Reed Rapture Geoff Wills.2024-05-28 Movie soundtrack music is big business. In both film studios and at major record labels, entire divisions focus exclusively on marketing movie music. Film composers like John Williams have become internationally famous figures, and concerts of their music are regular occurrences. But while interest in movie music has greatly increased, both academically and among the public, focus on individual aspects of the music have been overlooked. Yet what movie-goer can forget the opening scene to Martin Scorsese's *Taxi Driver*? Behind the taxicab emerging from a cloud of vapour and the eyes of Robert De Niro, a haunting, yearning alto saxophone melody is heard, and it's just one example of the power of the saxophone, a presence throughout the history of movie music, from the 1930s to the present day, highlighting scenes of drama, romance, and comedy, and making a vital contribution to the music which can be urgent, immediate, sweet, seductive, intimate, and erotic. *Reed Rapture* is the first study to describe the background, the history, and the numerous important appearances of the saxophone on movie soundtracks, drawing on both jazz and classical influences, and, as such, makes a vital contribution to film music studies.

Huey "Piano" Smith and the Rocking Pneumonia Blues John Wirt.2014-03-24 Huey Piano Smith's musical legacy stands alongside that of fellow New Orleans legends Dr. John, Fats Domino, Ernie K-Doe, and Allen Toussaint. His 1957 classic, Rocking Pneumonia and the Boogie Woogie Flu, made Billboard's top R&B singles chart, and hundreds of artists including Aerosmith, the Grateful Dead, the Beach Boys, Johnny Rivers, and Chubby Checker have recorded his songs. The first biography of the artist responsible for hits Don't You Just Know It, High Blood Pressure, and Sea Cruise, Huey Piano Smith and the Rocking Pneumonia Blues follows the musician's extraordinary life from his Depression-era childhood to his teen years as a pianist for blues star Guitar Slim to his

mainstream success in the 1950s and '60s. Drawing from extensive interviews and court records, author and journalist John Wirt also provides new insights on Smith's professional disappointments and financial struggles in the 1980s and '90s as he battled over royalties from his most successful and profitable work. An enigmatic and guarded personality in a profession of extroverted performers, Smith made farreaching contributions to the New Orleans music scene as a songwriter, pianist, and producer. Wirt reveals that Smith's numerous collaborations with other artists -- including the Clowns, the Pitter Pats, the Hueys, and Shindig Smith and the Soul Shakers -- served as vehicles for his creative vision rather than simply as an anonymous backup for a leading front man. Throughout this intimate account, Wirt details Smith's significant impact on rock and roll history and underscores both the longevity of his music -- which has entertained and inspired for over five decades -- and the musician's personal endurance in the face of hardship and opposition.

Henry Mancini John Caps.2012-02-15 Henry Mancini, the first publicly successful and personally recognizable film composer in history, has practically become a Hollywood brand name. In his lifetime, he sold thirty million albums and won four Oscars and twenty Grammy awards. Through Mancini, mere background music in movies became part of pop culture--an expression of sophistication and wit with a modern sense of cool and a lasting lyricism that has not dated. The first comprehensive study of Mancini's music, *Henry Mancini: Reinventing Film Music* describes how the composer served as a bridge between the Big Band period of World War II and the impatient eclecticism of the Baby Boomer generation, between the grand formal orchestral film scores of the past and a modern American minimalist approach. Mancini's sound seemed to capture the bright, confident, welcoming voice of the middle class's new efficient life: interested in pop songs and jazz,

in movies and television, in outreach politics but also conventional stay-at-home comforts. As John Caps shows, Mancini easily combined it all in his music. Mancini wrote his first dramatic music for a radio series in 1950. By the mid-1960s, he wielded influence in Hollywood and around the world with his iconic scores: dynamic jazz for the noirish detective TV show Peter Gunn, the sly theme from The Pink Panther, and his wistful folk song Moon River from Breakfast at Tiffany's. Following the evolution of Mancini's style, Caps traces the history of movie scoring in general: from the jazz-pop of the 1960s to the edgier, electro-funk harmonies of the Watergate 1970s, from the revisionist 1980s marked by New Age trends and new jazz chords to the frustrating New Hollywood of the 1990s when films were made by committees of lawyers rather than by artisans. Through insightful close readings of key films, Caps traces Mancini's collaborations with important directors and shows how he homed in on specific dramatic or comic aspects of each film to create musical effects through clever instrumentation, eloquent melodies, and the strong narrative qualities of his scores. Accessible and engaging, this fresh view of Mancini's oeuvre and influence will delight and inform fans of film and popular music.
