"Eventually I found several hundred people who knew Robert Mapplethorpe in all his various incarnations—Catholic schoolboy; ROTC cadet; hippie; sexual explorer; celebrated artist; and famous AIDS victim. Their stories helped animate his pictures and bring his visual diary to life. What I discovered wasn't one "Perfect Moment" but a series of moments—some pure, some blemished, but all emblematic of the paradoxical times in which he lived."—Patricia Morrisroe, from the Introduction NOTE: This edition does not include photographs.

In Search of Greatness Yousef Karsh.1962-12-15 In this book Yousuf Karsh, whose great photographic portraits have revealed so vividly the outstanding personalities of our time, writes about his own life and work. It is the story of an Armenian immigrant boy who rose to be the world's finest portrait photographer, whose pictures, reproduced in newspapers, magazines, and books, and shown in museums, art galleries and exhibitions, have been admired by hundreds of thousands of people all over the world. Of his early years in Armenia, Karsh gives a brief but compelling account, writing without bitterness but not sparing the reader the impact on his youthful mind of the brutalities, massacres, and atrocities of that time. The dramatic impression made on him by his first experiences as a young citizen of Sherbrooke, Quebec. His several years of study in Boston with the famous photographer, Garo, show the gradual development of his ideas and skills in portraiture. In 1932, Karsh opened his own studio in Ottawa, capital city of Canada, and there he met Solange Gauthier, the volatile, charming, and practical Frenchwoman whom he married. Together they established his world-wide reputation. Karsh takes the reader with him to his sittings, and shows how he seeks to bring out the essence of the personalities he is portraying. The reader accompanies Karsh and Madam Karsh as they travel to Washington, New York, Hollywood, across Canada and to the Arctic, and on their European tours, photographing and interviewing statesmen, tycoons, artists, actors, musicians, popes, presidents, and kings. At Karsh's side, the reader hears Churchill's lion roar, the wit of Bernard Shaw, the bark of John L. Lewis, the profound accents of Einstein. He observes the grave serenity of Sibelius, and hears the noble 'cello of Casals. He shares in the problems and disappointments of securing adequate reproduction of the portraits in book form, and in the artist's gratification when *Portraits of Greatness*, printed by the finest gravure for the University of Toronto Press, appeared in 1959 and the magnificent volume became an immediate best-seller. Yousuf's profession has led him into the high places of the world, and this book is enriched by his twenty years of observation of the celebrities he has encountered. These are the experiences of a distinguished artist, a gifted raconteur, and a delightful human being.

Migration from the Middle East and North Africa to Europe Michael Bommers,Heinz Fassmann,Wiebke Sievers.2014-08-05 One of the most important challenges concerning the future of the European Union is the demographic reproduction of the European population. Decreasing birth-rates and the retirement of the baby boomers will dramatically reduce the labour force in the EU, which will entail not only a lack of manpower but also lower contributions to European social systems. It seems clear that the EU will have to counterbalance this population decrease by immigration in the coming years. Migration Between the Middle East, North Africa and Europe takes this challenge as a point of departure for analysing the MENA region, in particular Morocco, Egypt and Turkey, as a possible source of future migration to the European Union. At the same time, it illustrates the uncertainties implied in such calculations, especially at a time of radical political changes, such as those brought about by the Arab Uprising.

A First-Rate Madness Nassir Ghaemi.2012-06-26 The New York Times bestseller “A glistening psychological history, faceted largely by the biographies of eight famous leaders . . .” —The Boston Globe “A provocative thesis . . . Ghaemi’s book deserves high marks for original thinking.” —The Washington Post “Provocative, fascinating.” —Salon.com Historians have long puzzled over the apparent mental instability of great and terrible leaders alike: Napoleon, Lincoln, Churchill, Hitler, and others. In *A First-Rate Madness*, Nassir Ghaemi, director of the Mood Disorders Program at Tufts Medical Center, offers a myth-shattering exploration of the powerful connections between mental illness and leadership and sets forth a controversial, compelling thesis: The very qualities that mark those with mood disorders also make for the best leaders in times of crisis. From the importance of Lincoln's depressive realism to the lackluster leadership of exceedingly sane men as Neville Chamberlain, *A First-Rate Madness* overturns many of our most cherished perceptions about greatness and the mind.

Terrorism, Crime, and Public Policy Brian Forst.2008-10-20 *Terrorism, Crime, and Public Policy* describes the problem of terrorism; compares it to other forms of aggression, particularly crime and war; and discusses policy options for dealing with the terrorism. It focuses on the causes of terrorism with the aim of understanding its roots and providing insights toward policies that will serve to prevent it. The book serves as a single-source reference on terrorism and as a platform for more in-depth study, with a set of discussion questions at the end of each chapter. Individual chapters focus on the nature of terrorism, theories of aggression and terrorism, the history of terrorism, the role of religion, non-religious extremism and terrorism, the role of technology, terrorism throughout the modern world, responses to terrorism, fear of terrorism, short-term approaches and long-term strategies for preventing terrorism, balancing security and rights to liberty and privacy, and pathways to a safer and saner 21st century.

Orhan Pamuk Orhan Pamuk.2020-01-21 The streetscapes of Istanbul as photographed by Nobel prize-winning novelist Orhan Pamuk in an exquisitely printed clothbound edition The dominant color in Orhan Pamuk's new book of photographs is orange. When the Nobel-Prize-winning novelist is finished with the day's writing, he takes his camera and wanders through Istanbul's various neighborhoods, visiting the backstreets of his town, areas without tourists, spaces that seem neglected and forgotten, spaces with a particular light. This is the orange light of Istanbul's windows and streetlamps that Pamuk knows so well from his childhood—from the Istanbul of 50 years ago, as he mentions in his introduction. But Pamuk also observes that the homely, cosy orange light is slowly being replaced by a new, bright and icy white light from new lightbulbs. His photographs from the backstreets of Istanbul record and preserve the cosy effect of this old, disappearing orange light, as well as the recognition of this new white vision. Whether reflected in well-trodden snow, concentrated as a glaring ball atop a lamppost or subtly present as a diffuse haze, orange literally and aesthetically gives shape to Pamuk's pictures, which reveal to us the unseen corners of his home city.

Mapping Israel, Mapping Palestine Jess Bier.2017-06-30 Digital practices in social and political landscapes: Why two researchers can look at the same feature and see different things. Maps are widely believed to be objective, and data-rich computer-made maps are iconic examples of digital knowledge. It is often claimed that digital maps, and rational boundaries, can solve political conflict. But in *Mapping Israel, Mapping Palestine*, Jess Bier challenges the view that digital maps are universal and value-free. She examines the ways that maps are made in Palestine and Israel to show how social and political landscapes shape the practice of science and technology. How can two scientific cartographers look at the same geographic feature and see fundamentally different things? In part, Bier argues, because knowledge about the Israeli military occupation is shaped by the occupation itself. Ongoing injustices—including checkpoints, roadblocks, and summary arrests—mean that Palestinian and Israeli cartographers have different experiences of the landscape. Palestinian forms of empirical knowledge, including maps, continue to be discounted. Bier examines three representative cases of population, governance, and urban maps. She analyzes Israeli population maps from 1967 to 1995, when Palestinian areas were left blank; Palestinian state maps of the late 1990s and early 2000s, which were influenced by Israeli raids on Palestinian offices and the legacy of British colonial maps; and urban maps after the Second Intifada, which show how segregated observers produce dramatically different maps of the same area. The geographic production of knowledge, including what and who are considered scientifically legitimate, can change across space and time. Bier argues that greater attention to these changes, and to related issues of power, will open up more heterogeneous ways of engaging with the world.

Karsh Yousuf Karsh.1996 In this revised, updated edition of his 1983 retrospective, Yousuf Karsh, the most renowned portrait photographer of our time, presents over sixty years of his work. This classic portrait artist of the camera has repeatedly - and unforgettably - photographed the statesmen, artists, and literary and scientific figures who have shaped our lives and the private world of the mind with such perception and illumination that his image has often become the definitive portrait. Karsh is the record of a major artist whose portraits have made being Karshed (as Field Marshal Montgomery described it) a singular accomplishment. It is the first book on Karsh to include a large group of photographs of arresting people not in the public eye, of workers in their environments, and of his early works and experiments. It is the first book to represent his work in color, with surprising masterworks. One of the most striking features of this book is the first-time presentation of multiple portraits: a number of subjects are shown in several prints from the same or other sittings, the collective portrait revealing the consistency and depth of the photographer's vision.

Observing the Observer Zahid Bukhari, Sulayman Nyang.2012-01-01 THE collection of papers in this volume documents the study of Islam in American Universities. Over the last few decades the United States has seen significant growth in the study of Islam and Islamic societies in institutions of higher learning fueled primarily by events including economic relations of the U.S. with Muslim countries, migration of Muslims into the country, conversion of Americans to Islam, U.S. interests in Arab oil resources, involvement of Muslims in the American public square, and the tragic events of 9/11. Although there is increasing recognition that the study of Islam and the role of Muslims is strategically essential in a climate of global integration, multiculturalism, and political turmoil, nevertheless, the state of Islamic Studies in America is far from satisfactory. The issue needs to be addressed, particularly as the need for intelligent debate and understanding is continuously stifled by what some have termed an “Islam industry” run primarily by fly-by journalists, think tank pundits, and cut-and-paste “experts.”

Reforging a Forgotten History Sargon Donabed.2015-02-27 Who are the Assyrians and what role did they play in shaping modern Iraq? Were they simply bystanders, victims of collateral damage who played a passive role in the history of Iraq? And how have they negotiated their position throughout various periods of Iraq's state-building processes?This book details the narrative and history of Iraq in the 20th century and reinserts the Assyrian experience as an integral part of Iraq's broader contemporary historiography. It is the first comprehensive account to contextualize this native people's experience alongside the developmental processes of the modern Iraqi state. Using primary and secondary data, this book offers a nuanced exploration of the dynamics that have affected and determined the trajectory of the Assyrians' experience in 20th century Iraq.

Mandated Landscape Roza El-Eini.2004-11-23 In this ground-breaking authoritative study, a highly documented and incisive analysis is made of the galvanising changes wrought to the people and landscape of British Mandated Palestine (1929-1948). Using a comprehensive and interdisciplinary approach, the book's award-winning author examines how the British imposed their rule, dominated by the clashing dualities of their Mandate obligations towards the Arabs and the Jews, and their own interests. The rulers' Empire-wide conceptions of the 'White man's burden' and preconceptions of the Holy Land were potent forces of change, influencing their policies. Lucidly written, Mandated Landscape is also a rich source of information supported by numerous maps, tables and illustrations, and has 66 appendices, a considerable bibliography and extensive index. With a theoretical and historical backdrop, the ramifications of British rule are highlighted in their impact on town planning, agriculture, forestry, land, the partition plans and a case study, presenting discussions on such issues as development, ecological shock, law and the controversial division of village lands, as the British operated in a politically turbulent climate, often within their own administration. This book is a major contribution to research on British Palestine and will interest those in Middle East, history, geography, development and colonial/postcolonial studies.

Essays in Science Albert Einstein.2011-09-27 The Authorized Albert Einstein Archives Edition: An homage to the men and women of science, and an exposition of Einstein's place in scientific history. In this fascinating collection of articles and speeches, Albert Einstein reflects not only on the scientific method at work in his own theoretical discoveries, but also eloquently expresses a great appreciation for his scientific contemporaries and forefathers, including Johannes Kepler, Isaac Newton, James Clerk Maxwell, Max Planck, and Niels Bohr. While Einstein is renowned as one of the foremost innovators of modern science, his discoveries uniquely his own, through his own words it becomes clear that he viewed himself as only the most recent in a long line of scientists driven to create new ways of understanding the world and to prove their scientific theories. Einstein's thoughtful examinations explain the "how" of scientific innovations both in his own theoretical work and in the scientific method established by those who came before him. This authorized ebook features a new introduction by Neil Berger, PhD, and an illustrated biography of Albert Einstein, which includes rare photos and never-before-seen documents from the Albert Einstein Archives at the Hebrew University of Jerusalem.

Helmut Newton Helmut Newton.2003 Through their inimitable mixture of eroticism, subdued elegance and decadent luxury, Newton's pictures reflect in the highest aesthetic quality an obsession with human vanity - from female exhibitionism to male voyeurism. With technical perfection, an extremely detailed style and a relentless directness, Newton staged the neverending psychodrama that contrasts glamour with the need for admiration, self-confidence with the desire for self-presentation, and Eros with Thanatos. Private Property was originally a three-part portfolio containing 45 b&w photographs. It includes Newton's best work from the period 1972-1983 - an exquisite assortment of fashion shots, portraits and erotic motifs which are all based on real location and luxurious lifestyles. The entire sequence of pictures from the Private Property portfolio is included in our book which first appeared in 1989.

Striving in the Path of God Asma Afsaruddin.2013-05-07 In popular and academic literature, jihad is predominantly assumed to refer exclusively to armed combat, and martyrdom in the Islamic context is understood to be invariably of the military kind. This perspective, derived mainly from legal texts, has led to discussions of jihad and martyrdom as concepts with fixed, universal meanings divorced from the socio-political circumstances in which they have been deployed through the centuries. Asma Afsaruddin studies in a more holistic manner the range of significations that can be ascribed to the term jihad from the earliest period to the present and historically contextualizes the competing discourses that developed over time. Many assumptions about the military jihad and martyrdom in Islam are thereby challenged and deconstructed. A comprehensive interrogation of varied sources reveals early and multiple competing definitions of a word that in combination with the phrase fi sabil Allah translates literally to striving in the path of God. Contemporary radical Islamists have appropriated this language to exhort their cadres to armed political opposition, which they legitimize under the rubric of jihad. Afsaruddin shows that the multivalent connotations of jihad and shahid recovered from the formative period lead us to question the assertions of those who maintain that belligerent and militant interpretations preserve the earliest and only authentic understanding of these two key terms. Retrieval of these multiple perspectives has important implications for our world today in which the concepts of jihad and martyrdom are still being fiercely debated.

With a collection of more than 45,000 free e-books, Project Gutenberg is a volunteer effort to create and share e-books online. No registration or fee is required, and books are available in ePub, Kindle, HTML, and

simple text formats. eBooks Habit promises to feed your free eBooks addiction with multiple posts every day that summarizes the free kindle books available. The free Kindle book listings include a full description of the book as well as a photo of the cover. The store is easily accessible via any web browser or Android device, but you'll need to create a Google Play account and register a credit card before you can download anything. Your card won't be charged, but you might find it off-putting. You can literally eat, drink and sleep with eBooks if you visit the Project Gutenberg website. This site features a massive library hosting over 50,000 free eBooks in ePu, HTML, Kindle and other simple text formats. What's interesting is that this site is built to facilitate creation and sharing of e-books online for free, so there is no registration required and no fees. You can search Google Books for any book or topic. In this case, let's go with "Alice in Wonderland" since it's a well-known book, and there's probably a free eBook or two for this title. The original work is in the public domain, so most of the variations are just with formatting and the number of illustrations included in the work. However, you might also run into several copies for sale, as reformatting the print copy into an eBook still took some work. Some of your search results may also be related works with the same title. Another site that isn't strictly for free books, Slideshare does offer a large amount of free content for you to read. It is an online forum where anyone can upload a digital presentation on any subject. Millions of people utilize SlideShare for research, sharing ideas, and learning about new technologies. SlideShare supports documents and PDF files, and all these are available for free download (after free registration). The Online Books Page features a vast range of books with a listing of over 30,000 eBooks available to download for free. The website is extremely easy to understand and navigate with 5 major categories and the relevant sub-categories. To download books you can search by new listings, authors, titles, subjects or serials. On the other hand, you can also browse through news, features, archives & indexes and the inside story for information. Project Gutenberg is one of the largest sources for free books on the web, with over 30,000 downloadable free books available in a wide variety of formats. Project Gutenberg is the oldest (and quite possibly the largest) library on the web, with literally hundreds of thousands free books available for download. The vast majority of books at Project Gutenberg are released in English, but there are other languages available. Wikisource: Online library of user-submitted and maintained content. While you won't technically find free books on this site, at the time of this writing, over 200,000 pieces of content are available to read.
