04-07 *Methods in Educational Research* is designed to prepare students for the real world of educational research. It focuses on scientifically-based methods, school accountability, and the professional demands of the twenty-first century, empowering researchers to take an active role in conducting research in their classrooms, districts, and the greater educational community. Like the first edition, this edition helps students, educators, and researchers develop a broad and deep understanding of research methodologies. It includes substantial new content on the impact of No Child Left Behind legislation, school reform, quantitative and qualitative methodologies, logic modeling, action research, and other areas. Special features to assist the teaching and learning processes include vignettes illustrating research tied to practice, suggested readings at the end of each chapter, and discussion questions to reinforce chapter content. Praise for the Previous Edition A new attempt to make this subject more relevant and appealing to students. Most striking is how useful this book is because it is really grounded in educational research. It is very well written and quite relevant for educational researchers or for the student hoping to become one. -*PsycCRITIQUES/American Psychological Association* I applaud the authors for their attempt to cover a wide range of material. The straightforward language of the book helps make the material understandable for readers. -*Journal of MultiDisciplinary Evaluation*

Losing Earth Nathaniel Rich.2020-03-05 By 1979, we knew all that we know now about the science of climate change - what was happening, why it was happening, and how to stop it. Over the next ten years, we had the very real opportunity to stop it. Obviously, we failed.Nathaniel Rich’s groundbreaking account of that failure - and how tantalizingly close we came to signing binding treaties that would have saved us all before the fossil fuels industry and politicians committed to anti-scientific denialism - is already a journalistic blockbuster, a full issue of the *New York Times Magazine* that has earned favorable comparisons to Rachel Carson’s *Silent Spring* and John Hersey’s *Hiroshima*. Rich has become an instant, in-demand expert and speaker. A major movie deal is already in place. It is the story, perhaps, that can shift the conversation.In the book *Losing Earth*, Rich is able to provide more of the context for what did - and didn’t - happen in the 1980s and, more important, is able to carry the story fully into the present day and wrestle with what those past failures mean for us in 2019. It is not just an agonizing revelation of historical missed opportunities, but a clear-eyed and eloquent assessment of how we got to now, and what we can and must do before it’s truly too late.
