The Political Language of Islam Bernard Lewis.2018-12-14 What does jihad really mean? What is the Muslim conception of law? What is Islam's stance toward unbelievers? Probing literary and historical sources, Bernard Lewis traces the development of Islamic political language from the time of the Prophet to the present. His analysis of documents written in Arabic, Persian, and Turkish illuminates differences between Muslim political thinking and Western political theory, and clarifies the perception, discussion, and practices of politics in the Islamic world. Lewis's own style, combining erudition with a simple elegance and subtle humor, continues to inspire. In an era of specialization and narrowing academic vision, he stands alone as one who deserves, without qualification, the title of historian of Islam.—Martin Kramer, *Middle East Review A* superb effort at synthesis that presents all the relevant facts of Middle Eastern history in an eminently lucid form. . . . It is a book that should prove both rewarding and congenial to the Muslim reader.—S. Parvez Manzor, *Muslim World Book Review* By bringing his thoughts together in this clear, concise and readable account, [Lewis] has placed in his debt scholars and all who seek to understand the Muslim world.—Ann K. S. Lambton, *Bulletin of the School of Oriental and African Studies* [Lewis] constructs a fascinating account of the ways in which Muslims have conceived of the relations between ruler and ruled, rights and duties, legitimacy and illegitimacy, obedience and rebellion, justice and oppression. And he shows how changes in political attitudes and concepts can be traced through changes in the political vocabulary.—Shaul Bakhash, *New York Review of Books*

Byzantium Viewed by the Arabs Nadia Maria El-Cheikh.2004 This book studies the Arabic-Islamic view of Byzantium, tracing the Byzantine image as it evolved through centuries of warfare, contact, and exchanges. Including previously inaccessible material on the Arabic textual tradition on Byzantium, this investigation shows the significance of Byzantium to the Arab Muslim establishment and their appreciation of various facets of Byzantine culture and civilization. The Arabic-Islamic representation of the Byzantine Empire stretching from the reference to Byzantium in the Qur'an until the fall of Constantinople in 1453 is considered in terms of a few salient themes. The image of Byzantium reveals itself to be complex, non-monolithic, and self-referential. Formulating an alternative appreciation to the politics of confrontation and hostility that so often underlies scholarly discourse on Muslim-Byzantine relations, this book presents the schemes developed by medieval authors to reinterpret aspects of their own history, their own self-definition, and their own view of the world.

The Life and Death of Sophie Stark Anna North.2015-05-19 Winner of the 2016 Lambda Literary Award for Bisexual Fiction “I read *The Life and Death of Sophie Stark* with my heart in my mouth. Not only a dissection of genius and the havoc it can wreak, but also a thunderously good story.”—Emma Donoghue, *New York Times* bestselling author of *Room* “This novel is perceptive, subtle, funny and lingers in unexpected ways. The analysis of a woman who puts her art above all else is equal parts inspiration and warning story. Anna North makes prose look easy.”—Lena Dunham Gripping and provocative, *The Life and Death of Sophie Stark* is a haunting story of fame, love, and legacy told through the propulsive rise of an iconoclastic artist. Sophie Stark begins her filmmaking career by creating a documentary about her obsession, Daniel, a college basketball star. But when she becomes too invasive, she finds herself the victim of a cruel retribution. The humiliation doesn't stop her. Visionary and unapologetic, Sophie begins to use stories from the lives of those around her to create movies, and as she gains critical recognition and acclaim, she risks betraying the one she loves most. Told in a chorus of voices belonging to those who knew Sophie best, *The Life and Death of Sophie Stark* is an intimate portrait of an elusive woman whose monumental talent and relentless pursuit of truth reveal the cost of producing great art. It is “not only a dissection of genius and the havoc it can wreak,

but also a thunderously good story” (Emma Donoghue).

Visions of Community in the Post-Roman World Walter Pohl, Clemens Gantner, Richard Payne. 2016-03-03 This volume looks at 'visions of community' in a comparative perspective, from Late Antiquity to the dawning of the age of crusades. It addresses the question of why and how distinctive new political cultures developed after the disintegration of the Roman World, and to what degree their differences had already emerged in the first post-Roman centuries. The Latin West, Orthodox Byzantium and its Slavic periphery, and the Islamic world each retained different parts of the Graeco-Roman heritage, while introducing new elements. For instance, ethnicity became a legitimizing element of rulership in the West, remained a structural element of the imperial periphery in Byzantium, and contributed to the inner dynamic of Islamic states without becoming a resource of political integration. Similarly, the political role of religion also differed between the emerging post-Roman worlds. It is surprising that little systematic research has been done in these fields so far. The 32 contributions to the volume explore this new line of research and look at different aspects of the process, with leading western Medievalists, Byzantinists and Islamicists covering a wide range of pertinent topics. At a closer look, some of the apparent differences between the West and the Islamic world seem less distinctive, and the inner variety of all post-Roman societies becomes more marked. At the same time, new variations in the discourse of community and the practice of power emerge. Anybody interested in the development of the post-Roman Mediterranean, but also in the relationship between the Islamic World and the West, will gain new insights from these studies on the political role of ethnicity and religion in the post-Roman Mediterranean.

Two Thousand Years of Jewish Life in Morocco Haïm Zafrani. 2005 The origins of the Jewish community of Morocco are buried in history, but they date back to ancient times, and perhaps to the biblical period. The first Jews in the country migrated there from Israel. Over the centuries, their numbers were increased by converts and then by Jews expelled from Spain and Portugal. After the Muslim conquest, Morocco's Jews, as people of the book, had dhimmi status, which entailed many restrictions but allowed them to exercise their religion freely. In the mellahs (Jewish quarters) of Morocco's cities and towns, and in the mountainous rural areas, a distinct Jewish culture developed and thrived, unquestionably traditional and Orthodox, yet unique because of the many areas in which it assimilated elements of the local culture and lifestyle, making them its own as it

did so. Most of Morocco's Jews settled in Israel after 1948, and many others went to other countries. Wherever they went, their rich cultural heritage went with them, as exemplified by the Maimuna festival, just after Passover, which is now a major occasion on the Israeli calendar.

Planning Middle Eastern Cities Yasser Elsheshtawy. 2004-08-02 Middle Eastern cities cannot be lumped together as a single group. Rather they make up the urban kaleidoscope of the title, as the diversity of the six cities included here shows. They range from cities rich in tradition (Cairo, Tunis, and Baghdad), to neglected cities (Algiers and Sana'a), to newly emerging 'oil-rich' Gulf cities (Dubai). The authors are all young Arab scholars and architects local to the cities they describe, providing an authentic voice with an understanding no outsider could achieve. These contributors move away from an exclusively 'Islamic' reading of Arab cities - which they regard as outdated and counterproductive. Instead, they explore issues of identity and globalization in the context of the struggles and solutions offered by each city from the late nineteenth century to the present day. Their focus is on how the built environment has changed over time and under different influences.
