The Traveller Daniel Baylis.2013-11-24 As Daniel Baylis approached his 30th birthday, he asked himself a tough question: Who's at the steering wheel of my life? The verdict came back unclear, so he decided to take immediate action. He gave up his job and his rent-controlled apartment to tackle one of his biggest dreams—to travel the world. With an objective to not only see places but also to experience them, Baylis spent an entire year sampling a variety of volunteer positions. From an elementary schoolroom in Peru, to Edinburgh's Fringe Fest, to an organic goat farm hidden in the hills of Galilee (and many places and projects in between), he dove headfirst into immersive travel experiences. With a touch of introspection and a heap of humour, *The Traveller* presents literary snapshots of twelve very distinct global destinations. What emerges is a portrait of an individual trying to be helpful, along with all the people who helped him along the way. Lively and compelling, *The Traveller* is required reading for anyone who dreams of international adventures—or for anyone who simply dreams.

The Accidental Time Traveller Janis Mackay.2013-02-21 Winner of the Scottish Children's Book Award 2013 Younger Readers (8-11 years) category. I'm not mad, ok? I know this sounds off the wall, but I was just walking to the corner shop and this girl almost got hit by a car. She grabbed hold of me and told me her name's Agatha Black and she's here from the past. At first I thought she was nuts but maybe it's true. She doesn't get traffic, she's freaked out by photos and she's terrified of TV. And she knows about the past -- body snatchers, making fires, and pet monkeys. Her dad does a bit of time travel. But obviously, he's not very good at it. I mean, he got her lost. Now it's me that has to get her back ? to 1812!

Imaginary Cities Darran Anderson.2017-04-06 How can we understand the infinite variety of cities? Darran Anderson seems to exhaust all possibilities in this work of creative nonfiction. Drawing inspiration from Marco Polo and Italo Calvino, Anderson shows that we have much to learn about ourselves by looking not only at the cities we have built, but also at the cities we have imagined. Anderson draws on literature (Gustav Meyrink, Franz Kafka, Jaroslav Hasek, and James Joyce), but he also looks at architectural writings and works by the likes of Bruno Taut and Walter Gropius, Medieval travel memoirs from the Middle East, mid-twentieth-century comic books, Star Trek, mythical lands such as Cockaigne, and the works of Claude Debussy. Anderson sees the visionary architecture dreamed up by architects, artists, philosophers, writers, and citizens as wedded to the egalitarian sense that cities are for everyone. He proves that we must not be locked into the structures that exclude ordinary citizens—that cities evolve and that we can have input. As he says: If a city can be imagined into being, it can be re-imagined as well.”

Biografi Lloyd Jones.2008 Under the dictatorship of Enver Hoxha, all Albanian citizens had their own biografi, a file that was maintained (and often falsified) by the secret police. The information contained in a person's biografi could have devastating effects. When Lloyd Jones visited Albania in 1991, six years after the dictator's death, he heard rumours of a village dentist who, resembling Hoxha in looks and build, had been forced to give up his identity and become the dictator's double. Jones' quest to find Petar Schapallo gives shape not only to an intriguing traveller's tale, but a story about identity-changed, lost or falsified-in a country where identity was strictly controlled.

Elementary James M. Russell.2019-06-13 The periodic table, created in the early 1860s by Russian chemist Dmitri Mendeleev, marked one of the most extraordinary advances in modern chemistry. This basic visual aid helped scientists to gain a deeper understanding of what chemical elements really were: and, astonishingly, it also correctly predicted the properties of elements that hadn't been discovered at the time. Here, in the authoritative *Elementary*, James Russell uses his lively, accessible and engaging narrative to tell the story behind all the elements we now know about. From learning about the creation of the first three elements, hydrogen, lithium and helium, in the big bang, through to oxygen and carbon, which sustain life on earth - along with the many weird and wonderful uses of elements as varied as fluorine, arsenic, krypton and einsteinium - even the most unscientifically minded will be enthralled by this fascinating subject. Russell compellingly details these most basic building blocks of the universe, and the people who identified, isolated and even created them.

The Time Machine illustrated H. G. Wells.2022-06-22 *The Time Machine* by H. G. Wells is a science fiction classic, which lends itself well to visualization. This version, illustrated by Yoann Laurent-Rouault, an illustrator master who graduated from the Beaux-Arts, and published in the international literary collection Memoria Books, is a reference on the time travel theme. Wells transports us in the year 802 701, in a society made up of the "Elois", who live peacefully in a kind of big Garden of Eden, eating fruits and sleeping high up, while underground lives another species, also descending from men, the "Morlocks", who do not stand the light anymore, living in the dark for too long now. At night, they return to the surface, going back up by the wells, in order to kidnap some Elois that they eat ; these last became livestock unknowingly. In *The Time Machine*, made into a movie several times, the last of them in 2002 by Simon Wells, the great-grandson of H. G. Wells, time is both a pretext to move the class struggle and warn... and also, in a way, a full character, who fascinates, arbitrates, transcends... The illustrations come to reinforce the time travel and provide a new experience to the reader.

Her teachers think she's slow, the other girls find her odd, and, as she spends more and more time in 1918, Charlotte starts to wonder if she remembers how to be Charlotte at all. A Ride to Remember Sharon Langley,Amy Nathan.2020-01-07 The true story of how a 1963 ride on a carousel in Maryland made a powerful Civil Rights statement. A Ride to Remember tells how a community came together—both black and white—to make a change. When Sharon Langley was born in the early 1960s, many amusement parks were segregated, and African-American families were not allowed entry. This book reveals how in the summer of 1963, due to demonstrations and public protests, the Gwynn Oak Amusement Park in Maryland became desegregated and opened to all for the first time. Co-author Sharon Langley was the first African-American child to ride the carousel. This was on the same day of Martin Luther King Jr.'s March on Washington for Jobs and Freedom. Langley's ride to remember demonstrated the possibilities of King's dream. This book includes photos of Sharon on the carousel, authors' notes, a timeline, and a bibliography. "Delivers a beautiful and tender message about equality from the very first page." —Kirkus Reviews, Starred Review "Cooper's richly textured illustrations evoke sepia photographs' dreamlike combination of distance and immediacy, complementing the aura of reminiscence that permeates Langley and Nathan's narrative." —Publishers Weekly, Starred Review "A solid addition to U.S. history collections for its subject matter and its first-person historical narrative." —School Library Journal
