The Subversion of Images Paul Nougé.2019-11-19 This classic surrealist photobook pioneered the imagery of the domestic uncanny First edited and published by Marcel Marien in 1968 in a limited edition of 230 copies, half a year after Paul Nougé's death, The Subversion of Images is a miniature classic in both the photobook and surrealist canons. It collects Nougé's notes and photographs from 1929-30 to form a guidebook to the surrealist image. Nougé here outlines his conception of the object and the surrealist approach to it, while also offering an accompaniment to the visual work of his colleague, René Magritte, whose paintings he sometimes titled. How might a tangle of string elicit terror? How might the suppression of an object move one to sentimentality? What is the effect of a pair of gloves on a loaf of sliced bread? Nougé's accompanying photographs explore these notions, and feature a number of his Belgian surrealist colleagues. This translation is presented as a facsimile of the original edition, with an afterword by Xavier Canonne, director of the Musée de la Photographie. A biochemist by trade, Paul Nougé(1895-1967) was a leading light of Belgian surrealism and its primary theorist, as well as a decisive influence on such Lettrists and Situationists as Guy Debord and Gil J. Wolman, who would take inspiration from his conception of plagiarism for what would come to be termed détournement. Nougé steered the Brussels surrealist group toward a more rational approach to visual and verbal language that discarded the Parisian surrealists' proclivity for irrationality and occultism.

The Salon of 1846 Charles Baudelaire.2021-04-27 In his introduction to Charles Baudelaire's Salon of 1846, the renowned art historian Michael Fried presents a new take on the French poet and critic's ideas on art, criticism, romanticism, and the paintings of Delacroix. Charles Baudelaire, considered a father of modern poetry, wrote some of the most daring and influential prose of the nineteenth century. Prior to publishing international bestseller *Les Fleurs du mal* (1857), he was already notable as a forthright and witty critic of art and literature. Captivated by the Salons in Paris, Baudelaire took to writing to express his theories on modern art and art philosophy. The Salon of 1846 expands upon the tenets of Romanticism as Baudelaire methodically takes his reader through paintings by Delacroix and Ingres, illuminating his belief that the pursuit of the ideal must be paramount in artistic expression. Here we also see Baudelaire caught in a fundamental struggle with the urban commodity of capitalism developing in Paris at that time. Baudelaire's text proves to be a useful lens for understanding art criticism in mid-nineteenth-century France, as well as the changing opinions regarding the essential nature of Romanticism and the artist as creative genius. Acclaimed art historian and art critic Michael Fried's introduction offers a new reading of Baudelaire's seminal text and highlights the importance of his writing and its relevance to today's audience.

Cytomegalovirus Hervé Guibert.2015-10-01 By the time of his death, Herve Guibert had become a singular literary voice on the impact of AIDS in France. He was prolific. His oeuvre contained some twenty novels, including *To the Friend Who Did Not Save My Life* and *The Compassion Protocol*. He was thirty-six years old. In *Cytomegalovirus*, Guibert offers an autobiographical narrative

of the everyday moments of his hospitalization because of complications of AIDS. Cytomegalovirus is spare, biting, and anguished. Guibert writes through the minutiae of living and of death—as a quality of invention, of melancholy, of small victories in the face of greater threats—at the moment when his sight (and life) is eclipsed. This new edition includes an Introduction and Afterword contextualizing Guibert’s work within the history of the AIDS pandemic, its relevance in the contemporary moment, and the importance of understanding the quotidian aspects of terminal illness.

Soap Francis Ponge, Lane Dunlop. 1998 In this work, begun during the German occupation, the eminent French poet and philosopher began to turn away from the small, perfect poem toward a much more open form, a kind of prose poem that recounted its own process of coming into being along with the final result.

William James David Lapoujade. 2019-12-13 Originally published in French in 1997 and appearing here in English for the first time, David Lapoujade's *William James: Empiricism and Pragmatism* is both an accessible and rigorous introduction to James's thought and a pioneering rereading of it. Examining pragmatism's fundamental questions through a Deleuzian framework, Lapoujade outlines how James's pragmatism and radical empiricism encompass the study of experience and the making of reality, and he reopens the speculative side of pragmatist thought and the role of experience in it. The book includes an extensive afterword by translator Thomas Lamarre, who illustrates how James's interventions are becoming increasingly central to the contemporary debates about materialist ontology, affect, and epistemology that strive to bridge the gaps among science studies, media studies, and religious studies.

Symbolism and Interpretation Tzvetan Todorov. 1986 In *Symbolism and Interpretation*, Tzvetan Todorov examines two aspects of discourse: its production, which has traditionally been

the domain of rhetoric, and its reception, which has always been the object of hermeneutics. He analyzes the diverse theories of symbolism and interpretation that have been elaborated over the centuries and considers their contribution to a general theory of verbal symbolism, discussing a wide range of thinkers, from the Sanskrit philosophers and Aristotle to the German Romantics and contemporary semioticians. Todorov begins by examining general ideas of linguistic symbolism and the interpretive process. He then turns to a detailed consideration of two of the most influential and pervasive interpretative strategies in Western thought: the patristic exegesis of Augustine and Aquinas, and the philological exegesis foreshadowed in the work of Spinoza, developed by Wolf, Ast, Boeckh, and Lanson, and criticized by Schleiermacher. Todorov clarifies in masterly fashion the intricacies of the many schools of thought and refines the concepts crucial to critical theory today, including the distinctions between language and discourse, direct and indirect meaning, sign and symbol. Ably translated by Catherine Porter, *Symbolism and Interpretation* provides a coherent and innovative framework that is indispensable to the study of semiotics, its history, and its future.

The Star Alphabet by E.L.T. Mesens Edouard Léon Théodore Mesens, Phillip van den Bossche, Nele Bernheim. 2013 Edouard Léon Théodore Mesens (1903-1971) was a main figure in twentieth-century European art. He was known as the talisman of surrealism. Like a collage, his artistic vocation comprised various fragments: he was a composer, poet, publisher, photographer, exhibition maker and above all a passionate promoter of art. In the early 1920s E.L.T. Mesens played an active role in the European art scene, becoming friends with Tristan Tzara, Theo van Doesburg, Erik Satie and other artists. He appointed himself one of the driving forces of the surrealist movement. It was Mesens to whom René Magritte owed his international reputation and it was Mesens who introduced surrealism to the U.K. He

surrounded himself with artists, including Roland Penrose, Lee Miller, Max Ernst, Kurt Schwitters, André Breton, Yves Tanguy and Man Ray. His life was entirely devoted to imagination and poetry. Levinas and Lacan Sarah Harasym.1998-01-01 Draws attention to the enigmatic missed encounter between Emmanuel Levinas and Jacques Lacan, and articulates the theoretical stakes and practical consequences of such a disjunctive encounter for ethics.

Joan of Arc and Germany Léon Bloy.2024-02-04 Joan of Arc and Germany (originally Jeanne d'Arc et l'Allemagne), by Léon Bloy, was published in 1915. It is an account of the marvelous and miraculous prodigy, her overnight transformation from simple country girl of Lorraine to master military tactician and strategist, from virgin to general, from nobody to savior of France, putting an abrupt end to the Hundred Years War with England. It is based on historical documents, trial documents, eye witness accounts, modern historical interpretations, as well as generously peppered with the author's own loving enthusiasm for, and unique vision of, the beatified and subsequently canonized Saint Joan of Arc. With ever an eye on historical symbolism, the author compares France's war with the Germans of World War I to its war with the English during the Hundred Years War. Léon Bloy says it best when he says: The world never stops, it always keeps going. Immemorial, secular progression of the strong and the oppressed, of the iniquitous and the innocent whom they crush down, towards the communal grave of Eternity. History is merely a cry of grief throughout the centuries. It is as if there had not been a Redemption. One would be tempted to believe it if, every now and then, marvelous creatures did not appear who seem to say that the All Powerful is captive for an indeterminate period of time,

that Supreme Justice is provisionally enchained, and that men of goodwill must trust in their God. Prefigurative creatures of consolation and hope, by their actions, of an unimaginable magnificence that the Scriptures announced.

The Samurai Julia Kristeva.1992 Passionate and promiscuous intellectual warriors - the samurai for whom writing is the only lasting act of pleasure and war combined. Readers will instantly recognize finely sketched and often searing portraits of some of this century's most influential minds: Lacan, Derrida, Barthes, Althusser, and many others. With an authorial voice that modulates between the erotic and the meditative, the ironic and the rancorous, The Samurai moves from Paris to Mao's China.

Project for a Revolution in New York Alain Robbe-Grillet.2012-09-04 Part prophecy and part erotic fantasy, this classic tale of otherworldly depravity features New York itself—or a foreigner's nightmare of New York—as its true protagonist. Set in the towers and tunnels of the quintessential American city,

Alain Robbe-Grillet's novel turns this urban space into a maze where politics bleeds into perversion, revolution into sadism, activist into criminal, vice into art—and back again. Following the logic of a movie half-glimpsed through a haze of drugs and alcohol, *Project for a Revolution in New York* is a Sadean reverie that bears an alarming resemblance to the New York, and the United States, that have actually come into being.

Collective Inventions Patricia Allmer,Hilde van Gelder.2007
Collective Inventions constitutes the first collection and book-length publication on Surrealism in Belgium on which Belgian and Anglo-American scholars have collaborated. Collective Inventions offers new writings by leading international scholars and experts on the movement's diverse manifestations in Belgium. The essays range from comparative analyses of Surrealism in Belgium with other versions of Surrealism, particularly French, to detailed critical engagements with individual oeuvres. The authors use contemporary theoretical and critical models to explore artistic production in a variety of media, including painting and photography, film and fashion, postcards and Perspex. Collective Inventions significantly alters and widens current understandings of Surrealism.

Carnac Eugène Guillevic.1999 Eugene Guillevic, who died in 1997, was one of France's most important contemporary poets. Dating from 1961, *Carnac* marks the beginning of Guillevic's mature life as a poet. A single poem divided into several parts, it evokes the rocky, sea-bound, unfinished landscape of Brittany with its sacred objects and its great silent sense of waiting. The texts are brief but have a grave, meditative serenity, as the poet seeks to effect balance and help us to make friends with nature, as well as to live in a universe which is chaotic and often frightening. In this poetry of description -- where entire landscapes are built up from short, intense texts -- language is reduced to its essentials, as words are placed on the page like a

dam against time, and aspire to what John Montague calls their mystic materialism.

The Automatic Message André Breton, Paul Éluard, Philippe

Soupault, Jon E. Graham. 1997 This book collects together the two

most vital automatic texts Surrealism. Breton's prefatory essay

The Automatic Message relates this technique to the underlying

concepts and aesthetic of the Surrealist movement. The Magnetic

Fields (1919) was the first work of literary Surrealism and is thus

one of the foundations of modern European thought and writing.

This authorised translation is by the poet David Gascoyne, himself a member of the group and a friend of both authors. The

Immaculate Conception (1930) traces the interior and exterior life

of man from Conception and Intra-Uterine Life to Death and The

Original Judgement. The central section is a celebrated series of

simulations of various types of mental instability.

Radium of the Word Craig Dworkin. 2020-11-18 With fresh

insight and contemporary relevance, Radium of the Word argues

that a study of the form of language yields meanings otherwise

inaccessible through ordinary reading strategies. Attending to the

forms of words rather than to their denotations, Craig Dworkin

traces hidden networks across the surface of texts, examining

how typography, and even individual letters and marks of

punctuation, can reveal patterns that are significant without

being symbolic—fully meaningful without communicating any

preordained message. Radium of the Word takes its title from

Mina Loy's poem for Gertrude Stein, which hails her as the

Madame "Curie / of the laboratory / of vocabulary." In this spirit,

Dworkin considers prose as a dynamic literary form,

characterized by experimentation. Dworkin draws on examples

from writers as diverse as Lyn Hejinian, William Faulkner, and

Joseph Roth. He takes up the status of the proper name in Modernism, with examples from Stein, Loy, and Guillaume Apollinaire, and he offers in-depth analyses of individual authors from the counter-canon of the avant-garde, including P. Inman, Russell Atkins, N. H. Pritchard, and Andy Warhol. The result is an inspiring intervention in contemporary poetics.

Neo-Avant-Garde .2016-08-01 The neo-avant-garde of the 1950s, 60s and 70s, is due for a thoroughgoing reassessment. This collection of essays represents the first full-scale attempt to deal with the concept from an interdisciplinary standpoint. A number of essays in this book concentrate on fine art, particularly painting and sculpture, thereby adding significantly to the growing art historical literature in the field, but a number of the contributions also focus on poetry, performance, theatre, film, architecture and music. Given that there are also major essays here dealing with geographical blindspots in current neo-avant-garde studies, with thematic issues such as art's entanglement with gender, mass culture and politics, with key neo-avant-garde publications, and with the purely theoretical problems attaching to the theorisation of the topic, this collection offers a multi-dimensional approach to the subject which is noticeably lacking elsewhere. Taken together these essays represent a consolidated attempt at re-thinking the 'cultural logic' of the immediate post-World War II period.

Unlike any other existing work, this

important work covers not only philosophy, but also all the other major disciplines, including literary theory, sociology, linguistics, political thought, theology, and more. Written in a clear and accessible language, the 240 analytical entries examine: individuals such as Bergson, Durkheim, Mauss, Sartre, Beauvoir, Foucault, Levi-Strauss, Lacan, Kristeva, and Derrida; specific disciplines such as the arts, anthropology, historiography, psychology, and sociology; key beliefs and methodologies such as Catholicism, deconstruction, feminism, Marxism, and phenomenology; themes and concepts such as freedom, language, media, and sexuality; and historical, political, social, and intellectual context.

Pierre Reverdy Pierre Reverdy.2014-02-05 The great Pierre Reverdy, comrade to Picasso and Braque, peer and contemporary of Wallace Stevens and William Carlos Williams, is among the most mysteriously satisfying of twentieth-century poets, his poems an uncanny mixture of the simple and the sublime. Reverdy's poetry has exerted a special attraction on American poets, from Kenneth Rexroth to John Ashbery, and this new selection, featuring the work of fourteen distinguished translators, most of it appearing here for the first time, documents that ongoing relationship while offering readers the essential work of an extraordinary writer. The Spectre Of Hegel Louis Althusser.2014-01-07 Louis Althusser
is remembered today as the scourge of humanist Marxism, but
that was his later incarnation, an identity formed by years
grappling with the intellectual inheritance of Hegel and
Catholicism. The Spectre of Hegel collects the writings of the
young Althusser, before his final epistemological break with the
philosopher's work in 1953. Including his famed essay 'Ideology
and Ideological State Apparatuses', The Spectre of Hegel gives a
unique insight into Althusser's engagement with a philosophy he
would later renounce.
