Criminal Justice in Action Larry K. Gaines, Roger LeRoy Miller, Michael Kaune. 2002-04-26 In its second edition, this innovative text continues to focus on professor and student needs. Gaines and Miller have written a book that provides everything the introductory level student needs to know using a framework of up-to-the-minute examples of policy and applications from today's news. This applied approach is visible in the coverage of contemporary topics, such as Cyber Crime, an increased focus on careers, as well as the complete integration of technology into the text. With a new Student Guide, students have a full menu of the tools necessary to enrich their learning experiences and maximize their study time.

National Will to Fight

McNerney, Connable, Zimmerman, Lander, Posard, Castillo, Madden, Blum, Frank, Fernandes, Seol, Paul, Parasiliti. 2018-09-07 In this report, RAND researchers explore the factors, contexts, and mechanisms that shape a national government's decision to continue or end military and other operations during a conflict (i.e., national will to fight). To help U.S. leaders better understand and influence will to fight, the researchers propose an exploratory model of 15 variables that can be tailored and applied to a wide set of conflict scenarios.

Big Data in Organizations and the Role of Human Resource Management Tobias M.

Scholz. 2017 Big data are changing the way we work. This book conveys a theoretical understanding of big data and the related interactions on a socio-technological level as well as on the organizational level. Big data challenge the human resource department to take a new role. An organization's new competitive advantage is its employees augmented by big data.

The Other End of the Leash Patricia McConnell, Ph.D.. 2009-02-19 Learn to communicate with your dog—using their language “Good reading for dog lovers and an immensely useful manual for dog owners.”—The Washington Post An Applied Animal Behaviorist and dog trainer with more than twenty years' experience, Dr. Patricia McConnell reveals a revolutionary new perspective on our relationship with dogs—sharing insights on how “man's best friend” might interpret our behavior, as well as essential advice on how to interact with our four-legged friends in ways that bring out the best in them. After all, humans and dogs are two entirely different species, each shaped by its individual evolutionary heritage. Quite simply, humans are primates and dogs are canids (as are wolves, coyotes, and foxes). Since we each speak a different native tongue, a lot gets lost in the translation. This marvelous guide demonstrates how even the slightest changes in our voices and in the ways we stand can help dogs understand what we want. Inside you will discover: • How you can get your dog to come when called by acting less like a primate and more like a dog • Why the advice to “get dominance” over your dog can cause problems • Why “rough and tumble primate play” can lead to trouble—and how to play with your dog in ways that are fun and keep him out of mischief • How dogs and humans share personality types—and why most dogs want to live with benevolent leaders rather than “alpha wanna-bes!” Fascinating, insightful, and compelling, *The Other End of the Leash* is a book that strives to help you connect with your dog in a completely new way—so as to enrich that most rewarding of relationships.

World Development Report 2011 World Bank. 2011-05-01 The 2011 WDR on Conflict, Security and Development underlines the devastating impact of persistent conflict on a country or region's development prospects - noting that the 1.5 billion people living in conflict-affected areas are twice as likely to be in poverty. Its goal is to contribute concrete, practical suggestions on conflict and fragility.

World Social Report 2020 Department of Economic and Social Affairs. 2020-02-14 This report

examines the links between inequality and other major global trends (or megatrends), with a focus on technological change, climate change, urbanization and international migration. The analysis pays particular attention to poverty and labour market trends, as they mediate the distributional impacts of the major trends selected. It also provides policy recommendations to manage these megatrends in an equitable manner and considers the policy implications, so as to reduce inequalities and support their implementation.

Playing It My Way Sachin Tendulkar.2016-01-12 'I don't think anyone, apart from Don Bradman, is in the same class as Sachin Tendulkar.' -Shane Warne This is cricket icon, Sachin Tendulkar's life story in his own words - his journey from a small boy with dreams to becoming a cricket god. His amazing story has now been turned into a major film, A Billion Dreams, in which he stars. The greatest run-scorer in the history of cricket, Sachin Tendulkar retired in 2013 after an astonishing 24 years at the top. The most celebrated Indian cricketer of all time, he received the Bharat Ratna Award - India's highest civilian honour - on the day of his retirement. Now Sachin Tendulkar tells his own remarkable story - from his first Test cap at the age of 16 to his 100th international century and the emotional final farewell that brought his country to a standstill. When a boisterous Mumbai youngster's excess energies were channelled into cricket, the result was record-breaking schoolboy batting exploits that launched the career of a cricketing phenomenon. Before long Sachin Tendulkar was the cornerstone of India's batting line-up, his every move watched by a cricket-mad nation's devoted followers. Never has a cricketer been burdened with so many expectations; never has a cricketer performed at such a high level for so long and with such style - scoring more runs and making more centuries than any other player, in both Tests and one-day games. And perhaps only one cricketer could have brought together a shocked nation by defiantly scoring a Test century shortly after terrorist attacks rocked Mumbai. His many achievements with India include winning the World Cup and topping the world Test rankings. Yet he has also known his fair share of frustration and failure - from injuries and early World Cup exits to stinging criticism from the press, especially during his unhappy tenure as captain. Despite his celebrity status, Sachin Tendulkar has always remained a very private man, devoted to his family and his country. Now, for the first time, he provides a fascinating insight into his personal life and gives a frank and revealing account of a sporting life like no other.

The Inverting Pyramid Anita M. Schwarz,Omar S. Arias,Asta Zviniene,Heinz P. Rudolph,Sebastian Eckardt,Johannes Koettl,Herwig Immervoll,Miglena Abels.2014-02-21 Europe's pension systems -among the most celebrated features of its social welfare model— face tremendous challenges. With only 11 percent of the world's population, Europe spends about 60 percent of global outlays on social protection, largely in pensions. In many countries, pension rules have encouraged people to retire sooner, while enjoying longer lives. Payroll taxes on a continuously expanding contributory base have financed these benefits. This model of pension provision is now being severely tested as pension systems reach maturity, while the population is aging and the labor force is starting to shrink. Measures to enable a continued tradition of providing old age security will include • raising retirement ages such that pensions are provided in the last 15 years of life, when work capacity traditionally diminishes • encouraging immigration to help fill the declining work force • rationalizing pension spending, putting priority on preventing old age poverty, and • encouraging savings to help provide the more comfortable retirement that individuals have come to expect. Some measures may be more appropriate in particular countries than others, yet undertaking all of them

will likely require less drastic changes in any one of them. The specific choices will need to be discussed and agreed among each country's own population, and be accompanied by enabling changes in pension policy, tax policy, financial markets policy, and labor policy. The fundamental issue is that, with these changes, the important achievements of European social policy can withstand the demographic onslaught and continue to provide old age security for generations to come.

Nothing About Us Without Us James I. Charlton. 1998-03-27 James Charlton has produced a ringing indictment of disability oppression, which, he says, is rooted in degradation, dependency, and powerlessness and is experienced in some form by five hundred million persons throughout the world who have physical, sensory, cognitive, or developmental disabilities. *Nothing About Us Without Us* is the first book in the literature on disability to provide a theoretical overview of disability oppression that shows its similarities to, and differences from, racism, sexism, and colonialism. Charlton's analysis is illuminated by interviews he conducted over a ten-year period with disability rights activists throughout the Third World, Europe, and the United States. Charlton finds an antidote for dependency and powerlessness in the resistance to disability oppression that is emerging worldwide. His interviews contain striking stories of self-reliance and empowerment evoking the new consciousness of disability rights activists. As a latecomer among the world's liberation movements, the disability rights movement will gain visibility and momentum from Charlton's elucidation of its history and its political philosophy of self-determination, which is captured in the title of his book. *Nothing About Us Without Us* expresses the conviction of people with disabilities that they know what is best for them. Charlton's combination of personal involvement and theoretical awareness assures greater understanding of the disability rights movement.

Strategic Latency Unleashed Zachary Davis, Frank Gac, Philip Reiner, Christopher Rager, Jennifer Snow. 2021-01-30 The world is being transformed physically and politically. Technology is the handmaiden of much of this change. But since the current sweep of global change is transforming the face of warfare, Special Operations Forces (SOF) must adapt to these circumstances. Fortunately, adaptation is in the SOF DNA. This book examines the changes affecting SOF and offers possible solutions to the complexities that are challenging many long-held assumptions. The chapters explore what has changed, what stays the same, and what it all means for U.S. SOF. The authors are a mix of leading experts in technology, business, policy, intelligence, and geopolitics, partnered with experienced special operators who either cowrote the chapters or reviewed them to ensure accuracy and relevance for SOF. Our goal is to provide insights into the changes around us and generate ideas about how SOF can adapt and succeed in the emerging operational environment.

A Dictionary of Cebuano Visayan John Wolff. 2016-01-27 This is a dictionary of Cebuano Visayan, the language of the central part of the Philippines and much of Mindanao. Although the explanations are

given in English, the aim of this work is not to provide English equivalents but to explain Cebuano forms in terms of themselves. It is meant as a reference work for Cebuano speakers and as a tool for students of the Cebuano language. There is a total of some 25,000 entries and an addenda of 700 forms which were prepared after the dictionary had been composed. This dictionary is the product of eleven years work by more than a hundred persons. The work was edited by John Wolff but the sources are entirely native, and all illustrations are composed by native speakers. To date, this work probably represents the most authoritative dictionary of the Cebuano Visayan language.

Firm Competitive Advantage Through Relationship Management Bartosz Deszczyński.2021-03-25 Relationship management (RM) is an essential part of business, but its success as a business model can be hard to measure, with some firms embracing a model that is truly relationship-orientated, while others claim to be relationship-orientated but in fact prefer transactional short-term gain. This open access book aims to develop a mid-range theory of relationship management, examining truly relationship-orientated firms to discover not only what qualities these firms have that make them successful at the RM model, but also what benefits this model has for the firm. It addresses questions like how RM-mature companies achieve and sustain competitive advantage, and what determines the scale and scope of these firms, illustrating with case studies. This book will be of interest to scholars studying leadership and strategy, especially those interested in relationship management, business ethics and corporate social responsibility. It will also be of interest to professionals looking to develop their understanding of relationship management.

Easy Language - Plain Language - Easy Language Plus Christiane Maaß.2020-09-11 This book shows how accessible communication, and especially easy-to-understand languages, should be designed in order to become instruments of inclusion. It examines two well-established easy-to-understand varieties: Easy Language and Plain Language, and shows that they have complementary profiles with respect to four central qualities: comprehensibility, perceptibility, acceptability and stigmatisation potential. The book introduces Easy and Plain Language and provides an outline of their linguistic, sociological and legal profiles: What is the current legal framework of Easy and Plain Language? What do the texts look like? Who are the users? Which other groups are involved in the production and use of Easy and Plain Language offers? Which qualities are a hazard to acceptability and, thus, enhance their stigmatisation potential? The book also proposes another easy-to-understand variety: Easy Language Plus. This variety balances the four qualities and is modelled in the present book.

Tactical Biopolitics Beatriz Da Costa, Kavita Philip.2010-08-13 Scientists, scholars, and artists consider the political significance of recent advances in the biological sciences. Popular culture in this “biological century” seems to feed on proliferating fears, anxieties, and hopes around the life sciences at a time when such basic concepts as scientific truth, race and gender identity, and the human itself are destabilized in the public eye. Tactical Biopolitics suggests that the political challenges at the intersection of life, science, and art are best addressed through a combination of artistic intervention, critical theorizing, and reflective practices. Transcending disciplinary boundaries, contributions to this volume focus on the political significance of recent advances in the biological sciences and explore the possibility of public participation in scientific discourse, drawing on research and practice in art, biology, critical theory, anthropology, and cultural studies. After framing the subject in terms of both biology and art, Tactical Biopolitics discusses such topics as race and genetics (with contributions from leading biologists Richard Lewontin and Richard Levins); feminist bioscience; the politics of scientific expertise; bioart and the public sphere (with an essay by artist Claire Pentecost); activism and public health (with an essay by Treatment Action Group co-founder Mark Harrington); biosecurity after 9/11 (with essays by artists' collective Critical Art Ensemble and anthropologist Paul Rabinow); and human-animal interaction (with a framing essay by cultural theorist Donna Haraway). Contributors Gaymon Bennett, Larry Carbone, Karen Cardozo, Gary Cass, Beatriz da Costa, Oron Catts, Gabriella Coleman, Critical Art Ensemble, Gwen D'Arcangelis, Troy Duster, Donna Haraway, Mark Harrington, Jens Hauser, Kathy High, Fatimah Jackson, Gwyneth Jones, Jonathan King, Richard Levins, Richard Lewontin, Rachel Mayeri, Sherie McDonald, Claire Pentecost, Kavita Philip, Paul Rabinow, Banu Subramanian, subRosa, Abha Sur, Samir Sur, Jacqueline Stevens, Eugene Thacker, Paul Vanouse, Ionat Zurr

The Cave José Saramago.2003-10-15 An unassuming family struggles to keep up with the ruthless pace of progress in "a genuinely brilliant novel" from a Nobel Prize winner (Chicago Tribune). A Los Angeles Times Best Book of the Year and a New York Times Notable Book Cipriano Algor, an elderly potter, lives with his daughter Marta and her husband Marçal in a small village on the outskirts of The Center, an imposing complex of shops, apartments, and offices. Marçal works there as a security guard, and Cipriano drives him to work each day before delivering his own humble pots and jugs. On one such trip, he is told not to make any more deliveries. People prefer plastic, apparently. Unwilling to give up his craft, Cipriano tries his hand at making ceramic dolls. Astonishingly, The Center places an order for hundreds, and Cipriano and Marta set to work—until the order is cancelled and the penniless trio must move from the village into The Center. When mysterious sounds of digging emerge from beneath their new apartment, Cipriano and Marçal investigate; what they find transforms the family's life, in a novel that is both "irrepressibly funny" (The Christian Science Monitor) and a "triumph" (The Washington Post Book World). "The struggle of the individual against bureaucracy and anonymity is one of the great subjects of modern literature, and Saramago is often matched with Kafka as one of its premier exponents. Apt as the comparison is, it doesn't convey the

warmth and rueful human dimension of novels like *Blindness* and *All the Names*. Those qualities are particularly evident in his latest brilliant, dark allegory, which links the encroaching sterility of modern life to the parable of Plato's cave . . . [a] remarkably generous and eloquent novel."
 —Publishers Weekly Translated from the Portuguese by Margaret Jull Costa
