**Arab France** Ian Coller.2011 Ian Coller's fascinating book explores the making of modern France during the Napoleonic period and under the Restoration 'from the outside inward'. He examines the life of Arab migrants in France: their role as outsiders, and victims, but also as participants in the creation of the modern nation and its empire. In the process he also throws much light on the history of the contemporary Arab Middle East and North Africa.—C.A. Bayly, University of Cambridge

**Freedom to Smoke** Jarrett Rudy.2005-09-30 In the late Victorian era, smoking was a male habit and tobacco was consumed mostly in pipes and cigars. By the mid-twentieth century, advertising and movies had not only made it acceptable for women to smoke but smoking had become a potent symbol of their emancipation. From mass cigarette production in 1888 to the first studies linking cigarettes to lung cancer in 1950, *The Freedom to Smoke* explores gender and other key issues related to smoking in Montreal, including the arrival of big tobacco, first attempts to

ban the cigarette, wartime tobacco funds, French Canadian smoking habits, rituals of manliness, and the growing respectability of women smokers - none of which have been examined by historians. Jarrett Rudy argues that while people smoked for highly personal reasons, their smoking rituals were embedded in social relations and shaped by dominant norms of taste and etiquette. *The Freedom to Smoke* examines the role of the tobacco industry, health experts, churches, farmers, newspapers, the military, the state, and smokers themselves. A pioneering city-based study, it weaves Western understandings of respectable smoking through Montreal's diverse social and cultural fabric. Rudy argues that etiquette gave smoking a political role, reflecting and serving to legitimize beliefs about inclusion, exclusion, and hierarchy that were at the core of a transforming liberal order.

**The Craftsman** Richard Sennett. 2009-02-05 Why do people work hard, and take pride in what they do? This book, a philosophically-minded enquiry into practical activity of many different kinds past and present, is about what happens when people try to do a good job. It asks us to think about the true meaning of skill in the 'skills society' and argues that pure competition is a poor way to achieve quality work. Sennett suggests, instead, that there is a craftsman in every human being, which can sometimes be enormously motivating and inspiring - and can also in other circumstances make individuals obsessive

and frustrated. The Craftsman shows how history has drawn fault-lines between craftsman and artist, maker and user, technique and expression, practice and theory, and that individuals' pride in their work, as well as modern society in general, suffers from these historical divisions. But the past lives of crafts and craftsmen show us ways of working (using tools, acquiring skills, thinking about materials) which provide rewarding alternative ways for people to utilise their talents. We need to recognise this if motivations are to be understood and lives made as fulfilling as possible.

**The Burdens of Disease** J. N. Hays,J. Hays.2009-10-15 A review of the original edition of *The Burdens of Disease* that appeared in *ISIS* stated, Hays has written a remarkable book. He too has a message: That epidemics are primarily dependent on poverty and that the West has consistently refused to accept this. This revised edition confirms the book's timely value and provides a sweeping approach to the history of disease. In this updated volume, with revisions and additions to the original content, including the evolution of drug-resistant diseases and expanded coverage of HIV/AIDS, along with recent data on mortality figures and other relevant statistics, J. N. Hays chronicles perceptions and responses to plague and pestilence over two thousand years of western history. Disease is framed as a multidimensional construct, situated at the intersection of history, politics, culture, and medicine, and rooted in mentalities and social relations as much as in biological conditions of pathology. This revised edition of *The Burdens of Disease* also studies the victims of epidemics, paying close attention to the relationships among poverty, power, and disease.

*City Watch* Jon Anderson.2001-05-04 In forty-five years as one of Chicago's liveliest journalists for Time, Life, and the Chicago Tribune, Jon Anderson has established a reputation for picking up on what someone once called the beauty of the specific fact. Part Talk of the Town, part On the Road with Charles Kuralt, Anderson's twice-a-week City Watch columns in the Chicago Tribune seek out interesting and unexpected people and places from the everyday life of what the author calls the most typical American big city. In the process he discovers the joys and triumphs of ordinary people. Anderson writes with wit and insight about those who find themselves inspired or obsessed with alternative ways of viewing life or getting through the day. Like the man who started with one light pole, then painted all the poles in his southside neighborhood. Or the founder of Cats-Are-Purrsons-Too, a nun who lives with sixty-seven cats. Or the philosopher who, with no financial success, still publishes a newsletter called The Meaning of Life. After years of hunting down moments of everyday life that have drama and meaning, Anderson offers a book that has curious power, because all of its

From Foraging Friends, a group of penniless ecologists who forage for wild foods in a county forest preserve, to the annual Dumpster Diver fashion show, from the Oakton Elementary School chess team to a group that calls itself Some Chicago Anarchists, readers will discover the characters and events that define Chicago's local color.

**Violin Making** Walter H. Mayson.2013-08 Many persons of good, practical ability, and moderately versed in the laws of acoustics, with an eye for form, and not deficient in a certain conception of art as art; who have the instinct to check any approach to vulgarity, and work on lines, curves and thicknesses, more or less true, elegant, and the best for producing fine tone, have seen, and will yet again see, their efforts of small avail, cast aside, never to assume even mediocre rank in the stern array of violins of modern make, much less of those of ancient Italy, merely because the wood chosen for the instrument made is of an inferior, probably worthless character, which would have been employed to much more purpose had it been used in the construction of a windmill, or the shaft of a mine.

[Opera in the Age of Rousseau](#) David Charlton.2012-10-25

Historians of French politics, art, philosophy and literature have long known the tensions and fascinations of Louis XV's reign, the 1750s in particular. David Charlton's study comprehensively re-examines this period, from Rameau to Gluck and elucidates the long-term issues surrounding opera. Taking Rousseau's *Le Devin du Village* as one narrative centrepiece, Charlton investigates this opera's origins and influences in the 1740s and goes on to use past and present research to create a new structural model that explains the elements of reform in Gluck's *tragédies* for Paris. Charlton's book opens many new perspectives on the musical practices and politics of the period, including the *Querelle des Bouffons*. It gives the first detailed account of *intermezzi* and *opere buffe* performed by Eustachio Bambini's troupe at the Paris Opéra from August 1752 to February 1754 and discusses Rameau's comedies *Platée* and *Les Paladins* and their origins.

Ralph Keyes's *The Quote Verifier* considers not only classic misquotes such as *Nice guys finish last*, and *Play it again, Sam*, but more surprising ones such as *Ain't I a woman?* and *Golf is a good walk spoiled*, as well as the origins of popular sayings such as *The opera ain't over till the fat lady sings*, *No one washes a rented car*, and *Make my day*. Keyes's in-depth research routinely confounds widespread assumptions about who said what, where, and when. Organized in easy-to-access dictionary form, *The Quote Verifier* also contains special sections highlighting commonly misquoted people and genres, such as

With this widely acclaimed work, Michael Fried revised the way in which eighteenth-century French painting and criticism are viewed and understood. Analyzing paintings produced between 1753 and 1781 and the comments of a number of critics who wrote about them, especially Dennis Diderot, Fried discovers a new emphasis in the art of the time, based not on subject matter or style but on values and effects.
