The book then takes the reader through women in policing in the Eastern and Western Hemispheres, featuring several countries within the major regions of the world. Major commonalities and differences are identified in the areas of recruitment, training, deployment, promotion, and violence against women. Global Status Report on Road Safety 2015 World Health Organization.2015-12-17 The Global status report on road safety 2015, reflecting information from 180 countries, indicates that worldwide the total number of road traffic deaths has plateaued at 1.25 million per year, with the highest road traffic fatality rates in low-income countries. In the last three years, 17 countries have aligned at least one of their laws with best practice on seat-belts, drink-driving, speed, motorcycle helmets or child restraints. While there has been progress towards improving road safety legislation and in making vehicles safer, the report shows that the pace of change is too slow. Urgent action is needed to achieve the ambitious target for road safety reflected in the newly adopted 2030 Agenda for Sustainable Development: halving the global number of deaths and injuries from road traffic crashes by 2020. Made possible through funding from Bloomberg Philanthropies, this report is the third in the series, and provides a snapshot of the road safety situation globally, highlighting the gaps and the measures needed to best drive progress.--Publisher's description.

The Handbook of Measurement Issues in Criminology and Criminal Justice Beth M. Huebner, Timothy S. Bynum.2016-04-28 This volume of the series was designed to provide a comprehensive primer on the existing best practices and emerging developments in the study and design research on crime and criminology. The work as a whole includes chapters on the measurement of criminal typologies, the offenders, offending and victimization, criminal justice organizations, and specialized measurement techniques. Each chapter is written by experts in the field and they provide an excellent survey of the literature in the relevant area. More importantly, each chapter provides a description of the various methodological and substantive challenges presented in conducting research on these issues and denotes possible solutions to these dilemmas. An emphasis was placed on research that has been conducted outside of the United States and was designed to give the reader a broader more global understanding of the social context of research. The goal of this volume is to provide a definitive reference for professionals in the field, researchers, and students. This volume in the *Handbooks in Criminology and Criminal Justice* series identifies the principal topical areas of research in this field and summarizes the various methodological and substantive challenges presented in conducting research on these issues. In each chapter, authors provide a summary of the prominent data collection efforts in the topical area, provide an overview of the current methodological work, discuss the challenges in the measurement of central concepts in the subject area, and identify new horizons emerging in data collection and measurement. We encouraged authors to discuss work conducted in an international context and to incorporate discussion of qualitative methodologies when appropriate.

Alcohol, Drugs, and Impaired Driving A. Wayne Jones, Jorg Gustav Morland, Ray H. Liu.2020-06-15 *Alcohol, Drugs, and Impaired Driving* addresses many theoretical and practical issues related to the role played by alcohol and other psychoactive drugs on driving performance, road-traffic safety, and public health. Several key forensic issues are involved in the enforcement of laws regulating driving under the influence of alcohol and/or other drugs, including analytical toxicology, pharmacology of drug action, as well as the relationships between dose taken, concentration levels in the body, and impairment of performance and behavior. Our knowledge of drunken driving is much more comprehensive than drugged driving, so a large part of this book is devoted to alcohol impairment, as well as impairment caused by use of drugs other than alcohol. For convenience, the book is divided into four main sections. The first section gives some historical background about measuring alcohol in blood and breath as evidence for the prosecution of traffic offenders. The important role of the Breathalyzer instrument in traffic-law enforcement, especially in Australia, Canada, and the USA is presented along with a biographical sketch of its inventor (Professor Robert F. Borkenstein of Indiana University) with focus on the man, his work and his impact. The second section discusses several issues related to forensic blood and breath-alcohol analysis as evidence for prosecution of traffic offenders. This includes how the results should be interpreted in relation to impairment and an evaluation of common defense challenges. Because most countries have adopted concentration per se laws, the main thrust of the prosecution case is the suspect's measured blood- or breath-alcohol concentration. This legal framework necessitates that the analytical methods used are fit for purpose and are subjected to rigorous quality assurance procedures. The third section gives a broad overview of the current state of knowledge about driving under the influence of non-alcohol drugs in various countries. This includes adoption of zero-tolerance laws, concentration per se statutes, and clinical evidence of driver impairment based on field sobriety tests and drug recognition expert evidence. The fourth section deals with epidemiology, enforcement, and countermeasures aimed at reducing the threat of drunken and drugged driving. All articles have appeared previously in the international journal *Forensic Science Review*, but all are completely updated with current data, references, and the latest research on developments since the articles were published. This book contains a convenient collection of the best articles covering recommendations for blood and breath testing methods, public policy relating to such methods, and forensic and legal implications of the enforcement of measures to counter driving under the influence.

Corruption, Sustainable Development and Security Challenges in Africa Kempe Ronald Hope, Sr..2023-09-07 This book sheds light on Africa's development performance and dynamics arising from the interface between corruption and sustainable development on the one hand and the challenges that poses for peace, security and stability. Corruption also contributes to the spread of terrorism and violent extremism. Pervasive corruption networks often include politicians, civil servants working at all levels of state institutions, representatives of the private sector and members of crime syndicates. The consequences of corruption are detrimental in many aspects, such as undermining governments' ability to serve public interests and eroding public trust in democratic processes. Presenting empirical evidence, the book explains why corruption and the looting of staggering amounts of national assets undermine the achievement of the Sustainable Development Goals (SDGs) and has a negative impact on peace, stability, security, the rule of law, gender equality, the environment and human rights. This makes the book a must-read for students, researchers and scholars of political science, international relations, and economics in general, as well as African studies, development studies, and security sector studies in particular, covering issues and themes on corruption, governance, socio-economic sustainable development, public administration and management, policing in an international context, police reform, and security sector reform. It will also serve as a helpful resource for policy-makers interested in a better understanding of the connection between corruption, sustainable development, and security challenges in Sub-Saharan Africa.

Police in America Steven G. Brandl.2017-01-25 *Police in America* provides students with a comprehensive and realistic introduction to modern policing in our society. Utilizing real-world examples grounded in evidence-based research, this easy-to-read, conversational text helps students think critically about the many misconceptions of police work and understand best practices in everyday policing. Brandl tackles important topics that center on one question: "What is good policing?" This includes discussions of discretion, police use of force, and tough ethical and moral dilemmas—giving students a deeper look into the complex issues of policing to help them think more broadly about its impact on society. Students will walk away from this text with a well-developed understanding of the complex role of police in our society, an appreciation of the challenges of policing, and an ability to differentiate fact from fiction relating to law enforcement.

I Can't Breathe David Horowitz.2021-10-05 THE TRUTH ABOUT THE BLACK LIVES MATTER MARTYRS "This book is essential. Don't miss it." —MARK LEVIN "A brilliant examination of the actual facts of the George Floyd case and the subsequent exploitation of his death by Black Lives Matter." —LEO TERRELL, civil rights attorney & commentator In his latest salvo in the battle for America's survival, David Horowitz exposes the racial hoax that is spawning riots and dividing the nation. Examining the twenty-six most notorious cases of police "racism"—from Trayvon Martin and Michael Brown to George Floyd and Breonna Taylor—Horowitz demonstrates that Black Lives Matter has lied about every one of them in its quest to undermine law and order, fuel race hatred, and destroy America. In case after case, the lies and mythmaking break down under

Horowitz's scrutiny. Even the chief prosecutor in the George Floyd case was forced to admit that he had no evidence of racial bias, while Breonna Taylor, the longtime accomplice of a major drug dealer, was killed when she and her boyfriend resisted arrest. The unchallenged myths about racist murders by the police have brought mayhem and crime to our cities, where the victims are predominantly black. They are also a slander against the United States, the least racist country in history, and against black Americans, the vast majority of whom are successful and law-abiding citizens. Now the Biden administration has embraced the false narrative of "systemic racism" and "white supremacy," which supposedly infect every aspect of American life, using it to justify a witch hunt for "domestic terrorists." Most Americans, black and white, know in their bones that this portrayal of their country is a lie. An unflinching and courageous accounting, *I Can't Breathe* is the urgently needed proof that they are right.

Myers.2022-01-01 Policing in the US and many western nations is in an era of crisis, facing extensive calls for reformation and change. This edited book outlines the major challenges and changes needed to achieve a more stable future for the policing profession and police organizations. The chapters come from innovative police leaders and officers as well as academics with subject matter expertise, to provide insight into how reform can be done with the police. It focusses on how leaders should understand and approach their role during times of instability and uncertainty. It starts with an examination of how policing reached this state of crisis and discusses some interviews conducted with police leaders, particularly chiefs as agents of change and reform. This is followed by chapters from several veteran police leaders and personnel describing some of the factors that brought policing to this critical time of change and reform, how has policing evolved in the late 20th and early 21st centuries, and how that impacts the current environment, and some potential strategies to create meaningful change while considering unintended consequences. The following chapters from academics seek to define paths that policing can take toward needed changes that will increase legitimacy, trust, and equality of policing services. It speaks to students, academics and professionals interested in police organization and administration, police leadership, and contemporary issues in policing and criminal justice.
