Stormy Night Michèle Lemieux.1999 While she is sleeping, a girl has strange thoughts and dreams.

From Plans to Policies Danielle Gluns.2019-03-07 Danielle Gluns examines how urban housing governance reacts to the onset of urban growth in an internationally comparative perspective. The study is based on in-depth case studies of Washington, D.C., which is an example of primarily market-based interactions, and Vienna, which has traditionally pursued an

active steering role of the local state. The author assesses the goals of urban development formulated by local actors and analyzes their translation into housing policies within the respective governance structures. She demonstrates that path dependence is an important feature of urban housing governance, with relationships, ideologies, and physical urban structures leading to stability. Even so, change is possible, as both systems integrate new policy elements. At the same time, both structures perpetuate inequality in the urban housing system by excluding some of the most disadvantaged groups from decision-making.

Doing Things Together Judith Martens.2020-07-06 To understand many of our everyday joint actions we need a theory of skillful joint action. In everyday contexts we do numerous things together. Philosophers of collective intentionality have wondered how we can distinguish parallel cases from cases where we act together. Often their theories argue in favor of one characteristic, feature, or function, that differentiates the two. This feature then distinguishes parallel actions from joint action. The approach in this book is different. Three claims are developed: (1) There are several functions that help human agents coordinate and act together. (2) This entails that joint action should be understood through these different, interrelated, types of coordination. (3) A multidimensional conceptual space, with three levels of control and coordination, will allow us to connect these different forms of coordination and their interdependencies. This allows us to understand the jointness of an action in a more differentiated and encompassing way. This approach has ramifications for several distinctions that are typically understood to be binary, including those between action and mere bodily movement, joint action and parallel action, and action together and not together.

Knowledge Communities in Europe Bertold

Schweitzer,Thomas Sukopp.2018-01-10 The publication presents research results on a multitude of knowledge exchange processes in post-enlightenment Europe. These focus on the question in how

far deeply rooted processes of knowledge exchange by transnational intellectual discourses and international expert communities have contributed to a variety of networks of European intellectual identities and research practices. These practices again constitute a fertile framework for de-territorialised and de-nationalised exchange of knowledge that might contribute to contagious processes of emancipation, cooperation as well as problem solving.

The Akragas Dialogue Monica De Cesare, Elisa Chiara Portale, Natascha Sojc.2020-02-24 The papers of this volume focus on the sacred landscapes of ancient Sicily. Religious and cultural dimensions of Greek sanctuaries are assessed in light of the results of recent excavations and new readings of literary sources. The material dimension of cult practices in ancient sanctuaries is the central issue of all contributions, with a focus on the findings from ancient Akragas. Great attention is also paid to past ritual activities, which are framed in three complementary

areas of enquiry. Firstly, the architectural setting of sanctuaries is examined beyond temple buildings to assess the wider context of their structural and spatial complexity. Secondly, the material culture of votive deposition and religious feasting is analysed in terms of performative characteristics and through the lens of anthropological approaches. Thirdly, the significance of gender in cultic practice is investigated in light of the fresh data retrieved from the field. The new findings presented in this volume contribute to close the existing research gaps in the study of sanctuaries in Sicily, as well as the wider practice of Greek religion.

Apeirogon: A Novel Colum McCann.2020-02-25 NEW YORK TIMES BESTSELLER • “A quite extraordinary novel. Colum McCann has found the form and voice to tell the most complex of stories, with an unexpected friendship between two men at its powerfully beating heart.”—Kamila Shamsie, author of *Home Fire* FINALIST FOR THE DUBLIN LITERARY AWARD • LONGLISTED FOR THE BOOKER PRIZE • WINNER OF THE NATIONAL JEWISH BOOK AWARD • NAMED ONE OF THE BEST BOOKS OF THE YEAR BY *The Independent* • *The New York Public Library* • *Library Journal* From the National Book Award-winning and bestselling author of *Let the Great World Spin* comes an epic novel rooted in the unlikely real-life friendship between two fathers. Bassam Aramin is Palestinian. Rami Elhanan is Israeli. They inhabit a world of conflict that colors every aspect of their lives, from the roads they are allowed to drive on to the schools

their children attend to the checkpoints, both physical and emotional, they must negotiate. But their lives, however circumscribed, are upended one after the other: first, Rami's thirteen-year-old daughter, Smadar, becomes the victim of suicide bombers; a decade later, Bassam's ten-year-old daughter, Abir, is killed by a rubber bullet. Rami and Bassam had been raised to hate one another. And yet, when they learn of each other's stories, they recognize the loss that connects them. Together they attempt to use their grief as a weapon for peace—and with their one small act, start to permeate what has for generations seemed an impermeable conflict. This extraordinary novel is the fruit of a seed planted when the novelist Colum McCann met the real Bassam and Rami on a trip with the non-profit organization Narrative 4. McCann was moved by their willingness to share their stories with the world, by their hope that if they could see themselves in one another, perhaps others could too. With their blessing, and unprecedented access to their families, lives, and personal recollections, McCann began to craft *Apeirogon*, which uses their real-life stories to begin another—one that crosses centuries and continents, stitching together time, art, history, nature, and politics in a tale both heartbreaking and hopeful. The result is an ambitious novel, crafted out of a universe of fictional and nonfictional material, with these fathers' moving story at its heart.

The Great Big Book of Families Mary Hoffman.2015-03-05 What is a family? Once, it was said to be a father, mother, boy, girl, cat and dog living in a house with a garden. But as times have changed, families have changed too, and now there are almost as many kinds of families as colours of the rainbow - from a mum and dad or single parent to two mums or two dads, from a mixed-race family to children with different mums and dads, to families with a disabled member. Mary Hoffman takes a look through children's eyes at the wide varieties of family life: from homes, food, ways of celebrating, schools and holidays to getting around,

jobs and housework, from extended families, languages and hobbies to pets and family trees - and she concludes that, for most people, their own family is the best one of all! With Ros Asquith's delightful pictures, this book takes a fresh, optimistic look at families of today.

Light-Nutrition Aurélienne Dauguet.2020-03-18 Dear Reader, You have the report of my pranic process in your hands. Here I entrust you with the steps and transformations I have made to move from a normal diet to a photon food. So you accompany me in the first year of my new life with light-nutrition. This description is authentic, realistic, clear and simple. The purpose of my story is to provide a concrete and human understanding of

the spiritual approach to pranic food. I do not want to encourage anyone to do the same. In my opinion and from my experience, this is per se impossible because such a decision will arise only from inner processes as well as from the calling of the soul. In this area, there is nothing to prove and no one to convince. In addition, I deal with other topics, such as What is meant by Light, Transformation of a negative environment, Support and guidance, Therapeutic help, or My measures... The decision to become pranic is one of the most important decisions of my life. And at every moment, I enjoy the freedom to continue or end the pranic way of life.

Faith in Luther: Martin Luther and the Origin of

Anthropocentric Religion Paul Hacker.2017-06-01 To mark the 500th anniversary of the Protestant Reformation, Paul Hacker's landmark study Faith in Luther: Martin Luther and the Origin of Anthropocentric Religion appears now in a new English edition. Pope Emeritus Benedict XVI, in his final memoir in 2016, remembers Paul Hacker as "a great master, someone with an unbelievably broad education, someone who knew the Fathers, knew Luther, and had mastered the whole history of Indian religion from scratch. What he wrote always had something new about it, he always went right to the bottom of things." No doubt one of the "things" he was referring to was Martin Luther's view of faith, which Hacker explores in this text. A unique contribution to ecumenical studies, Faith in Luther engages the primary texts of Luther, assessing them for how they reveal Luther's novel conception of faith and how the development of "reflexive faith" impacted Luther's spirituality and theology—and the world.
