The Corruption of Play Christopher McMahon.2022-10-13 The Corruption of Play explores how neoliberal ideology corrupts play in AAA videogames by creating conditions in which play becomes unbound from leisure, allowing play to be understood, undertaken, and assessed in economic terms, and fundamentally undermining the nature of play.

Social Identity and Literary Form in the Victorian Novel Jill Franks.2022-07-29 Enormous social changes during the Victorian era inspired some of the finest novels in the English language. In the final decades of the century, rigid application of gender rules and class hierarchies began to relax. Consciousness of the injustice of class- and gender-based discrimination was growing. Meanwhile, bias against nonwhite peoples was worsening. The British used scientific racism to justify their relentless expansion in Africa and Asia. Viewing Victorian literature through the lens of these social changes gives the modern reader a fresh way to interpret the novels and to appreciate their relevance to contemporary issues. Nineteenth-century novelists deployed realism, satire, and the bildungsroman to resist or support leading ideologies of their time, including the separate spheres doctrine and British supremacism. Each chapter is an elaboration of the author's university lectures about Victorian classics. The tone is scholarly yet conversational, directed to the undergraduate student as well as the general reader or Victoriophile. The text presents concepts in interdisciplinary cultural studies, discusses the uses of genre for rhetorical and social purposes, and exposes paradoxes of the era. The coherent style, abundant examples, discussion questions, and literary glossary make this book a valuable supplement for readers of the Victorian novel.

Minor Universality / Universalité Mineure Markus Messling,Jonas Tinius.2023-08-21 The circulation and entanglements of human beings, data, and goods have not necessarily and by themselves generated a universalising consciousness. The global and the universal, in other words, are not the same. The idea of a world-society remains highly contested. Our times are marked by the fragmentation of a double relativistic character: the inevitable critique of Western universalism on the one hand, and resurgent identitarian and neo-nationalistic claims to identity on the other. Sources of an argumentation for a strong universalism brought forward by Western traditions such as Christianity, Marxism, and Liberalism have largely lost their legitimation. All the while, manifold and situated narratives of a common world that re-address the universal are under way of being produced and gain significance. This volume tracks the development and relevance of such cultural and social practices that posit forms of what we call minor universality. It asks: Where and how do contemporary practices open up concrete settings so as to create experiences, reflections and agencies of a shared humanity? With contributions by Isaac Bazié, Anil Bhatti, Jean-Luc Chappey, Elsie Cohen, Leyla Dakhli, Souleymane Bachir Diagne, Nicole Fischer, Albert Gouaffo, Stefan Helgesson, Fatma Hotait, Tammy Lai-Ming Ho, Christopher M. Hutton, Ananya Jahanara Kabir, Mario Laarmann, Rukmini Bhaya Nair, Olivier Remaud, Gisèle Sapiro, Bénédicte Savoy, Maria-Anna Schiffrers, Laurens Schlicht, Sergio Ugalde, Hélène Thierard, Khadija von Zinnenburg Carroll.

Towards the Dignity of Difference? Mojtaba Mahdavi.2016-02-24 The rise of popular social movements throughout the Middle East, North Africa, Europe and North America in 2011 challenged two hegemonic discourses of the post-Cold War era: Francis Fukuyama's 'The End of History' and Samuel Huntington's 'The Clash of Civilizations.' The quest for genuine democracy and social justice and the backlash against the neoliberal order is a common theme in the global mass protests in the West and the East. This is no less than a discursive paradigm shift, a new beginning to the history, a move towards new alternatives to the status quo. This book is about difference and dialogue; it embraces The Dignity of Difference and promotes dialogue. However, it also demonstrates the limits of dialogue as a useful and universal approach for resolving conflicts, particularly in cases involving asymmetric and unequal power relations. The distinguished group of authors suggests in this volume that there is a 'third way' of addressing global tensions - one that rejects the extremes of both universalism and particularism. This third way is a radical call for an epistemic shift in our understanding of 'us-other' and 'good-evil', a radical approach toward accommodating difference as well as embracing the plural concept of 'the good'. The authors strengthen their alternative approach with a practical policy guide, by challenging existing policies that either exclude or assimilate other cultures, that wage the constructed 'global war on terror,' and that impose a western neo-liberal discourse on non-western societies. This important book will be essential reading for all those studying civilizations, globalization, foreign policy, peace and security studies, multiculturalism and ethnicity, regionalism, global governance and international political economy.

Shakespeare and Violence R. A. Foakes.2003 Shakespeare and Violence, first published in 2002, connects to anxieties about the problem of violence, and shows how similar concerns are central in Shakespeare's plays. At first Shakespeare exploited spectacular violence for its entertainment value, but his later plays probe more deeply into the human propensity for gratuitous violence, especially in relation to kingship,

government and war. In these plays and in his major tragedies he also explores the construction of masculinity in relation to power over others, to the value of heroism, and to self-control. Shakespeare's last plays present a world in which human violence appears analogous to violence in the natural world, and both kinds of violence are shown as aspects of a world subject to chance and accident. This book examines the development of Shakespeare's representations of violence and explains their importance in shaping his career as a dramatist.

The Scramble for the Amazon and the Lost Paradise of Euclides da Cunha Susanna B. Hecht.2013-05-14 A "compelling and elegantly written" history of the fight for the Amazon basin and the work of a brilliant but overlooked Brazilian intellectual (Times Literary Supplement, UK). The fortunes of the late nineteenth century's imperial powers depended on a single raw material—rubber—with only one source: the Amazon basin. This scenario ignited a decades-long conflict that found Britain, France, Belgium, and the United States fighting with and against the new nations of Peru, Bolivia, and Brazil for the forest's riches. In the midst of this struggle, the Brazilian author and geographer Euclides da Cunha led a survey expedition to the farthest reaches of the river. The Scramble for the Amazon tells the story of da Cunha's terrifying journey, the unfinished novel born from it, and the global strife that formed the backdrop for both. Haunted by his broken marriage, da Cunha trekked through a beautiful region thrown into chaos by guerrilla warfare, starving migrants, and native slavery. All the while, he worked on his masterpiece, a nationalist synthesis of geography, philosophy, biology, and journalism entitled *Lost Paradise*. Hoping to unveil the Amazon's explorers, spies, natives, and brutal geopolitics, Da Cunha was killed by his wife's lover before he could complete his epic work. once the biography of Da Cunha, a translation of his unfinished work, and a chronicle of the social, political, and environmental history of the Amazon, *The Scramble for the Amazon* is a work of thrilling intellectual ambition.

Bridges between Cultures Tomasz Kalaga.2018-10-30 Centred on the metaphor of bridges and knots, this volume investigates the dialogic and dialectical relationships between socially dissimilar and topographically distant cultures. The contributions here explore various methodological frameworks for discourses and theories that purport to conceptualize cultural spaces, which - as opposed to objective, geographical areas - are characterized by the propensity to bind topographical distances by means of symbolic ties and perimeters. The chapters address possible juxtapositions and intersections of spatial and temporal dimensions of cultural practice, religious and ethical "ties and knots" between lands and cultures, disconnections between historical, literary and cultural epochs, discourses of cultural entanglement and cultural ensnarement on individual and social levels, and the possibilities of raising aesthetic bridges between various cultures in music, poetry and visual arts, among other topics.

Chance Joseph Conrad.1992-06-25 'It is a mighty force that of mere chance, absolutely irresistible yet manifesting itself often in delicate forms such for instance as the charm, true or illusory, of a human being' In *Flora de Barral*, the slender, dreamy, morbidly charming daughter of a parvenu financier, Conrad creates his most complex heroine and one of his most unrelenting, but not unhopeful, novels of emotional isolation. Neglected by her bankrupt father and rejected by her governess, drifting into abstraction and despair, Flora takes refuge at sea on Captain Anthony's ship, where tragedy and her transformation begin. When published in 1913, *Chance* was an immediate success. Arnold Bennett wrote that 'this is a discouraging book for a writer because he damn well knows he can't write as well as this'; while an anonymous reviewer in *Punch* declared that 'the whole thing is much nearer wizardry than workmanship'.

Her husband is the best car salesman in rural south eastern Australia. Together with Willie, their lanky navigator, they embark upon the Redex Trial, a brutal race around the continent, over roads no car will ever quite survive.A Long Way from Home is Peter Carey's late style masterpiece; a thrilling high speed story that starts in one way, then takes you to another place altogether. Set in the 1950s in the embers of the British Empire, painting a picture of Queen and subject, black, white and those in-between, this brilliantly vivid novel illustrates how the possession of an ancient culture spirals through history - and the love made and hurt caused along the way.

Fantasy and Myth in the Anthropocene Marek Oziewicz,Brian Attebery,Tereza Dedinová.2022-02-24 The first study to look at the intersection of the discourse of the Anthropocene within the two highly influential storytelling modes of fantasy and myth, this book shows the need for stories that articulate visions of a biocentric, ecological civilization. Fantasy and myth have long been humanity's most advanced technologies for collective dreaming. Today they are helping us adopt a biocentric lens, re-kin us with other forms of life, and assist us in the transition to an ecological civilization. Deliberately moving away from dystopian narratives toward anticipatory imaginations of sustainable futures, this volume blends chapters by top scholars in the fields of fantasy, myth, and Young Adult literature with personal reflections by award-winning authors and illustrators of books for young audiences, including Shaun Tan, Jane Yolen, Katherine Applegate and Joseph Bruchac. Chapters cover the works of major fantasy authors such as J. R. R. Tolkien, Terry Prachett, J. K. Rowling, China Miéville, Barbara Henderson, Jeanette Winterson, John Crowley, Richard Powers, George R. R. Martin and Kim Stanley Robinson. They range through narratives set in the UK, USA, Nigeria, Ghana, Pacific Islands, New Zealand and Australia. Across the chapters, fantasy and myth are framed as spaces where visions of sustainable futures can be designed with most detail and nuance. Rather than merely criticizing the ecocidal status quo, the book asks how mythic narratives and fantastic stories can mobilize resistance around ideas necessary for the emergence of an ecological civilization.

Conrad on Film Gene M. Moore.1997-11-27 This book offers the first comprehensive, international survey of more than eighty films and videos based on the life and work of Joseph Conrad. Essays by leading film and literary scholars examine the films, both in the context of film history and technology, and in terms of the theoretical and practical problems facing directors - including Alfred Hitchcock, Orson Welles, Francis Ford Coppola and Andrzej Wajda - who have attempted to put Conrad on film. Conrad was the first major English author to adapt his work for the screen, and the story of his unpublished 'film-play' is told in an important chapter. The challenges of finding visual analogues for Conrad's narrative irony and filmic equivalents for his narrators are also examined. The volume is well illustrated and includes a detailed filmography and film bibliography, making it a landmark study of Conrad films and film adaptations in general.

Plants in Science Fiction Katherine E. Bishop,David Higgins,Jerry Määttä.2020-05-01 Plants have played key roles in science fiction novels, graphic novels and film. John Wyndham's triffids, Algernon Blackwood's willows and Han Kang's sprouting woman are just a few examples. Plants surround us, sustain us, pique our imaginations and inhabit our metaphors - but in many ways they remain opaque. The scope of their alienation is as broad as their biodiversity. And yet, literary reflections of plant-life are driven, as are many threads of science fictional inquiry, by the concerns of today. Plants in Science Fiction is the first-ever collected volume on plants in science fiction, and its original essays argue that plant-life in SF is transforming our attitudes toward morality, politics, economics and cultural life at large - questioning and shifting our understandings of institutions, nations, borders and boundaries; erecting and dismantling new visions of utopian and dystopian futures.

The Dawn Watch Maya Jasanoff.2017 An exploration of the life and times of Joseph Conrad [and] his turbulent age of globalization--and our own--Provided by publisher.

Heart of Darkness Joseph Conrad.2023-11-21 Heart of Darkness is often considered the world's best short novel. The book serves as a bridge between the 19th century and modernism, an adventure tale revolving around the ambiguity of themes such as truth, morality, and evil. Joseph Conrad witnessed the European exploitation of the Congo with his own eyes. He once sailed up the Congo River himself to locate a countryman at a trading station deep within the country - even though this man wasn't named Kurtz. The goal and enigma of the journey have become synonymous with this name, one of the most unforgettable fictional characters of our time. JOSEPH CONRAD [1857-1924] was born in Ukraine to Polish parents, went to sea at the age of seventeen, and ended his career as a captain in the English merchant navy. His most famous work is the novella Heart of Darkness [1899], adapted into a film by Francis Ford Coppola in 1979 as Apocalypse Now.

Re-reading Pío Baroja and English Literature Katharine Murphy.2004 This volume investigates a broad range of structural connections between Pío Baroja's early fiction and the novels of his contemporaries in England and Ireland, with prominence given to Joseph Conrad, Thomas Hardy, E. M. Forster and James Joyce. Starting from the premise that Spain has been neglected in studies which assess the evolution of the European novel at the turn of the twentieth century, and challenging the insular concept of the 'Generation of 1898', the author reassesses the relationship between Baroja and English literature. Particular emphasis is given to renderings of consciousness, the role and identity of the artist, European landscapes, and questions of form, genre and representation in the novels under scrutiny. The book produces new readings of Baroja in the context of early twentieth-century English fiction.

Subversive Semantics in Political and Cultural Discourse Gesa Mackenthun,Jörn Dosch.2023-09-30 The large-scale use of semantic transfer and inversion as rhetorical tactics is particularly prevalent in right-wing discourses and populist »alternative knowledge« production. The contributors to this volume analyze processes of re-semanticizing received meanings, effectually re-coding those meanings. They investigate to what extent rhetorical maneuvers serve to establish new and powerful belief systems beyond rational and democratic control. In addition to the contemporary rightwing and conspiracy narratives, the contributions examine the discursive fields around conceptions of human nature and the deep past, population politics, gender conceptions, use of land, identity politics, nationhood, and cultural heritage.

The Bloomsbury Handbook of Postcolonial Print Cultures Toral Jatin Gajarawala,Neelam Srivastava,Rajeswari Sunder Rajan,Jack Webb.2023-08-10 The texts that make up postcolonial print cultures are often found outside the archival catalogue, and in lesser-examined repositories such as personal collections, the streets, or appendages to established collections. This volume examines the published and unpublished writing, magazines, pamphlets, paratexts, advertisements, cartoons, radio, and street art that serve as the intellectual forces behind opposition to colonial orders, as meditations on the futures of embryonic nation states, and as visions of new forms of equality. The print cultures examined here are necessarily anti-institutional; they serve as a counterpoint to the colonial archive and, relatedly, to more traditional genres and text formats coming

out of large-scale publishers. This means that much of the primary material analyzed in this book has not been scrutinized before. Many of these print productions articulate collective liberation projects with origins in the grassroots. They include debates around the shape of the postcolonial nation and the new state formation that necessarily draw on a diverse and contentious public sphere of opinion. Their rhetoric ranges from the reformist to the revolutionary. Reflecting the diversity, indeed the disorderliness, of postcolonial print cultures this book covers local, national, and transnational cultures from Asia, Africa, Europe and the Americas. Its wide-ranging essays offer a nuanced and, taken together, a definitive (though that is not to say comprehensive or systematic) study of a global phenomenon: postcolonial print cultures as a distinct literary field. The chapters recover the efforts of writers, readers and publishers to produce a postcolonialism 'from below', and thereby offer a range of fresh perspectives on the meaning and history of postcolonialism.

Heart of Darkness Joseph Conrad.2012-08-28 In a novella which remains highly controversial to this day, Conrad explores the relations between Africa and Europe. On the surface, this is a horrifying tale of colonial exploitation. The narrator, Marlowe journeys on business deep into the heart of Africa. But there he encounters Kurtz, an idealist apparently crazed and depraved by his power over the natives, and the meeting prompts Marlowe to reflect on the darkness at the heart of all men. This short but complex and often ambiguous story, which has been the basis of several films and plays, continues to provoke interpretation and discussion. Heart of Darkness grew out of a journey Joseph Conrad took up the Congo River; the verisimilitude that the great novelist thereby brought to his most famous tale everywhere enhances its dense and shattering power. Apparently a sailor's yarn, it is in fact a grim parody of the adventure story, in which the narrator, Marlow, travels deep into the heart of the Congo where he encounters the crazed idealist Kurtz and discovers that the relative values of the civilized and the primitive are not what they seem. Heart of Darkness is a model of economic storytelling, an indictment of the inner and outer turmoil caused by the European imperial misadventure, and a piercing account of the fragility of the human soul.

Heart of Darkness Annotated Joseph Conrad.2021-02 Heart of Darkness (1899) is a novella by Polish-English novelist Joseph Conrad about a narrated voyage up the Congo River into the Congo Free State in the Heart of Africa. Charles Marlow, the narrator, tells his story to friends aboard a boat anchored on the River Thames. This setting provides the frame for Marlow's story of his obsession with the successful ivory trader Kurtz. Conrad offers parallels between London (the greatest town on earth) and Africa as places of darkness. Central to Conrad's work is the idea that there is little difference between civilised people and those described as savages. Heart of Darkness implicitly comments on imperialism and racism. Originally issued as a three-part serial story in Blackwood's Magazine to celebrate the thousandth edition of the magazine, Heart of Darkness has been widely re-published and translated into many languages. It provided the inspiration for Francis Ford Coppola's 1979 film Apocalypse Now. In 1998, the Modern Library ranked Heart of Darkness 67th on their list of the 100 best novels in English of the twentieth century

The Secret Sharer Joseph Conrad, Peter Fudakowski.2014-05-12 Atlantic. All its phases were familiar enough to me, every characteristic, all the alternatives which were likely to face me on the high seas-everything! except the novel responsibility of command. But I took heart from the reasonable thought that the ship was like other ships, the men like other men, and that the sea was not likely to keep any special surprises expressly for my discomfiture. Inspired by Joseph Conrad's short story 'The Secret Sharer', first published in 1910, Peter Fudakowski's 2014 Secret Sharer film is a contemporary fable told with epic beauty, humour and a twist in its tale. Secret Sharer is a romantic and sensuous moral story about a young man's journey into maturity through challenging human relationships on the high seas. Bloomsbury Reader's edition of The Secret Sharer includes Conrad's original text, Peter Fudakowski's screenplay, exclusive images from the film, as well as two invaluable essays by literary critic, Gene M. Moore, which explore the fiction of Joseph Conrad, and its inexhaustible appeal for screen and theater adaptations.

The Play within the Play .2007-01-01 The thirty chapters of this innovative international study are all devoted to the topic of the play within the play. The authors explore the wide range of aesthetic, literary-theoretical and philosophical issues associated with this rhetorical device, not only in terms of its original meta-theatrical setting - from the baroque idea of a theatrum mundi onward to contemporary examples of postmodern self-referential dramaturgy - but also with regard to a variety of different generic applications, e.g. in narrative fiction, musical theatre and film. The authors, internationally recognized specialists in their respective fields, draw on recent debates in such areas as postcolonial studies, game and systems theories, media and performance studies, to analyze the specific qualities and characteristics of the play within the play: as ultimate affirmation of the 'self' (the 'Hamlet paradigm'), as a self-reflective agency of meta-theatrical discourse, and as a vehicle of intermedial and intercultural transformation. The challenging study, with its underlying premise of play as a key feature of cultural anthropology and human creativity, breaks new ground by placing the play within the play at the centre of a number of intersecting scholarly discourses on areas of topical concern to scholars in the humanities.

Origins Jim Baggott.2015-10-08 What is life? Where do we come from and how did we evolve? What is the universe and how was it formed? What is the nature of the material world? How does it work? How and why do we think? What does it mean to be human? How do we know? There are many different versions of our creation story. This book tells the version according to modern science. It is a unique account, starting at the Big Bang and travelling right up to the emergence of humans as conscious intelligent beings, 13.8 billion years later. Chapter by chapter, it sets out the current state of scientific knowledge: the origins of space and time; energy, mass, and light; galaxies, stars, and our sun; the habitable earth, and complex life itself. Drawing together the physical and biological sciences, Baggott recounts what we currently know of our history, highlighting the questions science has yet to answer.
