**Collecting Shakespeare** Stephen H. Grant.2014-04-26 The first biography of Henry and Emily Folger, who acquired the largest and finest collection of Shakespeare in the world. In *Collecting Shakespeare*, Stephen H. Grant recounts the American success story of Henry and Emily Folger of Brooklyn, a couple who were devoted to each other, in love with Shakespeare, and bitten by the collecting bug. Shortly after marrying in 1885, the Folgers started buying, cataloging, and storing all manner of items about Shakespeare and his era. Emily earned a master's degree in Shakespeare studies. The frugal couple worked passionately as a tight-knit team during the Gilded Age, financing their hobby with the fortune Henry earned as president of Standard Oil Company of New York, where he was a trusted associate of John D. Rockefeller Sr. While a number of American universities offered to house the collection, the Folgers wanted to give it to the American people. Afraid the price of antiquarian books would soar if their names were revealed, they secretly acquired prime real estate on Capitol Hill near the Library of Congress. They commissioned the design and construction of an elegant building with a reading room, public exhibition hall, and the Elizabethan Theatre. The Folger Shakespeare Library was dedicated on the Bard's birthday, April 23, 1932. The library houses 82 First Folios, 275,000 books, and 60,000 manuscripts. It welcomes more than 100,000 visitors a year and provides professors, scholars, graduate students, and researchers from around the world with access to the collections. It is also a vibrant center in Washington, D.C., for cultural programs, including theater, concerts, lectures, and poetry readings. The library provided Grant with unprecedented access to the primary sources within the Folger vault. He draws on interviews with surviving Folger relatives and visits to 35 related archives in the United States and in Britain to create a portrait of the remarkable couple who ensured that Shakespeare would have a beautiful home in America.

**Contraction: Baseball's Failed Attempt at Eliminating Two Teams** Michael Grant.2020-02-28 In the five-year period from 1995 through 1999, revenues in baseball as a whole had doubled. But the revenue growth was disproportionately higher among large market teams and teams that had recently opened new ballparks. In baseball's salary cap-less economic structure, massive gaps in player payroll between high revenue and low revenue clubs resulted in competitive balance issues. Major League Baseball Commissioner Bud Selig and the team owners decided after the 2001 season that the best way to combat this issue was to eliminate its two lowest revenue clubs, the Montreal Expos and the Minnesota Twins. This strategy wouldn't go as smoothly as baseball had anticipated. Poor planning from the onset coupled with a lawsuit in Minnesota and a three-owner franchise swap between the Expos, Florida Marlins, and Boston Red Sox orchestrated by Commissioner Selig doomed contraction. This is a story of greed and failure in one of North America's major sports leagues.
