Reforming Business-related Laws to Promote Private Sector Development W. Paatii Ofosu-

Amaah.2000-01-01 An appropriate legal and regulatory framework is essential for good government and progress in any country and essential in any private sector development programme. This study describes legal reform programmes in African countries, including an evaluation of such programmes in the post-independence era in civil and common law countries.

Leveraging Export Diversification in Fragile Countries José López-Cálix.2020-02-12 Despite multiple past efforts, fragile Sub-Saharan African economies such as those of Mali, Chad, Niger, and Guinea still rank among the least diversified worldwide, with natural resources constituting a high share of their gross domestic product or exports. Large-scale production of gold for Mali, oil for Chad, uranium for Niger, and bauxite for Guinea offers substantial opportunities, but also has major shortcomings. Conclusive evidence shows poor economic performance by resource-rich but fragile Sub-Saharan African countries. The primary reason is not only their high vulnerability to external

shocks, but the greed or grievances that typically lead to rents appropriation by a small group of elites in countries that are prone to conflict. *Leveraging Export Diversification in Fragile Countries* explores the following questions: What are Mali's, Chad's, Niger's, and Guinea's main constraints to export diversification as perceived by key exporting firms? How it could be beneficial for these countries to target certain emerging export products? Are their current interventions to promote global value chain (GVC) adequate? What lessons can be extracted from specific cases? How can trade and logistic policies favor (or hamper) export diversification+led growth? The book lays the groundwork for effective step-by-step multidimensional policies to propel export diversification in fragile economies that are hindered not only by poor governance and weak institutions, but also by their landlocked position (except Guinea), small domestic markets, and business-unfriendly environments. Recognizing that traditional project interventions in these countries have had limited success, mainly due to their unidimensional focus on single components of an agricultural value chain, the book proposes a GVC 2.0 cluster-based approach to export diversification, in which complementary efforts attract foreign firms and public investment in support of agribusiness. Promising pilot examples of joint implementation plans among multiple donors, risk-sharing facilities, and agribusiness clusters provide valuable insights into recent global value chain developer interventions.

International Commercial Arbitration and African States Amazu A. Asouzu.2001-10-18 International Commercial Arbitration and African States is a timely assessment of the arbitral process in the African context. The book focuses on the contribution that arbitration, and other methods of alternative dispute resolution, may make to the development of African states and peoples, while satisfying the legitimate expectations of inward investors and traders. Although focusing on dispute

resolution regimes affecting or concerning African states and their nationals, the work will also have practical, policy and comparative implications for dispute resolution, commercial arbitration and foreign investment in other regions.

Sound Practice in Government Debt Management Graeme Wheeler.2004 Since the late 1980's, many OECD governments have invested heavily in improving the quality of their debt management practices. In recent years, the topic has received additional attention for its potential role in reducing the vulnerability of emerging economies to financial and economic shocks. A government asset and liability management framework can offer valuable conceptual insights for managing the risks associated with government debt portfolios and their interface with a wide range of public policy issues. Prudent risk management requires clear objectives or debt managers, sound institutional and legal framework, appropriate quality assurance procedures and checks and balances, and efficient management information systems. This report draws from the experiences of leading countries in this field.

Regional Development Poles and the Transformation of African Economies Benaiah Yongo-Bure.2020-02-17 This book argues that the development of capital goods manufacturing industries in four relatively large African economies will create regional development poles, from which industrialization will spread to the smaller African countries. In this book, Benaiah Yongo-Bure explains the need for capital goods industries in Africa and shows how manufacturing can transform economies. He outlines the roles of the Democratic Republic of Congo (DRC), Ethiopia, Nigeria, and South Africa as potential regional development poles, showing how the existing economies, natural resources, and populations of these countries make them ideal candidates, while also considering possible challenges to industrialization. Finally, the author assesses what major infrastructural development is needed to link the countries and regions to increase the spread effects of economic growth. This book will be of interest to scholars and policy makers in economic development and regional development in Africa.

Business Law in Africa Boris Martor.2002 Praise and Reviews `An important new book.` African Review of Business and Technology Legal harmonization is an essential step to encouraging foreign investment in Africa and the development of sustainable pan-African trade.This important new book explains the new system of law, now being developed and promoted by OHADA. OHADA - the Organization for the Harmonization of Business Law in Africa - is an international organization

currently comprising 16 Member States: Benin, Burkina Faso, Cameroon, Central African Republic, Chad, the Federal Islamic Republic of the Comoros, Congo, Côte d'Ivoire, Equatorial Guinea, Gabon, Guinea, Guinea-Bissau, Mali, Niger, Senegal and Togo. As a result of the creation of OHADA, business law in these African countries has recently entered a new era of rapid modernization and harmonization. OHADA's essential aim is to promote economic integration and development by creating a secure legal framework for the conduct of business in Africa. In order to achieve this aim, OHADA has enacted a number of laws, known as Uniform Acts, on various aspects of business law including commercial and company laws, insolvency, securities and arbitration. These Uniform Acts are directly applicable throughout the Member States. This book offers an overview of the aims and achievements of the OHADA system and explains in depth the legislation that has been issued to date. It will be invaluable to legal and business development executives in major global companies, international law firms, accountants and management consultants, students of international business law, government agencies, and NGOs concerned with Africa and African business people. The authors are members of the Africa team in the Paris office of Eversheds: Boris Martor, Avocat à la Cour de Paris Nanette Pilkington, Avocat à la Cour de Paris David S. Banking in Sub-Saharan Africa Mr. Montfort Mlachila, Mr. Masafumi Yabara. 2013-09-26 Many countries in sub-Saharan Africa (SSA) have seen accelerated growth for an extended period of time since the mid-1990s, making a clear break with their long stagnant growth during the previous two decades. That said, the region faces significant challenges over the medium to long term, including reducing poverty, overcoming infrastructure bottlenecks, enhancing productivity and skill levels, and improving the business climate, among others. The banking sector remains underdeveloped in SSA, thus reducing its contribution to growth, although its limited integration with global financial markets helped countries weather adverse effects of the global financial crisis. It is imperative that the banking sector plays a more active role in SSA, in order to achieve sustainable growth led by the private sector. This paper, building on the recent literature on SSA, discusses the main features of the region's growth and macroeconomic performance in recent years and the outlook for the coming years; it then reviews the main features of SSA banking systems and how they were affected by the global economic crisis, while flagging some factors that could influence financial sector developments in SSA in the period ahead.

Resilience of an African Giant Johannes Herderschee, Kai-Alexander Kaiser, Daniel Mukoko Samba. 2011-10-05 The development of an effective state, a reliable infrastructure, and a dynamic

private sector has long been hampered by political economy obstacles in the Democratic Republic of Congo. Resilience of an African Giant identifies these obstacles, which prevent the country from realizing its economic potential as the second-largest country in Sub-Saharan Africa, and outlines how they can be—and in some cases have been—overcome. Four instruments that have been used to boost economic development in the past and that can contribute to more development in the future are explored in the book: coordination among those who control or influence policy, application of new technologies, leveraging of external anchors, and development of social accountability networks. This book pulls together an impressive body of research on the exemplary transition of a country from a state of conflict to a post-conflict situation, and from there toward becoming a country with legitimate institutions created by free, democratic, and transparent elections. I therefore wholeheartedly recommend it to all who are interested in development, particularly to policy makers in my country, as well as its partners.

Entrepreneurship in Africa. 2017-09-25 Chapters in this book contribute to our understanding of the theory, structure and practice of entrepreneurship in diverse African countries. World Development Indicators 2016 World Bank. 2016-04-29 World Development Indicators 2016 provides a compilation of relevant, high-quality, and internationally comparable statistics about global development and the fight against poverty. It is intended to help policymakers, students, analysts, professors, program managers, and citizens find and use data related to all aspects of development, including those that help monitor progress toward the World Bank Group's two goals of ending poverty and promoting shared prosperity. Six themes are used to organize

indicators—world view, people, environment, economy, states and markets, and global links. WDI 2016 includes:

- A selection of the most popular indicators across 214 economies and 14 country groups organized into six WDI themes
- A new section on the Sustainable Development Goals (SDGs) has replaced the one on Millennium Development Goals (MDGs).
- The SDG section covers all 17 goals, and important targets to achieve these goals. Each goal has been presented in a maximum 2-page spread with selected indicators to explain the targets.
- Each of the remaining sections includes an introduction, a map, a table of the most relevant and popular indicators for that theme together with a discussion of indicator compilation methodology.
- A user guide describing resources available online and on mobile apps. Download the WDI DataFinder Mobile App and other Data Apps at data.worldbank.org/apps. WDI DataFinder is a mobile app for browsing the current WDI database on smartphones and tablets, using iOS and Android, available in four languages: English, French, Spanish, and Chinese. Use the app to:

- Browse data using the structure of the WDI
- Visually compare countries and indicators
- Create, edit, and save customized tables, charts, and maps
- Share what you create on Twitter, Facebook, and via email

Financial Regulation in Africa Iwa Salami.2016-04-15 In the wake of the global financial crisis, there has been a worldwide search for alternative investment opportunities, away from advanced markets. The African continent is now one of the fastest-growing economic regions in the world and represents a viable destination for foreign direct and portfolio investment. This book, which is the first comprehensive analysis of financial integration and regulation in Africa, fills a huge gap in the literature on financial regulation and would constitute an invaluable source of information to policy makers, investors, researchers and students of financial regulation from an emerging and frontier

markets perspective. It considers how financial integration can facilitate African financial markets to achieve their full potential and provides a comparative study with the EU framework for financial integration and regulation. It assesses the implementation of effective and regional domestic infrastructures and how these can be adapted to suit the African context. The book also provides an assessment of government policies towards the integration of financial regulation in keeping with the regional agenda of the African Union (AU) and the African Economic Community (AEC).

Banking in Africa: Delivering on Financial Inclusion, Supporting Financial Stability

European Investment Bank.2018-11-21 In its fourth edition, this report focuses on recent developments in Africa's banking sectors and the policy options for all stakeholders. The study of banking sectors across all African sub-regions includes the results of the EIB survey of banking groups operating in Africa. Three thematic chapters address challenges and opportunities for financing investment in Africa: Crowding out of private sector lending by public debt issuance The state of bank recovery and resolution laws in Africa Policy options on how to finance infrastructure development. The report finds that in many African banking markets, the last two years saw a pause in financial deepening. However, a rising share of banking groups report improving market conditions and plan a structural expansion of their operations in Africa and a continued push for new technologies.

This book contains compelling arguments and empirical observations that detail some of the key opportunities governments in Africa are pursuing.

International Economic Law Emmanuel T Laryea. 2012-12-01 To take Africa from the edge to the centre of the global economy, it is critical to engage African voices in policy discussions on the global political economy. With Africa's projected economic importance in the future and South Africa's prominent role in the G-20 and BRICS, it is vital that this part of the world is involved in restructuring the rules and principles of international economic law. This book examines themes dealing with cross border trade, investment, development and finance issues.

Sustaining Reforms for Inclusive Growth in Cameroon Florence Charlier, Charles N'cho-Oguie. 2009 This comprehensive review of Cameroon's development policies since the 1970s- including public finance, privatization, trade, infrastructure, and governance- finds that Cameroon's malaise is due less to a lack of resources than to an inability to sustain reforms and to implement

growth-enhancing policies. While the government's strategies have been sound, this volume argues that an 'administrative inertia' has set in. This study makes a number of key recommendations to overcome this inertia, enhance cohesion and consistency in government actions, strengthen capacity to effectively execute programs, and hence increase development outcomes for Cameroon.

Transnational Legal Orders Terence C. Halliday, Gregory Shaffer. 2015-01-19 This book offers an empirically grounded theory that reframes the study of law and society from a predominantly national context, which dichotomizes the study of international law and national compliance into a dynamic perspective that places national, international, and transnational lawmaking and practice within a coherent single frame. By presenting and elaborating on a new concept, transnational legal orders it offers an original approach to the emergence of legal orders beyond nation-states. It shows how they originate, where they compete and cooperate, and how they settle on institutions that legally order fundamental economic and social behaviors that transcend national borders. This original theory is applied and developed by distinguished scholars from North America and Europe in business law, regulatory law and human rights--

Raising Growth and Investment in Sub-Saharan Africa Mr. Ernesto Hernández-Catá. 2000-05-01 This paper argues that sub-Saharan Africa's growth performance needs to be improved substantially in order to raise standards of living to an acceptable level and achieve a visible reduction in poverty. The paper provides a broad overview of the explanations for sub-Saharan Africa's unsatisfactory

growth performance in the past, paying particular attention to the empirical literature. It argues that growth has been hampered by economic distortions and institutional deficiencies that have increased the risk of investing in Africa, and lowered the rates of return on capital and labor as well as the growth of total factor productivity.
