Persian Letters Charles Louis de Secondat Baron de Montesquieu.2015-06-12 Charles-Louis de Secondat, Baron de La Brede et de Montesquieu generally referred to as simply Montesquieu, was a French lawyer, man of letters, and political philosopher who lived during the Age of Enlightenment. He is famous for his articulation of the theory of separation of powers, which is implemented in many constitutions throughout the world. He did more than any other author to secure the place of the word despotism in the political lexicon. Montesquieu is credited as being among the progenitors, which include Herodotus and Tacitus, of anthropology, as being among the first to extend comparative methods of classification to the political forms in human societies. Indeed, the French political anthropologist Georges Balandier considered Montesquieu to be the initiator of a scientific enterprise that for a time performed the role of cultural and social anthropology. According to social anthropologist D. F. Pocock, Montesquieu's *The Spirit of the Laws* was the first consistent attempt to survey the varieties of human society, to classify and compare them and, within society, to study the inter-functioning of institutions. Montesquieu's political anthropology gave rise to his theories on government. When Catherine the Great wrote her Nakaz (Instruction) for the Legislative Assembly she had created to clarify the existing Russian law code, she avowed borrowing heavily from Montesquieu's *Spirit of the Laws*, although she discarded or altered portions that did not support Russia's absolutist bureaucratic monarchy.

for the first time. It should find a new appreciation as a work of art, and not merely as a precursor to the author's *Of the Spirit of the Laws*. The Letters will henceforth be read in the light of similarly composite texts, from Montaigne's *Essays* to Baudelaire's *Fleurs du mal*.--Jacket.

Persian Letters Montesquieu.2022-08-10 'Persian Letters' is a literary work, published in 1721, by Montesquieu, who is best-remembered for his theory of separation of powers, which is implemented in many constitutions throughout the world. This novel centers on the experiences of two fictional Persian noblemen, Usbek and Rica, who spend several years in France under Louis XIV and the Regency.

Persian Letters Charles de Secondat baron de

Montesquieu.2008-10-15 *Persian Letters* is a satirical novel in an epistolary form. Montesquieu narrates the experiences of two fictional Persians travelling through France. Through the characters, the barbarism of contemporary French life is analyzed from an outsider's perspective. He compares European and non-European societies, role of religion, systems of government, political authority, and the role of law.

Persian Letters Charles Louis Baron de Montesquieu.2002-12 To Montesquieu belongs the honor of pioneering the movement out of which grew the philosophical dictionaries, encyclopedias, and the literary crusade against mental subjection. If ever satire had a distinct call to duty it was during the Regency in France.

Montesquieu adopted the device of a series of familiar letters exchanged by two Persian travelers in France. They were completed in 1721. Popular taste was captivated by the wit and pleasantry of the Letters. They gently satirized the abuses rife in church and state; society was held up to ridicule for its pet sins.

Persian Letters Montesquieu.2014-09-03 A classic work of the European Enlightenment--and one of the most popular, if scandalous, in its day--the *Persian Letters* captures, in an engaging epistolary format, the transformational spirit of the era.

Amid an ongoing tale rife with sex, violence, and wit, the work addresses a diverse range of topics from human nature and the origins of society, to the nature and role of religious belief, the role of women, statecraft, justice, morality, and human identity. With skill and artistry, Raymond MacKenzie's stunning new translation accurately reflects the mood and character of the work. In his richly conceived Introduction, MacKenzie seamlessly weaves together an overview of the period with details of Montesquieu's life, including the influences that inspired the *Persian Letters*, the character and power of the book, and its reception. This edition also includes a Calendar of the *Persian Letters*, a Bibliography of Works in English, and a Bibliography of Works in French. Related texts provide insight into the legacy of the *Persian Letters*. They include selections from works by George Lyttelton, Voltaire, Oliver Goldsmith, and Maria Edgeworth.

Secondat, baron de Montesquieu, recounting the experiences of two Persian noblemen, Usbek and Rica, who are traveling through France. In 1711 Usbek leaves his seraglio in Isfahan to take the long journey to France, accompanied by his young friend Rica. He leaves behind five wives in the care of a number of black eunuchs, one of whom is the head or first eunuch. During the trip and their long stay in Paris (1712-1720), they comment, in letters exchanged with friends and mullahs, on numerous aspects of Western, Christian society, particularly French politics and Moors, ending with a biting satire of the System of John Law. Over time, various disorders surface back in the seraglio, and, beginning with Letter 139, the situation there rapidly unravels.
