PixelScroll also lists all kinds of other free goodies like free music, videos, and apps. The legality of Library Genesis has been in question since 2015 because it allegedly grants access to pirated copies of books and paywalled articles, but the site remains standing and open to the public. In addition to these basic search options, you can also use ManyBooks Advanced Search to pinpoint exactly what you're looking for. There's also the ManyBooks RSS feeds that can keep you up to date on a variety of new content, including: All New Titles By Language. Because this site is dedicated to free books, there's none of the hassle you get with filtering out paid-for content on Amazon or Google Play Books. We also love the fact that all the site's genres are presented on the homepage, so you don't have to waste time trawling through menus. Unlike the bigger stores, Free-Ebooks.net also lets you sort results by publication date, popularity, or rating, helping you avoid the weaker titles that will inevitably find their way onto open publishing platforms (though a book has to be really quite poor to receive less than four stars). As of this writing, Gutenberg has over 57,000 free ebooks on offer. You can search through the titles, browse through the list of recently loaned books, and find eBook by genre.
