Yakuza Moon Shoko Tendo.2010-07-15 Yakuza Moon is the shocking, yet intensely moving memoir of 37-yearold Shoko Tendo, who grew up the daughter of a yakuza boss. Tendo lived her life in luxury until the age of six, when her father was sent to prison, and her family fell into terrible debt. Bullied by classmates who called her the yakuza girl, and terrorized at home by a father who became a drunken, violent monster after his release from prison, Tendo rebelled. A regular visitor to nightclubs at the age of 12, she soon became a drug addict and a member of a girl gang. By the age of 15 she found herself sentenced to eight months in a juvenile detention center. Adulthood brought big bucks and glamour when Tendo started working as a bar hostess during Japan's booming bubble economy of the nineteen- eighties. But among her many rich and loyal patrons there were also abusive clients, one of whom beat her so badly that her face was left permanently scarred. When her mother died, Tendo plunged into such a deep depression that she tried to commit suicide twice. Tendo takes us through the bad times with warmth and candor, and gives a moving and inspiring account of how she overcame a lifetime of discrimination and hardship. Getting tattooed, from the base of her neck to the tips of her toes, with a design centered on a geisha with a dagger in her mouth, was an act that empowered her to start making changes in her life. She quit her job as a hostess. On her last day at the bar she looked up at the full moon, a sight she never forgot. The moon became a symbol of her struggle to become whole, and the title of the book she wrote as an epitaph for herself and her family.

Global Status Report on Road Safety 2015 World Health Organization.2015-12-17 The Global status report on road safety 2015, reflecting information from 180 countries, indicates that worldwide the total number of road traffic deaths has plateaued at 1.25 million per year, with the highest road traffic fatality rates in low-income countries. In the last three years, 17 countries have aligned at least one of their laws with best practice on seat-belts, drink-driving, speed, motorcycle helmets or child restraints. While there has been progress towards improving road safety legislation and in making vehicles safer, the report shows that the pace of change is too slow. Urgent action is needed to achieve the ambitious target for road safety reflected in the newly adopted 2030 Agenda for Sustainable Development: halving the global number of deaths and injuries from road traffic crashes by 2020. Made possible through funding from Bloomberg Philanthropies, this report is the third in the series, and provides a snapshot of the road safety situation globally, highlighting the gaps and the measures needed to best drive progress.--Publisher's description.

Hana's Suitcase Karen Levine.2002-08-07 New edition with foreword by Nobel Peace Prize winner Desmond Tutu: "How extraordinary that this humble suitcase has enabled children all over the world to learn through Hana's story the terrible history of what happened and that it continues to urge them to heed the warnings of history." In the spring of 2000, Fumiko Ishioka, the curator of a small Holocaust education centre for children in Tokyo, received a very special shipment for an exhibit she was planning. She had asked the curators at the Auschwitz museum if she could borrow some artifacts connected to the experience of children at the camp. Among the items she received was an empty suitcase. From the moment she saw it, Fumiko was captivated by the writing on the outside that identified its owner - Hana Brady, May 16, 1931, Waisenkind (the German word for orphan). Children visiting the centre were full of questions. Who was Hana Brady? Where did she come from? What was she like? How did Hana become an orphan? What happened to her? Fueled by the children's curiosity and her own need to know, Fumiko began a year of detective work, scouring the world for clues to the story of Hana Brady. Writer Karen Levine follows Fumiko in her search through history, from present-day Japan, Europe and North America back to 1938 Czechoslovakia and the young Hana Brady, a fun-loving child with a passion for ice skating. Together with Fumiko, we learn of Hana's loving parents and older brother, George, and discover how the family's happy life in a small town was turned upside down by the invasion of the Nazis. Based on an award-winning CBC documentary, *Hana's Suitcase* takes the reader on an incredible journey full of mystery and memories, which come to life through the perspectives of Fumiko, Hana and later Hana's brother, who now lives in Canada. Photographs and original wartime documents enhance this extraordinary story that bridges cultures, generations and time. Ideal for young readers aged 9 and up. *Hana's Suitcase* is part of the award-winning Holocaust Remembrance Series for Young Readers.

Marx and Education in Russia and China (RLE Edu L) R F Price.2012-05-04 To many education students, Russian and/or Chinese education is at the same time their introduction to Marxism, and many students go no further. This book sets the record straight by giving a thorough introduction to the writings of Marx himself as they relate to education. It shows what Marxism implies for education, as aim, method and content. It then proceeds to compare educational developments in the former USSR and China in the light of this analysis, attempting to answer the question as to how Marxist this has been, in the schools and outside them.

Law, Informal Rules and Economic Performance Svetozar Pejovich, Enrico Colombatto.2010-01-01 Almost everyone will gain something of value from reading this book. For those who work in the new institutional economics, Pejovich provides a thoughtful treatment of how common-law and

civil-law systems affect personal freedoms and rule of law. The book's larger market, however, will comprise educated lay readers, who will gain a deeper appreciation of the foundations of capitalism in the developed world and of the dynamics of interrelated institutional and economic change. Lee J. Alston, *The Independent Review* . . . a well written, easily read book which casts light on many aspects of law and on questions which are or should be debated in our law schools. . . well laid out and presented. . . Its subject matter makes it essential reading for all those studying comparative law and of course law and economics and even for those studying legislation. It would be more than useful for those engaged in property law, the law of contract and administrative and public law. In other words it would be useful and challenging reading for just about all law teachers and students as well as practitioners who wish to think about the basics of what they are doing. Its easy combination of history, comparative technique, legal fundamentals and economics with no maths would even make it an excellent reader for LAWS 101. Bernard Robertson, *New Zealand Law Journal* Professor Pejovich has written an impressive lot on comparative economic systems, institutions, policies and broader social aspects of economic development. . . His long work in the field quite predictably made him able to present his views and findings in an ever clearer, more orderly and more profoundly argued way. . . This is one of the rare books in which the author is well aware of what he is talking about and makes sure that the same goes for his readers. Ljubomir Madzar Professor Pejovich has ranged expertly across such seemingly disparate areas as legal systems, culture, economics and public choice theory to give us a thoroughly convincing roadmap for a nation's economic success. The rule of law, enforcement of private contracts, private property rights and an independent judiciary are the basic building blocks. But the common law system, as compared to the civil law system emanating from the European continent, also gets a lot of the credit. This is an erudite, yet happily readable work that takes a lot of the mystery out of differential economic performance among nations. Henry G. Manne, *George Mason University School of Law, US* Written by one of the pioneers of modern property rights economics this book provides a most insightful, well readable and engaged discussion of the institutional foundations of the Western free enterprise system and the reason for its success, with a special emphasis on the differences between common law and civil law institutions. Readers will especially appreciate the many instructive examples and court cases that serve to illustrate the general argument. Viktor J. Vanberg, *Universitaet Freiburg, Germany* This is a must-read for anyone who wants to understand why Western capitalism has outperformed all other economic systems. Professor Pejovich explains how the institutions of capitalism, especially those based on common law, make for excellence, even in comparison with Western civil law countries. He presents a compelling theory of how systems evolve through the interactions of formal and informal institutions, an analysis that has deep significance for economic reform proposals throughout the world. John H. Moore, *Grove City College, US* There are many books on the virtues of capitalism and capitalism as a moral system. Steve Pejovich avoids that mistake. Capitalism, for him, is a system based on human behavior. It survives because it meets the needs that individuals face and provides opportunities that individuals are able to accept. Unlike the utopian visions that have competed against capitalism, it does not impose the vision of a

Hewett Cottrell Watson Frank N. Egerton.2016-07-01 First published in 2003. Hewett Cottrell Watson was a pioneer in a new science not yet defined in Victorian times - ecology - and was practically the first naturalist to conduct research on plant evolution, beginning in 1834. The correspondence between Watson and Darwin, analysed for the first time in this book, reveals the extent to which Darwin profited from Watson's data. Darwin's subsequent fame, however, is one of the reasons why Watson became almost forgotten. This biography traces both the influences and characteristics that shaped Watson's outlook and personality, and indeed his science, and the institutional contexts within which he worked. At the same time, it makes evident the extent of his real contributions to the science of the plant ecology and evolution.

World Development Report 2020 World Bank.2019-11-19 Global value chains (GVCs) powered the surge of international trade after 1990 and now account for almost half of all trade. This shift enabled an unprecedented economic convergence: poor countries grew rapidly and began to catch up with richer countries. Since the 2008 global financial crisis, however, the growth of trade has been sluggish and the expansion of GVCs has stalled. Meanwhile, serious threats have emerged to the model of trade-led growth. New technologies could draw production closer to the consumer and reduce the demand for labor. And trade conflicts among large countries could lead to a retrenchment or a segmentation of GVCs. *World Development Report 2020: Trading for Development in the Age of Global Value Chains* examines whether there is still a path to development through GVCs and trade. It concludes that technological change is, at this stage, more a boon than a curse. GVCs can continue to boost growth, create better jobs, and reduce poverty provided that developing countries implement deeper reforms to promote GVC participation; industrial countries pursue open, predictable policies; and all countries revive multilateral cooperation.
